Acknowledgement

Colombo Metro Region Division has taken the lead to provide the supervision for the preparation of the Maharagama Development Plan 2021 – 2030. The main goal of this plan is to direct the city towards achieving the future vision "Smart attire of Colombo" by ushering the right approach to unleash the desired urban transformation required to drive towards the Ten Year Vision. The vision of the Maharagama Development Plan 2021 – 2030 is in line with the 'Vistas of Prosperity and splendour' the government policy direction of the His Excellency the President Gotabaya Rajapaksa.

It is our proud privilege to Honorable Prasanna Ranathunga subject Minister of Urban Development & Housing for approving the Maharagama Development Plan 2022 – 2031 under the provision of Urban Development Authority Act No. 41 of 1978 as amended by the Act No. 04 of 1982

Special gratitude offered on behalf of the planning team and the UDA, to the Chairman, Maharagama Urban Council, members of the PS and the staff. Secretary Maharagama Divisional Secretariat and the staff for their generous support given for the successful completion of this development plan.

Appreciatively thankful to Chairman of UDA Major General Udaya Nanayakkara (retired), Director General of UDA Plnr. N.P.K. Ranaweera, Additional Director General of UDA Mahinda Withanachchi, Deputy Director General (Planning) Zone II of UDA Plnr. Lalith Wijayarathne, Consultant (Legal) of UDA Attorney at Law C. Jayawardena, Director (Strategic Planning) of UDA Plnr. Priyani Nawarathne on behalf of the planning team for their incomparable courage, guidance and welcoming support.

Also, Director – Environment & Landscape division L.Arct. C.K.E. Kalupahana and the staff of the division and Director - Geographical Information System & ITS Plnr. J.P.S. Somasekara and the staff of the division are gratefully appreciating on behalf of the planning team for their support to the successful completion of this task.

Minister's Forward

Towards the realization of Maharagama City Development

As per the President Gotabaya Rajapaksa's manifesto; 'Vistas of Prosperity & Splendor' "The urban and rural divide has to be bridged by providing services and infrastructure facilities equally across the sectors of living. To this end, we must embark on a de-urbanization strategy".

The Urban Development Authority (UDA) implements and enforces the urban development plans, taking into account the disparities between districts in the same province as well as between towns in the same district due to the unequaled development in the urbanization process in the country.

Accordingly, the Urban Development Authority has already published Urban Development Plans for identified 26 towns and is currently in the process of preparing development plans for another 50 towns within this year. The Maharagama Urban Development Plan is one of those plans. It has been planned to implement 130 Urban Development Plans by the year 2024.

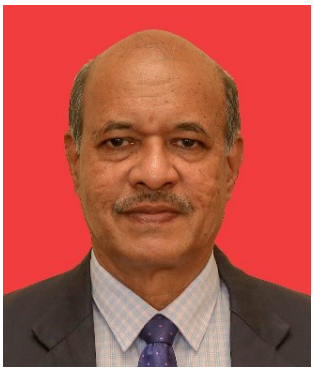

The priority of the Maharagama Urban Development Plan is to provide services to the residents as well as those who visit Maharagama to obtain various services. Further, there is potential for further development as a service center. The plan identifies the natural ecosystem of the area as well as areas of economic value that can be systematically utilized for the benefit of the urban population.

In the process of preparing this plan, the views and suggestions of professionals, experts, stakeholders and the community were taken into account and approaches were developed to develop this plan through modern analytical strategies and technologies.

Accordingly, I commend the Chairman, the Director General, the planning team and all the officers of the Urban Development Authority who assisted in making this work a success in various ways. I further hope that the successful implementation of the Maharagama Development Plan (2022-2031) will be facilitated with the support and contribution of the relevant Local Government Institutions, Public and Private Sector Institutions and the general public.

Prasanna Ranatunga
Minister of Urban Development and Housing

Chairman's Foreword

The Urban Development Authority (UDA) is the apex planning and implementation body in Sri Lanka that is responsible for managing the urban areas of the country. The Authority was established in 1978 with the objective of introducing integrated planning and implementation in order to promote and regulate the developments of the aforementioned areas.

Under the Amendment Act No. 4 of 1982; [Part II Section 8A (1)] the UDA has been mandated to prepare Development Plans for the Urban Development Areas declared by the Minister-in-charge. Accordingly, the Development Plan for Maharagama Urban Council area has been prepared considering physical, economic, social and environmental aspects of the area.

The development plan for the Maharagama Urban Council area has been prepared for the period 2022 – 2031, using modern planning tools and methodologies equipped by UDA. The Maharagama Development Plan has adopted strategic approach to address prevailing issues and enhance the potentials to ensure a progressive growth of the area. Therefore, all stakeholders and public are requested to follow this plan and contribute for realization of its vision in order to fulfil the public interest.

I take this opportunity to extend my sincere gratitude to the planning team of the UDA who have supported and contributed with various means to successfully complete this plan within the given period. And also, I would like to thank all the stakeholders and citizens for their assistance and cooperation extended for successful completion of this task. I hope all of them will continue to extend their fullest support towards successful implementation of the plan.

Major General (Retd) Udaya Nanayakkara
Chairman
URBAN DEVELOPMENT AUTHORITY

Hon Chairman's Foreword

Maharagama Urban Council

The Urban Development Authority is the foremost agency for the formulation and implementation of urban planning in Sri Lanka and promotes and regulates the quality management of the urban environment and the general well-being of its people.

With the declaration of the Maharagama Urban Council area as an Urban Development Area on 1st October, 1979 and the establishment of the Maharagama Urban Council as an Urban Council area from January 2002, it has been playing a significant role in the development process for the well-being of the public while fulfilling responsibility without fail. Due to the expiration of the Development Plan of the Maharagama Urban Council area prepared by the Urban Development Authority for the period 2008 -2020, the need arose to prepare a new Development Plan for the future period.

The role of preparing a Plan in accordance with the powers of the Urban Development Authority Act has been delegated to the Planning Committee of the relevant local government body. Accordingly, I consider it a privilege to be able to prepare these Development Plans in collaboration with the Maharagama Urban Council and the Urban Development Authority.

Accordingly, the Maharagama Development Plan for the period 2022 - 2031 has been prepared by the Colombo Metro Region Division of the Urban Development Authority and the development activities have been brought under a legal framework and the development intensity of the area has been directed in a positive direction. It targets the future residential community as well as the urban community circulating in the area for their daily living needs and aims to add economic and social benefits through existing development potentials. The Urban Development Plan also aims to create an eco-friendly commercial and service economy as well as a wetland - safe city.

Maharagama Urban Council and the public representatives, including myself, look forward to fulfill our responsibilities and duties in the future with the noble objective of maintaining a unique image for the textile industry in Maharagama and making it a comfortable residential city with significant infrastructure in the area.

Tiraj Lakruwan Piyaratne,
Chairman,
Maharagama Urban Council

Preface

At present, the need for a proper development plan has emerged to face the challenges arising from the development of Maharagama city and its suburbs. Accordingly, taking into account the current economic, social and environmental situation in Maharagama city, this plan has been prepared in such a way that the area can have an organized development as a residential city while protecting the existing blue and green environment.

The basis for the preparation of development plan can be identified as the data collection in relation to the years 2011 – 2020 and the data collected from the field surveys carried out. And analysis of collected data by using the scientific methods of analyzing and coming to the conclusions upon them. Accordingly, the new development plan for Maharagama Urban Council area has been prepared for the 2021-2030 period, by utilizing the results and the decisions have been taken at various times in the development planning process and with the practical process and mixing of the same with the practical aspects.

Accordingly, Maharagama Development Plan prepared for the time period of 2022 -2031 consisted with three parts. Part I includes Background of the development plan, Preliminary study & Need of the plan, The Planning Framework, Detail SWOT Analysis & The Plan. The Part II consists of the Planning and Building Regulations and zoning guidelines pertaining to the planning boundary for the period of 2022 – 2031. The Part III consist of the zoning boundaries with the coordinates and all the annexures.

APPROVAL OF THE DEVELOPMENT PLAN FOR THE URBAN COUNCIL LIMIT OF MAHARAGAMA

I, Prasanna Ranathunga, Minister of Urban Development and Housing do hereby approve the Development Plan for the Urban Council limit of Maharagama, after consideration of recommendation made by the Board of Management of the Urban Development Authority on 25th March, 2022 by virtue of the powers vested in me under section 8(F) of the Urban Development Authority (Amendment) Act No. 4 of 1982.

Background of the Plan

Chapter 01
Background of the Development Plan

1.1 Introduction

When preparing the Future Plan for a City, it is important to have a good understanding of all the aspects such as physical, social, economic, environmental and cultural aspects of the city. Development Plan is a legally recognized written document of the physical, economic, social and environmental factors of an area strategically leads towards a sustainable development and how stakeholders in the area, especially its residents, should act in development activities.

In terms of the powers of Section 8 'a' of the Urban Development Authority Act No. 41 of 1978 of the National State Assembly, the role of preparation of a Development Plan for an area declared as an urban development area by the Minister in charge of the relevant subject as per the Section 8 'a' of the Urban Development Authority (Amendment) Act No. 04 of 1982 empowers the Urban Development Authority.

By the Act No. 56/6 of 01st October 1979, the Grama Niladhari Divisions of Malapalla, Kottawa North, Kottawa South, Rukmale and Kalalgoda and Athurugiriya Gam Sabha area in relation to the Hewagam Korale - West Palle Pattu Division in the Colombo District have been declared as Urban Development Authority area. Subsequently, the Maharagama Urban Council was established by the Gazette Notification No. 1218/35 dated 10th January, 2002 of the Democratic Socialist Republic of Sri Lanka and was declared as an Urban Development Area with effect from15.04.2002 and it consists of 41 Grama Niladhari Divisions

The Maharagama area was also included in the Sri Jayawardenapura Administrative Capital Area Plan prepared by the extraordinary Gazette Notification No. 335/5 of 1985 in accordance with the tendency of the City of Colombo to concentrate its administrative activities in the Battaramulla area.

The “Colombo Urban City Zone” identified by the National Physical Plan was published by the Extraordinary Gazette Notification No. 2019/11of 2017 and Structure Plan for such Zone was prepared by the Urban Development Authority. Colombo Capital Development Plan prepared for the entire spatial structure of Western Province in 2015 was also taken into consideration.

Subsequently, in the year 2019, the Urban Development Authority prepared the Capital City Development Plan - 2030 considering the Sri Jayawardenapura Kotte Municipal Council area, Kaduwela Municipal Council area, Maharagama Urban Council area and Kotikawatta- Mulleriyawa Pradeshiya Sabha area as the Planning Area.

Due to the expiration of the validity period of the Development Plan prepared for Maharagama Urban Council area for the period of 2008 – 2020, requirement of preparation of new Development Plan has been arisen.

This Plan is prepared for the Maharagama Urban Council area for the period of 2021 - 2030 introducing New Planning Zones and Regulations while revising the " Capital City Development Plan - 2030 " which has been prepared integrating four administrative areas spanning a wide area of jurisdiction comprising Kaduwela Municipal Council, Kotte Municipal Council, Maharagama Urban Council and Kotikawatta – Mulleriyawa Pradeshiya Sabha with a view to directing the economic, social, environmental and physical components of the area to sustainable development.

1.2 Stakeholders of the Development Plan

When preparation of the Development Plan for Maharagama, assistance was sought from all parties through ideas and proposals on various occasions from its beginning to its end. Accordingly, formulating Strategic Plans and formulating Regulations have been prepared through data collection, identification of problems and potentials, analyzing the data along with consultation discussions, seminars, meetings, telephone conversations and field surveys with responsible and active stakeholders in various fields such as administration, environment, economy, industry, politics and infrastructure, including information, ideas and suggestions.

The Stakeholders are listed as follows.

As the main Stakeholders,

- Maharagama Urban Council
- Divisional Secretariat of Maharagama
- Provincial Council of Western Province

Main Consulting Institutions,

- State Ministry of Urban Development, Waste Disposal and Public Sanitation
- Central Environmental Authority
- Sri Lanka Land Reclamation and Development Corporation
- Road Development Authority
- Road Passenger Transport Authority
- Ceylon Transport Board
- Land Reforms Commission
- Department of Land Use Policy Planning
- Department of Census and Statistics
- Ministry of Science, Technology and Research

- Solid Waste Management Authority of Western Province
- National Institute of Disaster Management
- Office of regional medical officer of health
- Zonal Education Office
- University of Jayewardenepura
- Ministry of Industry and Commerce
- Ceylon Electricity Board
- National Water Supply and Drainage Board
- Irrigation Department
- National Housing Development Authority
- National Building Research Institute

Other Stakeholders

- Trade Unions
- Three Wheeler Associations
- Civil Organisations
- Community based Organisations
- Other Institutions

1.3 Scope of Development Plan

According to the powers of the Urban Development Authority Act, the task of preparing a Development Plan for an area declared as an Urban Development Area by the Minister in charge of the subject is vested in the Urban Development Authority by the Act No. 04 of 1982 of the Urban Development Authority. Also, the powers to prepare the Development Plan have been delegated to the Planning Committee of the relevant Local Authority by the Circular No. 11 dated 07th May, 1990.

When prepare Development Plans, it is expected to move towards a long - term development vision by analyzing the generally available data. The Plan seeks to interconnect with those analyzes of the current government policy, the challenges that the region may face in the future and the potential for development, in terms of economic, physical, social and environmental perspective.

According to the National Physical Structure Plan - 2050 prepared by the National Physical Planning Department, the city of Maharagama is located within the Central Urban Development Area and according to the Western Region Megapolis Plan, city of Maharagama is located within the Residential Zone. Maharagama has been identified as a secondary city in the Colombo Metropolitan Regional Structure Plan. Accordingly, the Maharagama Urban area has taken a very important place in the Colombo district.

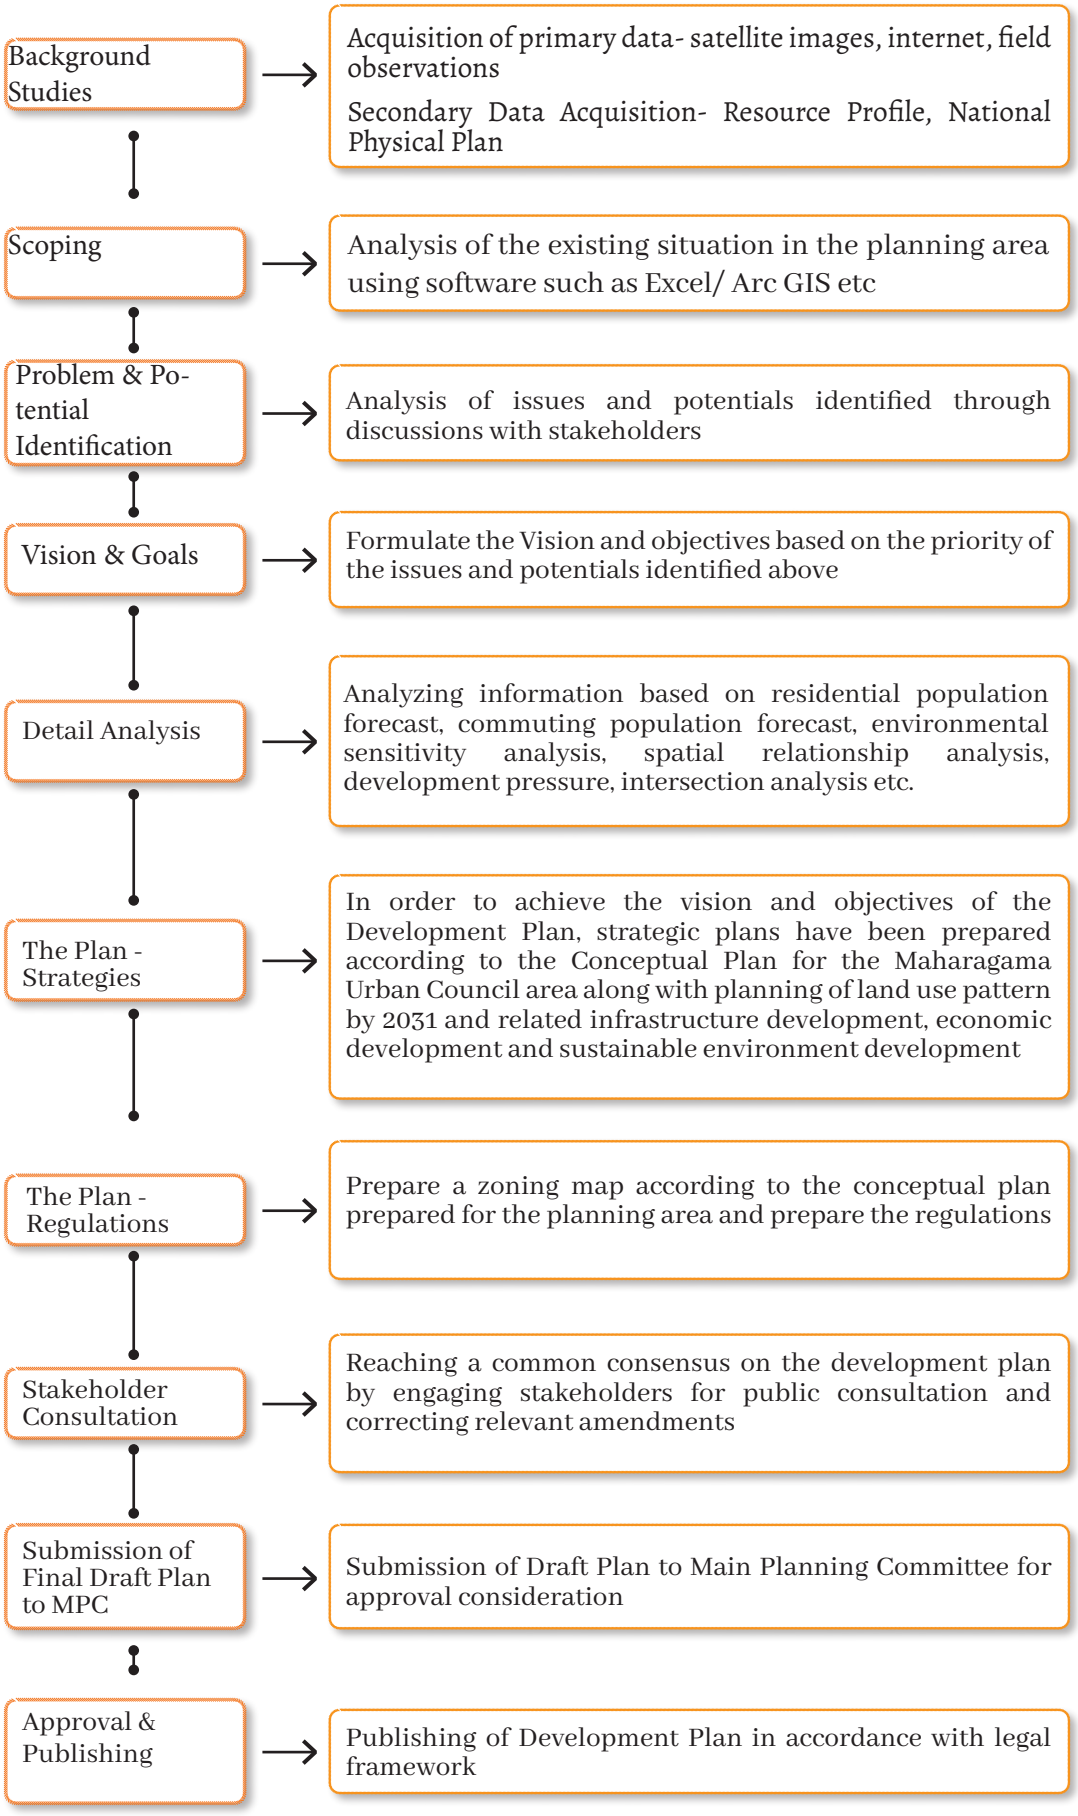

Wetlands in the Colombo Area including Maharagama wetlands have been classified under the Ramsar wetland classification. Maharagama, which is located very close to the City of Colombo as well as consisting of wetlands and high potential for semi urban residential use, the land use of that area is high.

This Plan is prepared for the next ten years from 2022-2030.

1.4 Planning Methodology

The Maharagama Development Plan has been prepared on a strategic planning approach in accordance with the planning procedure laid down in the Urban Development Authority Act No. 4 of 1982 and its Amended Act. Three principles and three opportunities in different scenarios to present the planning process and design process have been presented in the Capital City Development Plan - 2019-2030, and this Plan make use of the methodologies contained in the Capital City Development Plan deviates from the traditional design process and adopting new approach moving through easy and flexible methodologies for the planning in order to achieve the expected results.

After preparation of the Density Zone Plan and Building Regulations, it has been open up to the general public and stakeholders of the Maharagama Urban Council for a period of 60 days to get their opinion. The Draft Plan has been updated according to the comments and suggestions of the general public and the stakeholders, and submitted to the Main Planning Committee of the Urban Development Authority and approval has been obtained.

Background Studies
Acquisition of primary data- satellite images, internet, field observations
Secondary Data Acquisition- Resource Profile, National Physical Plan
Scoping
Analysis of the existing situation in the planning area using software such as Excel/ Arc GIS etc
Problem & Potential Identification
Analysis of issues and potentials identified through discussions with stakeholders
Vision & Goals
Formulate the Vision and objectives based on the priority of the issues and potentials identified above
Detail Analysis
Analyzing information based on residential population forecast, commuting population forecast, environmental sensitivity analysis, spatial relationship analysis, development pressure, intersection analysis etc.
The Plan - Strategies
In order to achieve the vision and objectives of the Development Plan, strategic plans have been prepared according to the Conceptual Plan for the Maharagama Urban Council area along with planning of land use pattern by 2031 and related infrastructure development, economic development and sustainable environment development
The Plan - Regulations
Prepare a zoning map according to the conceptual plan prepared for the planning area and prepare the regulations
Stakeholder Consultation
Reaching a common consensus on the development plan by engaging stakeholders for public consultation and correcting relevant amendments
Submission of Final Draft Plan to MPC
Submission of Draft Plan to Main Planning Committee for approval consideration
Approval & Publishing
Publishing of Development Plan in accordance with legal framework

1.4.1 Background Study

Under this, the primary and secondary data required for the Development Plan were collected. Historical information related to the City of Maharagama, population composition, economy, environmental factors, pre- planning interventions have been obtained from all the Institutions in the area. Basic information was obtained through drone technology, photography and field studies. Also with the support of public and active personal such as officers of the Institutions, essential data and information such as historical evolution, Planning efforts, demographics, housing, environmental, geographical, disaster situation, land use in the city and the value of those lands, economic terms, infrastructure, etc. has been obtained through the following methodologies.

- Data collection and analysis
- Field survey
- Document Review
- Collection of secondary data
- Land use update
- Preparation of base maps and database

1.4.2 Scope

It has been prepared with a focus on various areas such as environmental management, economic, infrastructure, settlement and social development so as to regulate and manage the evolution of the city, geographical background, population and expected overall spatial development.

1.4.3 Problems and Potentials Identification

The requirement of preparation of Development Plan for Maharagama Urban Council area has been identified through the background study in Maharagama Urban Council Area and the understanding gained regarding the current situation in the area. The problems and potentials have been identified through the analysis of data with ideas and suggestions through various workshops and discussions involving stakeholders in various sectors.

1.4.4 Vision and Objectives

Considering problems, potentials and development trends of the area, vision, goals and objectives have been formulated for urban development by integrating economic, physical, environmental and social aspects. Accordingly, the vision expected to be implemented in the planning area has been formulated based on the objectives raised by the detailed analysis of strengths, weaknesses, opportunities and threats (SWOT Analysis).

1.4.5 Detailed Analysis

Analysis of data in detail has been done based on the vision and objectives through SWOT analysis.

1.4.6 The Plan - Strategies

In order to achieve the vision and objectives of the Development Plan, strategic plans have been prepared according to the Conceptual Plan for the Maharagama Urban Council area along with planning of land use pattern by 2031 and related infrastructure development, economic development and sustainable environment development.

1.4.7 Planning Regulations

Preparation of planning and building regulations, rules and regulations in relation to land development and land use, rules and regulations in relation to development of environmentally sensitive areas as well as regulations to avoid any problematic situations that may arise in approaching the development goals has been done.

1.4.8. Stakeholder Consultation

Various programs were conducted to obtain the views, suggestions, objections and amendments from the relevant stakeholders for the Development Plan and the Plan was kept in the Maharagama Urban Council for a period of 60 days for public awareness. The Development Plan was then presented to the professionals of the Urban Development Authority and the final views and suggestions of the officials of the Authority were obtained.

1.4.9 Preparation of Final Report of the Development Plan

The Draft Plan has been presented to the Main Planning Committee of UDA taking into consideration the views and suggestions of Maharagama Urban Council and the stakeholders and submitted the Final Development Plan including the views and suggestions of the Main Planning Committee to the Development Planning Division.

1.4.10 Approval and Publication

This has been carried out under several main processes. Accordingly,

- ✓ Obtaining the approval of the Main Planning Committee.
- ✓ Translate the Plan into three languages.
- ✓ Obtaining the approval of the Board of Management.
- ✓ Obtaining the approval of the Minister in charge of the subject.
- ✓ Publication by gazette notification.
- ✓ Public awareness through newspapers

Background Studies

Chapter 02
Background Studies

2.1 Study Area

The Maharagama Urban Council area, which can be identified as a rapidly developing area in the Colombo District, which is mainly connecting to the High Level Road, consists of 41 Grama Niladhari Divisions covering an area of about 39.4 sq.km. It is bounded by Kaduwela Divisional Secretaries Division to the North and North-East, Homagama Divisional Secretaries Division to the East and South-East, Kesbewa Divisional Secretaries Division to the South and South-West, Dehiwala Divisional Secretaries Division to the West (a small extent) and Sri Jayawardenapura Divisional Secretaries Division to the West and North - West. (Map No 2.1)

By 2019, the total population was 212,014 and the population density was 5,381 (sq.km). Annual rainfall within the area is around 2500-3000 mm. and there is a well spread rainfall. However, Maharagama receives heavy rainfall during the period of May - August and October - November. Maharagama also has a uniform temperature with an average annual temperature of 270C.

The Maharagama Urban Council area which is bordering to Administrative Capital of Battaramulla consists of many important institutions in the country. These include the National Cancer Hospital, the Ayurvedic Research Institute, Jayewardenepura Hospital, National Youth Services Council, University of Sri Jayawardenapura and National Education Institute. The area has also become a one of the most commercially attractive city in the country due to the Pamunuwa textile trade and construction of the large number of textile related shops throughout the city. Also, the city of Maharagama has potential to become a strong city in the future as it grows with its unique cultural and economic identity.

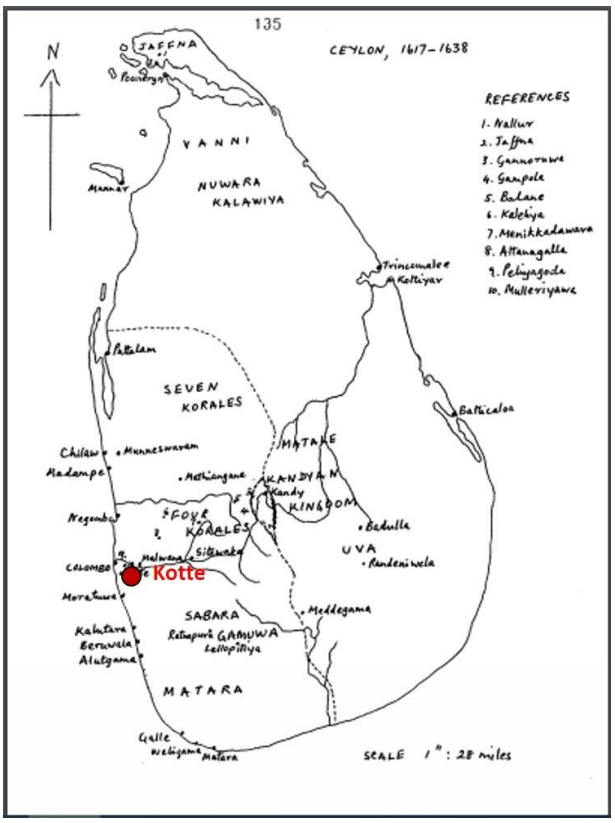

2.2 Planning & Situational Context

2.2.1 Historical Background and Evolution

According to history, there was no old city called Maharagama and it was a part of Godigamuwa, Pannipitiya and Pamunuwa. This can be seen from the fact that none of the ancient land deeds in this area mention Maharagama.

Maharagama was not even known as a city during the Portuguese period. It can be consider that the Kotte area was a city due to the Kingdom of Kotte. (Map No 2.2)

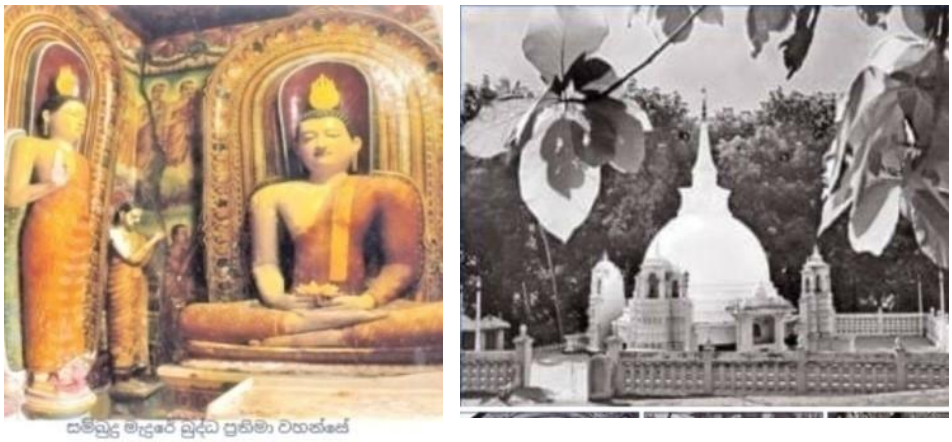

Map 2.2 : 1617-1638 Portuguese period

Source: Portuguese Period in Sri Lanka, Chandra Richard de Silva, 1967

Boralesgamuwa Lake in the Maharagama area bordering the kingdom of Kotte, Eyam Poruwa, Gangathilaka Temple, Vishnu Devalaya, Vishnu Devalaya in Thalawathugoda Ganelanda Temple, Depanama Ganegoda Purana Devalaya etc. are said to be related to the Kotte era and the evidence available at those places confirms such situation. Further, Navinna Rajamaha Viharaya, Thalawathugoda Ganelanda Viharaya, Kottawa Dhammakiththikarama Purana Viharaya also show historical values related to the Kandy era.

Figure 2.4 : Ganelanda Viharaya

Source: Internet

Figure 2.5 : Maharagama Sri Vipashyaramaya

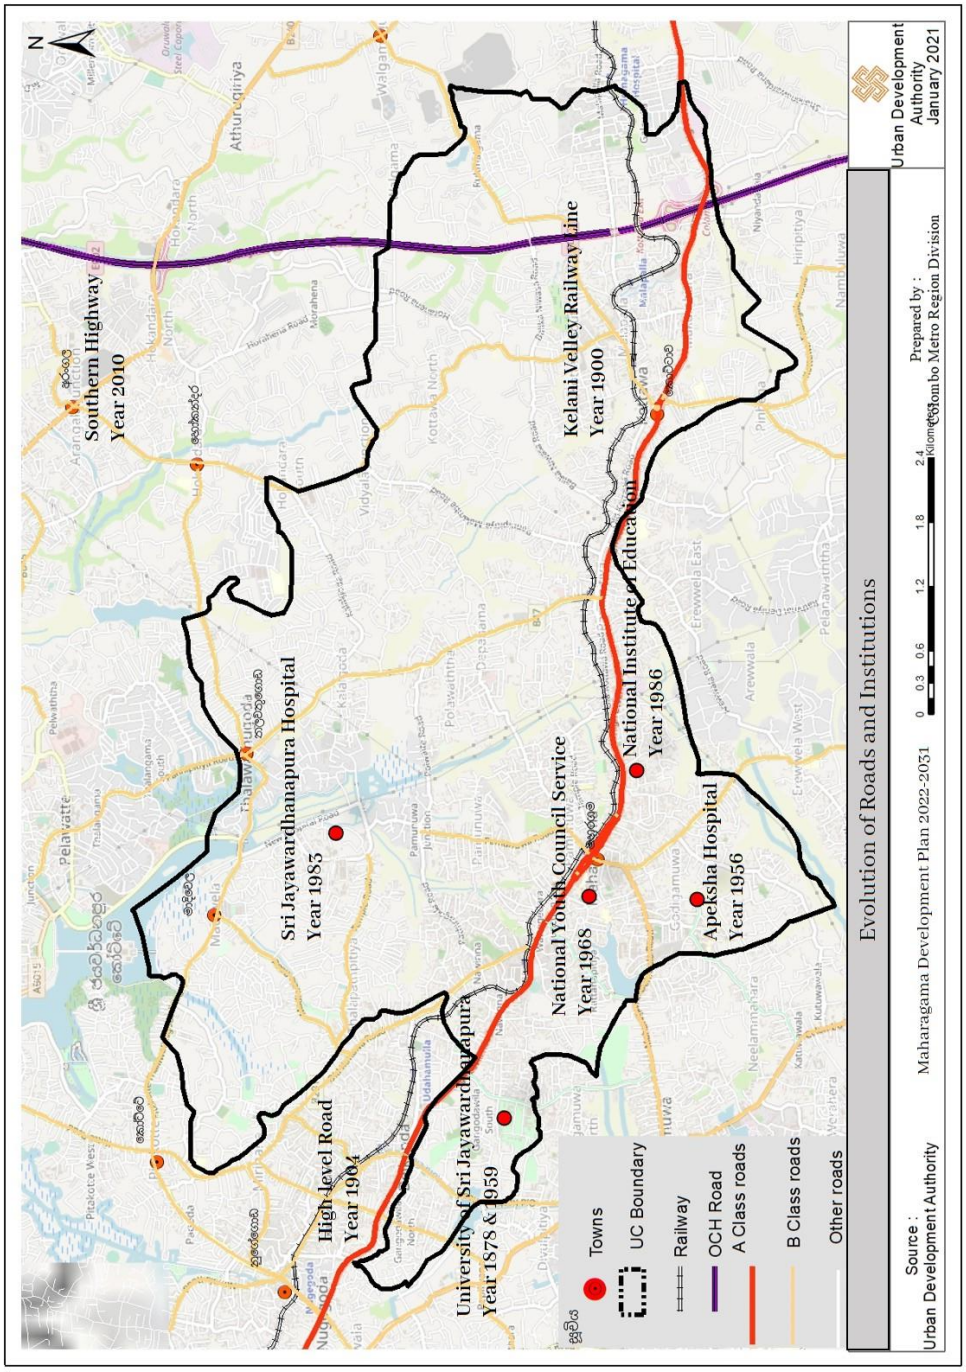

Source: Internet

According to the Legend, Maharagama was known as HickGas Junction in the period of 1948. When consider the formation of village name Maharagama, it is said that there were thieves in this area in the past and hence it was known as "Maha Horu Gama" and later it was used as Maharagama. (Excerpt: Resource Profile, 2019).

It can be said that this area has become more popular with the establishment of various institutions in the vicinity of the city of Maharagama.

Prepared by : Planning Team, Colombo Metro Region Division, 2020

2.2.2 Previous Planning Attempts

2.2.2.1 Sri Jayawardenapura Kotte Development Plan - 1982

When consider the Plans prepared for the city of Maharagama, its history goes back to the Development Plan which has been prepared in1982 for Sri Jayawardenapura Kotte. Capital City was established covering the areas such as then Kotte Municipal Council, Kolonnawa Urban Council, Kotikawatta Pradeshiya Sabhal, Mulleriyawa Pradeshiya Sabha, Kaduwela Village Council, Athurugiriya Village Council, Maharagama Urban Council and Dehiwala Mount Lavinia Village Council with an extent of 4374 Ha.

Map 2.4: Sri Jayawardenapura Kotte Development Plan - 1982

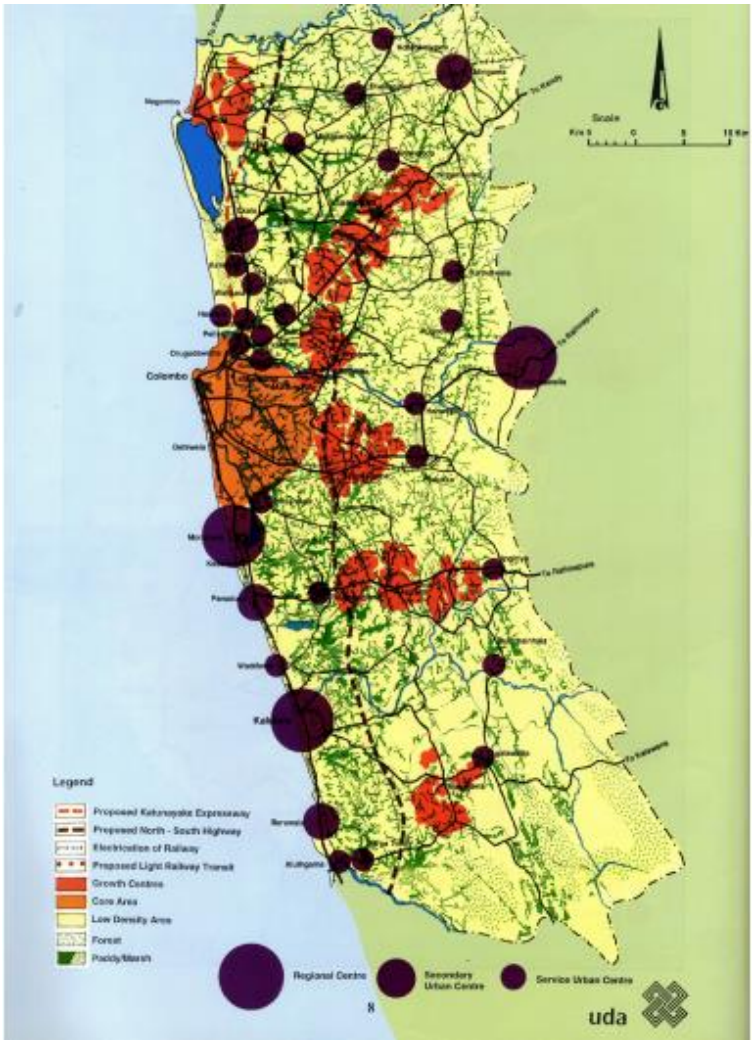

Source: Sri Jayawardenapura Kotte Development Plan, 1982

2.2.2.2 Colombo Metropolitan Regional Structure Plan (CMRSP)

An urban hierarchy was introduced as per the Colombo Metropolitan Regional Structural Plan (CMRSP) prepared in 1998, with a detailed Plan for Colombo - Wisal Kotte (Core Area). This Plan has been prepared including Maharagama Area within the Core Area. The Plan proposed to expand the administrative institutions, establish an efficient transport system and a good communication system.

The Plan identified the need to develop Maharagama to carry out the necessary environmental, social and physical management and provide the necessary service facilities, as it is proposed to relocate further institutions in the vicinity of the capital, where there are 99 institutions at present. Accordingly, it appears that this Plan has had an impact on the development of areas beyond the Sri Jayawardenapura Kotte Plan.

Map 2.5 : Colombo Metropolitan Regional Structure Plan (CMRSP)

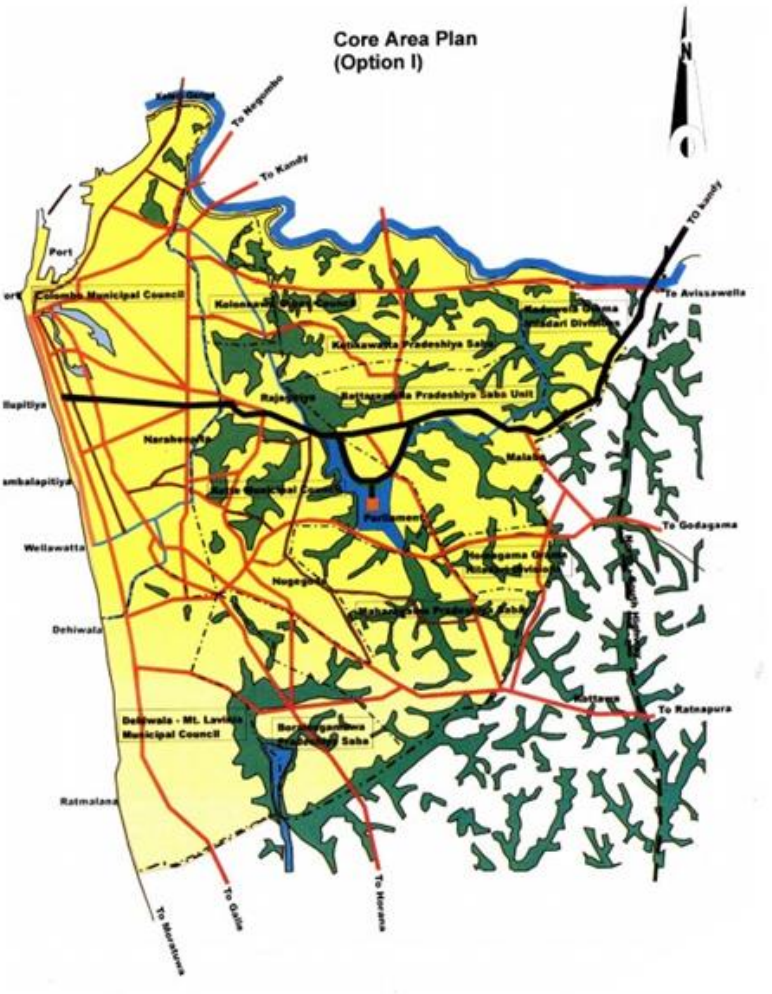

Source: Colombo Metropolitan Regional Structure Plan, 1998

2.2.2.3 Colombo City Development Plan

Subsequently, the Colombo City Development Plan prepared in 1999 aimed to develop the city of Colombo as a financial and commercial city in the South Asian region and to set up administrative and allied institutions in the suburbs of Maharagama, Battaramulla, Pelawatta and Mulleriyawa.

Map 2.6 Colombo City Development Plan – 1999

Source: Core Area Plan – 1999

2.2.2.4 Western Region Megapolis Plan (CESMA)

Western Region Megapolis Plan which was prepared in year 2004 envisaged to transform the City of Colombo into a world-class city, globally recognized as a thriving, dynamic and attractive regional hub that is the centerpiece of 21st Century Sri Lanka.

The vision of the plan was, "An oasis of aspiration, heritage, recreation and glorious living". The Plan aims on decentralization of direct development to the eastern, southern and northern parts of the region with Colombo as the core development area. Also development of the city based on Garden and Green Finger Concepts and adoption of 'Live, Work, Play' concept to promote a better quality of life by enabling many people to live close to their areas of work.

2.2.2.5 Maharagama Development Plan – 2008 - 2020

Map 2.8: Zoning Plan, Maharagama Urban Council area – 2008 - 2020

Source: Maharagama Development Plan 2008-2020

Maharagama Development Plans for the period 2008-2020 has been prepared for the Maharagama Urban Area where semi-urban development features are developing. The priority for development has been given for residential development while the commercial development based on the cities of Maharagama, Kottawa and Thalawathugoda. This Plan enforce building and development activities in the area.

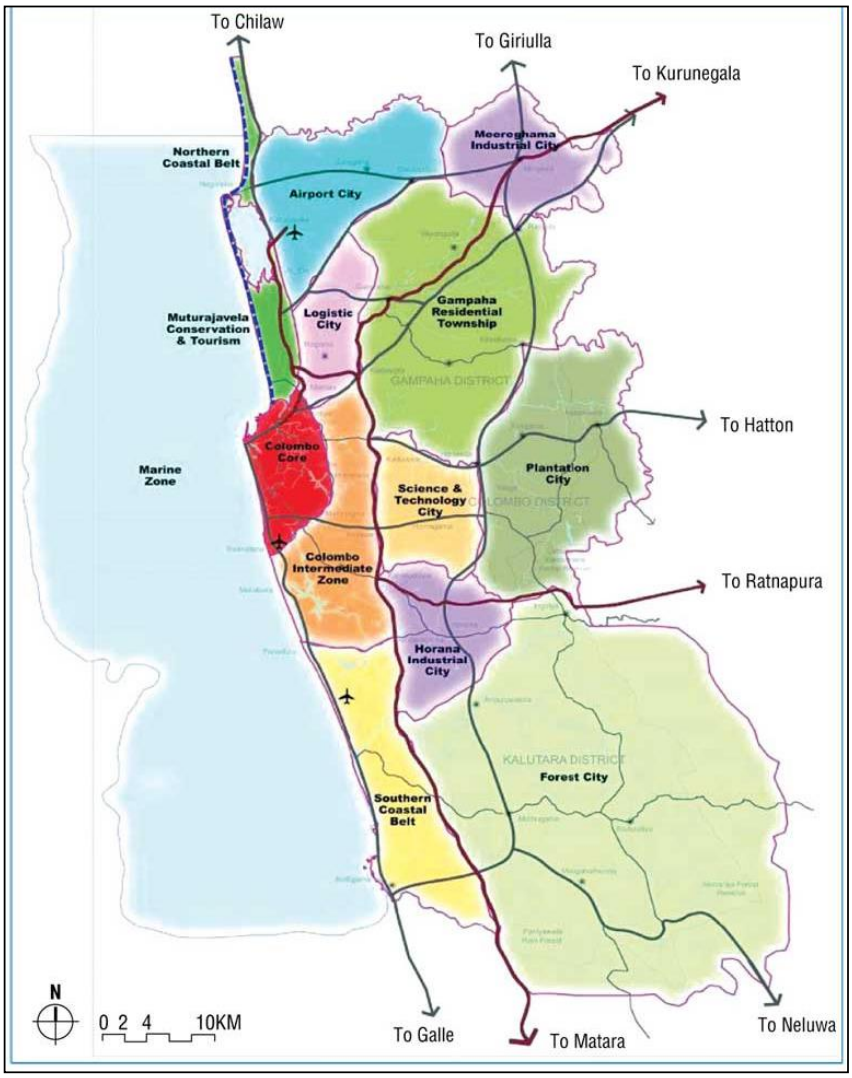

2.2.2.6 Western Region Megapolis Plan

The Western Region Megapolis Plan was prepared with the aim to transform Sri Lanka into a high income developed country, with the key objectives of "Economic Growth and Prosperity", "Social Equality", "Access and Security", "Environmental Sustainability and Individual Happiness" in 2016.

Further, this Plan has identified Maharagama as a city located in the Intermediate Development Zone.

Accordingly, the implementation of these Plans at different times had an impact on the development of the Maharagama area physically, economically, socially and environmentally.

Map 2.9: Western Region Megapolis Plan

Source: Western Region Mega Polis Plan – 2016

2.2.3. National Policies applicable to Maharagama Development Plan – 2021 - 2030

The direction of the Development Plan has been mainly focused on the ten principles according to the policy statement of the present government, "the vision for prosperity that builds the country". Priority has been given for the health and a home for every family which is coming under the fourth principle, people centred economy coming under seventh principle and sustainable environmental policy coming under eighth principle of the above mentioned ten principles.

Figure 2.6 : National Policies applicable to Maharagama Development Plan – 2021 -2030

Chapter - 4

A Productive Citizen and a Happy Family

Human resources will be the foundation for creating a prosperous country. Therefore, human resource development will be the primary responsibility of our government.

A Wise Citizen: A Society Endowed with Knowledge

If we wish to see our younger generation becoming productive citizens, it is essential to impart to them new knowledge and skills. We will focus special attention on preparing an action plan on education from pre-school to the tertiary level including technical education. We will expand opportunities for technical education and the use of technology among students.

From Mother's Lap to Teacher's Care

We have identified the importance of pre-schools, day-care centres and early childhood development centres in the field of education.

Health First

Health is one of the main pillars in human capital development. Health is not restricted to physical, mental and social wellbeing, but applies to spiritual well-being as well. Healthcare will be delivered throughout the country on the basis of a National Health Policy.

Chapter - 8

A Sustainable Environmental Policy

The breakdown of the balance in the environment by artificially modifying or adversely affecting the biosphere is considered a form of environmental pollution. Sustainable Environmental Policy is not just about environmental conservation, but also implementing balanced social and economic practices towards sustainable development.

Land

Land should be used solely for the benefit of the people in Sri Lanka. In order to do that it is important to re-activate the National Physical Plan. It is important to introduce scientific methods to improve sustainable agriculture, animal husbandry and plantation agriculture to achieve maximum financial gains while reducing the impact on the environment

Industries

The Linear Economy in which manufacturers produce goods using the existing raw materials and dispose of waste into the environment will be replaced with the Circular Economy in which waste in one industry can be used as raw material in another. (Re-use, Re-cycle, Re-purpose). This will create eco-industrial zones and pave the way for a green economy.

Waste Management

The first step in the waste management process will be to make people aware that waste is their own creation. Necessary action will be taken to minimize waste generation. Sustainable consumption concepts will be introduced from a person's childhood.

Biodiversity

The sustainability of land and water resource management will be ensured while taking proactive measures to increase national forest cover by 30%. Appropriate and definitive measures will be taken to identify areas for reforestation purposes.

Settlements and Cities

When establishing settlements, potential areas will be selected that will have minimum environmental impact while no large-scale developments will be allowed in identified environmentally sensitive areas.

Environmental Education

Strategic and targeted programmes will be planned and implemented to increase awareness and active engagement within communities with regard to issues such as forest conservation, soil conservation, coastal conservation, waste management, energy management and noise pollution management.

Source: Vistas of Prosperity and Splendour, 2019

2.2.4 Physical background of Maharagama Planning Area

(a) Land Use

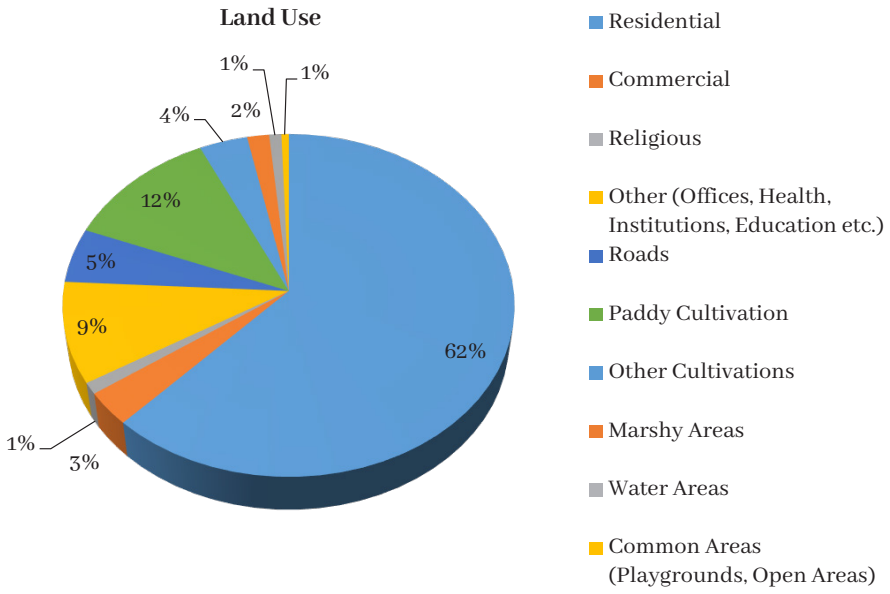

When consider the land use of Maharagama Urban Council area, more than 60% of the total land area is used for residential purpose and 15% for home gardening and paddy cultivation. In addition, about 2.68% of the total land area is consist with marshy lands and wetlands. 13.15% has been reserved for commercial and other buildings.

Table 2.1 : Land use Pattern – Maharagama, 2019

Use	Land Extent (Ha.)	%
Residential	2446.3	60.53%
Commercial	126.81	3.35%
Religious	42.25	1.10%
Other (Offices, Health, Institutions, Education etc.)	373.44	9.80%
Roads	202.15	5.30%
Paddy Cultivation	473.99	12.52%
Other Cultivations	148.03	3.90%
Marshy Areas	67.39	1.70%
Water Areas	37.19	0.98%
Common Areas (Playgrounds, Open Areas)	22.44	0.59%
Total	3940.0	100%

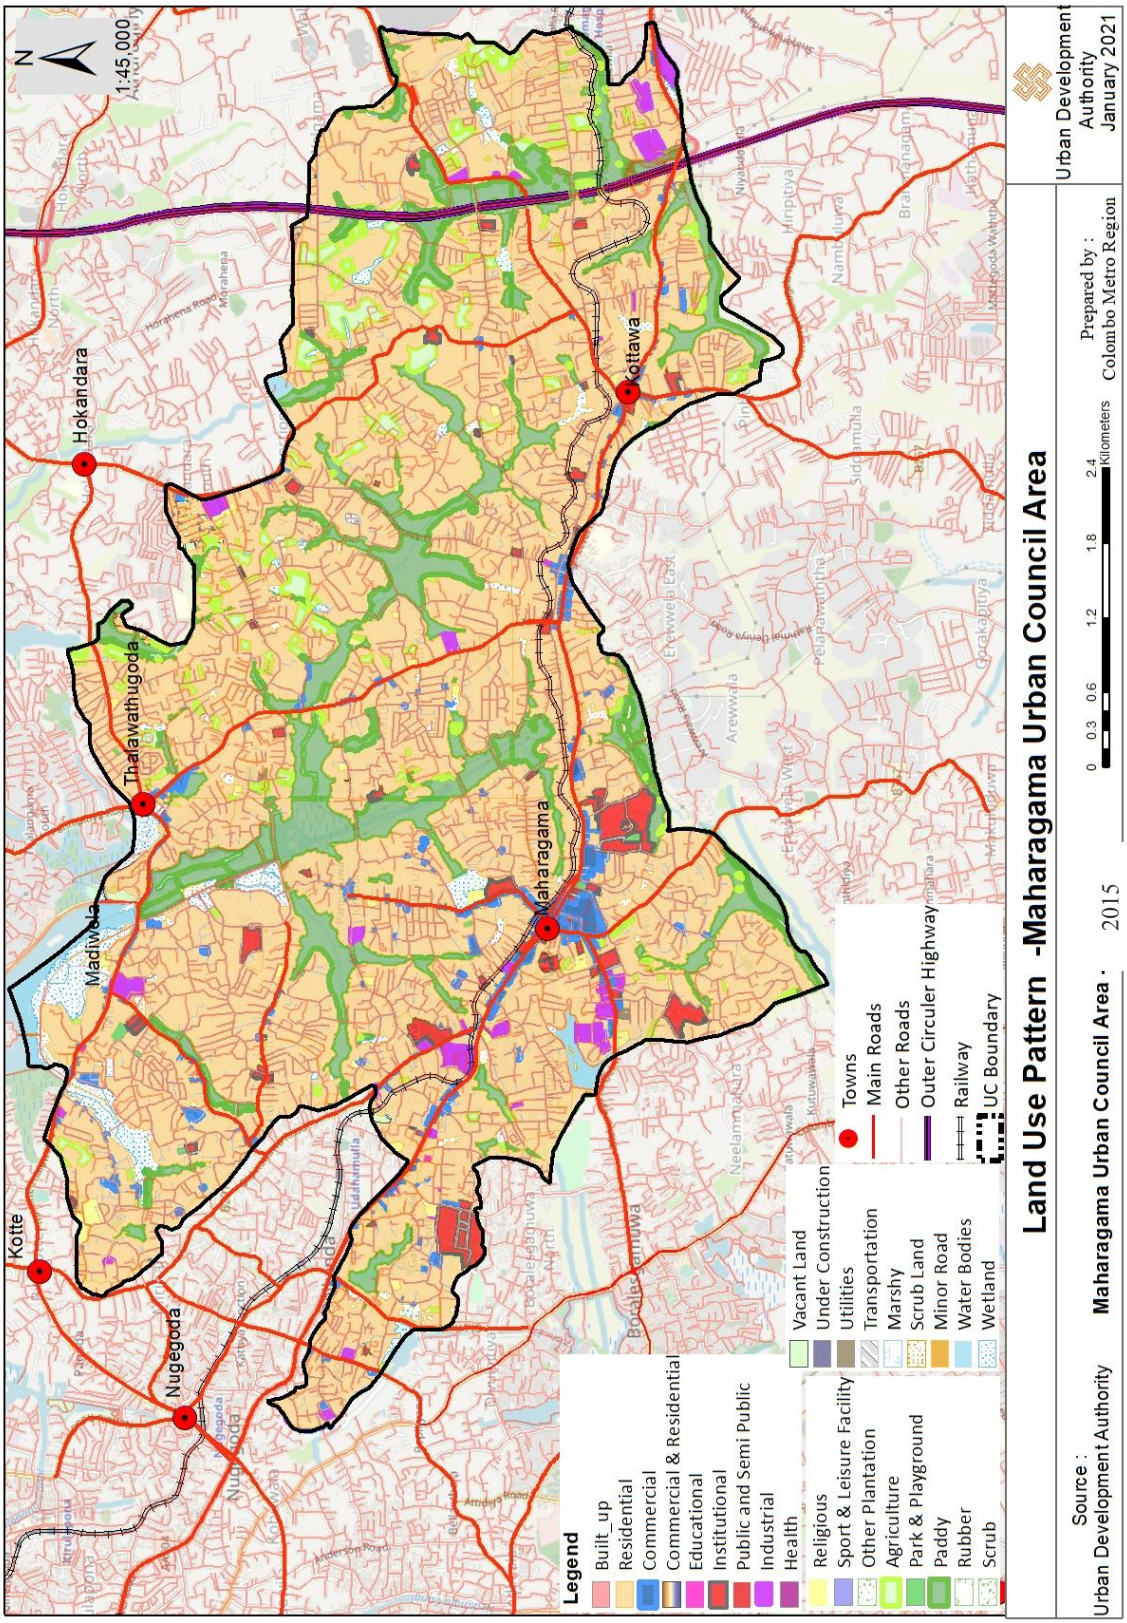

Source: Resource Profile – 2019

Figure 2. 7 : Land use in Maharagama

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

Map 2.10 : Land use in Maharagama

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

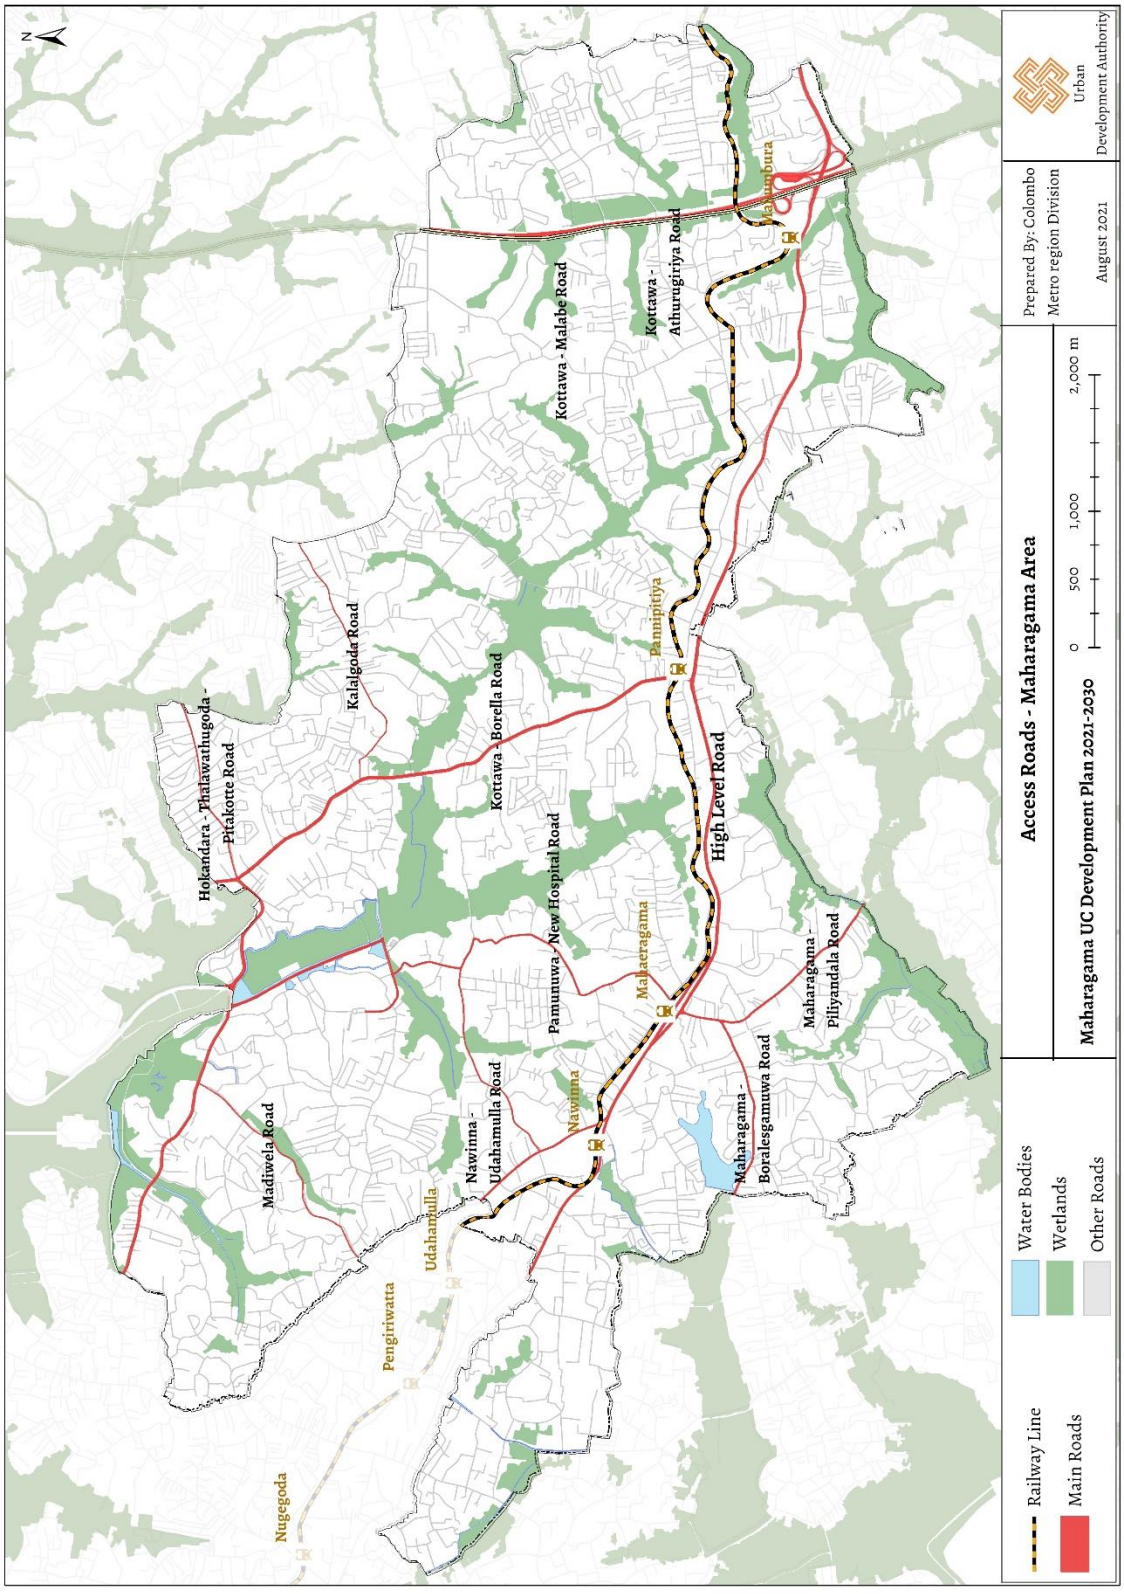

When consider the residential land use, there is a high demand for residential use in Gangodawila, Godigamuwa, Mirihana, Madiwela, Navinna, Depanama, Wattegedara etc. When comparing the land use in the year 2002, fragmentation of existing coconut and rubber lands and reclamation of paddy lands are relatively high in this area.

When consider the commercial use, there is a high attraction for commercial activities in the surrounding areas of Maharagama, Kottawa and Thalawathugoda. It also appears that these developments are expanding mainly as a linear development along the main road. It is also seen that service providers are expanding in the vicinity of Thalawathugoda and Pannipitiya. In addition, with the construction of the Makumbura Multi model Transport Centre, the area from Kottawa to Makumbura is showing a rapid development.

(b) Highway Network

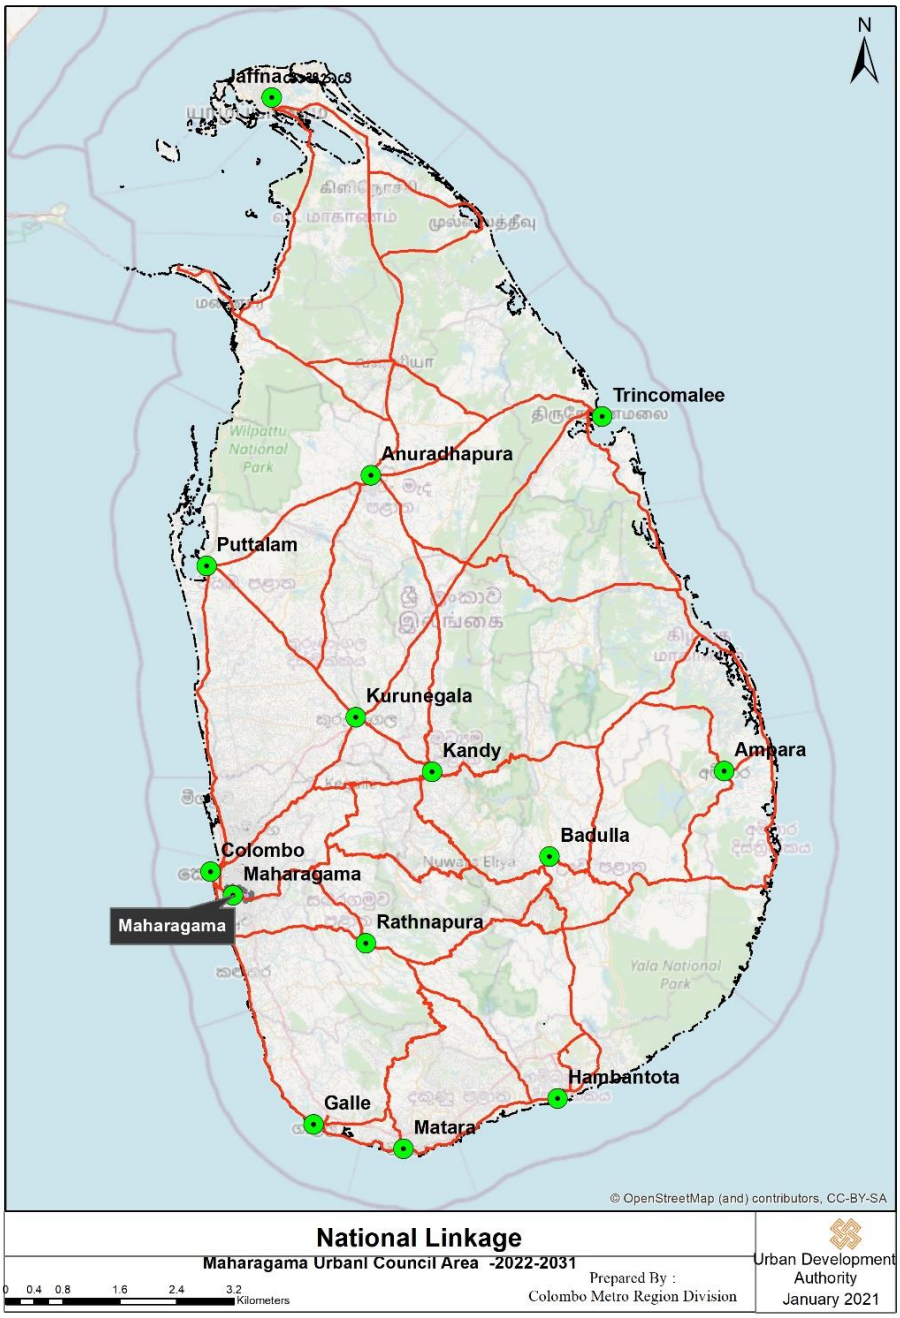

The road network of the Maharagama area connects Dehiwala, Boralesgamuwa, Piliyandala, Athurugiriya, Malabe, Homagama and connects the Western, Sabaragamuwa and Uva Provinces through High Level Road (A4). The Kelaniweli Railway line also runs from Maradana to Avissawella via Maharagama. The Southern Expressway connects the Southern Province and Gampaha area connects through the Outer Circular Highway and facilitates transportation to various parts of the country via Makumbura, which is the first multi modal transport hub of Sri Lanka.

2.2.5 Social background of Maharagama Planning Area

(a) Population

Maharagama ranks sixth in the Colombo district in terms of population. The gross population density is about 5381 per sq.km.

Figure 2.8 : Population Distribution in Colombo District

	Colombo	Kaduwela	Kesbewa	Thimbirigasyaya	Homagama	Maharagama	Kolonnawa	Moratuwa	Seethawaka	Sri J'pura Kotte	Rathmalana	Dehiwala	Padukka
2012	323.2	252.0	245.2	238.0	237.9	196.4	191.6	168.2	113.8	107.9	95.50	88.96	65.26
2001	380.9	209.2	209.6	266.1	186.0	185.1	161.2	177.5	94.00	116.3	108.7	101.8	54.33

Source: Department of Census and Statistics – 2012

The population growth in the Maharagama area is 0.53% during the period of 2001-2012 and 0.75% during the period 2012-2019.

Table 2.2 : Population Growth – Maharagama

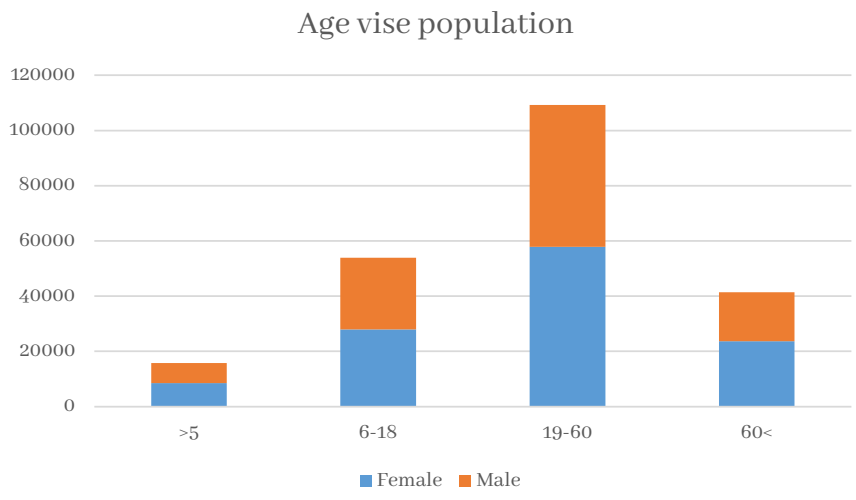

Total Population in 2001	Total Population in 2012	Population Growth 2001-2012	Total Population in 2019	Population Growth Rate 2012-2019	Forecasted Population for 2030
185,193	196,423	0.53%	212,014	0.75%	235,650

Source: Resource Profile - 2019, Department of Census and Statistics – 2012

According to the 2001 and 2012 Reports issued by the Department of Census and Statistics and the Resource Profile for the years 2014, 2016 and 2019 issued annually by the Maharagama Urban Council, 532 / C - Wattegedara Grama Niladhari Division has the highest population out of all Grama Niladhari Divisions located within the Maharagama Urban Council area. That is as high as 8782 people.

When consider the gender composition of the Maharagama Urban Council area, 47% are males and 53% are females. According to the age structure, the male and female infant populations under the age of 5 are 7230 and 8516 respectively and the male and female population between the ages of 6 and 18 are 25950 and 27961 respectively. The labour force of male and female between 19 and 60 years are estimated as 51,370 and 57,874 respectively and the male and female senior population over the age of 60 is estimated as 17,638 and 23,730, respectively. Accordingly, when consider the labour force (between the ages of 19 – 60), it is 49% of the total population. It appears that the high value of the workforce can make a positive contribution to the economy of this region.

2.2.6 Economic background of Maharagama Planning Area

People of the Maharagama area are employed in Government, Semi Government, Private Sector, Agricultural Sector, Industrial Sector, Self-Employment, etc. The textile industry can be identified as a specialized economic industry unique to Maharagama. Also there are various small, medium and large scale industries spread throughout the area.

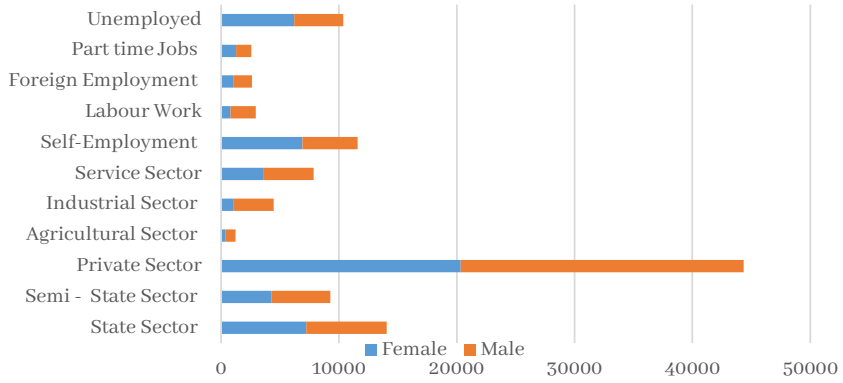

Information on the economic status of the people are provided through the classification of the employment sector. Accordingly, the number of employees employed in various sectors in accordance with the Resource Profile in 2019 is as follows. Thus, it can be identified that most of them are employed in the private sector. Table 3 shows that the contribution of women to the economy of the area and it is also very high.

Table 2.3 : Employment in Maharagama

Sector	Female	Male	Total	Percentage (%)
State Sector	7231	6820	14051	12.62%
Semi - State Sector	4272	5004	9276	8.3%

Foreign Employment	1020	1591	2611	2.3%
Part time Jobs	1276	1293	2569	2.3%
Unemployed	6208	4156	10364	9.3%

Source: Resource Profile – 2019

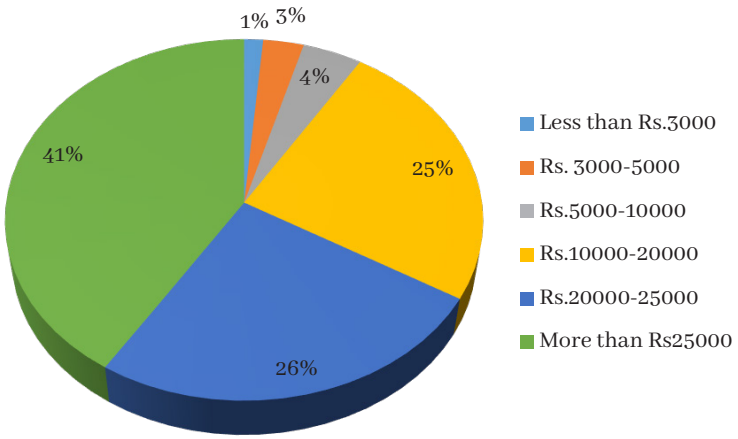

Figure 2.11: Employment

Source: Resource Profile – 2019

According to the statistics for the year 2019 in the Maharagama Municipal Council area, the number of families can be identified according to the monthly income levels. Accordingly, the percentage of those earning less than Rs.3000 per month is 1% and the majority are between Rs.20000-25000 and those earning more than Rs.25000 per month. This provide evidences to the relatively high economic level of the area.

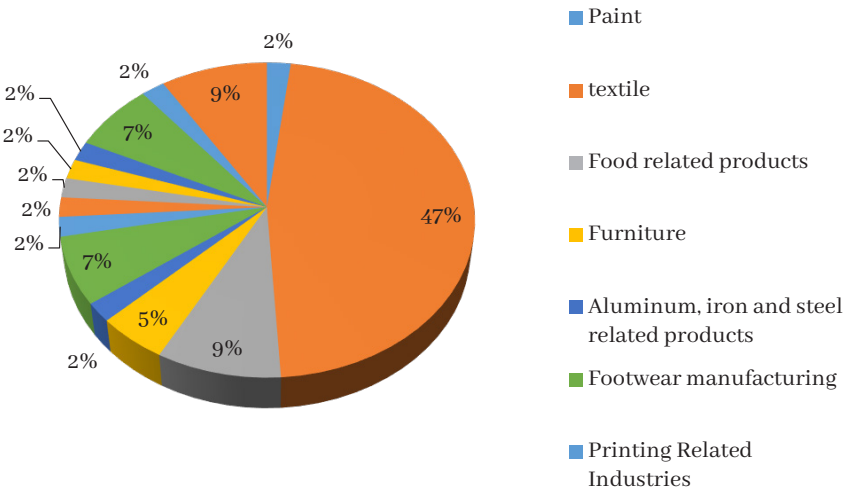

Figure 2.12: families according to the monthly income levels

Source: Resource Profile – 2019

Pamunuwa has a long history of being a trading center for the textile industry. As a result, the city of Maharagama has attracted more people. A large number of textile related buildings are spread all over the city at present and it has become a unique economic feature of the city of Maharagama. It has become the major source of income of the majority of the people in the city.

Figure 2.13: Industry Distribution

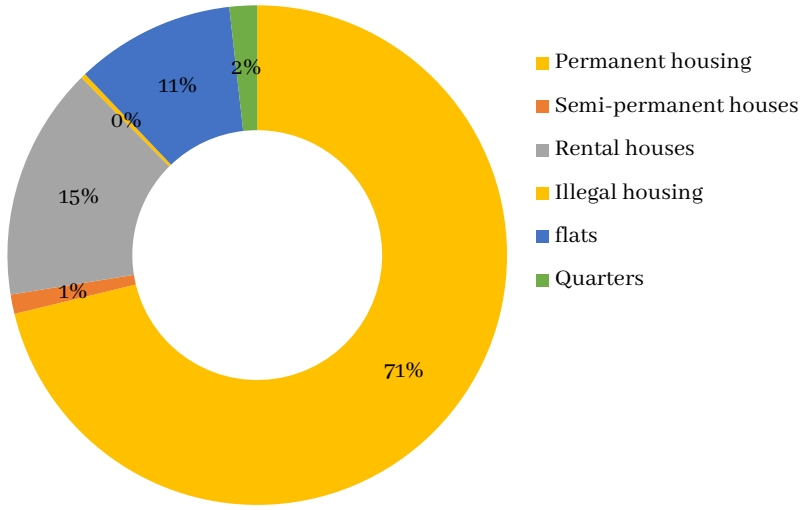

Source : Resource Profile - 2019

2.2.7 Service and Infrastructure background of Maharagama Planning Area

In terms of services and infrastructure, there are more permanent and semi-permanent houses in the Maharagama Urban Council area and most of the shanties are spread over in Maharagama, Udahamulla, Kottawa, Navinna and Mirihana areas.

Figure 2.14 : Categarization of Housing

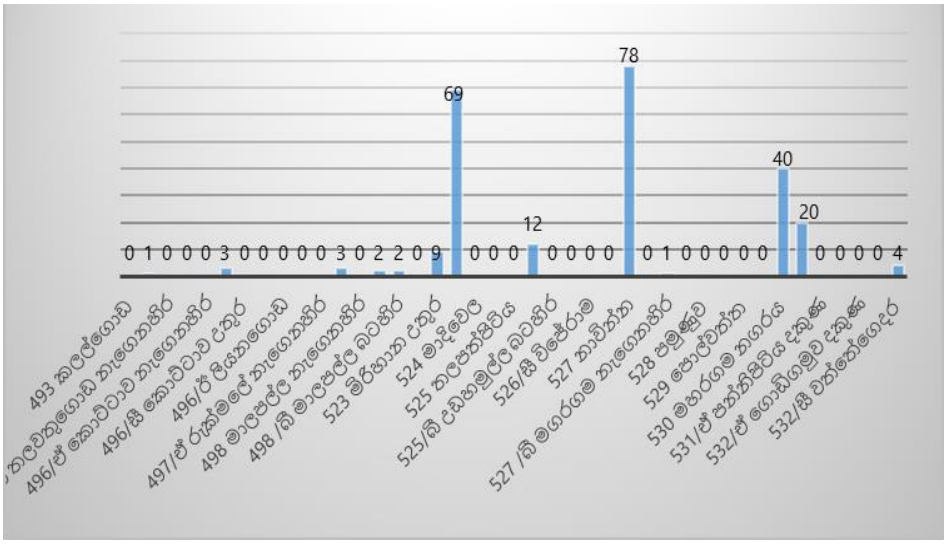

Source: Resource Profile – 2019

Accordingly, the majority of semi-permanent houses are located in the Thalapathpitiya area and the number is as high as 700. In addition, comparatively high no of semi-permanent houses are located in Kottawa town and Mirihana North. Also, most of the tenants live in the Wattegedara area, Kottawa South, Thalawathugoda West and Godigamuwa South areas. It is also noteworthy that unauthorized houses can be seen in Maharagama town and Pannipitiya North. Jambugasmulla, Godigamuwa South, Kottawa South, Maharagama town can be identified as areas with large amount of apartments.

There are 7 number of government lands in Rukmale West, 6 in Thalawathugoda West and 5 in Rukmale East making a total of 47 government lands in the Maharagama Urban Council area. Further, there are 244 unauthorized constructions including filling of wetlands could be seen in Maharagama Urban Council Area. It is also more common in areas such as Navinna and Mirihana North.

Figure 2.15 Unauthorized Constructions in Maharagama

Source: Resource Profile – 2019

Maharagama Urban Council consists of 47359 (98.8%) houses with water sealed toilets and 428 (0.9%) houses have toilets with pits. There are 233 public toilets in the Urban Council area including main cities. Also 112 (0.3%) of the households have sanitation problems due to lack of toilets.

Table 2.4: Sanitary Facilities

Houses with Sanitary Facilities			
Houses with Toilets		No. of Public Toilets	Houses without Toilets
Water sealed	Toilets with Pits		
47359	428	233	112

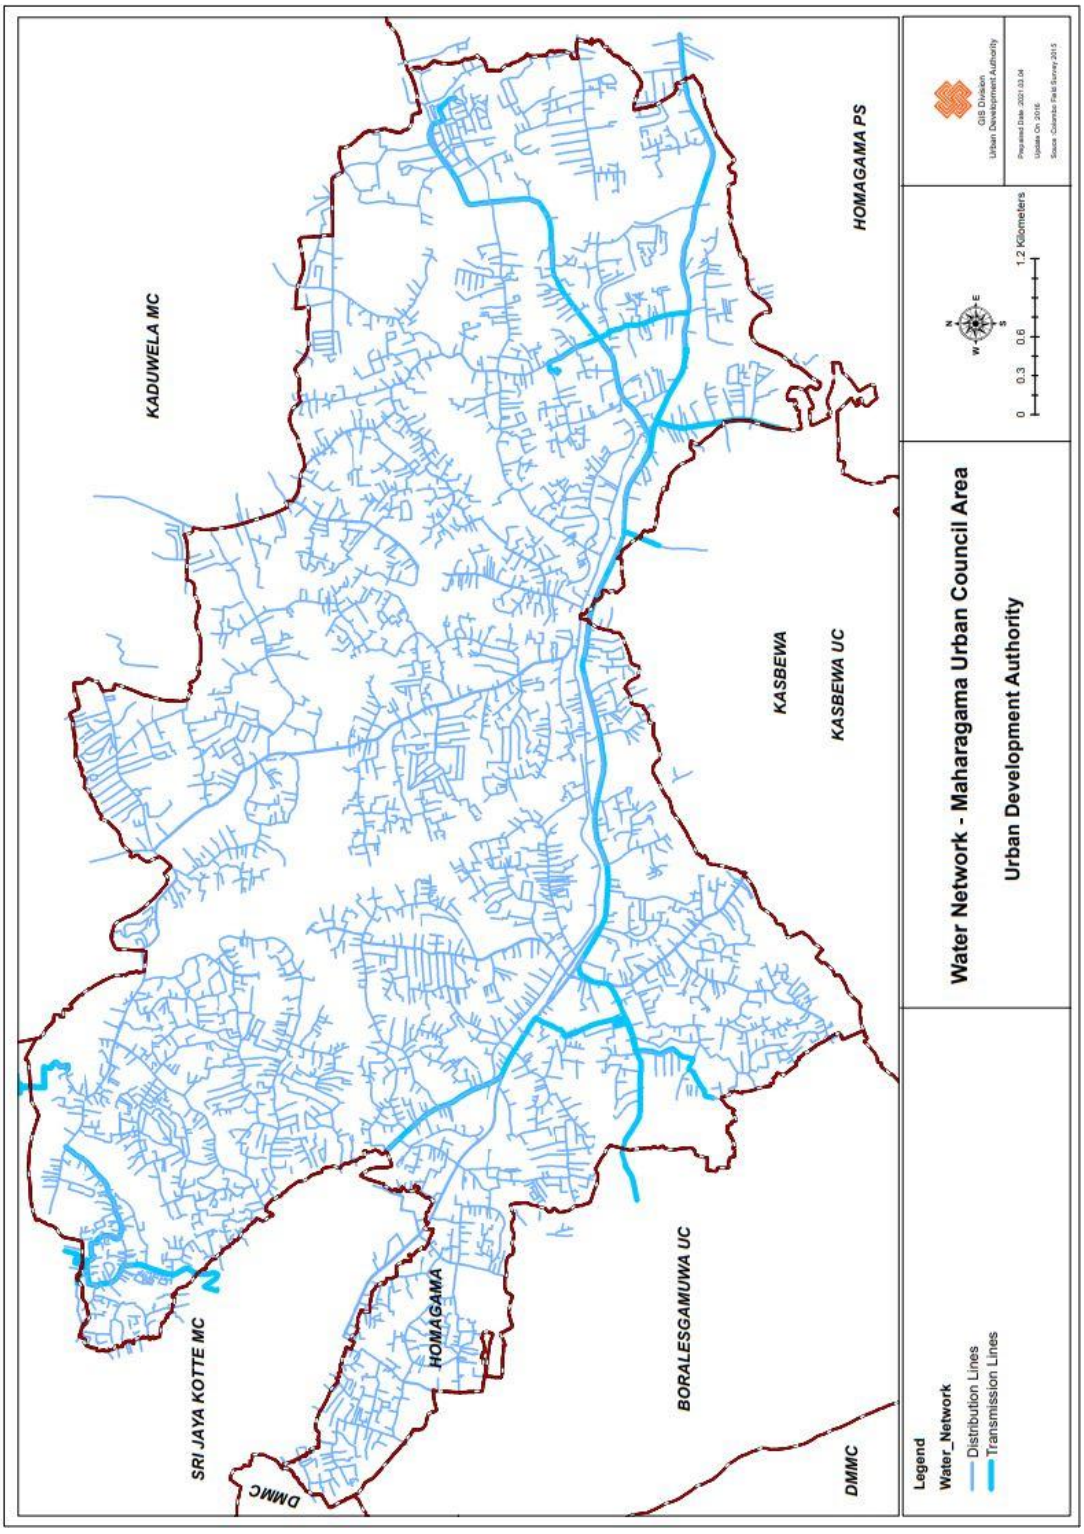

Source: Resource Profile – 2019

Also, 50158 houses have electricity connection out of the total number of housing units in the Urban Council area, and 112 do not have electricity connection.

Most of the people in the Maharagama area use pipe borne water as their main source of drinking water and the number of people who use community water projects, tube wells, public wells and water schemes are minimal. The water treated by the Labugama or Kalatuwawa Water Treatment Plants is distributed by the National Water Supply and Drainage Board.

Infrastructure such as electricity connection, telephone facilities, sanitation facilities are also available for most of the households except a very few. (Resource Profile – 2019)

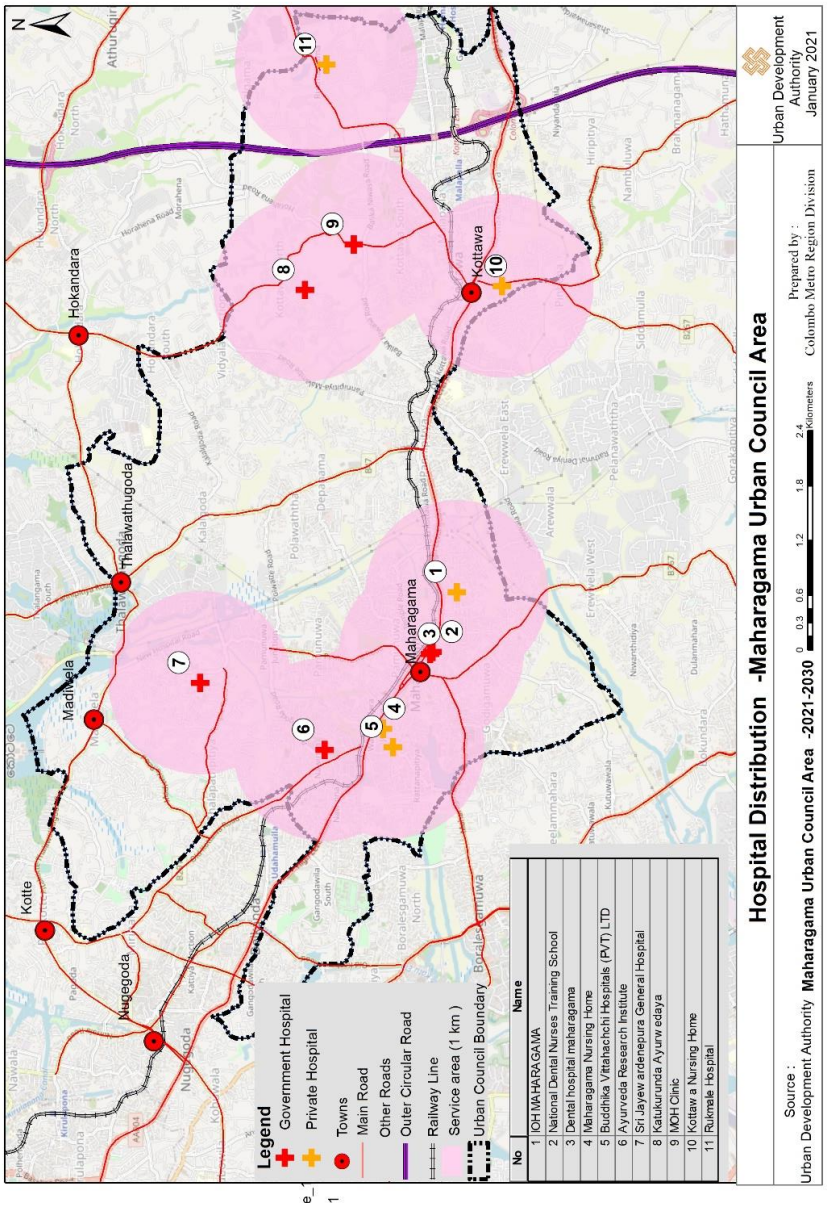

Map 2.14 : Existing Water Supply Network in Maharagama

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

In order to maintain health care facilities and basic health services at the same level, there are several health care centres located within the Maharagama Urban Council area where a rapidly growing population lives. Clinics run by Navinna Ayurveda Hospital, Sri Jayawardenapura Hospital, Apeksha Hospital, National Dental Institute and Clinical centres run by Office of Maharagama, Medical Officer of Health, Clinical centres operating in several Grama Niladhari Divisions and several Private Dispensaries could be identified as the health centres located within the area. In addition, the Kalubowila Hospital is located close to this area and the Colombo General Hospital is also located about 15 k.m. to this area.

Map 2.15: Distribution of health care facilities

Prepared By: Planning Team, Colombo Metro region Division, UDA, 2021

There is a high level of education in the Maharagama Urban Council area. There are 99 registered Pre-Schools in operation in this area and 23 have been referred for registration by January 2020. There are 24 Government Schools in the area and problems have arisen with regard to school education at present are as follows.

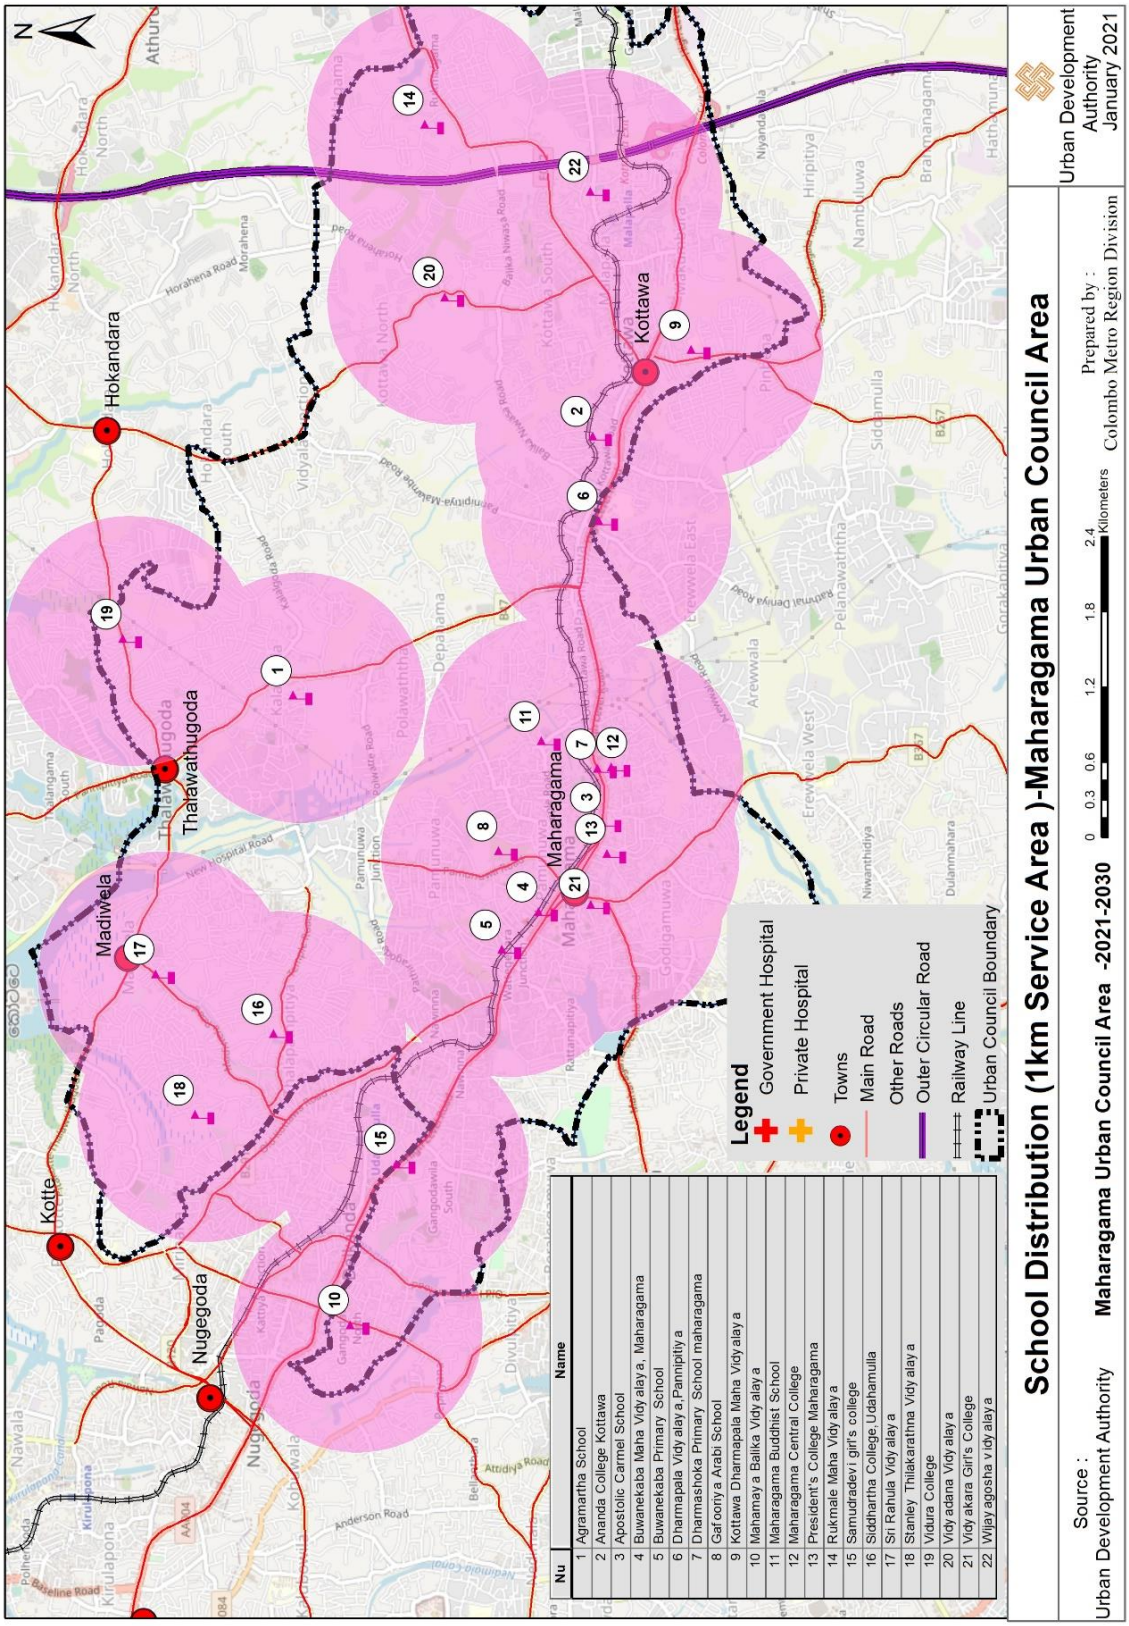

- All students who pass with a higher rank from the Scholarship Examination and the GCE Ordinary Level Examination resign and go to Colombo schools due to their proximity to the city of Colombo.

- Decrease in the number of students entering certain schools in the Divisional Secretaries Division due to the high competition that exists only for few schools for Grade 1 based on scholarship.

However, schools are classified as 8 Major Schools at National level, 7 Secondary level schools and 8 Tertiary level schools in terms of grades.

Higher Education Institutions such as Sri Jayewardenepura University, National Institute of Education, Maharagama Teachers College, National Youth Services Council, Maharagama Vidatha Resource Centre, Vocational Training Centre under Vocational Training Authority at Thalawathugoda, Katukurunda Rural Women's Training Centre, Udahamulla Nenasala Centre and various other training institutes are located in the Maharagama Urban Council area.

Map 2.16: Distribution of Educational Facilities

2.2.8 Environmental background of Maharagama Area

Maharagama Urban Council area belongs to the low country wet zone and is located at an altitude of 10-30 m above sea level and it can be seen that there are many low lying areas throughout this area. The soil of this area is swampy and high marshy and the drainage system that flows through the lowlands consists of small canal systems such as Katu Ela and Kibula Ela.

Maharagama area can be identified as an area free from natural disasters such as landslides and floods. However, due to rapid development of the area, it appears that settlement and industrialization are expanding rapidly. Due to this, with the development of low lying areas, paddy fields and wetlands in the area, natural disasters such as floods are more likely to occur in the future. With the increasing population, the problem of solid waste disposal has also arisen.

Paddy cultivation areas can be identified as the main eco-sensitive areas in the Maharagama Urban Area. 462.89 Ha. of paddy lands are spread over the planning area. There are also 67.4 Ha. of marshy lands to the northern and western part of the planning area. In addition, 37.2 Ha. of reservoirs, 1.7 Ha. of abandoned paddy lands are also included to the ecologically sensitive areas in this area.

At the 13th Summit of the Ramsar Convention on Wetlands (COP13) held in Dubai on 25th of October, 2018, 18 cities around the world were declared as Wetland Cities and Colombo became the only wetland city in South Asia. Accordingly, the areas around the wetlands and wetland dependent cities will be encouraged to use in a sustainable manner.

Following problems have been identified in relation to wetlands within Maharagama Area.

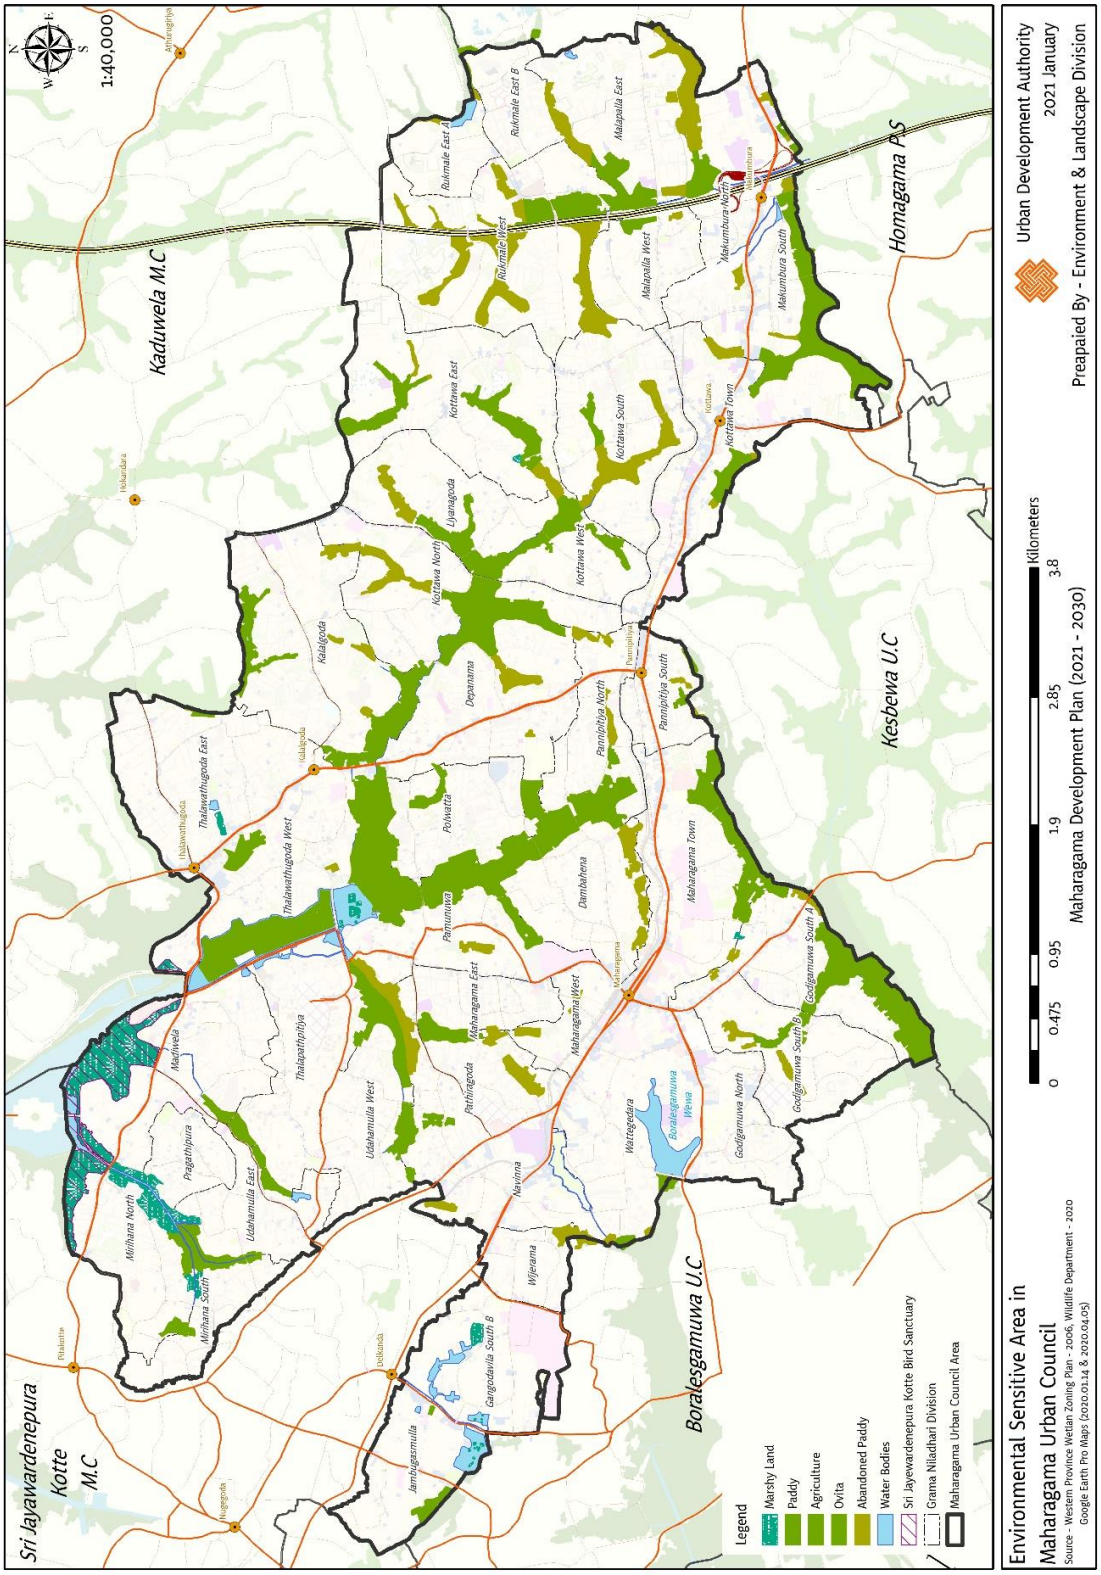

i. Due to the rapid reclamation of low lands and marshes without a proper plan and a control, decrease the land area to retain the excess water and many areas is flooded even with light rainfall.

ii. Environmental issues related to unauthorized construction, garbage disposal and sewerage in the lowlands.

iii. Improper drainage due to improper maintenance of major canals and tributaries and drainage is further blocked due to the presence of invasive plants.

iv. Discharge of waste from public toilets and houses that are not properly maintained into public drains and low lying areas.

Map 2.17: Environmentaly Sensitive areas, Maharagama

Prepared By: Planning Team, Environment & Landscape Division, UDA, 2021

Public open space is an important part of the urban environment that is under severe pressure due to urban development. Public open spaces provide a pleasant and natural environment as well as improve the quality of life in urban areas by performing essential environmental activities. Increasing attractiveness in urban areas also has potential economic benefits.

When consider the areas reserved for public outdoor recreation in the Maharagama Urban Council area, the space with easy access to the general public is limited.

It is evident that attention has not been paid to allocating sufficient open space for residential areas in the subdivision of land. The information regarding the public outdoor spaces available in the Maharagama Urban Council area is as follows.

Table 2.5 : Existing Public Outdoor Spaces

Ref. No.	Type of Park	Nos.	Extent (Ha.)

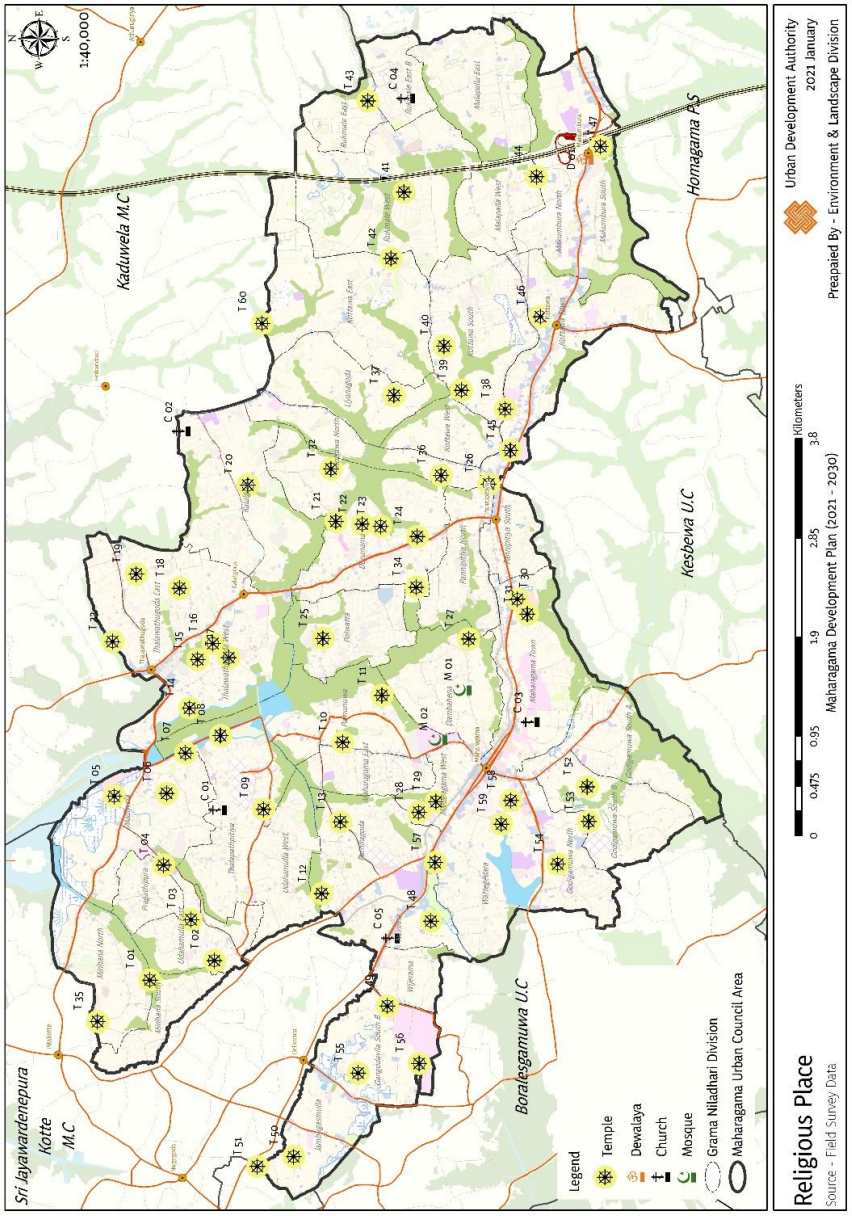

Map 2.18: Existing Playgrounds and Parks

Prepared By: Planning Team, Environment & Landscape Division, UDA, 2021

Archaeological sites and places of cultural value are not so much found within the Maharagama Urban Council limits. Archaeological sites are the sites identified by the chronology of monuments and sites of historical and cultural significance are those that are descended from written, traditional, oral or folklore. Accordingly, Maharagama Urban Council area can be identified as an area with very few ancient sites belonging to both these types. Accordingly, Maharagama Sri Vipasshyaramaya, Ganelanda Purana Rajamaha Viharaya, Ganelanda Vishnu Devalaya, Navinna Rajamaha Viharaya etc. plays a prominent role in Maharagama.

Map 2.19 : Places of Cultural, Religious, Architectural and Archaeological value

Prepared By: Planning Team, Environment & Landscape Division, UDA, 2021

2.3 Delineation of the Planning Area

In determining the planning boundary of the Maharagama Urban Council area, geographical boundary, functional boundary and administrative boundary as well as development pressure and environmental sensitivity were taken into consideration.

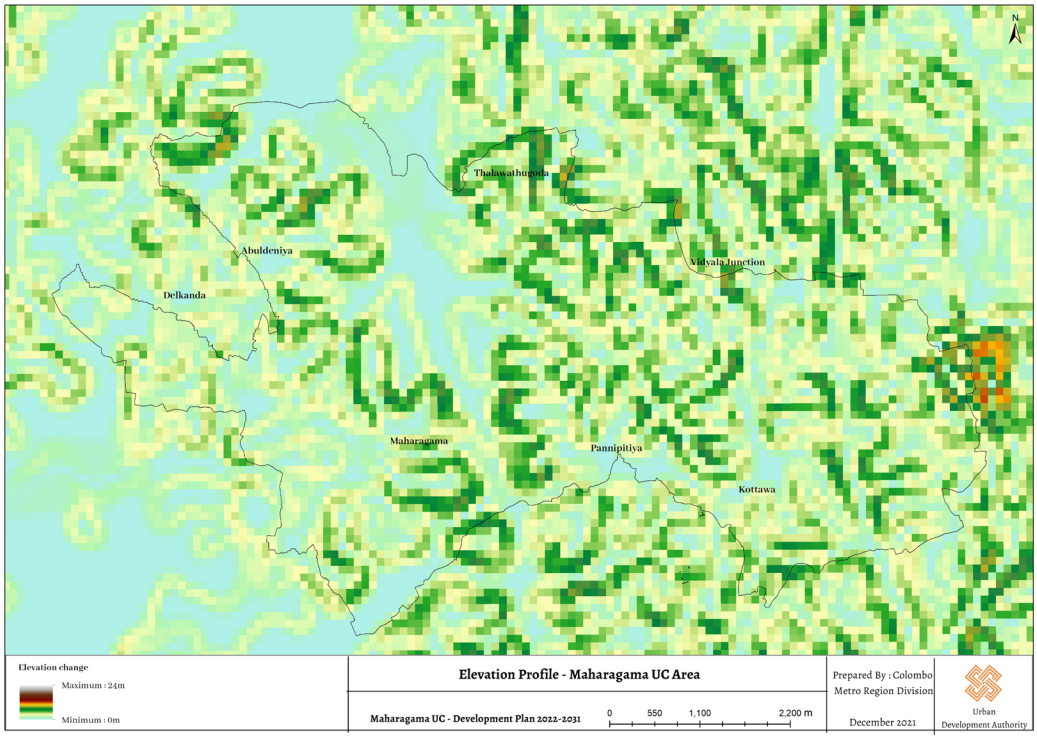

a) Geographical Boundary

City of Maharagama located about 15 k.m. South - East of Colombo city, is at a height of 10-30 m above Sea Level and no area within Maharagama is more than 30 m above sea level. There are no specific slopes or valleys in the study area. However, small water streams and canals could be seen.

The topography within 2 miles of Maharagama contains only modest variations in elevation, with a maximum elevation change of 131 feet and an average elevation above sea level of 56 feet. Within 10 miles also contains only modest variations in elevation (423 feet). Within 50 miles contains only modest variations in elevation (7,175 feet).

Due to the dense population in the area, there are no natural vegetation and forests. However, marshy lands and paddy fields could be seen. Therefore, these geographical features were taken into consideration when preparation of the Maharagama Development Plan.

Map 2.20: Elevation Profile of Maharagama

b) Functional Boundary of Maharagama

In addition to the residential population of Maharagama town, the commuting population is also relatively high. Since there are a number of nationally important institutions, people come from all over the country to obtain those services as well as targeting Pamunuwa Textile Centres.

Also, due to Maharagama is located bordering to the Capital city a large number of people pass through the city for administrative work. Therefore, attention has been made as a service city as well as a commercial city when preparation of this Development Plan.

(c) Administrative Boundary

The Maharagama Urban Council area, which consists of 41 Grama Niladhari is bounded by Kaduwela Divisional Secretaries Division to the North and North-East, Homagama Divisional Secretaries Division to the East and South-East, Kesbewa Divisional Secretaries Division to the South and South-West, Dehiwala Divisional Secretaries Division to the West (a small extent) and Sri Jayawardenapura Divisional Secretaries Division to the West and North - West.

Expected Population in the year 2030

235,650

Commuting Population

70,671

Expected Commuting Population in the year 2030

200,000

d) Development Pressure & Environment Sensitivity

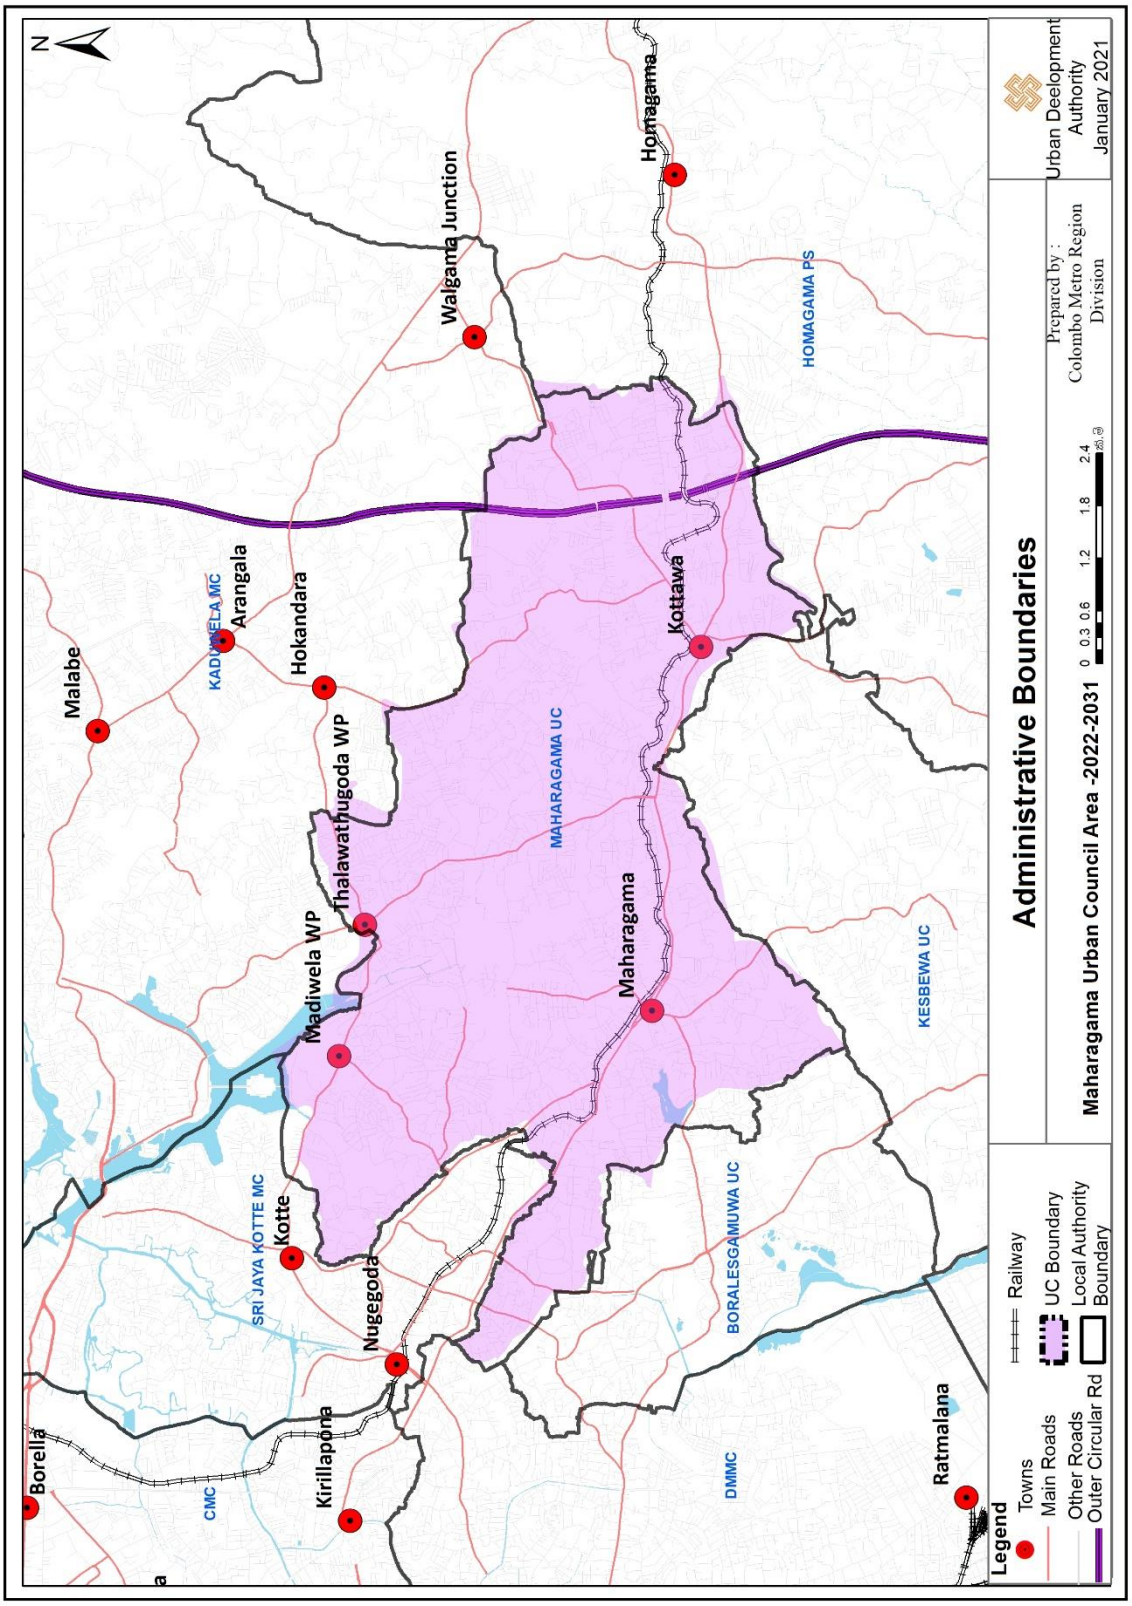

Accessibility Index (from Main Roads - (A, B & C) and access level), Urbanization Index, Density Index (Population Density, Population Growth) and Land Use Index (Land Use, Land Conversion) has been used to identify what kind of development pressure is taking place in the area and how it is spreading in the areas. (Map 2.22)

Also the environmental sensitivity of the area has been identified considering the water system (rivers / tributaries / lakes), water retention areas (wetlands), flooded areas, vegetation cover (forests, mangroves, paddy fields, cultivated areas, home gardens), geographical features (slopes) and human use resources (archeological sites, culturally important sites / heritage sites, religious places and parks / playgrounds). (Map 2.23)

Accordingly, it was identified that most of the areas such as Kottawa, Maharagama, Thalathugoda and beyond Nugegoda, Kotte and Hokandara are under development pressure and posing a threat to environmentally sensitive areas.

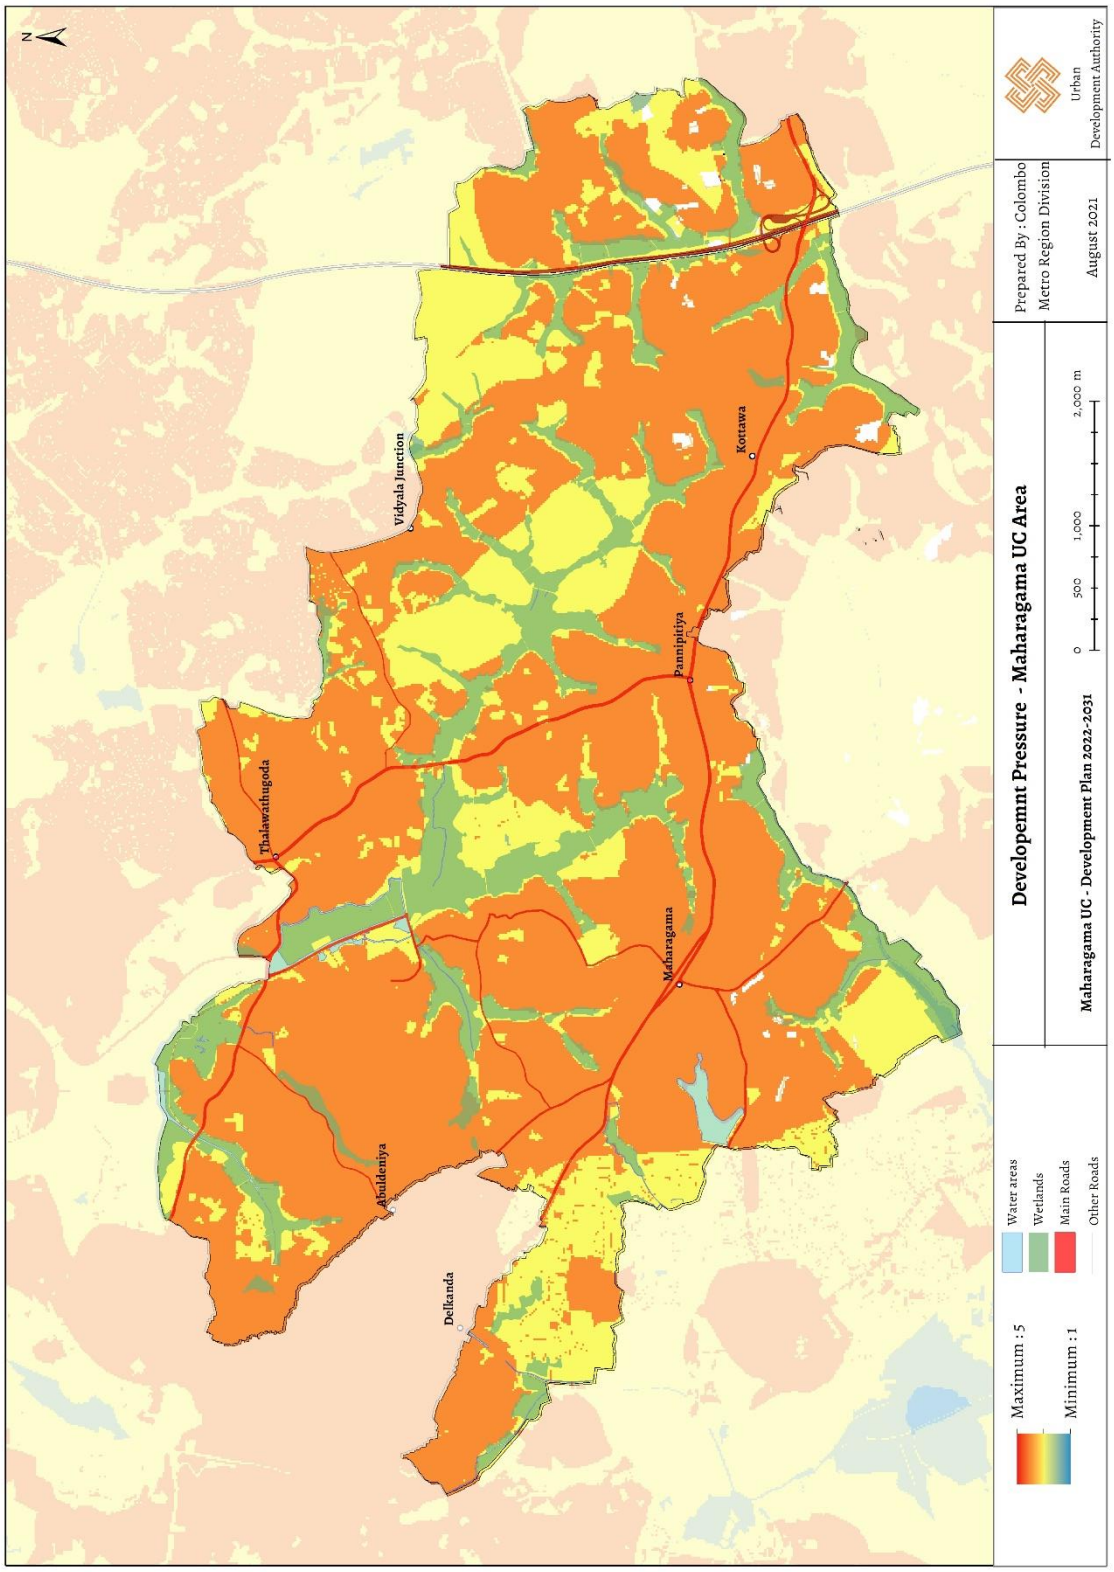

Accordingly, all these analyzes were used to determine the Planning boundary of the Maharagama area. However, Development plans are prepared for the all Local Authorities in the Colombo District. Accordingly, development plans are being prepared for the surrounding Local Authorities such as Kaduwela, Sri Jayawardenapura Kotte, Boralesgamuwa, Homagama and Kesbewa. Therefore, the Maharagama Urban Council area was used as the planning boundary for the Maharagama Development Plan as shown in Map 2.21.

03

Chapter

The need for a Development Plan

Chapter 03

The need for a Development Plan

3.1 Introduction

For the question of "What is the existing situation in the Planning Area", is expected to deliver an answer for the actual need of the Plan. In order to identify the direction of development plan and the future development of the city it is required to prepare a development plan.

The need of the plan was initiated with the problem identification mentioned by various stakeholders in the city. Service providers and users such as general public, residents and passengers were the main stakeholders who provide required information. They were consider and analyze about the various sectors and identified different issues and potential of the city limits. With that a deep analysis has been done to identify the root causes of the problems and it was able to define the existing problems in the area precisely.

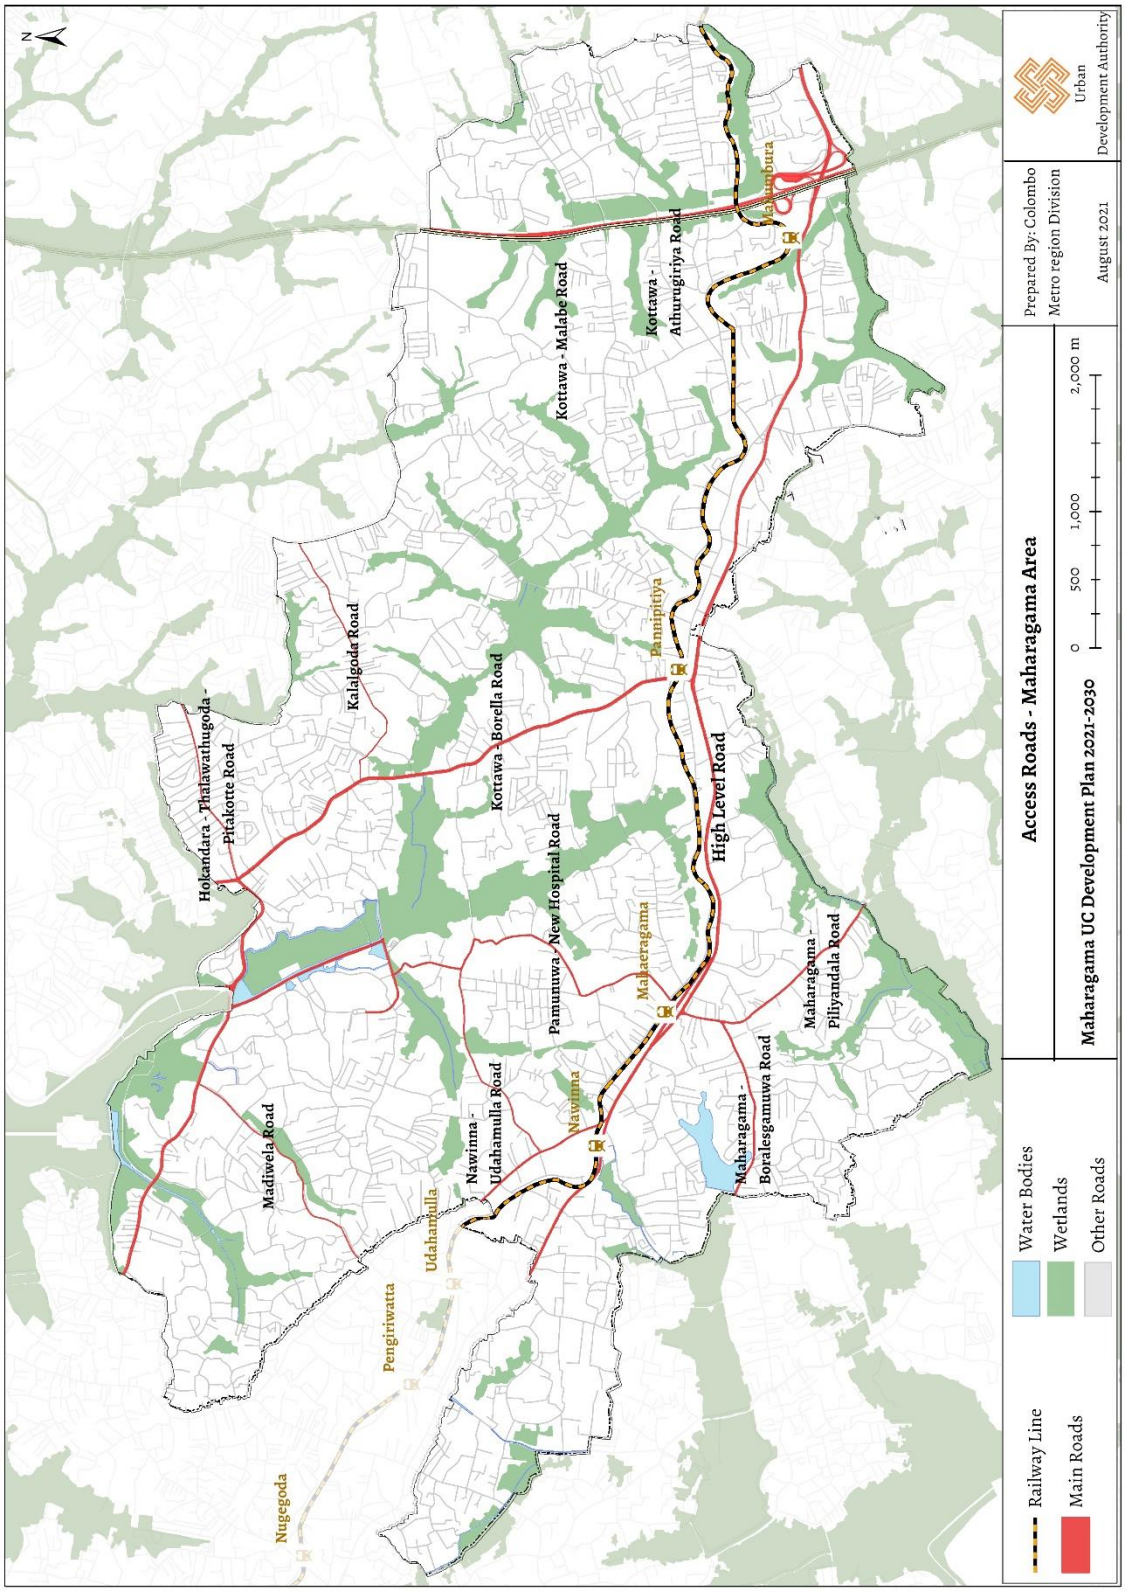

3.2. Analysis of the problems in planning area

3.2.1. Excessive Increase in Traffic Congestion

High Level Road, Kottawa - Borella Road, Pamunuwa - New Hospital Road, Maharagama - Boralesgamuwa Road, Maharagama - Piliyandala Road, Nawinna - Udahamulla Road, Hokandara - Thalawathugoda - Pitakotte Road, Maharagama - Kottawa Old Road, Kottawa - Malabe Road, Kottawa - Athurugiriya Road, Pannipitiya - Hokandara Road are the main roads which runs through the Maharagama Urban Council area and Maharagama beign located at a major junction, the demand for transport is relatively high.

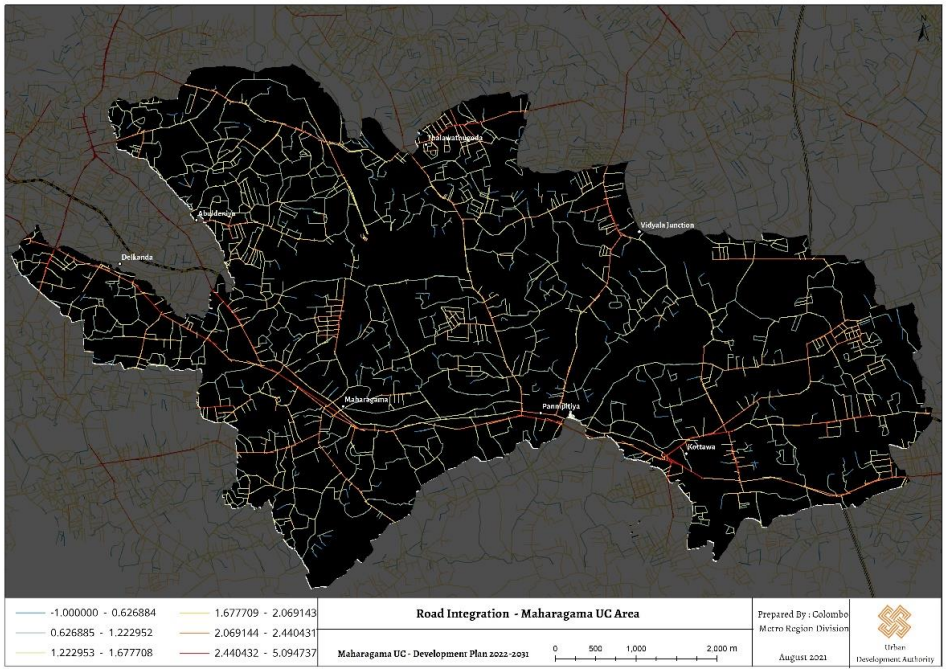

Further, compared with the Main access roads, the High Level Road can be identified as the entrance with the highest integration while maintaining the highest passenger attraction density.

Map 3.1 : Main Access Roads

Prepared by planning team, Colombo Metro Region division,Urban Development Authority,2021

Map 3.2 : Road Attraction

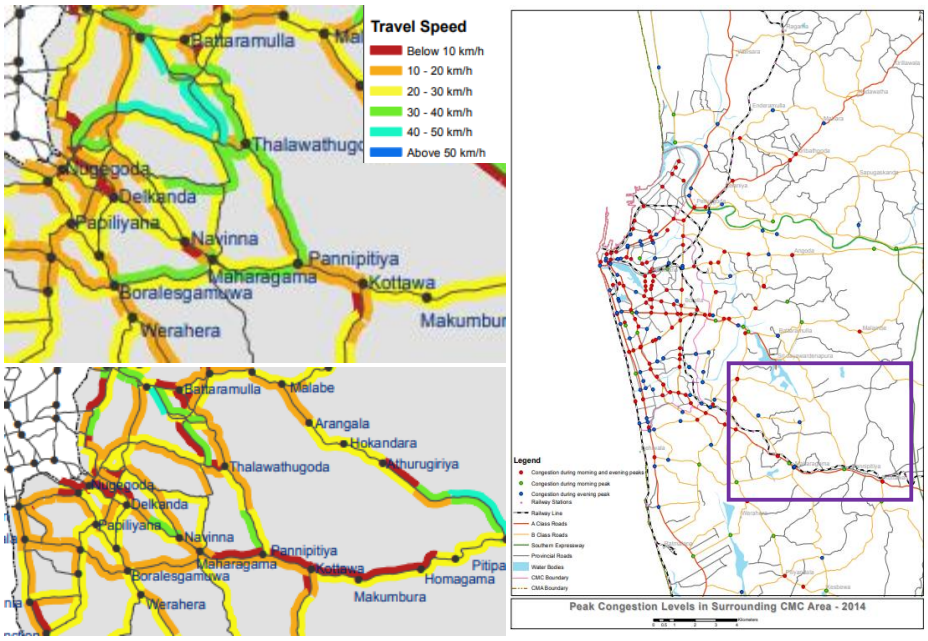

Prepared by planning team, Colombo Metro Region division,Urban Development Authority,2021

Compared to the access roads or corridor with main nodes of the Maharagama urban council area it was noticed commercial activities are mainly located around those main nodes. Nugegoda also can be identify as a gateway accordingly. Also the behaviors of the passenger attraction is vary for each corridor and nodes.

It was observed that number of vehicular movement and traffic congestion of the high level road is considerably increasing due to trading activities along with Pamunuwa Textile business, student population along with University of Sri Jayewardenepura and Youth Council of Maharagama and daily commuting population via Makumbura Multi model transport hub.

According to the results of the travel speed survey conducted in Colombo Metropolitan Zone and Suburbs under Urban Transport System Development Project, it has been identified that there is a heavy traffic congestion in the junctions such as Kottawa, Pannipitiya, Maharagama and Thalawathugoda and the speed is about 10 – 30 km per hour.further it was identified traffic congestion on the High Level Road is 2200 vehicles per hour and the traffic capacity is 2300 vehicles per hour.

Map 3.3: Travel Speed Survey results

Source: Urban Transport System Development Project for Colombo Metropolitan Zone and suburbs, 2014

Further, the Commercial City of Colombo is regionally connected through seven major roads. High Level Road is one of the main road and about 8% of the total traffic entering the city of Colombo passes through this road.

Traffic congestion will have a negative impact on economic development as the significant portion of the economic activities of the area are concentrated in parallel with the main road system. It is also estimated that the Sri Lankan economy loses 1.8% of GDP annually due to traffic congestion.

The above situation will be further exacerbated if appropriate solution is not given immediately as the demand for transport will increase rapidly in the future. Therefore, the need for a Development Plan to address traffic congestion in this area should be analyzed very critically.

3.2.2. Risk of Expansion of Current Residential Activities into Ecologically Sensitive Areas

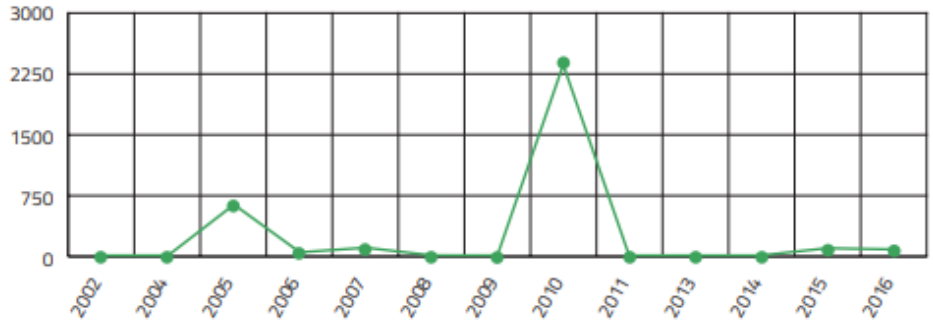

Maharagama Urban Council area consists most of the paddy lands and wetland zones in the Colombo district. According to the 2012 Census and Statistics Department, 8.5% of the population living in the Colombo District resides in the Maharagama Urban Council area. According to the resource profile reports issued by the Maharagama Divisional Secretariat in 2019, the total population in the Maharagama Urban Council area at present is 212,014, with the increasing population. That is, the aforesaid population of nearly 212,014 (8 %) in the Colombo District, which is home to about 40% of the total population of Sri Lanka, has chosen the area for their permanent residence. When compared with the other areas in the Colombo District, it ranks sixth in the total population of the district.

Also, the population growth rate during the period of 2001-2019 is 0.75% and in 2019 there is a rapid trend of population expansion towards rural areas as compared to 2001. Accordingly, the population in relation to the land use is 60.53% of the total land area which is approximately 2291.6 Ha could be seen as a residential development.

According to the analysis of ecologically sensitivity zones under the criteria of Paddy Lands, Marshy lands, Protection Zones (Parliamentary Conservation Zones), Wetlands (Part of the Bird Park Zone), Forests, Mountain areas, Flooded Areas, it was identified that Maharagama Urban council area consist with sensitive zones. The area consists with unique paddy lands and associated water ways contributes to the ecosystem balance and enhance the eco sensitiveness and the ecological beauty of the area. That helps to maintain water retention areas and balance the natural environment. However, with the growing population, current development projects are more towards to develop within sensitive areas.

Further discussions in this regard were also held at the Agriculture Committee on 12.10.2020 and it was revealed that the people of Thalapathpitiya and Navinna areas are at a risk of floods due to mismatch between development activities and ecosystems.

Figure 3.1: Number of families affected by floods in Maharagama

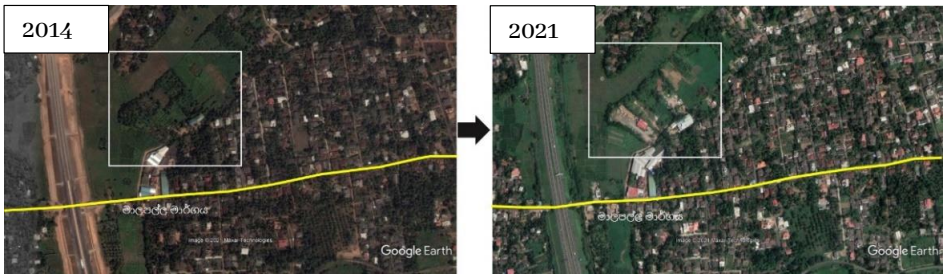

Source: Disaster Management Centre

As an example when implementing urban agriculture project at Thalapathpitiya there were inadequate drainages were to discharge the excess water. Due to that adjacent paddy lands were at great risk of flooding during rainy season.

However as mentioned above due to the development projects population also tend to move those areas. Maharagama is one of major city consisting eco sensitive systems which is located within Colombo district and located close proximity to capital city. Because of that it is a common sight to see paddy fields and low lands being converted into high lands and settlements being built over time. According to the calculations of the Sri Lanka Land Development Corporation, the green space in the area has decreased by 3.8 sq.km that is 10% during the period from 2008 to 2015.

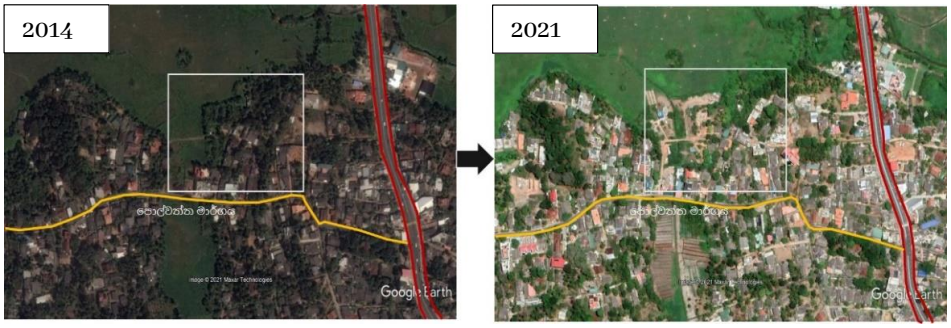

This situation can be identify from following examples which are located in wetland zones in year 2014 and 2021

Image 3.3 : Unauthorized land reclamation, Malapalla

Source: Google Map and Field Survey, 2014 & 2021

Image 3.2 : Unauthorized land reclamation, Polwatta

Source: Google Map and Field Survey, 2014 & 2021

image 3.4 : Unauthorized land reclamation, Siri Nanda Jothikarama rd

Source: Google Map and Field Survey, 2014 & 2021

Accordingly, the need to prepare a Development Plan has been identified in order to protect the sensitive zones in the area.

3.2.3 Potentials in the area not being used for development activities.

Sensitive zones in the Maharagama Urban Council area consist of marshy lands and wetlands which helps to retain the water. It can be noticed wetland conservation zones including bird park area, parliament reservation and water retention areas are being isolated due to underutilization and because of that people cannot enjoy those resources. Also it caused for the deteriorating of these resources.

Therefore, Government lands of monetary and aesthetic value have been degraded in the Maharagama Urban Council area which covers an area of 39.4 square kilometers.

As an example the large unused land within Maharagama town belonging to Al Gafoor Arabic College consisting 21 Acres which adjacent to Pamunuwa Textile area, playground of Senadhilankaragama which used for garbage disposal in Mirihana Police division, land adjacent to Navinna Playground consists with 12.5 Acres, Bird Park land in Parliament watershed consisting 37Acre 1Rood 20.44 perches, old factory land at Pannipitiya, Waljambugahawatta land at Pannipitiya consisting 2 Acre, abundant paddy land adjacent to Weera Mawatha Housing Project which is implemented by Urban Development Authority can be identify as failure of addressing the development of such eco systems.

It is required to prepare development strategies for Maharagama urban council area considering the existing wetlands. But it is challenging to protect such wetlands since rapid increase in unauthorized filling and construction on those lands. This situation has become a major problem in some parts of Maharagama.

Due to the unavailability of space around unauthorized housing constructions sewer and garbage is dispose to water sources nearby and it affects to the decline of bio diversity of wetland. As an example this situation can be seen nearby Madiwela, Pragathipura underserved settlement.

In addition to that as an environment and social issues can be identify as follow

- Disposal of garbage and waste water in to water sources by underserved settlement which is located along bird park and parliament reservoir with Diyawanna oya and caused to bad odor.
- Due to the disposal of solid waste in to Senadhilankaragama playground it causes to disrupt the balance of eco system of the area

- Disposal of garbage to the surrounding area of Green garden which is located near the Judge's official quarters of Udahamulla – East
- Destruction of marshy land called Kohila kotuwa located near Maharagama Cancer Hospital (Apeksha Hospital) due to garbage disposal
- Social issues: Creating an environment conducive to drug trafficking.
- Health issues: Risk of spreading infectious diseases and dengue menace during rainy seasons.
- Infrastructure Mitigation Problems - Construction of buildings blocking existing narrow roads and lack of proper width for those roads.

Further disposal of waste and waste water in to eco sensitive areas due to lack of proper waste water disposal system and solid waste management system it can be a major problem for the sustainable development in near future.

3.3. Analysis of the potentials in planning area

3.3.1. Achievement of maximum positive impact from the future Development Projects

- Light Rail Transit project

Transport and Traffic congestion has become a serious problem in Colombo and its suburbs. A number of projects have been introduced to address this problem, including the development of a Light Rail Transit system (LRT) and Multi model hubs. Map no 3.4 below shows the spread pattern of the Light Rail Transit system.

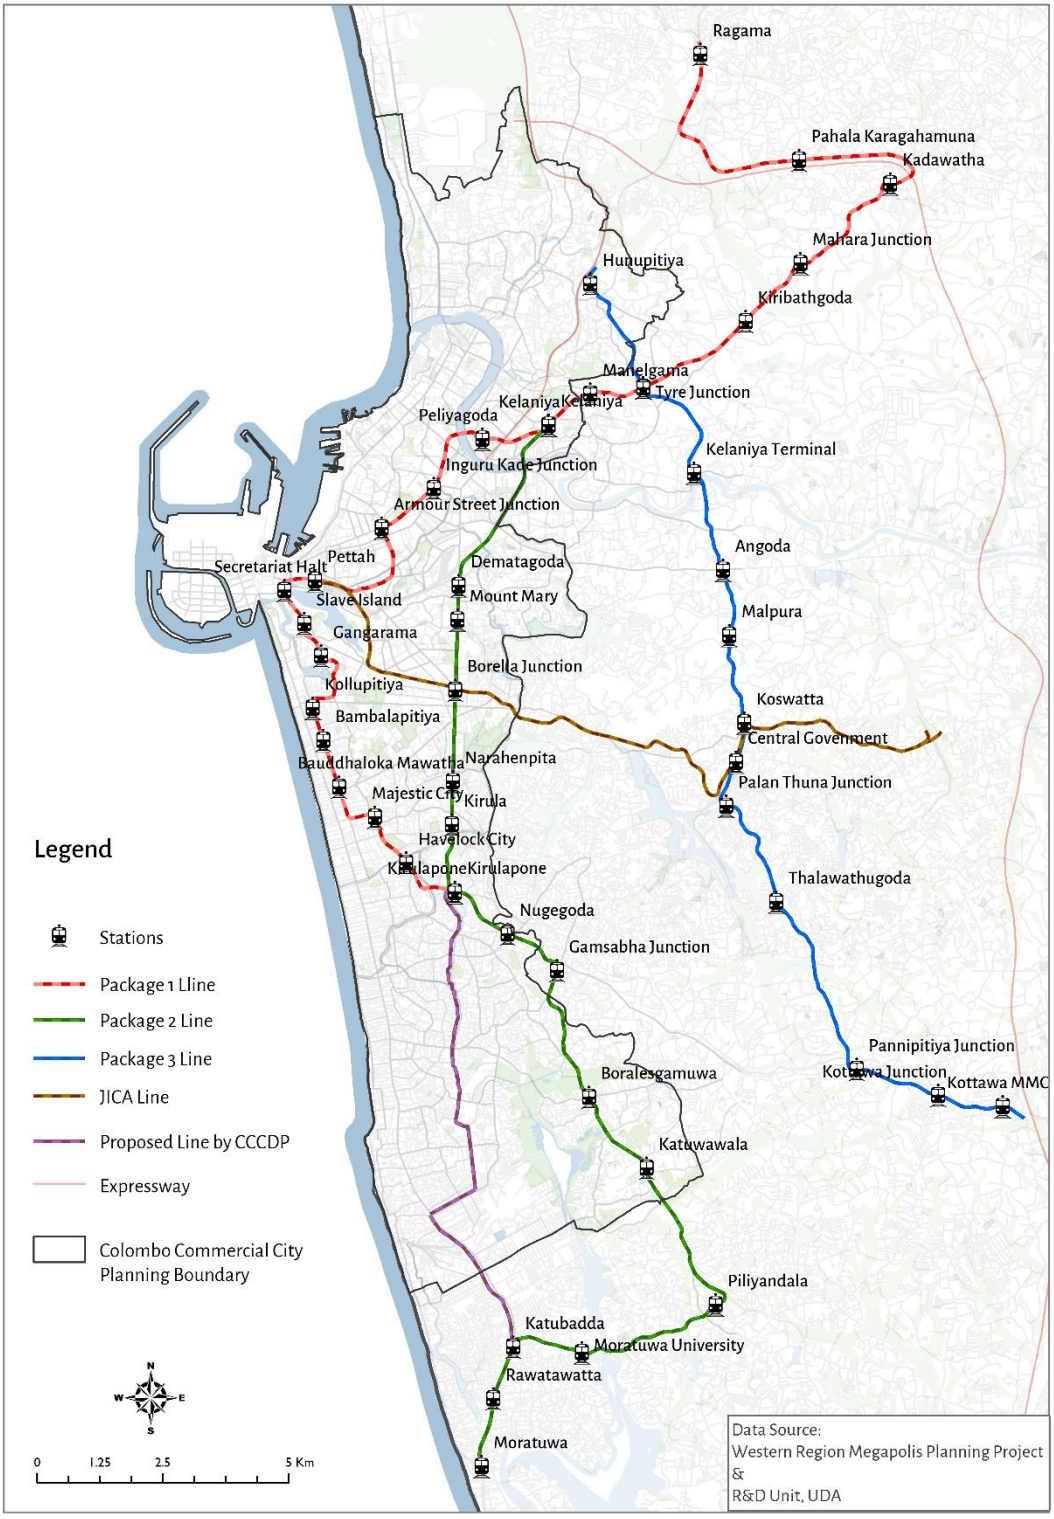

Blue line of light railway in the map starts from Hunupitiya and runs through Thalawathugoda, Kalalgoda, Pannipitiya, and Kottawa towards Makumbura Multi model Transport Centre.

This will positively affect to the development of the area.

- Development of Kelanivelly Railway Line as an electrified line

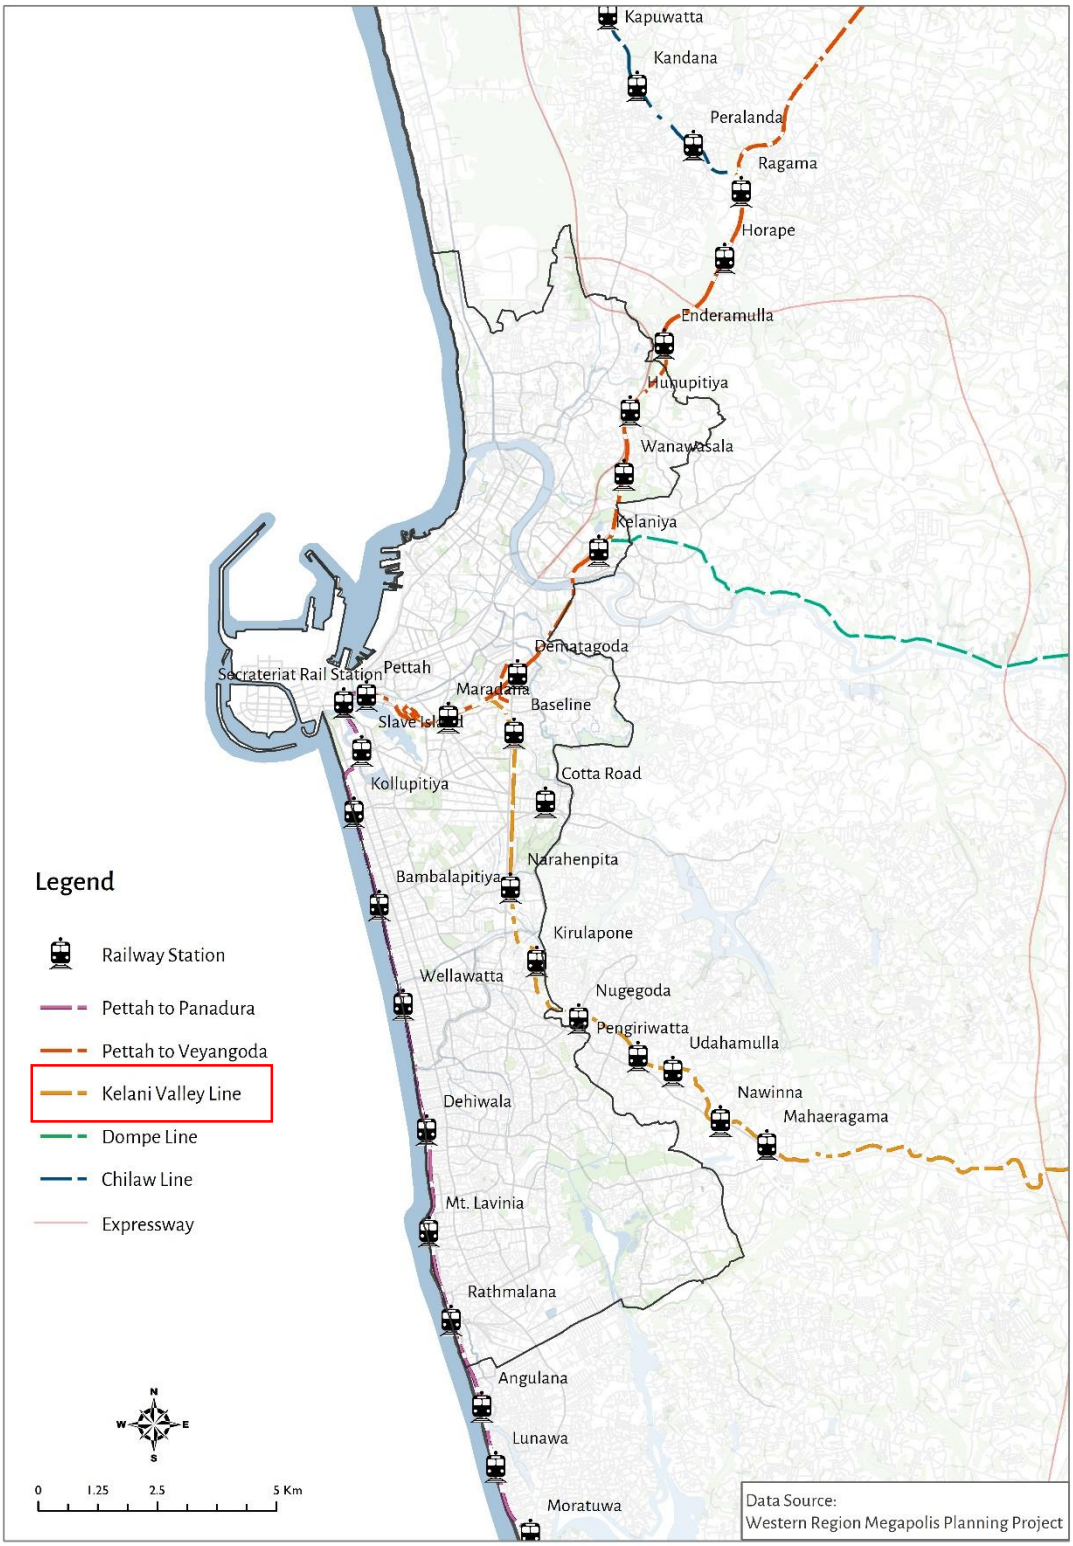

The Kelanivelly Railway Line, which starts from the Maradana Railway Station and runs through Navinna, Maharagama, Dambahena, Pannipitiya, Kottawa and Makumbura and reach Avissawella and it is proposed to develop as a dual electrified line with the objective of promoting infrastructure (Map no 3.4)

Map 3.4: Light Rail Transit project

Source: Western region Megapolis Planning Project

Map *3.5: Kelanivelly Railway Line as an electrified line*

Source: Western region Megapolis Planning Project

- Makumbura Interchange Development Project

The Makumbura Interchange Development Project was launched by the Urban Development Authority with the objective of creating a sustainable urban development and a new interchange township while integrating the bus and railway station. The Multi model Hub is aims to provide job opportunities, migration center activities, entertainment and other amenities. This project is very important as the Southern Expressway will facilitate the commuters who come to Colombo and reduce traffic congestion by reducing the number of passengers entering the city.

Accordingly, the Urban Development Authority has identified 21 Ac. of abandoned paddy land at Makumbura near the Makumbura Interchange for this purpose and action has been taken to develop it. 1.5 Ha of the above land has been utilized for a Multi model Centre. It consists of park and ride facilities, restaurants and lounges as well as an integrated bus destination, railway station and parking facilities. It is proposed in the Plan to use the rest of the land for affordable residential and commercial units, mixed development with other public amenities, including urban parks where people can relax.

The impacts from transportation activities through this area can be used for the proposed project in positive manner.

04

Chapter
Planning Framework

Chapter 04

Planning Framework

4.1 The Vision

"SMART ATTIRE OF COLOMBO"

4.2 The Vision Statement

The vision for the Maharagama area is to transform Maharagama into an attractive smart city with the unique image that has been established for Sri Lankan textiles while strengthening the transport and environmental potential of the region.

The implementation of this Plan aims to transform Maharagama into an attractive residential city with a safe and comfortable environment along with upgraded utility services and infrastructure. In the future, the entire Maharagama area will be more effectively covered by utility services and infrastructure systems, which will enhance the efficiency of the city's economic and social functions. Furthermore, a transportation system built in conjunction with the most convenient and diverse modes of transport in the area will speed up travel within and outside the city.

The Plan also aims to provide Smart healthcare system of particular importance at the national level. It also intends to transform Maharagama into an attractive wetland city in association with the wetlands as identified in the Capital Development Plan, which is a unique potential in the area.

In the future, Maharagama will be a city with a more developed, high quality, attractive living environment and real estate space while maintaining a unique image for textiles nationally.

4.3 Goals

In order to achieve the Vision of the Maharagama Development Plan, 2022-2031, four main objectives have been developed.

Goal 01 01 **A Comfortable Residential City**

This means creating a hygienic residential area with all amenities that is conducive to human habitation, away from urban congestion.

Goal 02 02 **A City with Efficient Infrastructure**

It is expected to establish a formal and efficient infrastructure system covering the entire Maharagama area.

Goal 03 03 **A City that Economically Attractive for Investment.**

It is intended to develop the Maharagama - Pamunuwa area, especially for the textile industry and other major junctions for attractive investment opportunities.

Goal 04 04 **A City with Well Protected Wetlands.**

It is expected to create an environment to achieve the development goals while protecting the natural environment.

4.4 Objectives

Goal 01 01 **A Comfortable Residential City**

1. To create attractive residential zones which will be free from disturbances for the residential community by the year 2031.
2. To assure an improved quality of life above minimum standards of underserved settlements.
3. to develop open outdoor and recreational facilities covering all residential areas in the Maharagama area by 1.5% (50 Ha.) of the total land area by the year 2031.
4. To Create a well-interconnected residential area that facilitates movement within the area.

Goal 02 02 A City with Efficient Infrastructure

1. To create transit oriented urban area centralizing the Makumbura Multi model Transport hub by integrating highways, electrified railways and light rail systems with enhanced connectivity between other cities.
2. To have an urban environment with state-of-the-art utilities and smart facilities enjoyable by all residents and commuters of Maharagama Urbn Council area by 2031.
3. To create a sport city by facilitating the Navinna area.
4. To Develop Thalapathpitiya, Kohilakotuwa and Navinna areas for providing smart health services.

Goal 03 03 A City that Economically Attractive for Investment.

1. To create an attractive Bazar type textile business area associated with Pamunuwa Textile business.
2. To develop Kottawa, Maharagama, Thalawathugoda and Vidyala Junction in a more productive manner by 2031.

Goal 04 04 A City with Well Protected Wetlands.

1. To introduce development and planning regulations to prevent the unauthorized filling of existing wetlands.
2. To sustainably develop and promote agriculture industry based on wetlands.
3. To develop water retention areas, water catchment areas and abandoned wetlands in an environmentally friendly manner as to attracts people.

05

Chapter

SWOT Analysis

Chapter 05

SWOT Analysis

5.1 Detailed SWOT Analysis

In order to achieve the vision of 2022-2031 Maharagama Development plan "Smart Attire of Colombo" the objectives were formulated by analyzing strengths, weaknesses, opportunities and threats of the area.

5.1.1 A comfortable Residential City

Table 5.1 : SWOT analysis for a comfortable Residential city

5.1.1.1 Strengths

1. Being an area with minimum amount of urban characters, when compared to other urban areas in Colombo district.
2. Taken as a whole, low residential density in all Grama Niladari Divisions except Maharagama Urban Area.
3. Availability of minimum amount of environmentally polluted buildings such as industries when compared to other areas.

5.1.1.2 Weaknesses

1. Expansion of settlements to environmentally sensitive areas with the increase in population and existence of high land prices.
2. Expansion of informal and underprivileged settlements.

5.1.1.3 Opportunities

1. As many middle income housing projects are being implemented in this area, there will be more residential attraction and opportunity for the people to meet their housing needs.
2. More attraction to Maharagama Urban area for residential development with the plan to establish all government institutions in the city of Battaramulla as well as location of Maharagama area very close to Battaramulla.
3. Ability to obtain better quality transport facilities to the people through location of Southern Expressway and Kottawa multi model transport center

5.1.1.4 Treats

1. Rapid use of agricultural and other cultivated lands for residential purposes.
2. Occurrence of natural disasters such as flash floods.

5.1.1.1 Strengths

01. Compared to the other urban areas in Colombo, Maharagama can be identify as an area with less urbanization characters

Maharagama is consists with different land uses. There are many important institutions such as National Cancer Hospital, Ayurvedic Research Institute, National Youth Services Council, University of Sri Jayewardenepura, Pamunuwa Textile Zone etc located at Maharagama. However other areas around Maharagama town center shows less urbanized characters.

Compared to other areas in the Colombo District, the areas such as Madiwela, Rukmale, Malapalla, Makumbura are developing with less urban features as well as less building densities along with agricultural activities.

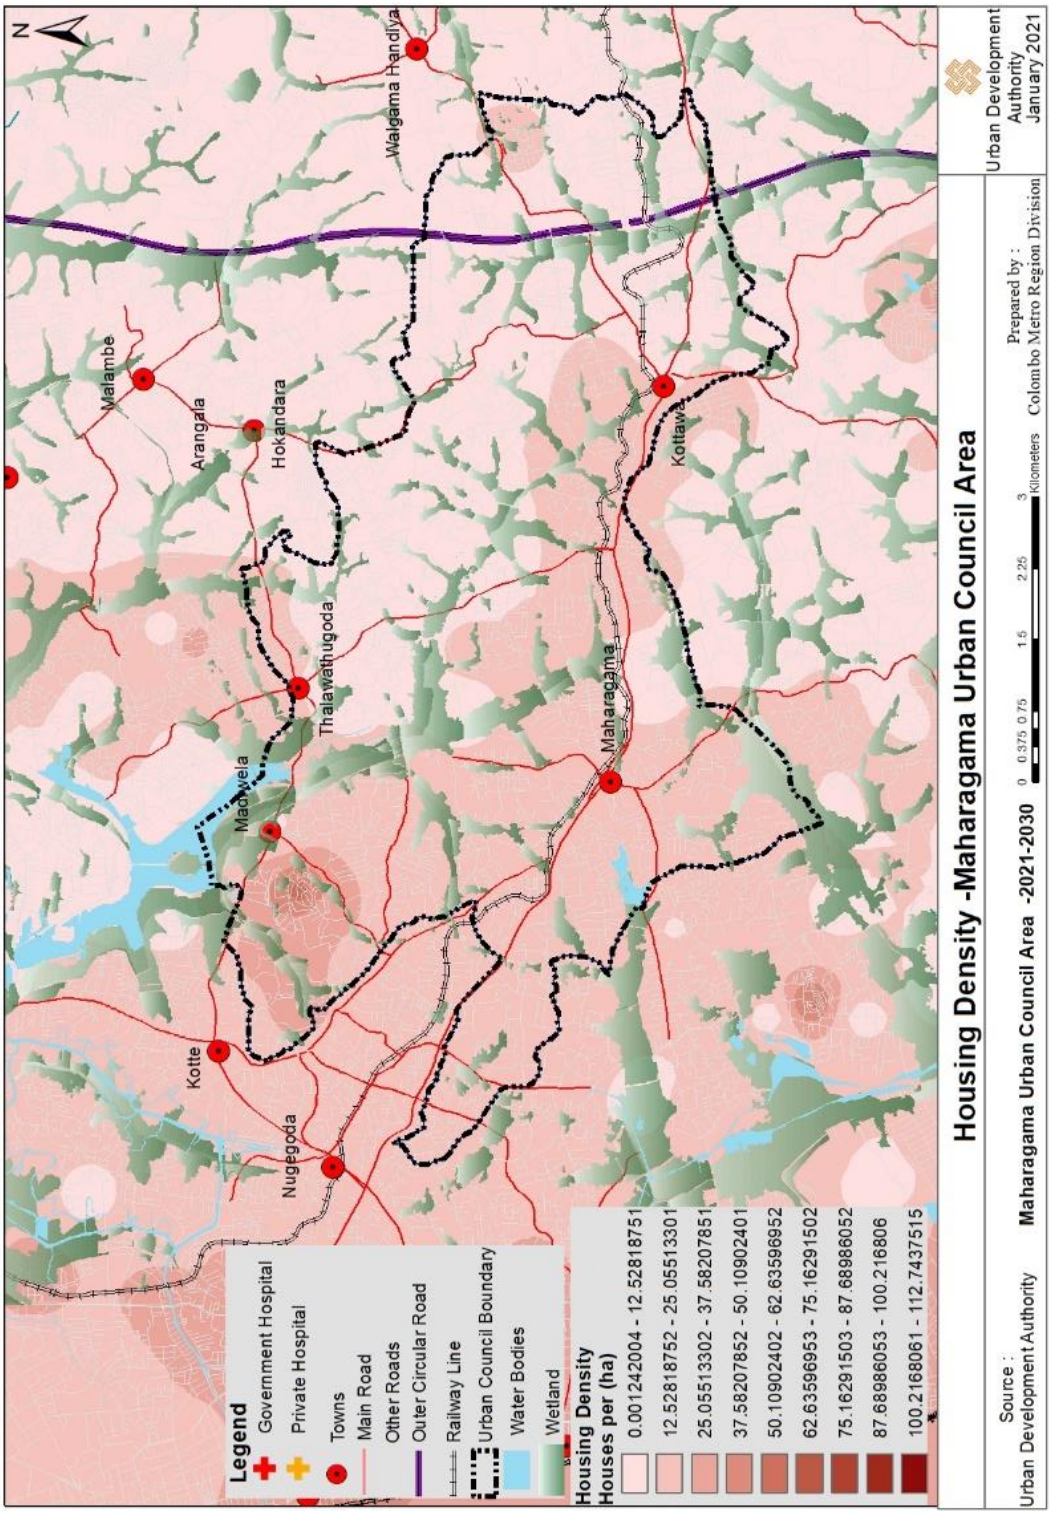

Although the sale of lands takes place in very small plots (6 Perches) within the town area, it seems to be around 15 - 30 perches when moving out of the city. Also due to the less development infrastructure including roads and drainages these areas have been developed as semi urban areas.

Further, In terms of land use in this area, the Resource Profile - 2019 shows that 1395 Ha which is 36.58% of the total land area has been reserved for home gardens also shows the less urbanized character.

02. As a whole, areas other than the suburbs of Maharagama have a lower residential density

The Maharagama area has a higher demand for residential use compared to other areas in the Colombo District. According to Resource Profile – 2019, 46% of the land area of Maharagama has been allocated for buildings (residential and non-residential). Further Wattegedara Grama Niladhari Division has been identified as the highest population in the area in 2019 and Rukmale Grama Niladhari Division has been identified as the lowest populous area.

Map 5.1: Housing density in Maharagama Urban Council

Prepared by: Colombo Metro Region Division, Urban Development Authority,2021

03. Being an area with minimal amount of polluting buildings such as industries when compared to other areas.

When compared to other areas in the Colombo District, very few industries can be found in the Maharagama area. Although industrial zones are established in Homagama there are no any industrial zones in Maharagama.

Industries such as Ceylon Biscuit Limited at Makubura, Jat Holdings, Hydramane, CKT Garment, Mega Heaters, and Orange can be identified as the major industries in Maharagama, while many other industries can be identified as textile related industries. In addition, small and medium scale industries such as printing, footwear manufacturing, assemble of electrical appliances, timber industry, vehicle service centres etc. are located in this area.

Most of the existing agricultural lands in the area are still under cultivation and therefore minimal pollution can recognize due to lack of large scale industries. Since existing industries are carried out in a manner that does not interfere with the residents, there is a greater opportunity to develop the Maharagama area as a residential area.

According to the Resource Profile of 2019, 46.39% of the total land area of the Maharagama area (1769 Ha.) has been identified as developed lands. It has also been identified that there are 1359 Ha. of home gardening lands as agricultural lands, 14 Ha. of rubber lands and 06 Ha. of coconut lands.

Table 5.2 : Land use pattern

Land use		Area(Ha)	% from total land area
Developed Lands (Areas with Buildings, Residential Areas, Industrial and Urban Areas)		1769	46.39
Agricultural Lands	Home Gardening	1359	36.58
	Rubber	14	0.35
	Coconut	06	0.15
	Paddy	510	13.38
Marshy Lands		46	1.21
Reservoirs		24	0.63
Other Lands (Rocky Lands, Vacant Lands, Sand dunes etc.)		49	1.28
Total Land Area		3813	100.0

5.1.1.2 Weaknesses

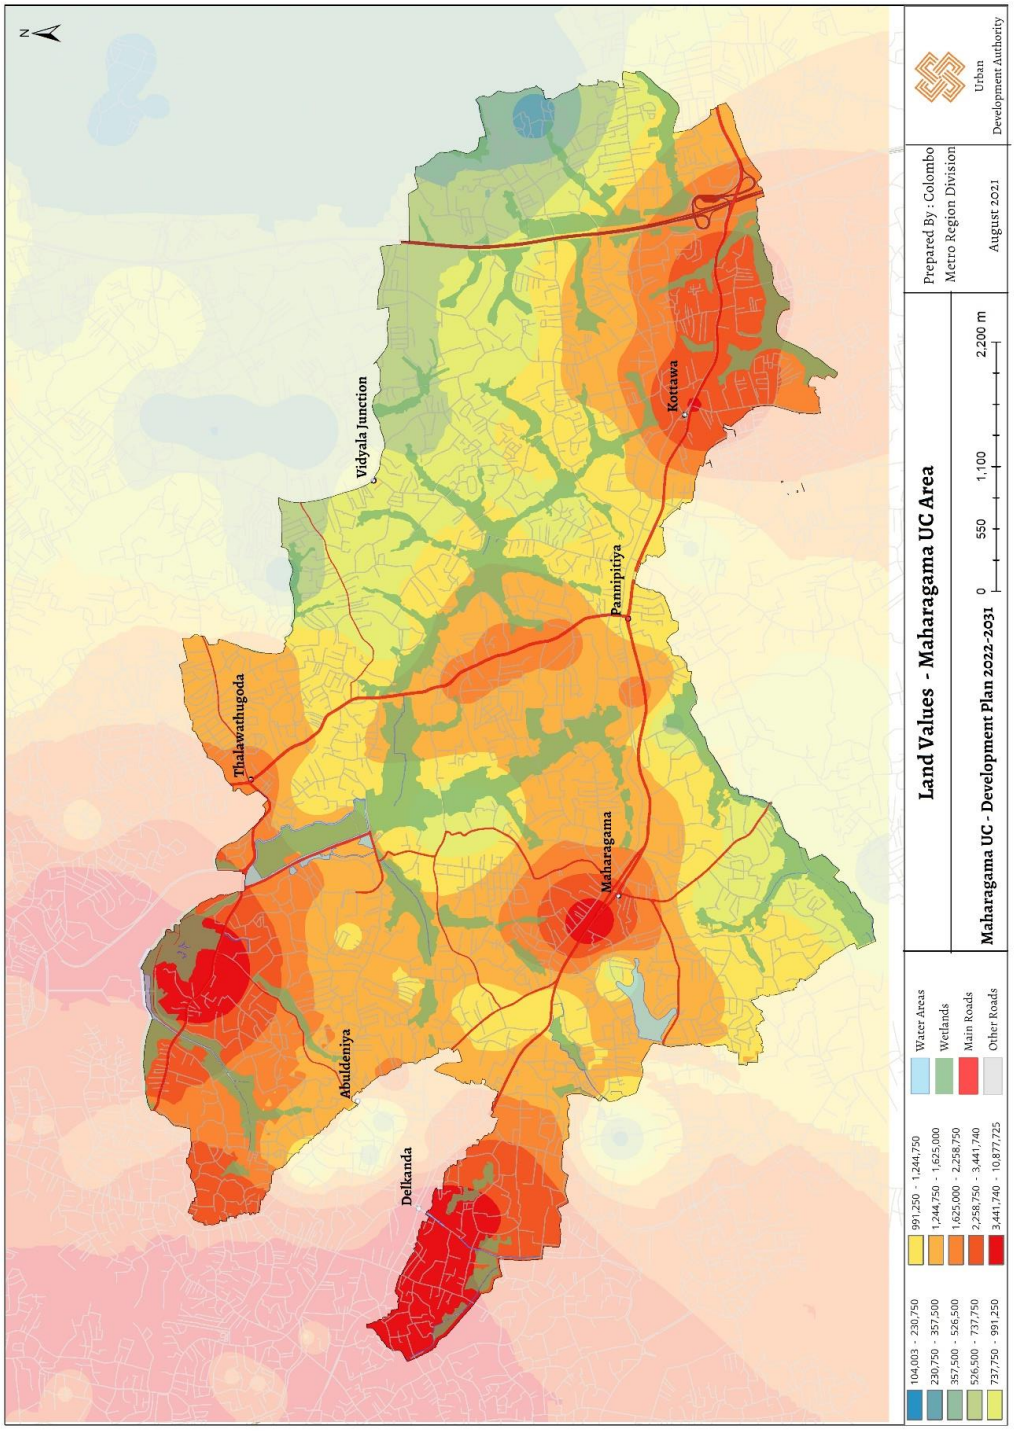

1. The expansion of settlements in to environmentally sensitive areas and increasement in land prices due to population growth

Since Maharagama Urban Council area is located in close proximity to Colombo District, there is a high demand for residential and commercial development. However, due to the inadequate lands around urban areas in Maharagama, wetlands, marshy lands and agricultural lands, which have been identified as eco-sensitive zones, are being reclaimed.

Due to that, eco-sensitive areas are being reclaimed illegally and highly used for residential and commercial purposes. As a result there is a possibility of having a flood situation due to irregular drainage and blockage of drainage system.

Accordingly, it is a strong impediment to the establishment of habitable, hygienic residential areas. Furthermore, it can be identified through the Map No. 5.2 that there is a high land price with the development of infrastructure also.

Map no:5.2 Land Values, Maharagama

Prepared by : Colombo Metro Region Division, Urban Development Authority,2021

2. Growth of informal and Underprivileged settlements

At present, with the rapid development of Maharagama, growth of informal settlements could be identified.

Areas on both sides of the railway line, Mirihana, Navinna, Madiwela, Pragathipura, Senadhilankaragama can be identified as areas with low income settlements. This is not as high as population density of other areas in the Colombo District such as Modara, Mattakkuliya, Bloemendal, Kolonnawa, Kotikawatta etc. but there is a possibility of expansion of existing settlements.

5.1.1.3 Opportunities

1. Implementation of middle income housing projects in this area.

At present, the Urban Development Authority (UDA) has initiated several middle income housing projects in the Maharagama area in order to meet the residential demand in relation to rapidly growing population.

Under the Middle Income Housing project Pannipitiya- Weeramawtaha, Kottawa-Kulasewana watta have been already commenced the construction works and proposed to provide about 2000 housing units from them. Also lands have been identified in Thalawathugoda, Makumbura, Thalapathpitiya for future projects.

Due to this kind of high-rise residential development projects it cater the residential demand within close proximity to city centers. Also it offering affordable and installment payment methods to residencies.

Table 5.3: Housing projects initiated by Urban Development Authority

No.	Housing Project	No. of Housing Units
01	Pannipitiya -Weera Mawatha	500
02	Kottawa – Kulasewana watta	300
03	Housing Project at Thalapathpitiya	250
04	Housing Project at Makumbura	314
05	Housing Project at Talawathugoda	Not decided.
06	Housing Project at Pannipitiya	Not decided.

1. Plan of locating all the government institutions in Battramulla, Maharagama having high demand for residential since it locate close proximity to Battaramulla

As per the proposed plan of locating all the administrative institutions in to one particular location along with the parliament which locate at Sri Jayawardhanpura Kotte many government Institutions have already been set up in Battaramulla.

Accordingly, it is required to provide housing facilities to accommodate people who work in such institutions. Therefore being located close proximity to Battaramulla, Maharagama will have a high demand for residential development.

2. Opportunities to obtain better transport facilities since Southern Expressway, Outer Circular Highway, and Makumbura Multi Model Transport Hub located at Maharagama Area.

The transportation system is an essential component of any residential area. Accordingly, the Kottawa entrance of the Southern Expressway, Makumbura Multi modal Transport Hub which are located in the Maharagama facilitate to the residents of Maharagama to reach other areas. According to the data of Makumbura Multi model transport hub, large no of residents were park their private vehicles and use the expressway daily to travel to work at the Karapitiya Hospital in Galle. Also recently introduced project of Park and Ride provides better transport facilities by providing special bus service to Fort and Bambalapitiya using limited stops. That is helps to people in Maharagama and others from outside Maharagama to Park the vehicles at Makumbura and use this shuttle bus service.

Figure 5.1: Park and Ride

Source: https://www.dailynews.lk/2021/01/16/local/238984/park-and-ride-city-bus-service-first-stage-launched

5.1.1.4 Threats

1. Usage of Agricultural lands, marshy lands and other cultivated lands in to residential development

Maharagama consists with 510 hectare of paddy lands, 14 hectare of Rubber and 06 hectare of coconut lands. Compare to the residential demand of the area those lands are rapidly transforming in to residential developments.

According to the Sampath Petikada 2019, it identified abandon paddy lands in Mahargama such as Kalalgoda (51A 1R 12.00P), Thalawathugoda (25A), Godigamuwa (53A) and those land are beign reclaimed. Also the coconut and rubber lands are being subdivided and use for selling purpose rapidly and it has become threat to the area.

Figure 5.2 · ***Rukmalgama Horahena Road, year 2010 and 2020***

Source: Google map & site inspection 2010,2021

2. Occurrence of natural disasters such as floods.

With the increase in building density in the Maharagama area, buildings have been constructed blocking the natural water flows. Also, due to construction of improper drainage system and reclamation of wetlands have contributed to natural disasters such as floods. Accordingly, as discussed in Chapter 3.2.2 it can be seen that floods are occurring in the areas such as Maharagama, Navinna and Thalapathpitiya at present and it will be a major threat in the future

5.1.2 A city with efficient infrastructure

Table 5.4 : SWOT Analysis for a city with efficient infrastructure

5.1.2.1 Strengths

1. Availability of efficient transport service due to existence of the High Level Road, Kelaniweli Railway line and the Kottawa multi modal transport center.
2. Availability of Health Centers of nationally importance in the country.
3. Availability of Educational Institutions with nationally importance.

5.1.2.2 Weaknesses

1. Improper use of multi-storied car park constructed in the city center
2. Lack of adequate space and proper system for disposal of solid waste and sewage due to increase in urban population density.

5.1.2.3 Opportuni-

1. Implementation of several urban development projects due to its close proximity to the city of Colombo.

5.1.2.4 Threats

1. Heavy traffic congestion in High Level Road

5.1.2.1 Strengths

1. Availability of efficient transport service due to existence of the High Level Road, Kelanivelly Railway line and the Kottawa multi model transport center.

Passenger transport service has been operated within Colombo and outer Colombo through High Level road, Kelani Velly Railway line and Kottawa Multimodal Transport centre. Large number of people migrate daily to the Maharagama City and use both bus and train facilities.

The Kelani valley railway line runs through Maharagama and there are five stations namely Navinna, Mahrgama, Kottawa, Pannipitiya, and Makumbura provides effective service to the passengers. The people who are working at areas such as Colombo, Kottawa, Homagama, Padukka, Awissawella etc use the train service in order to obtain better transport facility.

Accordingly, due to major highways, railways and expressways run across the city of Maharagama, provide a great opportunity to the long term development of the city.

2. Location of Nationally Important Health Centers in the country

Due to the location of several nationally important health centers in the Maharagama area, residents and other people from all over the country come to seek health facilities. Accordingly, the major health centers located in this area are as follows.

- National Apeksha Hospital / National Cancer Institute
- Sri Jayewardenepura Hospital
- Ayurvedic Research Institute
- Dental Nursing Training Institute
- Private Hospitals

Figure 5.3 : Nationally Important Health Centres located in Maharagama

Source:- from the internet

2. Location of nationally importance educational institutes

There are 24 schools can be identified in Mahragama UC area. It consists with 06 "A" and "B" grade category schools including national schools, 07 number of "C" category schools, 07 number of category "2" schools and 06 number of category "3" schools.

Also being location of nationally importance education institutes such as University of Sri Jayawardhanpura, The faculty of Teachers Education and Youth Service Council the area is well developed with relevant facilities.

Figure 5.4 : Nationally Important Educational Centres located in Maharagama

Source:- from the internet

5.1.2.2 Weaknesses

1. Lack of proper use of parking building in the city center

At present Maharagama can be identify as a crowded city. Although a multi storied car park has been built on the land behind the National Youth Services Council which is located in the city center, the number of users of this car park is very limited. The main reason for this situation is due to the linear development of the city and the consumers are in the habit of parking their vehicles in front of the venue. As a result, vehicles are being parked on both sides of the road, causing a huge traffic jam.

2. Lack of adequate space and proper system for disposal of solid waste, sewage and waste water due to increasing urban population density

Maharagama Urban Council is the main authority of managing solid waste in the area and lack of space for separate solid waste can be identified as a main issue. With the growth of population in the area it is required to find proper sites for solid waste and waste water dumping.

5.1.2.3 Opportunities

1. Due to its proximity to the city of Colombo, many Urban Development Projects are being implemented in this area.

Being located close proximity to city of Colombo, location of nationally important institutions in the Maharagama and being located bordering to parliament and administrative city of Battaramulla Maharagama receives special attention in the implementation of projects.

The Projects such as Modern paddy field and Linear Park constructed at Kimbulawala and Madiwela, Boralesgamuwa Lake Development Project, New Bus Stand at Navinna and Kottawa, Makumbura Multi model Transport Centre, proposed Double Track Railway Project, Colombo Metro Line (blue line) etc. has provided transportation and other infrastructure facilities and other requirements for the residential community.

Figure 5.5 Town Development Projects

Source: Internet

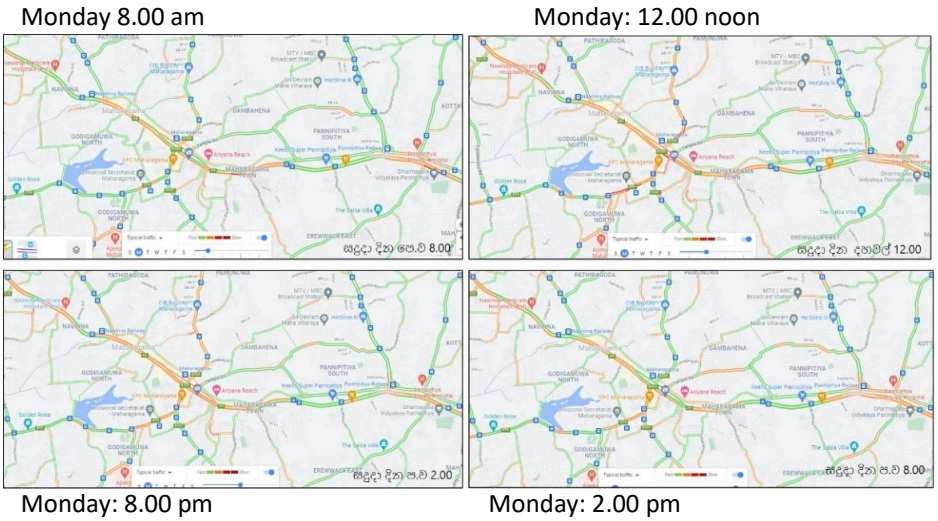

5.1.2.4 Threats

1. Traffic congestion on access roads from Colombo to Maharagama

Traffic congestion is a major problem in the city of Maharagama. It is noted that the traffic congestion is mainly happening from 7.00 am to 9.00 am in the morning, from 1.00 pm to 2.00 pm in the afternoon and 5.00 pm. 6.30 pm in the evening. The traffic congestion from 5.00 pm to 6.30 pm is more severe than the morning and afternoon traffic.

The High Level Road is heavily congested in the evenings due to traffic moving out of the city. The intersections and roundabouts in the city center are heavily congested during this period

Figure 5.6 : Traffic congestion

Source: Google map ,2021

Accordingly, the root causes of traffic congestion are as follows

- Due to the existence of outer circular highway at Makumbura, High-level road use as a access to the City of Colombo
- Linear commercial development along access roads
- Attracting people to the business places located on the main road due to the availability of public facilities along the main roads
- Expansion of textile related businesses on both sides of the Pamunuwa Road.
- Existence of unplanned intersections in the city center
- Inadequate development of alternative roads

5.1.3 A city which is attractive for economic investments

Table 5.5: SWOT analysis for A city which is attractive for economic investments

5.1.3.1 Strengths

1. Availability of many small and medium scale textile businesses located in associated with Pamunuwa.
2. Maharagama being the most famous textile city in Sri Lanka.
3. High public attraction for the main junctions due to the proper connection with the surrounding areas.

5.1.3.2 Weaknesses

1. Many unauthorized and temporary structures have been constructed on both sides of the road and railway line due to the limited space available for commercial activities.
2. Inadequate facilities for people who come to get services as well as for the vendor

5.1.3.3 Opportunities

1. Creation of new employment opportunities and economic development.
2. Submitting proposals for the systematic development of the Pamunuwa area through the Proposed development Plans and thereby increasing the local and foreign attraction.

5.1.3.4 Threats

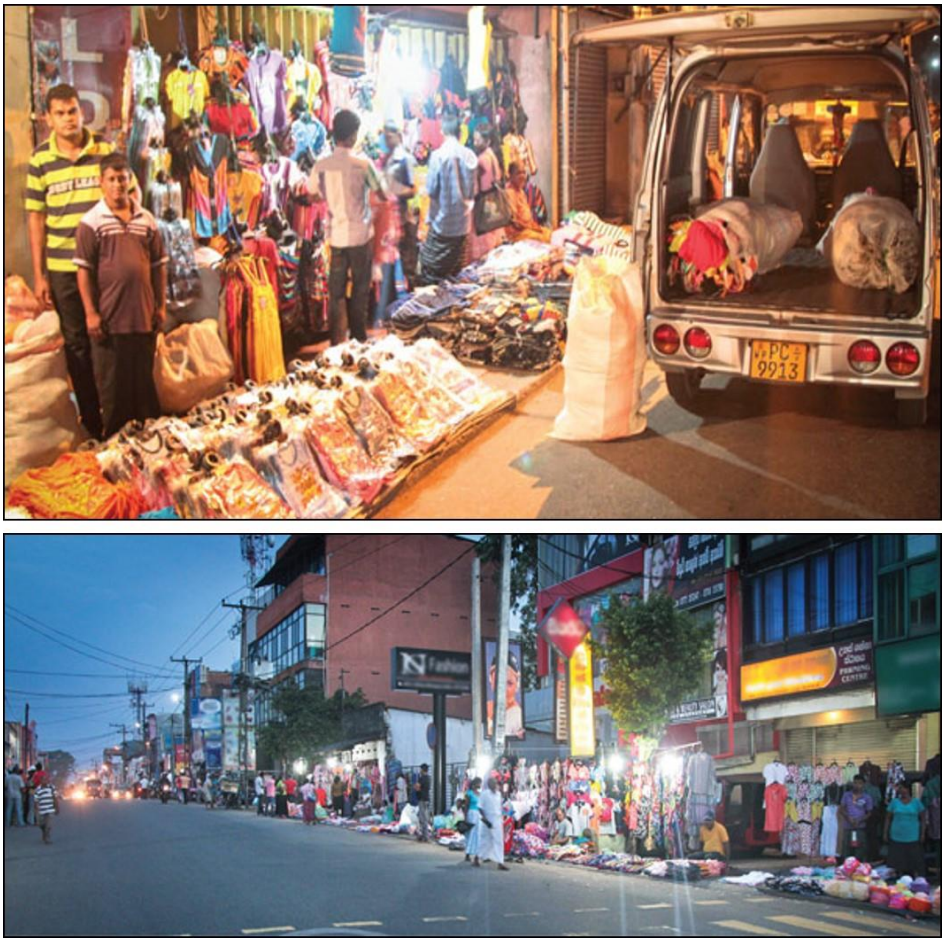

1. Conflicts of opinion among traders and political influence

5.1.3.1 Strengths

1. Location of many small and medium scale textile businesses associated with Pamunuwa

Maharagama city is famous for the textile business in Sri Lanka. At present, textile related businesses are widespread in Maharagama town and on both sides of Pamunuwa road. The morning textile trade is mainly found in the City Centre and it takes place between 4.00 am to 7.30 am. There are about 600 vendors during this time while at noon there are about 1200 vendors engage in this trade.

Figure 5.7 : Textile Industry in the Maharagama Area

Source: From Internet

Figure 5.8 : Areas of textile industry located

Source: Prepared by Colombo Metro Region,Urban Development Authority,2021

2. Maharagama being the most famous textile city in Sri Lanka.

Compared to the other cities in Sri Lanka, Pamunuwa textile business is in Maharagama is well known in nationally. Raw materials, wholesale business, readymade garments, and Remnant pieces are the main selling items with affordable price. Therefore, buyers come from various parts of the country such as Galle, Matara, Badulla, Embilipitiya, Ratnapura to buy cloths in bulk and return homes through the long distance transport services which goes through the city.

3. High public attraction for the major intersections due to the connection with surrounding areas

City of Maharagama is well connected with surrounding areas such as Dehiwala, Piliyandala, Nugegoda, Kottawa, Battaramulla etc. Also since city is connects with Highlevel road,old Kottawa road and Kelani Velley Railway line it cause for the such attraction.

Figure 5.9: Connection with surrounding town centers

Prepared by Colombo Metro Region, Urban Development Authority, 2021

5.1.3.2 Weaknesses

1. Many unauthorized and temporary structures have been constructed on both sides of the road and railway line due to the limited space available for commercial activities.

These shops occupy the pavements on both sides of Pamunuwa Road and are now spread on both sides of the railway line. It has been identified that the textile business has been expanded in connection with the Maharagama town and along the Pamunuwa road as follows

Table 5.6 : shops along Maharagama and Pamunuwa Road

Type	No. of Units
Permanent Shops	520
Semi Structured Shops	192
Temporary	298
Pavement Vendors	68
Other Shops (Hardware sales outlets, Café etc.)	35
Total	1113

Source: field observation, 2021

2. Inadequate facilities for people who come to get services as well as for the vendor

Maharagama is a city with a large amount of daily commuting population. Compare to the population adequate parking facilities, sanitation facilities, and the resting areas are not adequately available at the city Centre. Due to that people coming to the town facing inconvenienced.

5.1.3.3 Opportunities

1. Emerging of new employment opportunities and economic development

There are number of new employment opportunities are emerging in Maharagama due to various projects such as road development, housing etc implemented by different institutions. Due to that emerging of direct and indirect employment opportunities effected to the area's economy.

2. **Submission of proposals for the systematic development of the Pamunuwa area through the proposed Development Plans and thereby increase the local and foreign attraction.**

Availability of low cost readymade garments, reminant pieces, and raw materials cause to increase local and foreign attraction to the area. Higher number of traders and buyers visit to the area every day and with the new planning proposals it is planned to design the area properly in order to increase the local and foreign attraction.

5.1.3.4 Threats

1. **Different opinions of traders and political issues**

Although proposals have been made by various governments in the past to develop the Maharagama textile industry as a major economic hub at the national level, so far it has failed to achieve. There are several reasons for this situation as follow

- Existence of various conflicting political ideologies and changes in government policies.
- Contradictory views of the people engaged in the textile industry and various conflicts of opinions regarding trade.
- Difficulties in releasing lands for develop textile related industries
- Unauthorized constructions within building line of Pamunuwa road and lack of space for parking

5.1.4 Establishment of wetland protected green city

Table 5.7 : SWOT analysis for establishment of wetland protected green city

5.1.4.1 Strengths

1. Most of the eco-sensitive areas around the city of Colombo are located in the Maharagama Urban Council area.
2. 2. Declaration of Colombo as a Wetland City by the Ramsar Convention (COP13).

5.1.4.2 Weaknesses

1. Blocking of drainages due to improper discharge of waste in to waterways and occurring of flash floods
2. Inadequate space for leisure and playground areas compare to the population growth

5.1.4.3 Opportunities

1. Implemented urban green projects (Urban Agriculture project at Madiwela)
2. Bird Park Project
3. Urban Agriculture project at Delgahawatte
4. Proposed Kalagoda wetland

5.1.4.4 Threats

1. Unauthorized reclamation of wetlands and paddy lands nearby city and establishment of human settlements.
2. Obstruction of natural waterways due to unauthorized construction and waste disposal

5.1.4.1 Strengths

1. Most of the eco-sensitive areas around the city of Colombo are located in the Maharagama Urban Council area

Paddy lands can be identify as a main eco sensitive areas in Maharagama Urban Council area. There are about 462.89 Ha of paddy lands are spread over the planning area. Also about 67.4 Ha of marshy lands located within the Northern and Western side of the Urban Council area. In addition, 37.2 Ha of reservoirs, 1.7 Ha of abandoned paddy lands and ecologically sensitive areas are also included in this area.

2. Declaration of Colombo as a Wetland City by the Ramsar Convention (COP13).

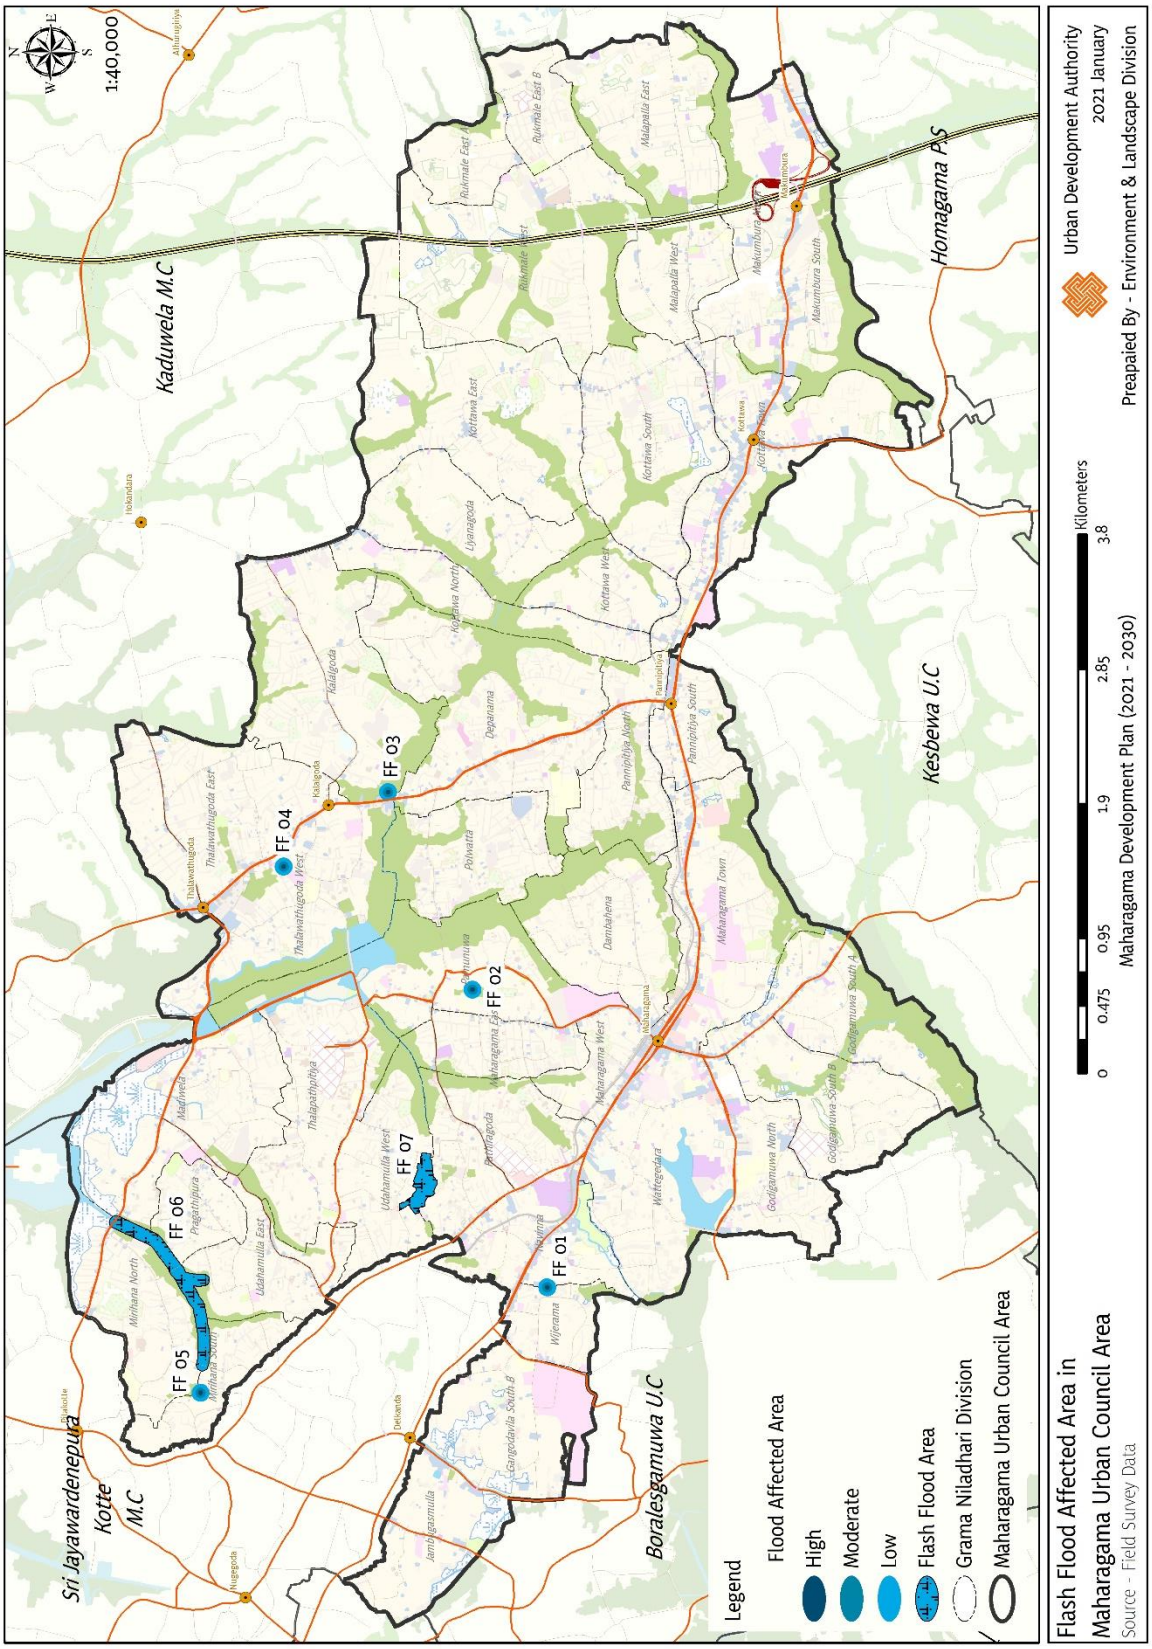

At the 13th Summit of the Ramsar Convention on Wetlands (COP13) held in Dubai on 25th of October 2018, 18 cities around the world have been declared as Wetland Cities and Colombo become the only wetland city in South Asia taking in to consideration the importance of the environmental service rendered by the wetlands around Colombo. Accordingly, sustainable use of wetland areas and wetland dependent cities will be encouraged.

5.1.4.2 Weaknesses

1. Blocking of drainages due to improper discharge of waste in to waterways and occurring of flash floods

Urban garbage disposal is a serious problem nowadays and the same situation can be seen in the Maharagama area. It affects to the occurrence of various diseases and hazards due to garbage disposal in water catchment areas, marshy lands and abandoned paddy lands. Also, due to the blockage of those water areas during the rainy seasons it cause to flood situation. Flooding areas in Mahargama Urban Council area can be identified on the map below.

Map 5.3 : Flash Flood affected area in Maharagama Urban Council Area

Prepared by planning team, Environment and Landscape Division, Urban Development Authority, 2021

2. 2. Inadequate space for leisure and playground areas compare to the population growth

According to the resource profile of Maharagama in the year 2016 and 2019, the population has increased by 4837 by the year 2019 when compared to the year 2016. Accordingly, the population density has increased up to 5381 per sq.km by 2019 compare to 5258 per sq.km.in year 2016.

Therefore, due to the growth of residence and migrated population, it is required more public open and recreational spaces in the area. Consider to surrounding uses of

Compare to the growth of population of the Mahragama City area and its surroundings inadequate open spaces, play grounds, leisure places can be identify as a main weakness of the area. Therefore, it is required to pay attention for this matter seriously.

Currently, there are 28 playgrounds and parks are available in the Maharagama Urban Council which is about 24.82 Ha of the total area. As per the guidelines prepared by Urban Development Authority it is required 0.75 Ha of playgrounds and public spaces for every 1000 people. Accordingly, by 2019, the Maharagama area has a population of 212,014 and public open spaces are at a minimum level.

5.1.4.3 Opportunities

1. Implemented urban green projects (Urban Agriculture project at Madiwela)
2. Bird Park Project
3. Urban Agriculture project at Delgahawatte
4. proposed Kalagoda wetland project

Urban agricultural projects have been implemented in the Maharagama Urban Council area at present. Accordingly, the development carried out in Kimbulawala and Madiwela areas is attracting a large number of people and the re-cultivation of vacant paddy lands has been started. Due to these farming activities which are carried out using organic farming methods, it is possible for the people in the area to get nutritious food. Also, as this project is being implemented successfully, people have submitted ideas and suggestions to implement similar projects in other areas as well.

Figure 25: (Left side) Madiwala and (Right side) Kimbulawala Urban Agricultural Projects

Source: internet

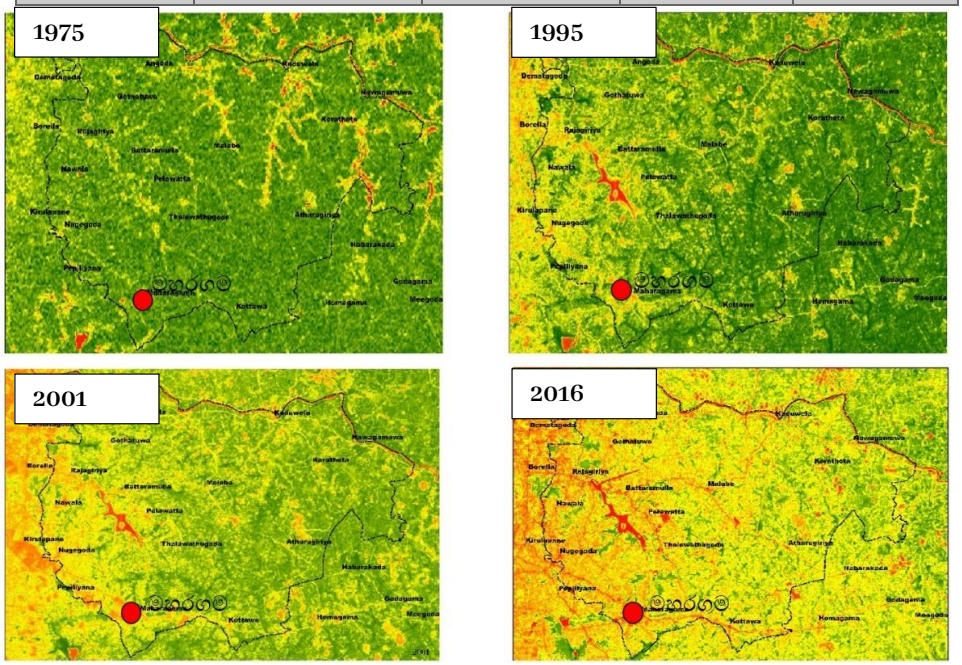

5.1.4.4 Threats

Unauthorized reclamation of wetlands and paddy lands nearby city and establishment of human settlements.

The maps and table below shows how wetlands in Maharagama area have decreased by 10.79% during the period 2008-2015.

Tbale 5.8 : Changes in greenary areas in Maharagama

Local Authority	Green Area - 2008 (Km²)	Green Area 2015 (Km²)	Change (Km²)	Percentage (%)
Maharagama	35.649	31.802	-3.847	10.79

Map 5.4 : Changes in greenary areas in Maharagama

Source : Capital City Development Plan, Urban Development Authority

2. Obstruction of natural waterways due to unauthorized construction and waste disposal.

Natural waterways have been blocked due to unauthorized landfills in wetland areas. Also, due to improper maintenance of main canals and by-canals and the presence of invasive plants in the area is further blocked the drainage. Due to this situation floods will occur in areas such as Navinna, Thalapathpitiya etc.

06

Chapter

The Plan

Chapter 06
The Plan

6.1 Concept Plan

The City of Maharagama began to embark on the right approach to revive the desired urban transformation that would lead to its ten-year vision of the "Smart attire of Colombo", its future vision, with the Development of a Conceptual Plan for the City of Maharagama.

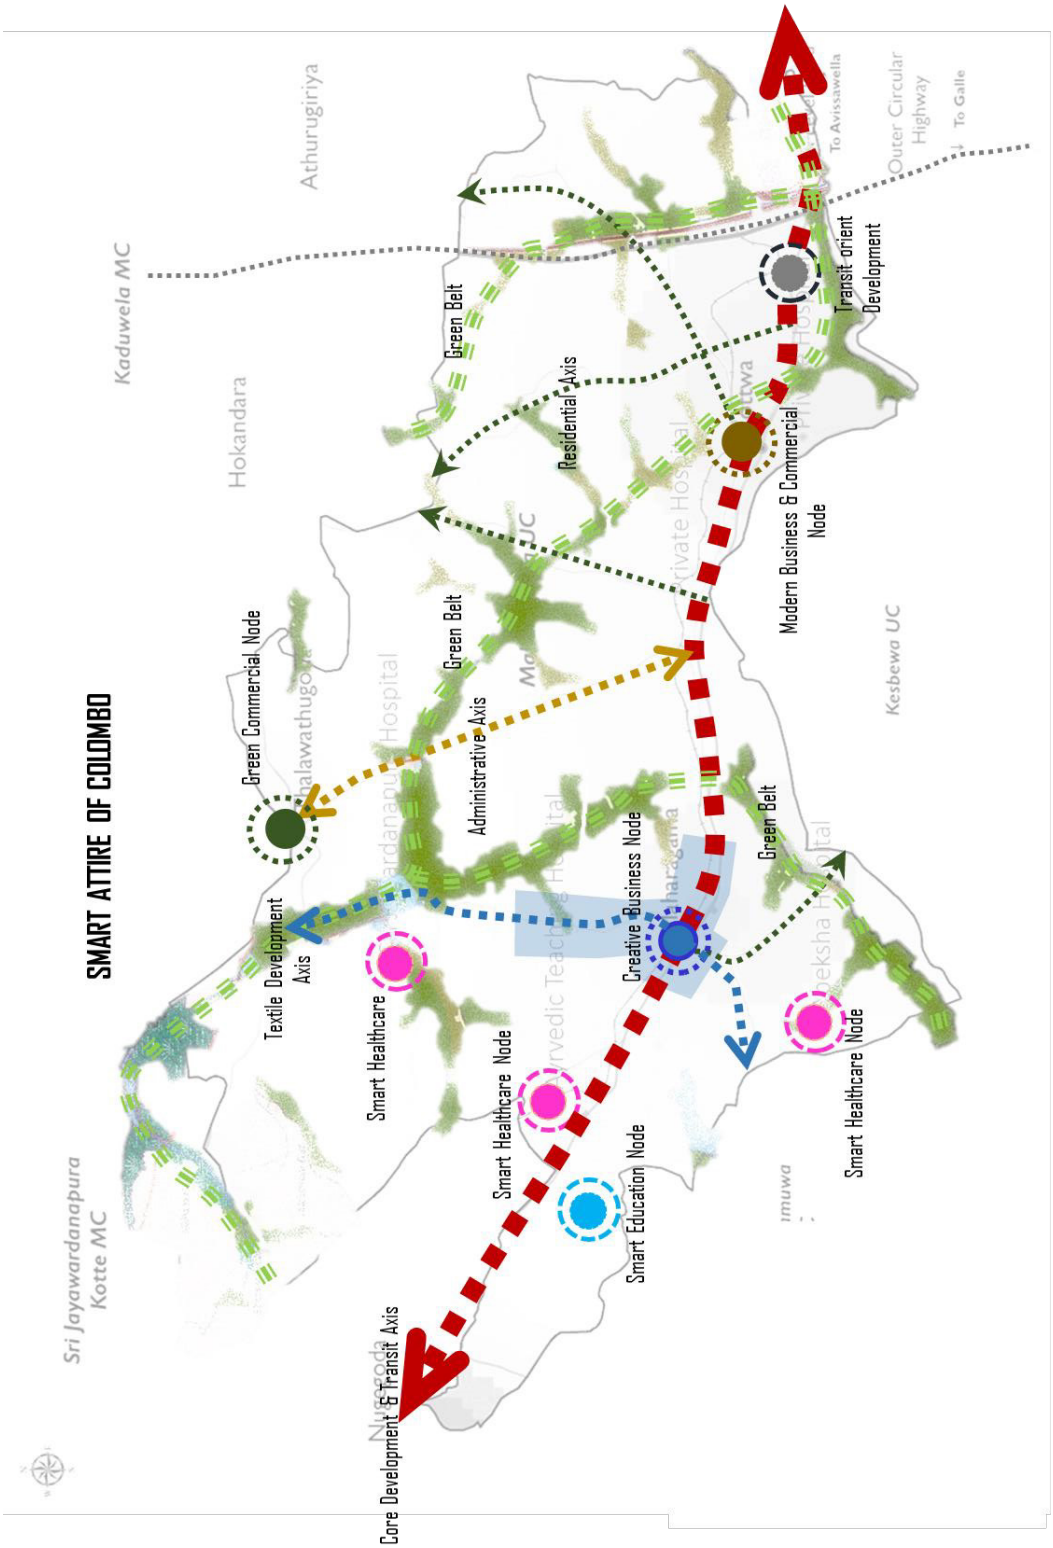

The Conceptual Plan for the City of Maharagama was formulated based on the four main goals of creating a comfortable residential city, creating a city with efficient infrastructure, creating a City that Economically Attractive for Investment and creating a City with Well Protected Wetlands.

Accordingly, the High Level Road will be developed as the main development corridor and the Makumbura, Kottawa, Maharagama and Pamunuwa Road, Thalawathugoda and Vidyala Junction will be developed as unique economic development centres (Transit oriented development node, Modern Business and Commercial node, Creative Business node, Green Commercial node). Sri Jayewardenepura Hospital surrounding, Apeksha Hospital and Navinna Ayurveda Hospital surrounding, which are of national importance, are expected to develop as Smart Health Centres in the area.

Pannipitiya - Malabe Road, Kottawa - Malabe Road and Athurugiriya Road associated areas will be develop as green residential areas while the corridor (Battaramulla-Pannipitiya) that connects Thalawathugoda Green Commercial node and Pannipitiya node will develop for administrative purposes.

Wetlands and Paddy fields will be networking to maintain well continuous connection while providing agricultural and public outdoor spaces for residents of the area.

Figure 6.1 : Concept Plan for Maharagama area 2031

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

6.2 Composition of the Maharagama Development Plan

The Overall Maharagama Development Plan is the combination of all interventions of six strategies as mentioned below. 'The proposed six strategies are based on core principles such as sustainable development and resilient and smart city concepts. All these strategies collectively contribute to achieve the 11th Sustainable Development Goal – 'Sustainable Cities & Communities'.

(1) Spatial Development Strategy

The future development of the City of Maharagama will consist of high, medium and low density commercial, residential and mixed development zones and wetland zones.

In addition, relevant regulations and building height controls will be enforced in areas where Parliamentary specific regulations apply.

(2) Transport Development Strategy

As identified in the above chapters, this area is located at a point where it connects to other densely populated areas of the country and is expected to get the benefit from a number of nationally important inter-transport connectivity improvement projects.

The Transport Development Plan also aims to improve the intra connection of the area and provide smoother transport facilities to the residential population.

(3) Economic Development Strategy

High-level road will be the main economic development corridor of the area with Makumbura, Kottawa and Maharagama playing the role of major economic development nodes on this road. Makumbura, the first multi model transportation hub in Sri Lanka will develop as a transit oriented node while Kottawa develop as a modern business and commercial node which facilitates for daily necessities of residents & commuters and Maharagama will develop as a creative business node based on the textile industry. In addition, it is expected to develop Thalawathugoda as a Green Commercial node and Vidyala Junction as an auxiliary commercial junction.

(4) Settlement Development Strategy

The Strategy aims to create a comfortable, attractive residential environment by introducing areas that are more conducive to residential use in the area, creating the physical infrastructure, social infrastructure and outdoor public recreation areas.

(5) Infrastructure Development Strategy

The Plan seeks to provide adequate social infrastructure for the residents and commuter population of the area, ensuring a smooth flow of socio-economic co-political processes in the city and establishing overall efficient infrastructure network.

(6) Sustainable Environment Development Strategy

The objectives of this strategy are to utilize the existing wetlands in the Maharagama Urban Council area for sustainable social, economic and environmental use, flood disaster mitigation, conservation and intensification of the existing landscape features of the area and development of public outdoor leisure and recreation activities to suit the proposed development needs.

6.3. Spatial Development Strategy

6.3.1 Introduction

The spatial development strategy plays a major role in a Developemnt Plan it lays the foundation of the form of a city. Determination of the most appropriate spatial structure and providing a guide towards the necessary strategic actions are the key functions of a Spatial Development Strategy.

6.3.2 Objective

The main objective of the Spatial Development Strategy of Maharagama Development Plan 2022-2031 is to determine the most appropriate spatial structure for the Maharagama area in terms of densities, prominent uses and the spatial characteristics and to minimize negative environmental and social impacts while maintaining a good city form and a unique city image.

6.3.3 Contribution to the Goals and Objectives of the Maharagama Development Plan 2022 -2031

This spatial development strategy contributes to achive the Objective 01 of the Maharagama Development Plan, a comfortable residential city and Objectives 03 and 04, an economically attractive city for investment and creating a 04 city with well protected wetlands.

6.3.4 Scope

The planning framework of the Spatial Development Strategy include;

1) Proposed density patterns and land use patterns for the Maharagama area.
2) Expected residential and commuter population forecast.
3) Special height controlled zones.

6.3.4.1 Proposed density patterns and land use patterns for the Maharagama area

The Maharagama Planning Area will consist of three main density zones.

Table 6.1: Expected Density Zones

Zone	Proposed land use pattern
High Density Zone	High Density Commercial Zone
Medium Density Zone	Medium Density Commercial Zone Promoted Commercial Zone Medium Density Mixed Development Zone Medium Density Residential Zone
Low Density Zone	Low Density Residential Zone
Wetland Protection Zone	Wetland Protection Zone

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

6.3.4.2 Expected Population Forecast

The expected residential and commuter population for the f Maharagama planning area has been predicted based on each zone, taking into account the existing characters, potentials and expected developments.

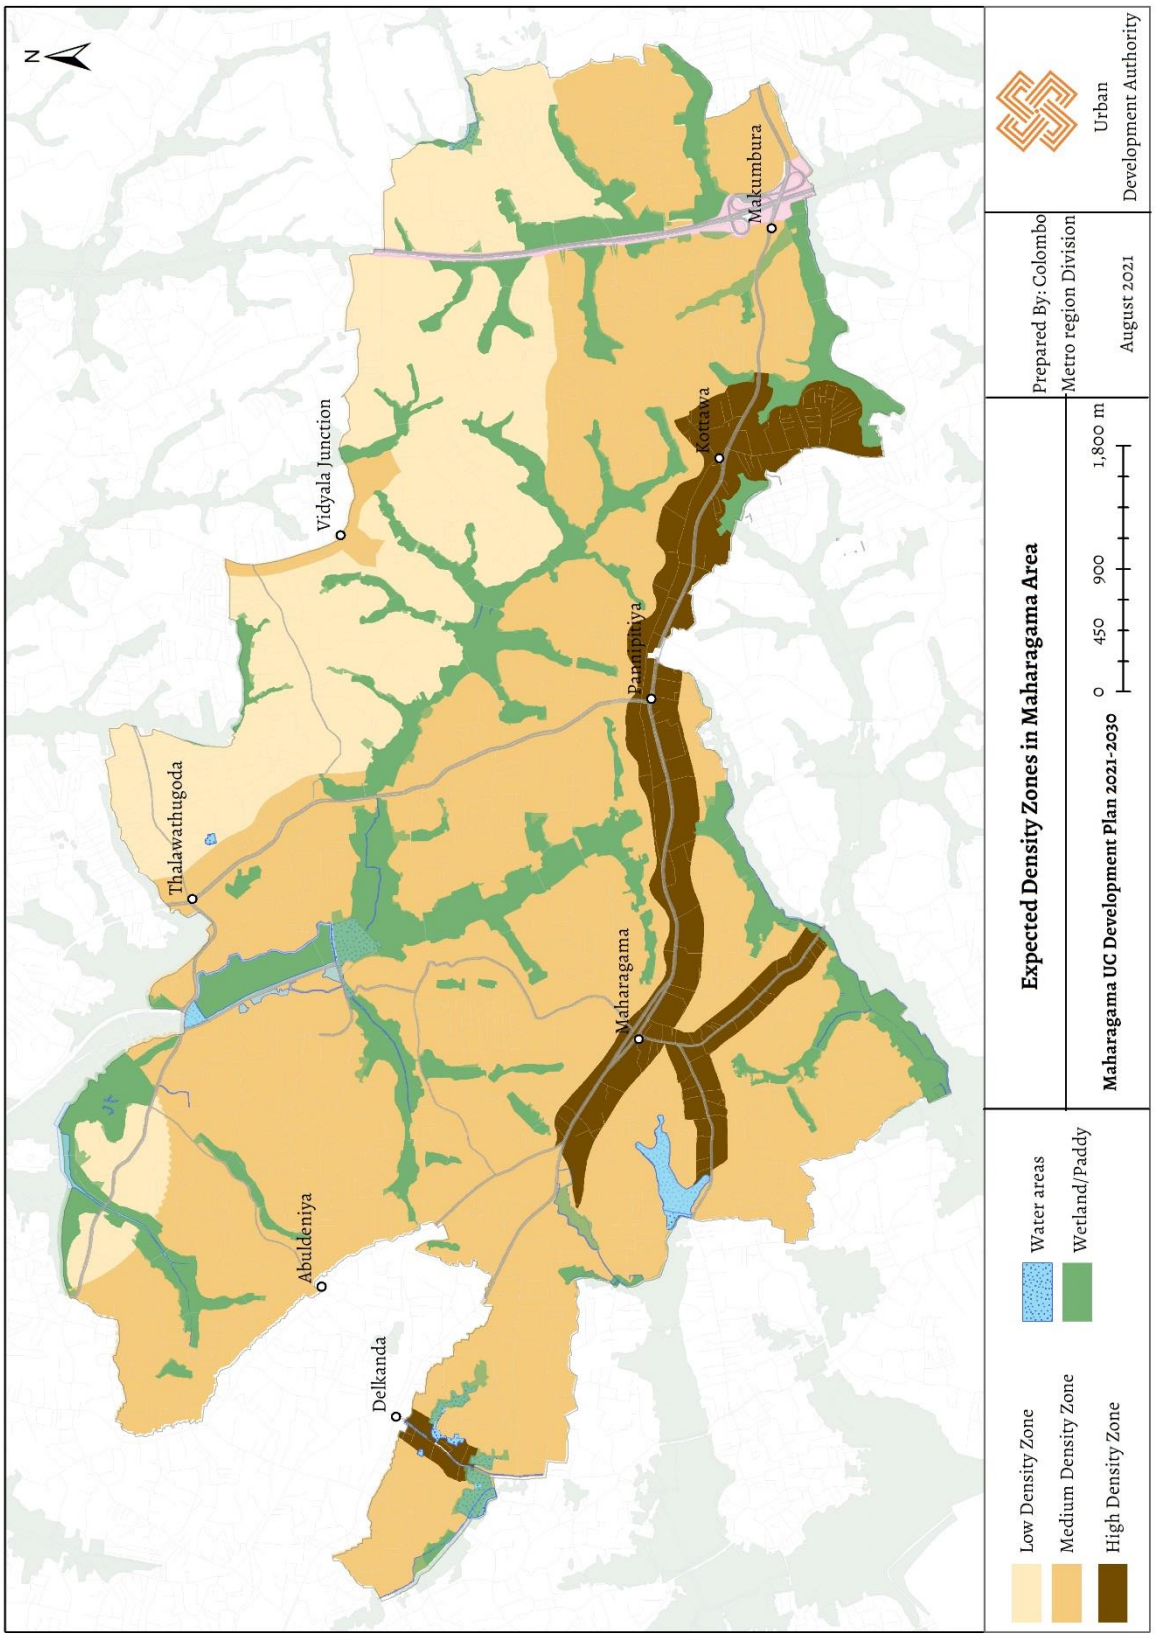

Table 6.2 : Expected Residential & Commuter Population of Maharagama Area

	Zone	Expected Residential Population	Expected Commuter Population
01	Special Residential Zone	16,670	11,000
02	Low Dense Residential Zone	60,530	17,000
03	Middle Dense Residential Zone	65,320	47,000
04	Middle Dense Mixed Development Zone	46,720	185,000
05	Middle Dense Commercial Zone	8,400	50,000
06	Promoted Commercial Zone	20,740	25,000
07	High Dense Commercial Zone	17,270	137,000
	Total	235,650	

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

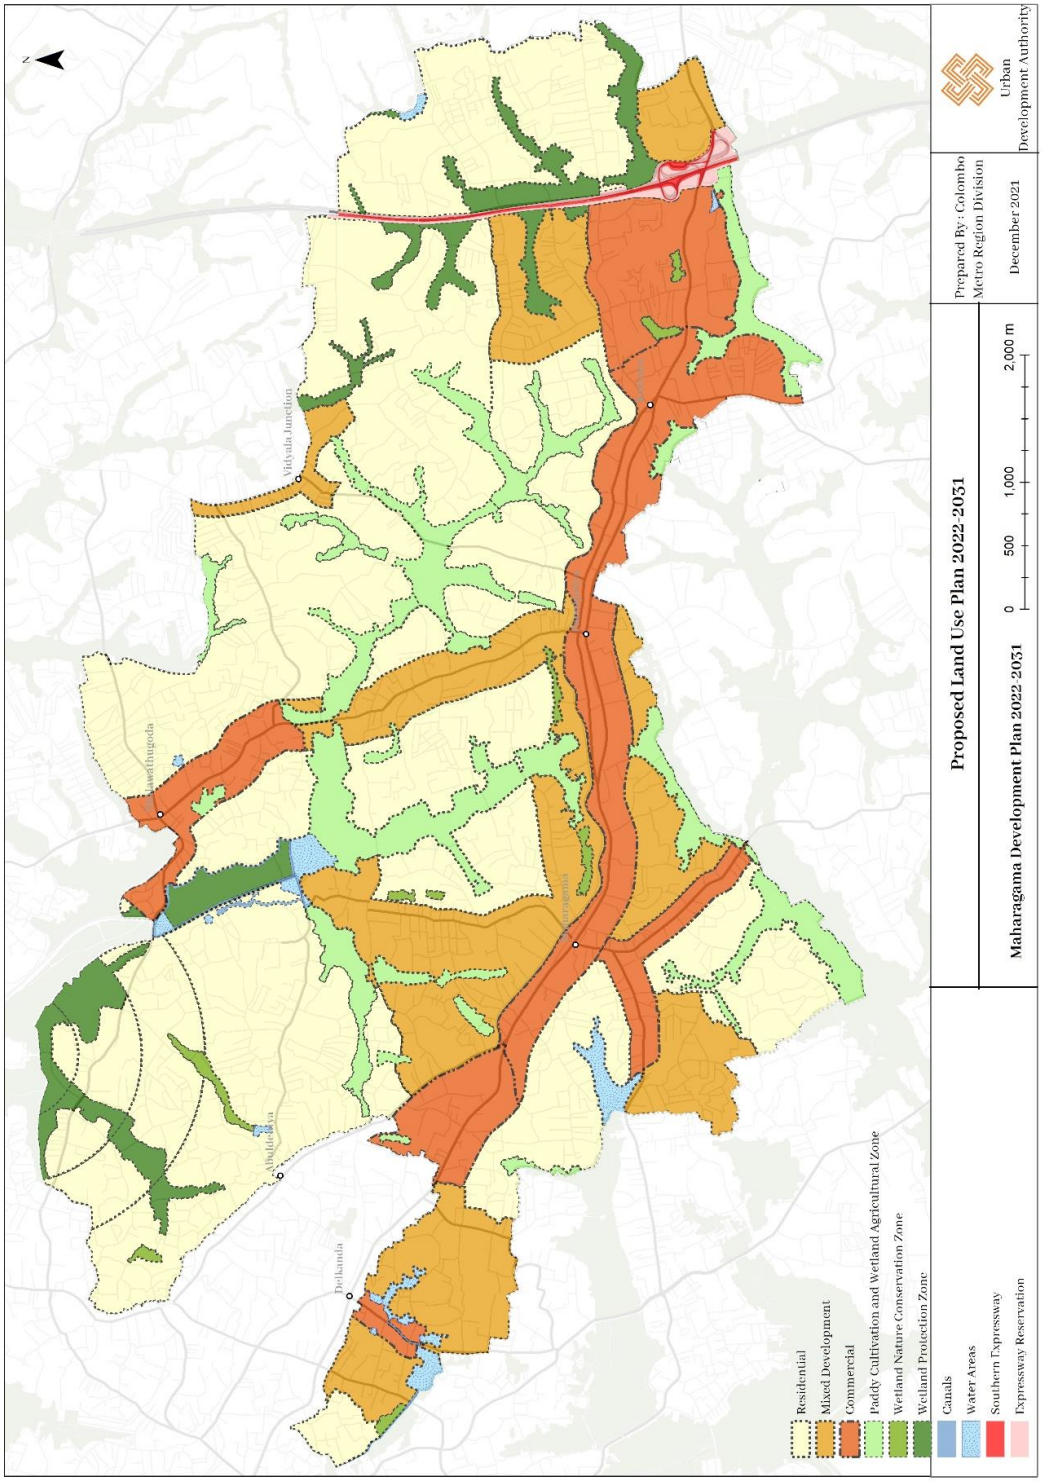

Note : The expected cumulative commuter population in each region is specified and the expected commuter population at a given time in all zones is about 200,000.

6.3.4.3 3) Special height controlled zones

Special Residential Zone (Parliament Zones)

Development controlled area associated with the Parliament of Sri Lanka is located between the Sri Jayawardenapura Kotte Municipal Council, Kaduwela Urban Council and the Maharagama Urban Council. Considering the security of the Parliament, the main administrative body of the country, this development controlled zone has been introduced and it is divided into three controlled zones. Accordingly, the area with a radius of 0 - 500 m from the Parliament has been identified as Development Zone I. Only two-storey houses (G + 1) are allowed within this zone and the maximum height of the building is limited to 30 feet.

Area within the radius of 500 - 1000 m demarcated as second zone and only three-storey (G + 2) buildings are permitted within this zone. Also, the maximum height of the building is limited to 40 feet.

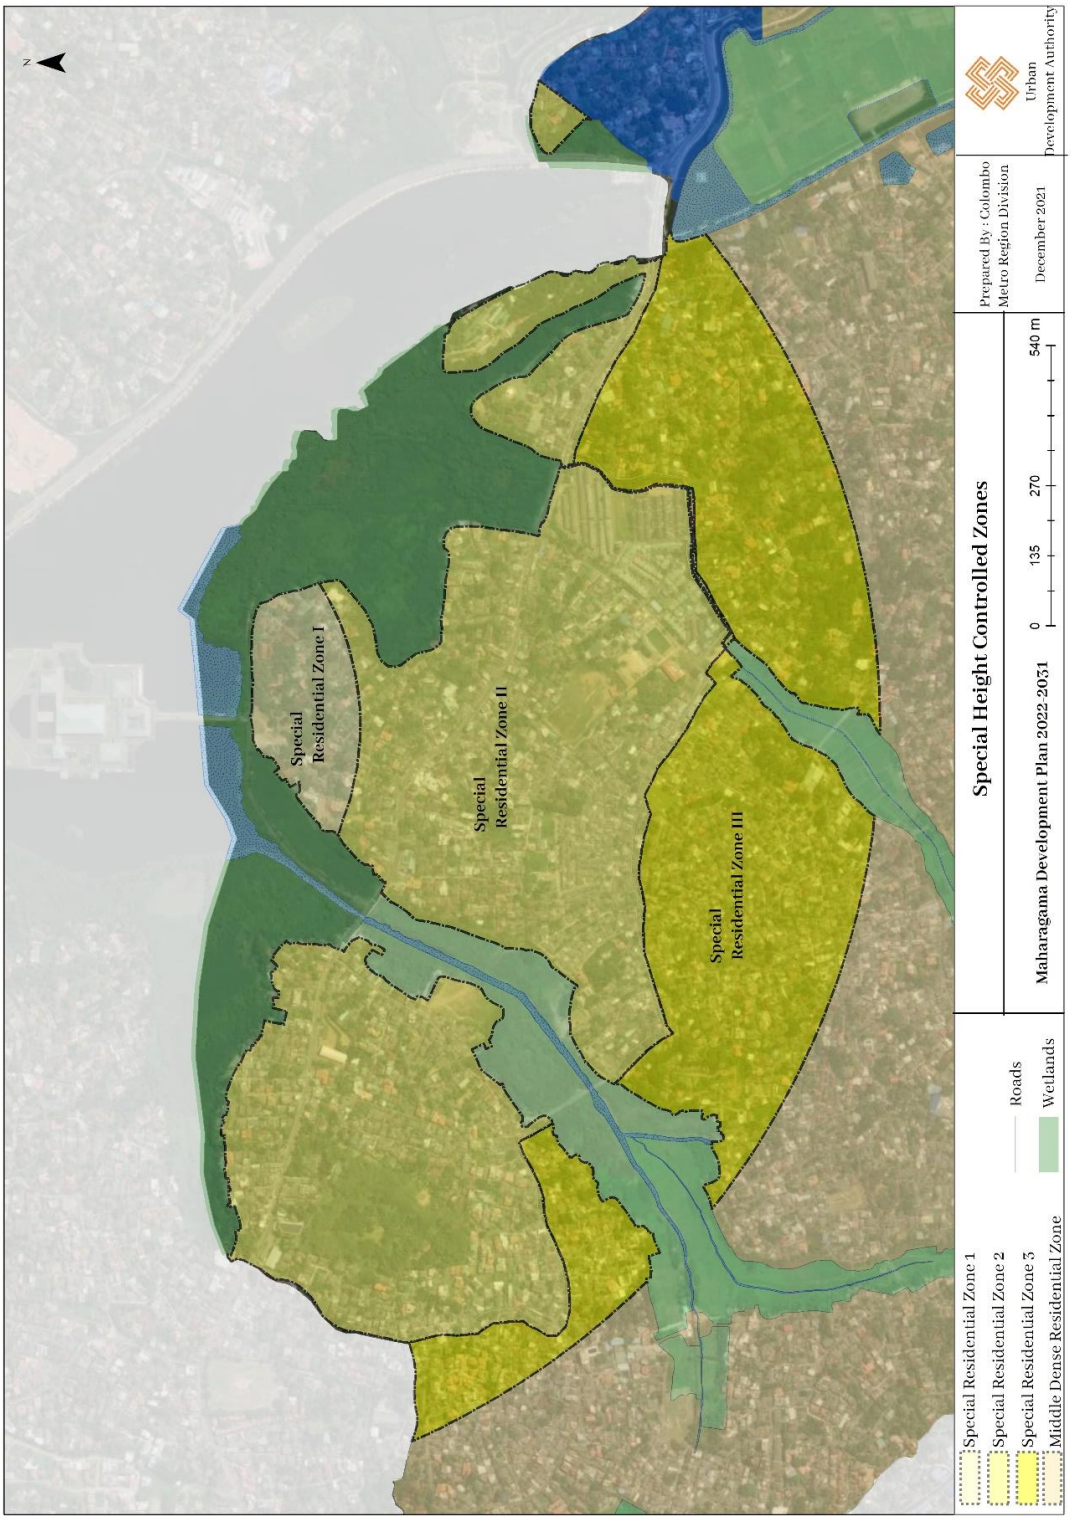

Also, buildings in both zones are not allowed to have roofs, balconies, and open spaces facing to Parliament.

The area within the radius of 1000-1500 m demarcated as third zone and development activities within this zone can be carryout in accordance with the regulations introduced by Urban Development Authority.

However, it is essential to obtain the approval of the UDA, the relevant Local Authority and Parliament for all development activities carried out within these three zones.

In view of these factors, the Zoning Plan further introduces this area as a Special Residential Zone in terms of development pressure and land use associated with Parliament. It is expected to create a low density residential area through this Thereby maintaining the minimum land use and control the opportunity for informal development to preserve the pride and uniqueness of Parliament.

Map 6.3 : Special height controlled zones

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

6.4. Transport Development Strategy

6.4.1 Introduction

The Spatially established road network is instrumental in creating a vibrant and active city. Accordingly, when the configuration of a city is residential, commercial, service or any other use, its road system is an important part of the relevant built environment.

6.4.2 Objective

The objective of Transport Development Strategies is to create an efficient road network that facilitates efficient and effective travel within the city. The efficiency of any road system is depend on the proliferation of different modes of transport that are components of its spatial model and the existence of a well-interconnected road network.

6.4.3 Contribution to the Goals and Objectives of the Maharagama Development Plan 2022 -2031

The proposed Transport Development Strategic Plan directly contributes to the achievement of the first objective of the Maharagama Development Plan, a comfortable residential city and the second objective, a city with efficient infrastructure.

6.4.4 Scope

The Transport Development Strategy consists with following.

1. Strategies to develop transport among cities/ towns
2. Strategies to develop transport within Maharagama

6.4.4.1 Strategies to develop transport among cities/ towns

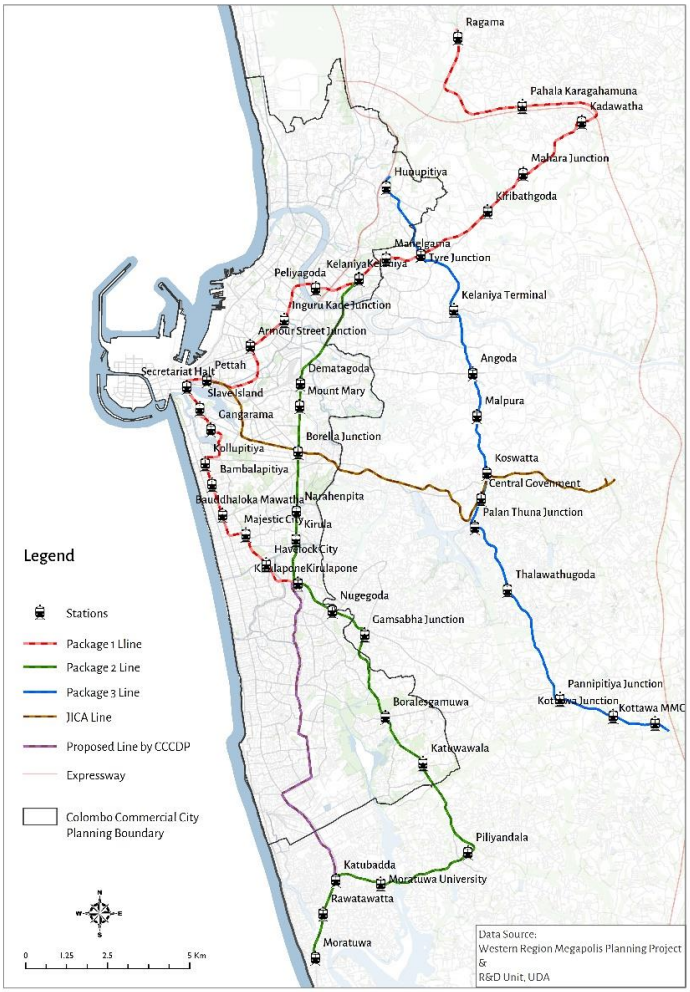

6.4.4.1.1 Colombo Light Rail Transport Project

6.4.4.1.2 Kelaniweli Railway Electrification Project

6.4.4.1.1 Colombo Light Rail Transport Project

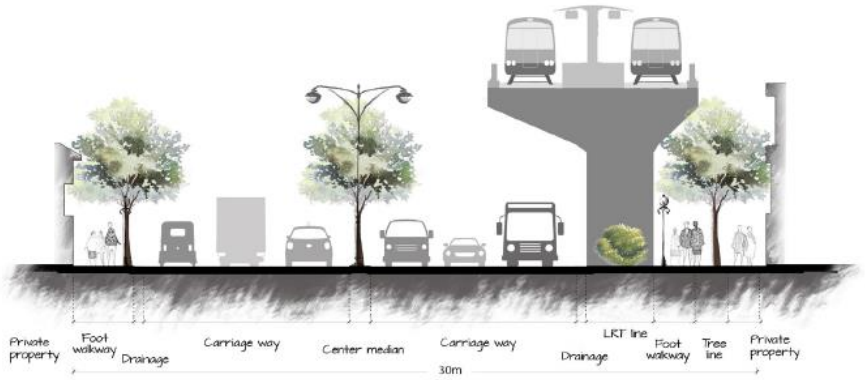

The Blue Line from Hunupitiya to Makumbura under the Colombo Metro Project (Figure 6.2) runs through the Maharagama Urban Council area, which contributes to the development of the transportation system in this area. Accordingly, the Western Regional Transport Development Project has been predicted that 18,600 commuters will be used this light railway which runs up to 22.45 Km. daily through the proposed railway stations including Thalawathugoda, Kalalgoda, Pannipitiya, Kottawa. The cross section of the proposed railway line is as shown in Figure 6.3.

Figure 6.2: Light Rail Transport Project

Source: Western Regional Transport Development Project

Figure 6.3 : cross section of the proposed railway line

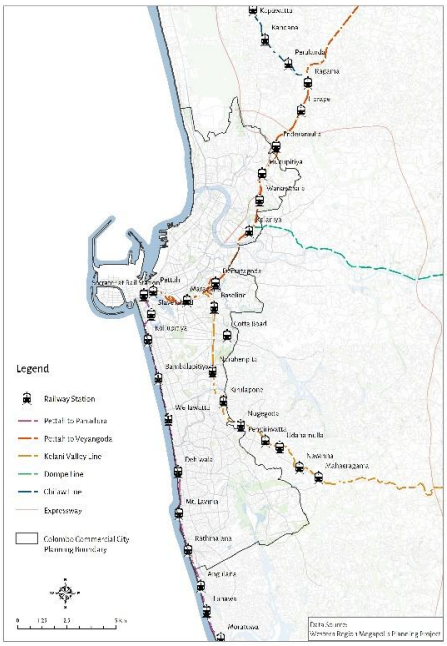

Accordingly, it is expected that the proposed road from Hunupitiya under Package No. 3 (in blue colour) to Kottawa via Angoda, Koswatta and Thalawathugoda will have create a major impact on traffic in the area.

6.4.4.1.2 Kelaniweli Railway Electrification Project

This network of roads covers four major congested roads, namely the Main roads, the coastline, the Kelaniweli Railway line and the Puttalam Road. The Kelaniweli railway(KV) is one of the four main corridors of the Sri Lanka Railways. The road from Maradana to Avissawella is 35.41 Km. long and has a daily passenger capacity of 14,600. It connects several densely populated suburbs to the east of Colombo such as Nugegoda, Kottawa, Maharagama, Homagama and Avissawella with the Maharagama city centre. Accordingly, these proposed transport developments will be incorporated into this Plan.

Figure 6.4: Proposed electrified railways

Source: Western Regional Transport Development Project

6.4.4.2. Strategies to develop transport within Maharagama

It is expected to ensure a good co-relation between land use and the road network, to maintain good road connectivity within the road network, to enable the proper placement of plans and projects under construction, maintained and managed by the Central Government and local authorities as well as to create a more conducive and safer environment for all road users such as passengers, drivers and pedestrians.

Accordingly, the following roads and public parking areas will be developed under this strategy.

Table 6.3 : Proposed Road Developments

No.	Road	Proposed Width (Feet)	Length of the Road	Proposed Building Line (Feet)	Project No.
01.	Kalalgoda Road	40	About 2.1 km	30	01
	Kalalgoda Cross Road (Upto Weera Mawatha Housing Project	40	About 1.3 km	30	
02.	Weera Mawatha	30	About 1.4 km	20	02
03.	Nagahawatta – Pamunuwa 7th lane	30	About 1.26 km	20	03
04.	Pamunuwa 2nd lane	30	About 1 km	20	04
05.	Alhena Road	30	About 1 km	20	05
06.	Makubura – Bogahawila Road	30	About 2.5km	20	06
07	Inner Road Makubura	40	About 600 m	30	07
08.	Isipathana – Wattegedara Road	30	About 2 km	20	08
09.	Pasel Mawatha – Sand Road	20	About 1.5 km	20	09
10	Ahelape Road	40	About 2 km	20	10

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

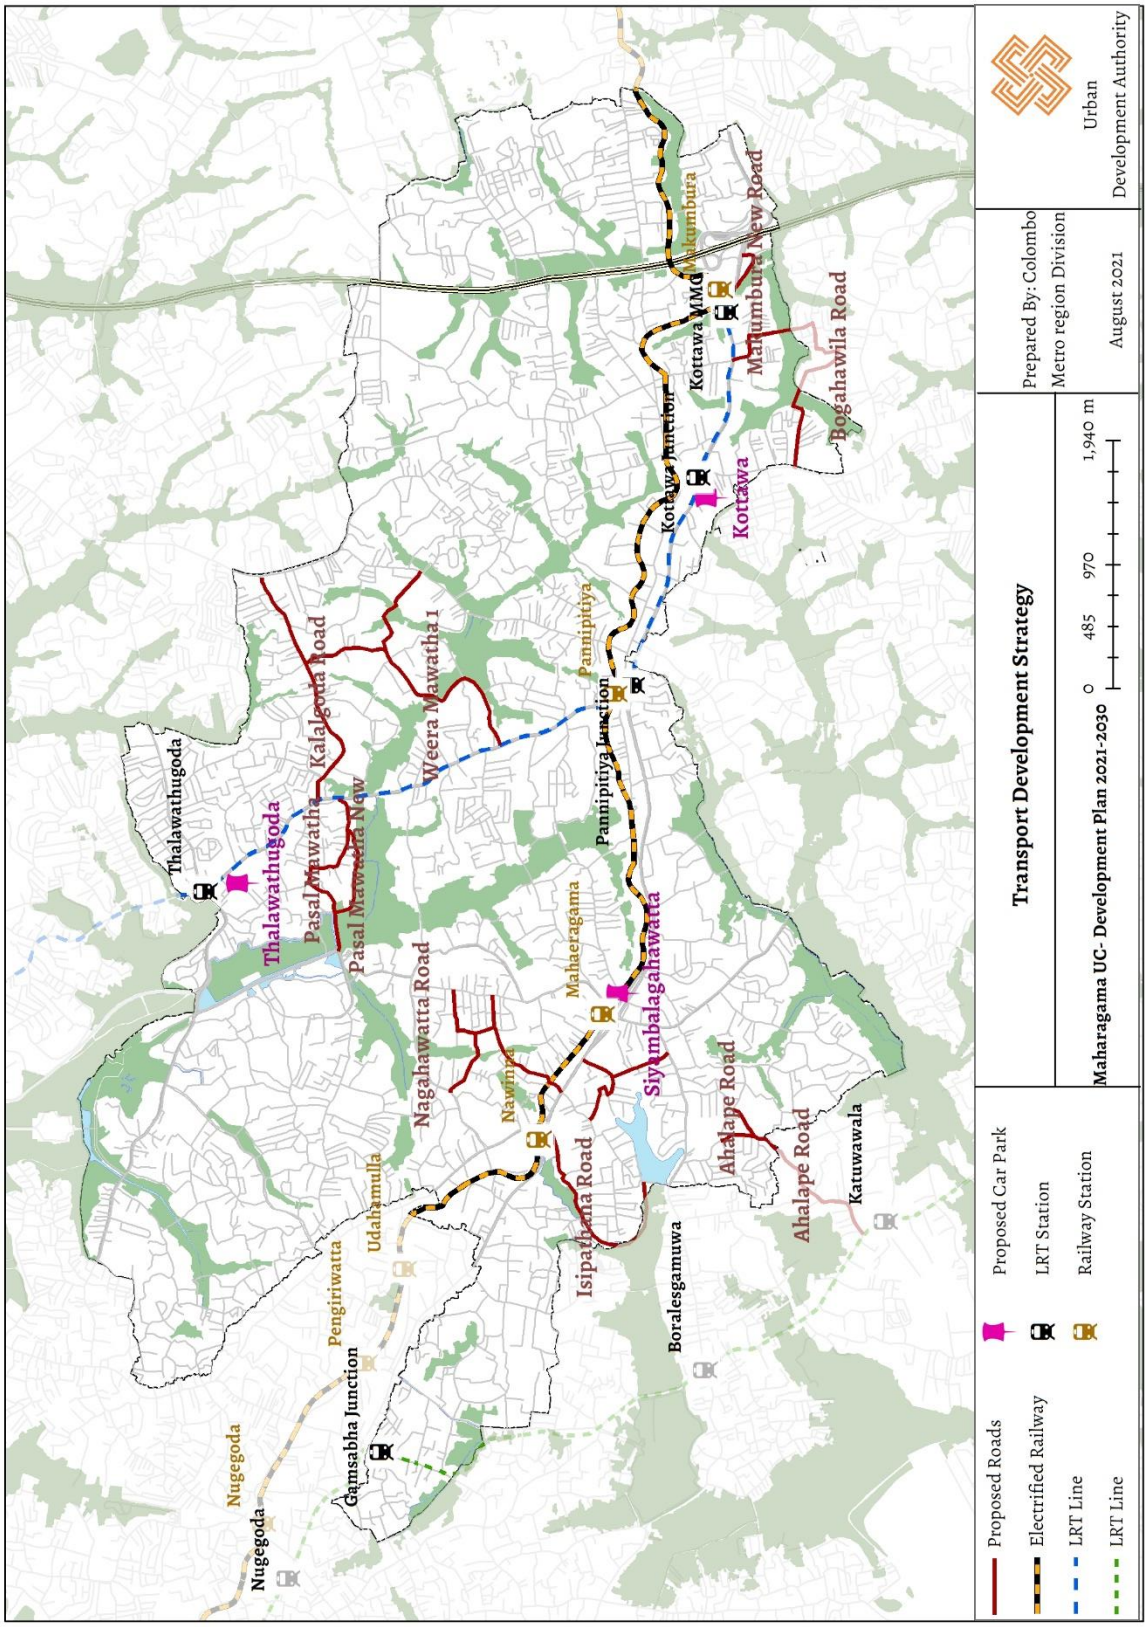

The following locations have been identified to develop for public parking areas focusing on the areas where economic activities are concentrated in the area.

6.5. Economic Development Strategy

6.5.1 Introduction

The economic development strategy provides a guide how the city economic activities should be aligned with its overall spatial development contributing to achieve the anticipated city vision. The envisaged physical development of the city cannot be achieved without public and private sector investments.

6.5.2 Objective

The objective of the Economic Development Strategy is to ensure that city would have the right market exposures and would attract required investments to drive the city towards its planned transformations and achieve anticipated spatial form and city vision. The overall intention of all interventions that will be made under the City Economic Development Strategy is to supply realty space of high quality to the market in order to cater the increasing real estate demand created by various growing economic sectors of the city.

one of specific objective of the Urban Economic Development Strategy is to open up the city to major economic sectors such as real estate, retail, textile trade, financial and service related private companies, condominium buildings, service and supply related industries, tourism and develop Maharagama as a nationally important trading centre.

6.5.3 Contribution to the Goals and Objectives of the Maharagama Development Plan 2022 -2031

The proposed Economic Development Strategy directly contributes to the achievement of the third objective of the Maharagama Development Plan “A City that Economically Attractive for Investment”.

6.5.4 Scope

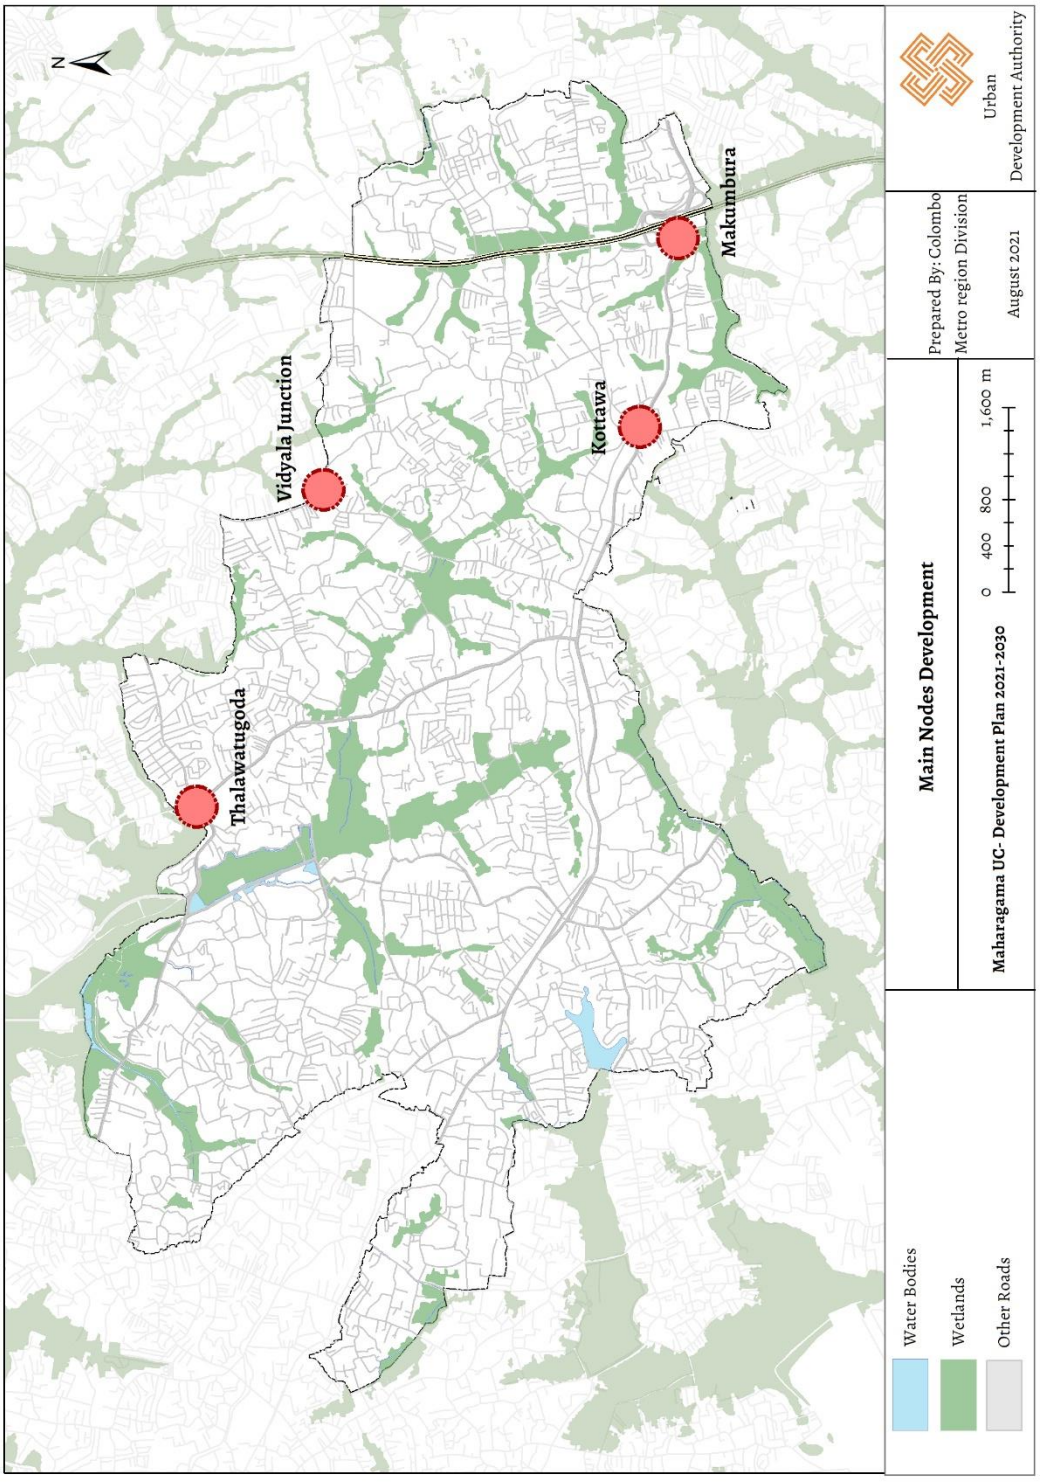

The Economic Development Strategy focuses on the following areas.

1. Node Developments.
2. Implementation of Mixed Development Projects at selected locations.
3. Pamunuwa Shopping area development.

6.5.4.1 Node Developments

Makumbura, Kottawa, Thalawathugoda and Vidyala Junction are proposed to be developed under the node development.

Map 6.5: Proposed Nodal Developments

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

6.5.4.1.1 Makumbura Node Development

The Makumbura Multip model Transport Centre, considered to be the first multi model transport hub in Sri Lanka, is a Project Concept with several infrastructure related projects facing the Southern Expressway (Map 6.6).

Table 6.5 : Proposed Developments at Makumbura Node

No	Project Name	Proposed year to be completed	Remarks	Project No
01	Multi model Transport Centre	-	Completed	11

6.5.4.3 Pamunuwa Textile Bazar Design guide plan

Table 6.10 : Proposed Pamunuwa area development

No	Project Name	Project No
01	Pamunuwa Textile Bazar Design guide plan	20

It is identified to introduce a Pamunuwa Textile Bazar Design guide plan to develop Pamunuwa textile area which is the only place in Sri Lanka where textiles and all related raw materials are available in one place to convert more more attractive and comfortable place to visit.

Under this Plan, it is proposed to develop the Pamunuwa Textile area under three main strategies.

1. Walkability Improvement

2. Face lifting of the shopping area

3. Improvement of other facilities

Walkability Improvement

Strategies are proposed to improve alternative roads such as Nagahawatta, Delwatta, Dambahena to improve walking facilities, introduce traffic guidelines on vehicle entry, pave all by-roads where textiles are traded and improve shade on subways (Figure 6.9).

Improvement of the façade (Face uplifting)

Strategies such as improving the facade of permanent and semi-permanent structures, introducing guidelines for name plates and constructing shops in areas with temporary buildings are proposed to increase the attractiveness of the front facade appearance of the area. (Figure 6.10).

Improvement of other facilities

Facilities for the area are expected to be enhanced through the development of small parks, promotion of small coffee shops and restaurants, development of parks in the town centre and the provision of parking facilities.

Figure 6.9 : Improvement of Walking Facilities

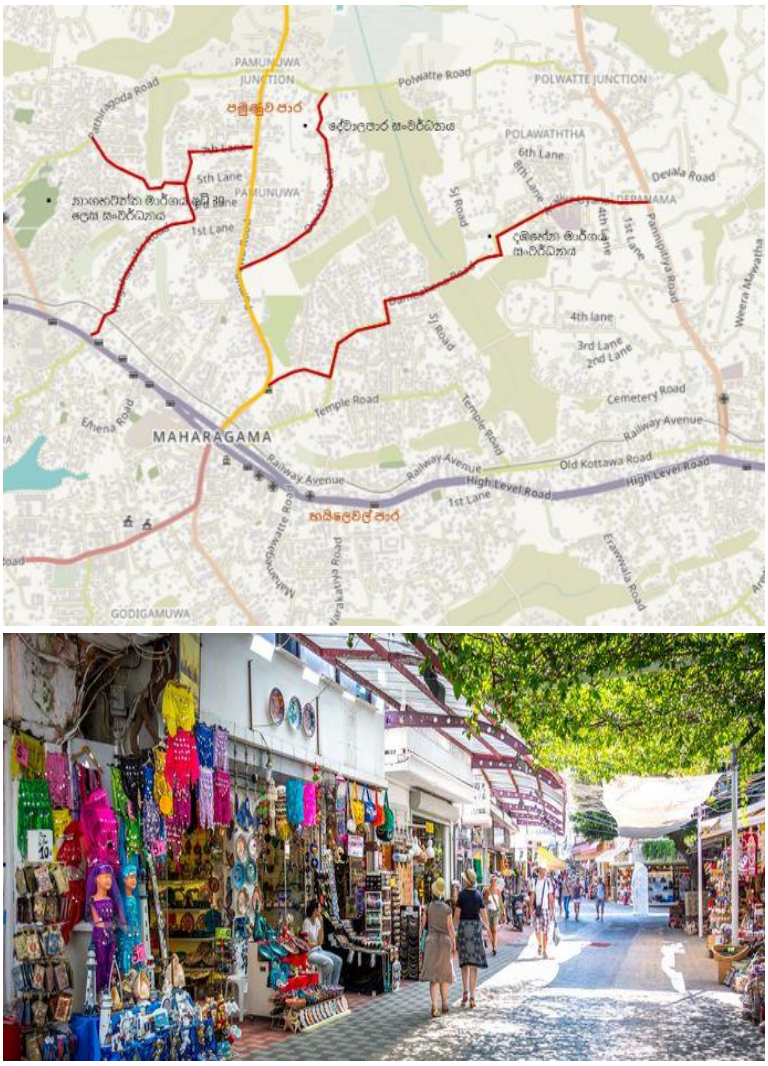

Figure 6.10 : Improvement of the façade (Face uplifting)

6.6. Settlement Development Strategy

6.6.1 Introduction

Settlements and housing have been principal components of cities of all time and provisioning of adequate and affordable housing is a mandatory duty of any city development plan. Present Cities attract population in millions creating a high demand for quality housing and settlement facilities. The 11th Sustainable Development Goal; Sustainable Cities and Communities, carries a special focus on the provision of quality housing and making cities and human settlements inclusive, safe, resilient and sustainable.

6.6.2 Objectives

The main objective of the Settlement Development Strategy is to provide the people with the facility to obtain high quality housing at affordable prices. The Plan also aims to create a comfortable living environment for all residents in the area.

6.6.3 Contribution to the Goals and Objectives of the Maharagama Development Plan 2022 -2031

The Proposed Settlement Development strategy directly contributes to the achievement of the objective of 'a comfortable residential city', which is the first objective of the Maharagama Development Plan.

6.6.4 Scope

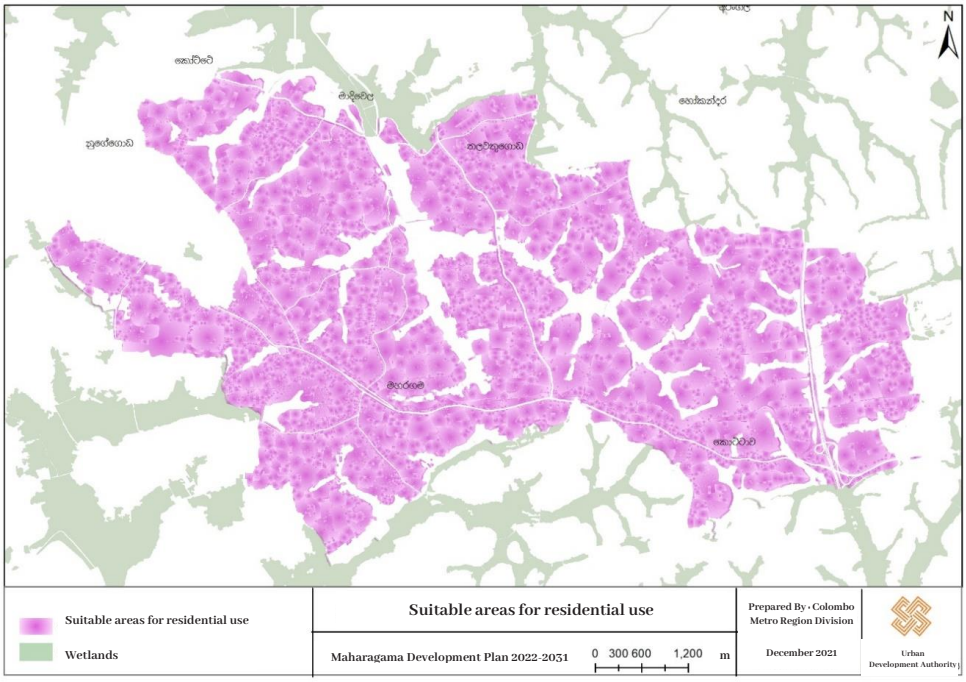

The planning framework of the Settlement Development Strategy includes:

1. Identification of Settlement Promotion Areas based on residential suitability.
2. Introduce affordable housing, middle income housing and high income housing projects.
3. Strategic Interventions to facilitate identified settlement promotion areas (provision of physical infrastructure, social infrastructure and public outdoor recreational spaces)

6.6.4.1 Identification of Settlement Promotion Areas based on residential suitability.

Among the proposed zones of the area three of them are considered to be residential prominent zones (low density residential zone, medium density residential zone and special residential zone). The market trends in residential development and suitability for residential development in terms of availability of infrastructure were the criteria considered for the identification of settlement promotion areas (Map 6.10).

Map 6.10 : Suitable areas for residential use

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

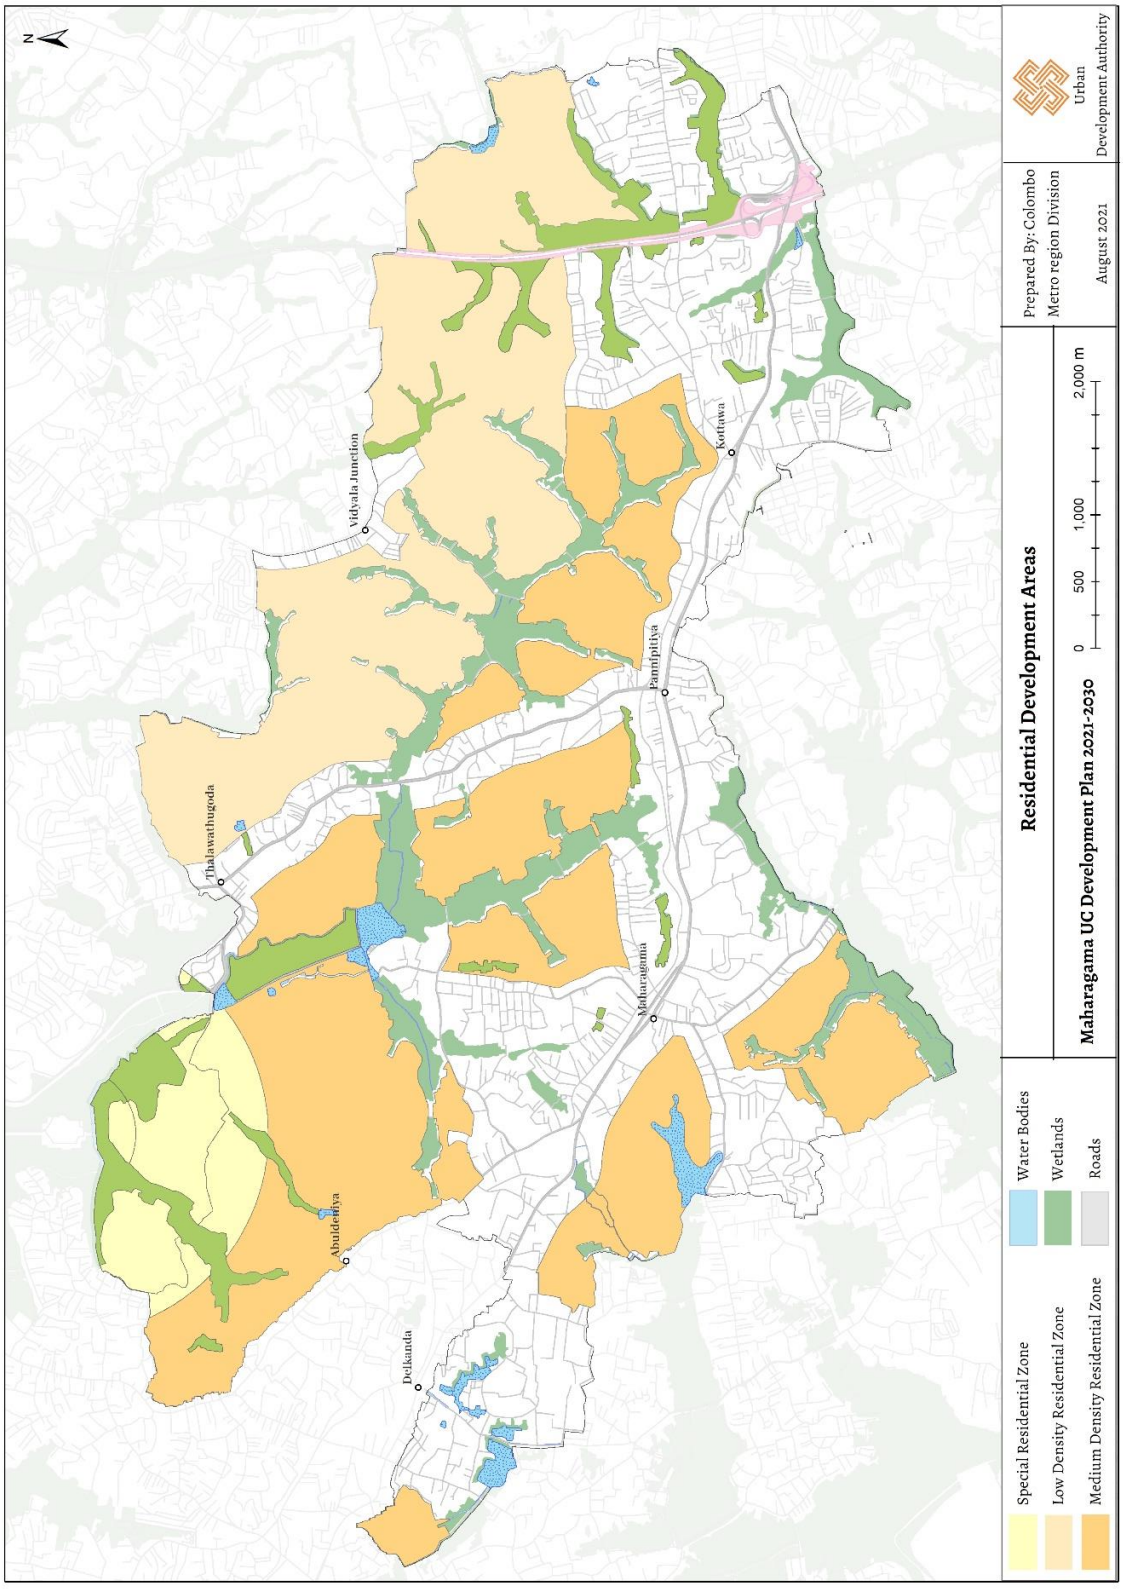

However, analyzes have confirmed that the entire Maharagama area is suitable for residential development. accordingly, residential zones have been introduced in the Zoning Plan as follows, taking into account the characteristics and residential needs of the area.

Table 6.11 : Proposed residential promotional areas

No	Zone	Areas within the Relevant Zone
01	Low Density Residential Zone	Rukmalgama, Horahena, Malapalla
02	Medium Density Residential Zone	Egodawatta, Gangodawila, Godigamuwa South, Pathiragoda, Ambuldeniya
03	Special Residential Zone	Madiwela, Pragathipura, Thalawathugoda

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

Map 6.11 : Proposed Residential Promotion area

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

6.6.4.2 Introduce affordable housing, middle income housing, and high income housing Projects

(a) Affordable Housing Project

At present, affordable housing projects are being implemented through the Urban Regeneration Project to cater to the growing demand for housing in the city of Colombo and its suburbs. Accordingly, the Development Plan proposes to carry out the following development projects in the Maharagama area.

Table 6.12 : Proposed Affordable Housing Projects

No.	Location of the Project	Land Extent	No. of Housing Units to be provided	Notes	Project No.
01	Makumbura Housing Project	2.24 Ac.	341 Units	Construction to be completed in 2023	21

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

(b) Middle income Housing Project

There is a high demand for middle class housing in the Maharagama area due to the influx of people for institutional and commercial activities in and around Maharagama. Accordingly, it is proposed to carry out the following development projects in the Maharagama area to meet the existing demand.

Table 6.13 : Proposed Middle Income Housing Projects

No.	Location of the Project	Land Extent	No. of Housing Units to be provided	Notes	Project No.
01	Kalalgoda Weera Mawatha Housing Project	8.9 Ac.	500 Units	About 70% of the construction is completed	-
02	Kottawa, Kulasevanawatta Housing Project	5 Ac.		proposed to complete the construction by the end of 2021	-
03	Housing Project at Depanama	2 Ac.	Proposed	-	-
04	Housing Project at Delgahawatta	0.7 Ac.		04	Housing Project at Delgahawatta

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

(c) High Income Housing Project

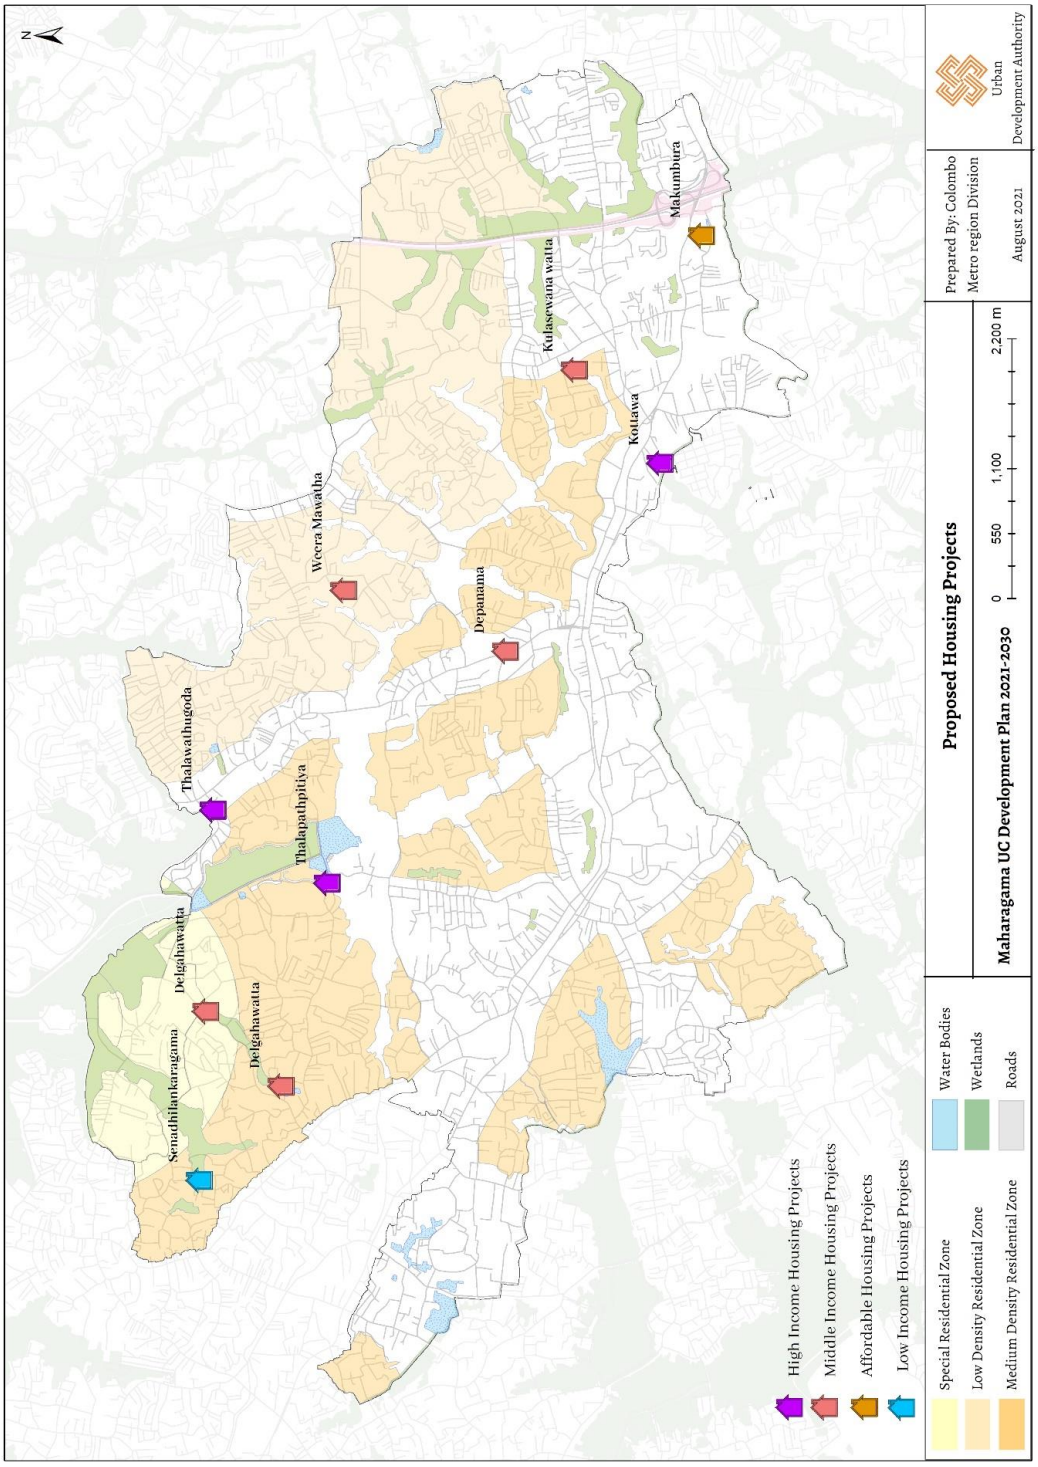

It is proposed to carry out high income housing projects targeting doctors, businessmen and high income public and private sector employees.

Table 6.14 : Proposed High Income Housing Projects

No.	Location of theProject	Land Extent	No. of Housing Units to be provided	Project No.
01	Thalapathpitiya Housing Project	2.03 Ac.	To be decided	22
02	Thalawathugoda Housing Project		To be decided	Previous Reference : 14
03	Kottawa Housing Project	1 Ac	To be decided	Previous Reference: 12

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

Map 6.12 : Proposed Housing Projects

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

6.6.4.3 Strategic Interventions to facilitate identified settlement promotion areas (provision of physical infrastructure, social infrastructure and public outdoor recreational spaces)

6.6.4.3.1 Improving Accessibility of and within identified Settlement Promotion Areas

Introduction of new modes of public transport such as light rail systems, electric trains as well as improvements to the existing railway and highway system (Discussed under the Transport Development Strategy).

6.6.4.3.2 Ensuring the Provision of Social Infrastructure

Ensuring the provision of adequate social infrastructure such as schools, hospitals, crematoriums and public markets. (Discussed under the Infrastructure Facility Development Strategic Plan.)

6.6.4.3.3 Ensuring the Provision of adequate Public Outdoor Spaces

Ensuring the provision of adequate public outdoor space for every citizen such as large Park within a radius of 1–2 Km and Children's Park within a radius of 500 m for every small child (Discussed under the Sustainable Environment Strategy Strategy/ Public Open space Recreation Plan).

6.6.4.4 Strategic intervention for the upliftment of Underserved settlements

It can be observed that there are Underserved settlements located in the railway reservations within Senadhilankaragama, Pragatipura,and Madivela, areas in the jurisdiction of Maharagama Municipality.

It is proposed to relocate Underserved settlements in the Railway Reserve through the Kelaniveli Electrified Railway Project and a 600-unit housing project is proposed to provide housing to low-income settlements in Senadhilankaragama area. (Map 6.12)

It is also expected to develop other less facilitated areas by providing following necessary infrastructure.

Proposed Actions

- Installing or improving basic infrastructure.
- Providing incentives for community management and maintenance.
- Constructing or rehabilitating community facilities such as nurseries, health posts, community open space.
- Regularizing security of tenure.
- Home improvement.
- Relocation/compensation for the small number of residents dislocated by the improvements
- Improving access to health care and education as well as social support programs to address issues of security, violence, among others
- Enhancement of income-earning opportunities through training and microcredit

6.7. Infrastructure Development Strategy

6.7.1 Introduction

Well managed effective utilities network is a key component of a city that enables its efficiency functioning. It is important to have holistic and integrated solutions for city utilities management to ensure wise-resource management, energy conservation and equal access to infrastructure. Identification of demand and ensuring the adequate supply to match with the demand are basic functions of effective utilities management.

6.7.2 Objectives

The objective of the Infrastructure development Strategy is to provide Maharaga area with efficient utilities networks and adequate social infrastructure to facilitate all residents and commuters of Maharaga area and to ensure smooth functioning of socio-economic and socio-political functions of the city. It also aims to focus more on providing healthcare facilities as identified in the Concept Plan.

6.7.3 Contribution to the Goals and Objectives of the Maharagama Development Plan 2022 -2031

The proposed Settlement Development Strategic Plan directly contributes to the achievement of the second objective of the Maharagama Development Plan, a city with efficient infrastructure.

6.7.4 Scope

The planning framework of the Infrastructure development Strategy includes:.

1. Efficient supply of utility services.
2. Provision of smart social infrastructure facilities adequately.

6.7.4.1 Efficient Supply of Utility Services

Supply of Pipe-borne water and electricity and management of wastewater & sewerage, solid waste and storm water are the key focus areas considered under the broader intervention of efficient supply of utilities. All projects falling within the above focus areas are aligned under the Utilities Management Strategy.

6.7.4.1.1 Supply of Pipe borne water

The pipe-borne water supply within Maharagama area is owned and managed by National Water Supply and Drainage Board of Sri Lanka under the Western Province Metropolitan Area Water Supply Master Plan – 2013 which covers Colombo District and parts of Gampaha and Kalutara Districts. The mainly used surface water sources of the existing system are:

- Labugama and Kalatuwawa impounding reservoirs
- Kelani River and its tributary Seethawaka
- Kalu River and tributary Kuda River

The Kelani River is a major source of drinking water in the Colombo District. Labugama and Kalatuwawa reservoirs are located about 39 Km. from the city of Colombo, bordering the Colombo and Ratnapura districts.

According to the Western Province Metropolitan Regional Water Supply Master Plan (2013), the projected maximum water demand of the Maharagama area for the year 2030 is 72,261 cubic meters per day as predicted by the National Water Supply and Drainage Board.

Table 6.15: Projected Water Demand for Maharagama

2030 Expected Population	Projection for the year 2030 (Cubic Meter)					
	Non domestic demand	Non domestic demand	Non domestic demand	Total demand in the area	Non domestic demand	Maximum total demand per day
260,181 * Projected residential population as per the plan - 235,650	45,998	5,745	2,783	54,526	65,690	72,261

Source: National Water Supply and Drainage Board

People in the area use water from pipe borne water, community water projects, tube wells, wells and water supply schemes.

Kalatuwawa, Ambatale and Welivita Water Projects are the water supply projects proposed by the National Water Supply and Drainage Board that will contribute to the water supply in the Maharagama area.

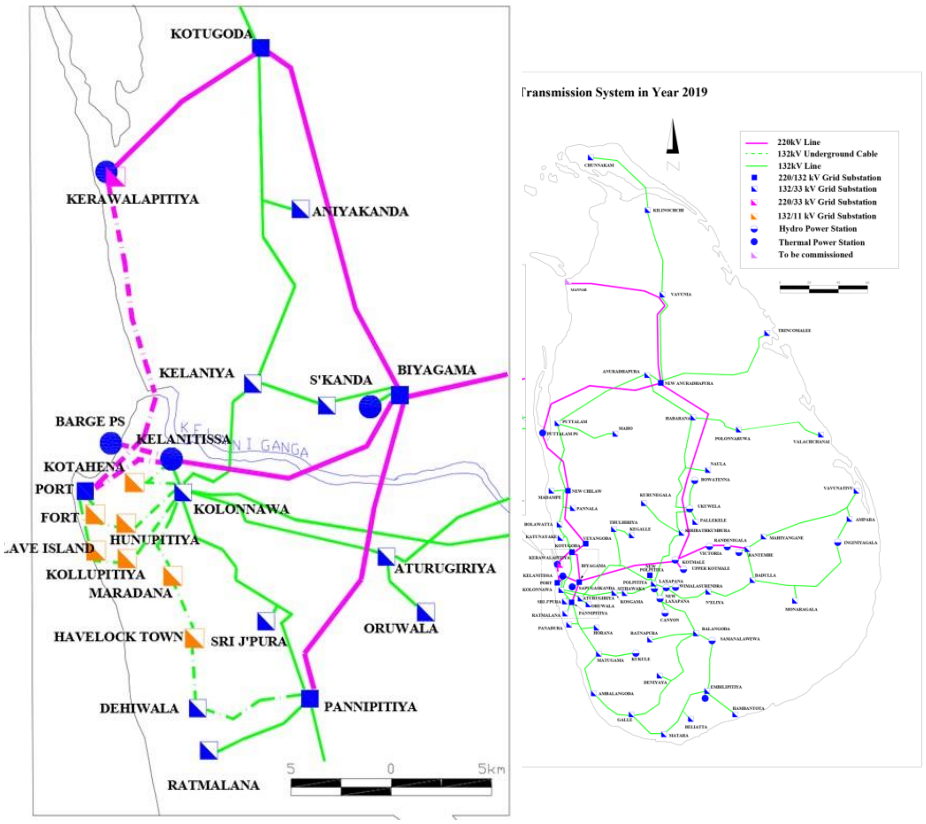

If the above projects mentioned in the Water Supply Master Plan are implemented without any hindrance, the demand for pipe borne water in the Maharagama area will be met without any problems.

6.7.4.1.2 Power Supply

Colombo Commercial City has 100% coverage of electricity throughout the city and it is supplied from the national grid. There are few power plants located within the Western Region, that are mainly concentrated in Colombo Metropolitan Region, namely Kelanitissa, Sapugaskanda and Kerawalapitiya. The Biyagama grid substation supplies electricity to the Maharagama area through the 220 and 132 Kv distribution network to the Pannipitiya grid substation.

If the regional capacity upgrades are carried out in a timely manner as per the recommendations of the Ceylon Electricity Board, it can be ensured adequate supply to meet the electricity demand that will be resulted due to increased population and future developments induced by the interventions of Maharagama Development Plan 2022-2031.

Figure 6.11 · Electricity transmission lines covering the area

Source: Ceylon Electricity Board

6.7.4.1.3 Provision of Smart Health Service

The health service of the Maharagama area is at a high level. Navinna Ayurveda Hospital, Sri Jayawardenapura Base Hospital, Maharagama Apeksha Hospital and the National Institute of Dentistry gather a large number of people daily from all over the region and nationally to Maharagama daily.

Accordingly, in order to provide a more comfortable and friendly service for the people who come to get these services, it is proposed to develop Sri Jayawardenepura Hospital, Navinna Ayurveda Hospital and Apeksha Hospital surroundings.

6.7.4.1.4 Solid Waste Management

Out of all the districts in the country, Colombo District generates the highest amount of solid waste. A large amount of solid waste are managed by the local authorities and a small amount of solid waste are managed at the generation sites.

When consider the available data, the Urban Council manages about 60% of the solid waste in the Maharagama area..

Figure 6.12 : Metods of waste management

Source: www.pressreader.com/sri-lanka/daily-mirror-sri-lanka, 2012

Accordingly, the waste is mainly directed to the Karadiyana landfill.

The projected solid waste generation in the city of Maharagama in 2030 is calculated on the following assumptions.

1. Per capita solid waste generation per day in the Urban Council areas is 0.6 Kg (National Solid Waste Management Project, Central Environmental Authority).

2. Per capita solid waste generation per day of the commuting population is 0.15 Kg (www. Environment clearance.nic.)

Table 6.19 : Solid Waste Generation

	Population (2031)	Solid Waste Generation(MT/d)
Residential	235,650	141.4
Commuter	200,000	30.0
Total	435,650	171.4

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

It is proposed to classified this garbage as perishable and as non-perishable and disposed to Karadiyana yard as the major management method.

In addition, the ongoing and proposed projects for waste management are as follows and are encouraged to be further implemented.

- Distribution of standard coloured waste segregation bags to each residential unit under the recyclable waste segregation and collection program with the assistance of the Western Provincial Council
- Implementation of Garbage Market Program to introduce commercial value for public segregated waste.
- Expansion of Thakakura Compost Project

Figure 6.13 : Garbage Market Project

Figure 6.14 : Distribution of Garbage Bags of Standard Colours

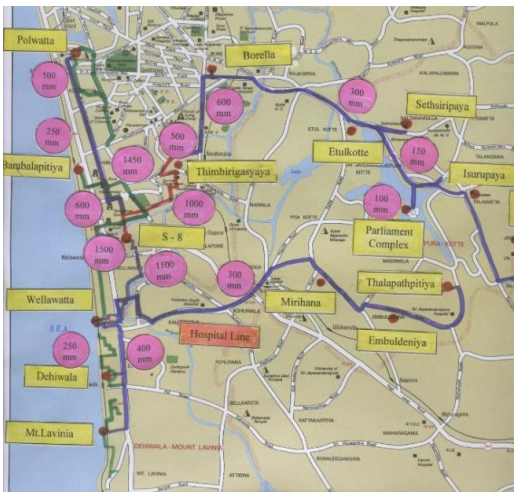

Figure 6.15 : Garbage Segregation

6.7.4.1.5 Waste water and Sewage Management

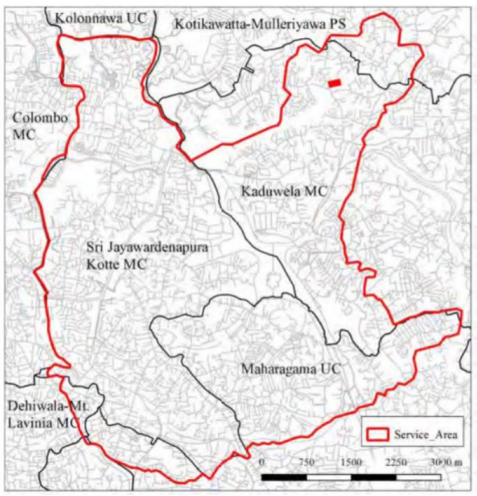

Management of Waste water and sewerage in the Maharagama area is a responsibility of the National Water Supply and Drainage Board and local authorities. The Ratmalana Wastewater Management System owned by the National Water Supply and Drainage Board covers part of the Dehiwala Mount Lavinia Municipal Council, part of the Moratuwa Municipal Council, part of the Boralesgamuwa Urban Council (proposed) and part of the Maharagama Urban Council (proposed). Its capacity is 17,000 cubic meters per day and its current capacity is 7,000 cubic meters per day.

Figure 6.16 : Existing Main Sewage System

Source : National Water Supply and Drainage Board

Figure 6.17 : Area covered by the Proposed Waste Disposal System

Source : National Water Supply and Drainage

At present, waste management is mainly done at the household level. By the year 2031, high density developments are proposed to be developed in the desired areas or projects with a plan for sewage management through the relevant projects.

6.8. Sustainable Environment Development Strategy

6.8.1 Introduction

Maintaining a sustainable ecological environment is an essential part of a comfortable and attractive city. The uniqueness and importance of the natural environment is changing today due to the settlements that developed with the advancement of civilizations. Many health and environmental benefits could be achieved through maintaining a sustainable environment.

6.8.2 Objective

The strategy aims to utilize the existing wetlands in the Maharagama Urban Council area for sustainable social, economic and environmental use, to minimize floods, to conserve and intensify the existing landscape features in the area and to develop the public outdoor recreation and amusement activities to suit the proposed development needs.

6.8.3 Contribution to the Goals and Objectives of the Maharagama Development Plan 2022 -2031

The Sustainable Environmental Strategic Plan contributes directly to achieve the first goal “A Comfortable Residential City” and the fourth goal “A City with Well Protected Wetlands”.

6.8.4 Scope

The planning framework of the Sustainable Environment Development Strategy includes;

1. Wetland Zoning Plan
2. Landscape Management Plan
3. Disaster Risk Mitigation Plan
4. Public Outdoor Recreation plan

6.8.4.1 Wetland Zoning Plan

Utilisation of existing wetlands in the Maharagama Urban Council area for sustainable, social, economic and environmental use, taking into account their potential for water retention and other environmental benefits, thereby preventing unauthorized acquisitions and misuse in the area are the main Goals of this Wetland Zoning Plan.

The objectives of preparation of Wetland Zoning Plan are as follows.

1. Creating an eco-friendly city within the limits of Maharagama Urban Council by minimizing the impact of floods due to human activities.
2. Use of wetlands for scientific, research and educational awareness.
3. Utilization of wetlands to enhance ecological, tourism and recreational opportunities by enhancing biodiversity.
4. To minimize the detrimental effect of unauthorized acquisitions and environmentally unfriendly, incompatible and unsuitable construction on the area.

Accordingly, under wetland zoning, the existing wetlands in the Maharagama Municipal Council area have been zoned under three zones.

I. Wetland Protection Zone – Conservation Wetlands

This includes wetlands that have been declared as protected or special areas by an international convention, National law or gazette notification; the Diyawanna Oya and several swamps around Parliament which are to the north of this planning area belongs to the "Sri Jayawardenapura Kotte Sanctuary".

II. Wetland Nature Conservation Zone

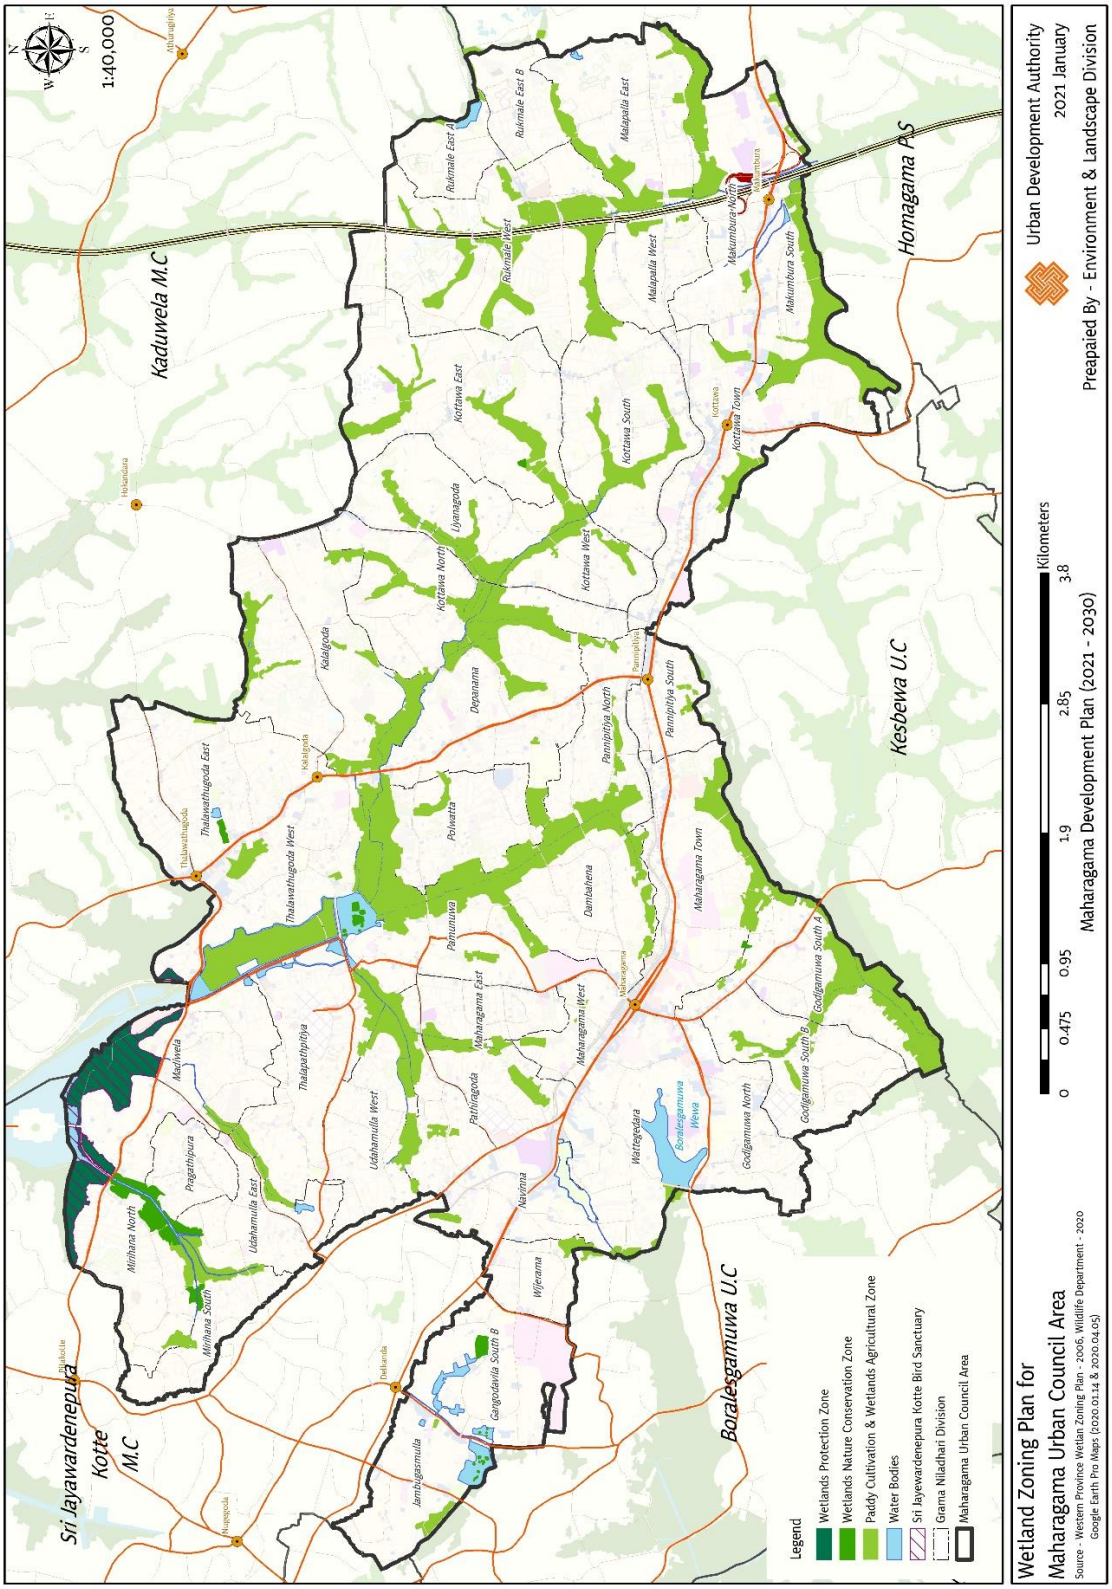

This zone includes wetlands with high biodiversity and areas to be classified as wetland and water retention and drainage areas for flood risk mitigation and control.

III. Paddy Cultivation and Wetland Agricultural Zone

Existing cultivated paddy fields, abandoned paddy lands and related areas such as deniya, ovita etc., and wetland based agricultural areas of the Western Province are included in this zone.

Accordingly, guidelines for each zone have been introduced by the Development Regulations.

Map 6.16 : Proposed Wetland zoning

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

6.8.4.2 Landscape Management Plan

The main objective of this Plan is to conserve and intensify the existing natural landscape features of the area. This will protect the identity of the city.

In addition, this Plan aims at the sustainable landscape development of various ecosystems, roads, etc. through systematic Plans with a view to conserving the environment.

The landscape Plan of the Maharagama Urban Council area will be prepared with the following objectives to face global climate change in the future.

1. Increasing urban forest cover to mitigate disasters such as global warming, increased carbon footprint, increased air pollution and increased flooding.
2. Incorporation of endemic plant diversity to the growth of urban biodiversity.
3. Provide separate lanes with shade and seating for safety of the pedestrians as well as to encourage walking.
4. Protecting sensitive ecosystems and using them for sustainable eco-friendly recreational activities by introducing wise use.
5. Create well-designed open spaces for the public with infrastructural facilities such as urban squares and public parks.
6. Provision of beauty, identity and economic development to the city by adding various parks, lanes, suitable billboards and lighting.

6.8.4.3 Disaster Risk Reduction Plan

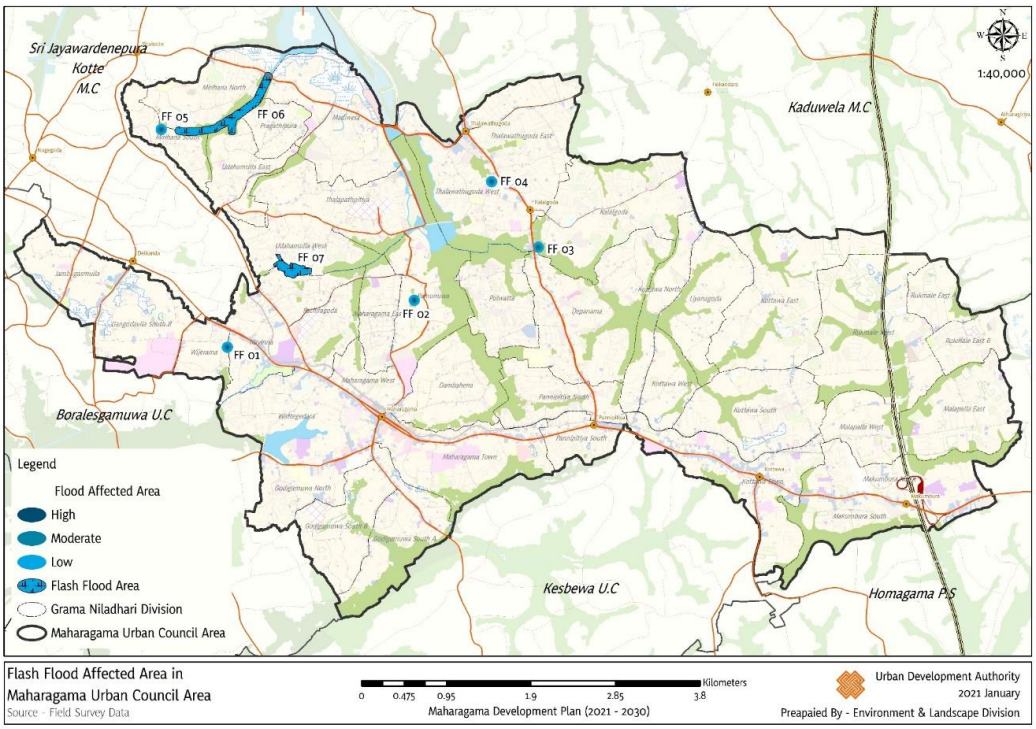

It is expected to take action to prevent from flash floods which is the major disaster in several parts of the region.

Table 6.21 : Proposed flash flood prevention projects

No	Project Name
01	Construction of drainage system at the location specified as FF01
02	Maintenance of natural drainage system at the location specified as FF02
03	Maintenance of natural drainage system at the location specified as FF03
04	Maintenance of natural drainage system at the location specified as FF04
05	Maintenance of natural drainage system at the location specified as FF05
06	Take steps to prevent the discharge of contaminants into the canals at the location specified as FF06 and to remove the overgrown plants that block the canals and carry out proper maintenance.

Map 6.17 : Proposed flash flood prevention projects

Prepared by: Planning Team, Colombo Metro Region Division, UDA, 2021

6.8.4.4 Public Outdoor Recreation Space Plan

This Plan will develop the public outdoor leisure and recreation activities to suit the proposed development needs of the Maharagama Urban Council Area.

The main Objectives of this Plan are as follows.

1. Provide facilities for play and recreation for everyone from infants to adults.
2. Establishment of leisure and entertainment facilities for children near residential areas.
3. Make a healthy population by improving the physical and mental well-being.
4. Minimize social problems by promoting sports as a hobby.

This is a sequence of establishment of proposed Parks for urban areas in Sri Lanka and the walking distance is the basic basis.

There are two types of leisure and recreational facilities such as direct and indirect and direct leisure and recreational facilities which includes sports, such as football, hand ball and tennis that require special facilities and space or equipment reserved for people to actively participate in the sport. Indirect leisure and recreational activities include activities that do not require special facilities, such as walking, photography, nature watching and bird watching.

Accordingly, 328 Ha. of land should be set aside for public outdoor open space by 2030, but at present only 17.3 Ha. are reserved for direct leisure and recreation. Since this area is a densely populated area and the amount of land that can be set aside for leisure and recreation is very limited. Considering the demand for land for other uses, the scarcity of land suitable for leisure and recreation and the lack of easy access to public outdoor recreation, the Plan proposes to create 0.2 Ha. of land per 1000 population for leisure and recreation activities.

Further, it can also be used for cinemas, libraries, indoor playgrounds, etc., which are considered under indirect leisure and entertainment facilities. It is suggested that the indirect leisure and recreational methods available in the area should also be used effectively as there is not enough land available for direct leisure and recreational activities. There are 27 community halls and 14 libraries in the Urban Council area and the facilities at these places need to be upgraded to provide these leisure and recreational facilities.

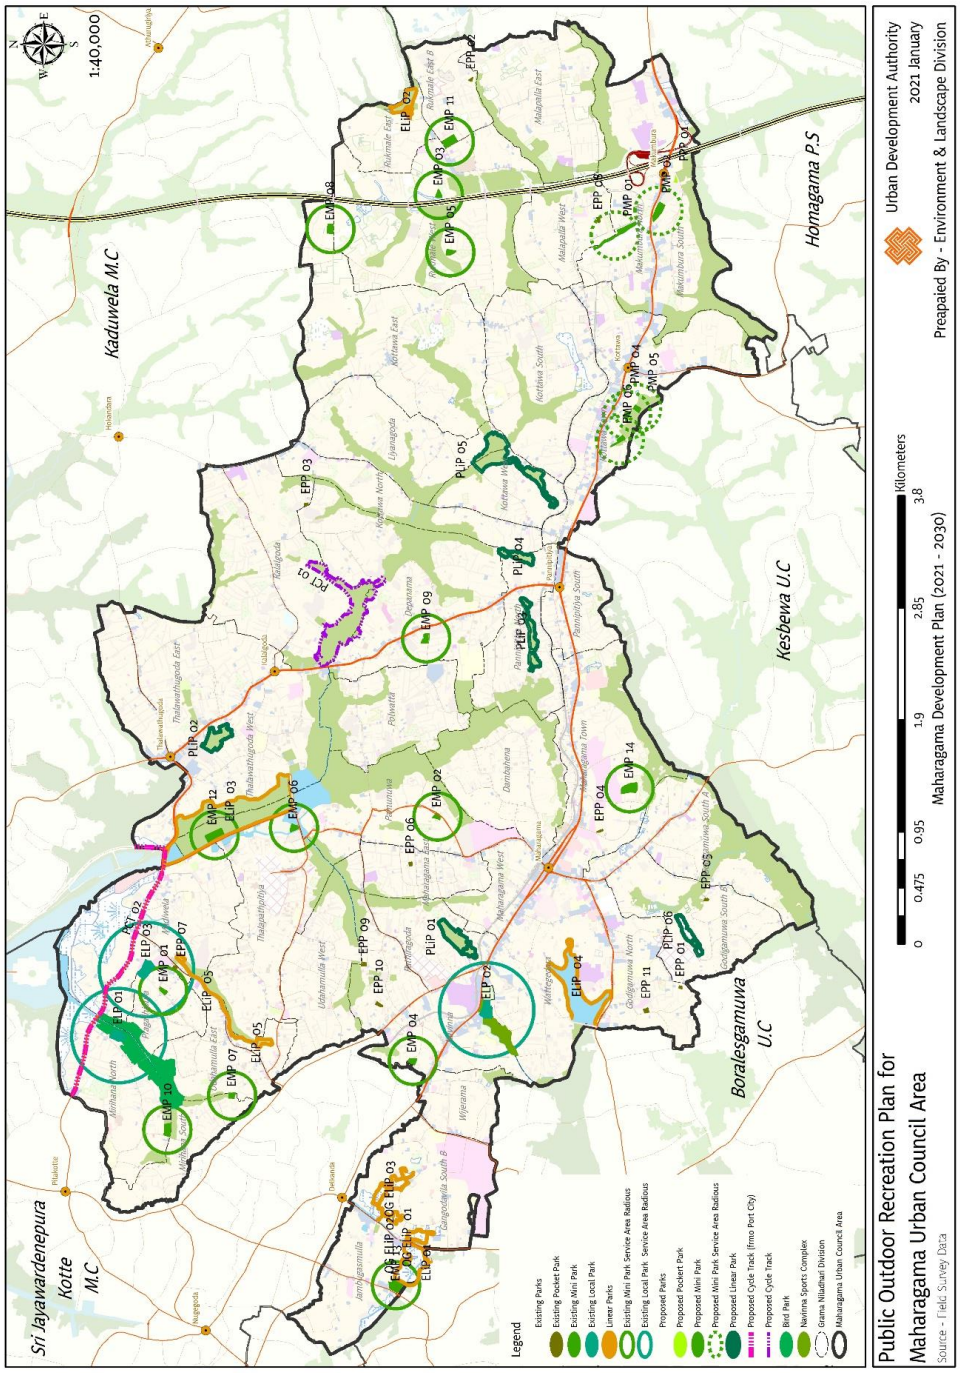

Accordingly, after considering all the available spaces, the following is the Proposed Plan for direct leisure and recreational facilities.

Table 6.22 : Proposed direct Leisure and Recreation Facility Projets

No	Type of Park	Area
01	Proposed Small Parks	Makumbura
02	Proposed Small Parks	Makumbura
03	Proposed Small Parks	Kottawa

Development Zones & Zoning Guidelines

Chapter 07
Development Zones and Zoning Guidelines

7.1 Introduction

The Maharagama Development Plan (2022-2031) has been formulated with the objective of achieving the vision of Maharagama "Smart Transit Attire of Colombo". Thereby, Plans have been made to solve the existing problems in the Maharagama area by identifying the existing problems and to create a better, sustainable and safer city by utilizing the opportunities and potentials available in the Maharagama. In order to achieve these objectives, the Development Plan has been prepared following six development strategies.

Accordingly, Zoning Plan and Regulations have been introduced taking into account the current land use pattern, population and building density, environmentally sensitive areas, proposed projects etc. This Chapter describes the Zoning Plan, Development Zones, Zone Factor, Permitted Uses in each zone and the general rules and regulations apply to those development zones.

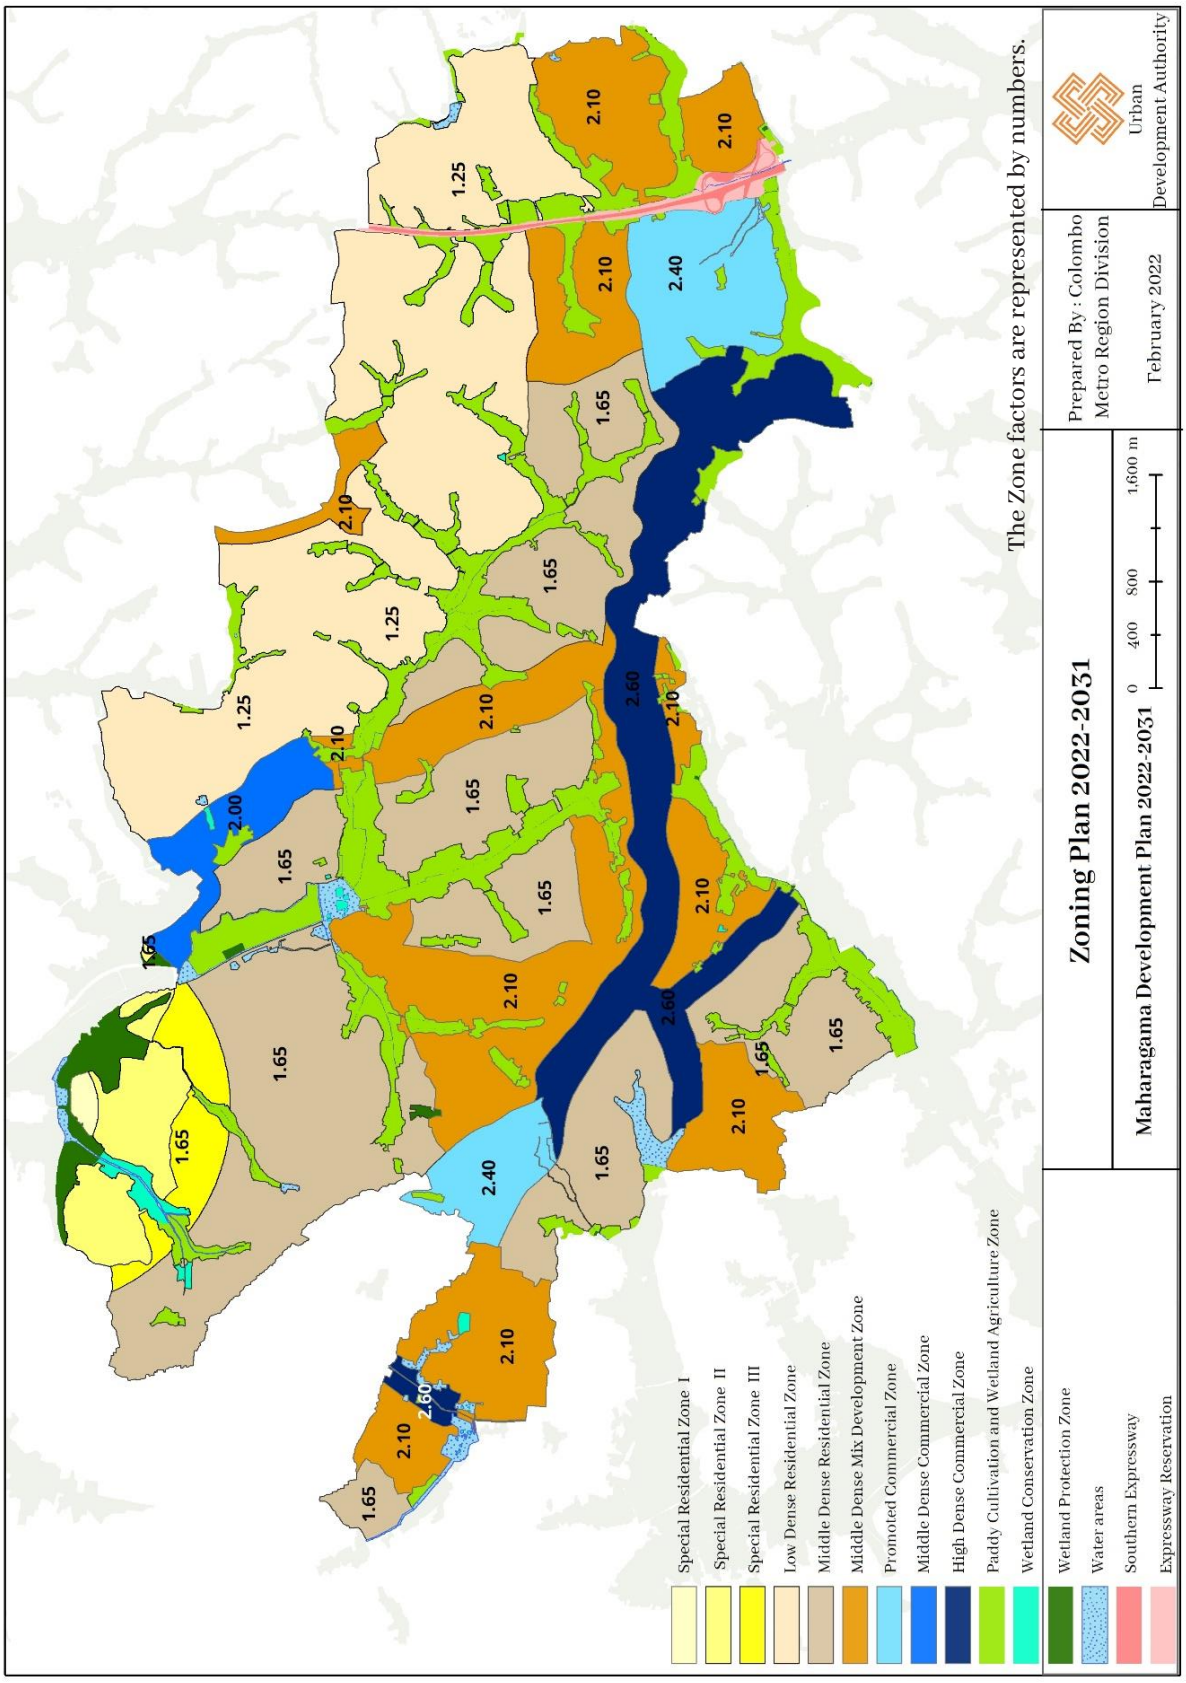

7.2 Development Zones and Zoning Guidelines

7.2.1 Development Zones

Ten zones were identified under the Mahargama Development Plan in order to implementation of land and building regulations. Proposed development zones are as follows

No	Zone
01	Special Residential Zone (Parliament Area Zone I, II, III)
02	Low Dense Residential Zone
03	Middle Dense Residential Zone
04	Middle Dense Mix Development Zone
05	Middle Dense Commercial Zone
06	Promoted Commercial Zone
07	High Dense Commercial Zone
08	Wetland Conservation Zone
09	Paddy Cultivation and Wetland Agriculture Zone
10	Wetland Protection Zone

7.2.2 Zoning Plan (2022 – 2031)

7.3 Zone Factor

Annexure 01 indicates the maximum allowable floor area in relation to the applicable zone factors of Maharagama Development Plan which is extracted from the Form 'A' 'B' in Schedule 6 to Part IV of the Extraordinary Gazette Notification No. 2235/54 dated Thursday 08th July 2021. And the open spaces of the building pertaining to the said permissible floor area, the form 'E' of the above Gazette.

Zone Factor determines the maximum allowable floor area of any zone. This has been computed separately for each development zone proposed in the development plan considering the existing infrastructure facilities and developable land area of each zone. Accordingly, in determining the zone factor it has been based on; existing land use, capacity of infrastructure in relation to population density, environmental/ cultural sensitivity of the area and carrying capacity in terms geographic conditions.

It is expected to have a comparatively high development within the high dense commercial zone, and a comparatively medium dense development within the medium dense residential zones and a controlled development within wetland areas that has been identified by the development plan 2022-2031. Accordingly, based on the proposed zone factor, there will be an impact on the future development of the Maharagama Municipality area.

In the preparation of the new development plan 2022-2031, it has been studied the development trend of the area to do the zoning. Based on maximum allowable floor area of any zone areas are divided into high density, medium density and low density zones. Accordingly, the zone factor is given for each zone

7.3.1 Maximum allowable floor area

The formula used to calculate the zone factor is as follows.

$$\text{Zone Factor} = \frac{\text{Expected total land extent (sq.m.)}}{\text{Extent of existing developable land (sq.m.)}}$$

This reflects the maximum allowable floor area that a land developer can be achieved in the development of the land. Zone factor depends on the size of land, road width, amount of open space available without construction etc.

7.4 Development Limits

The following analyzes were taken into consideration in preparation the Zoning Plan of this area so as to be able to achieve the desired vision for the city of Maharagama

- Conceptual Plan
- Development pressure analysis
- Environmental sensitivity analysis
- Expected residential and commuter population

Accordingly, the following assumptions have been used in calculating the total area expected to be developed during the planning period of the Maharagama Development Plan

1. The floor area required for a residential unit is 50 sq.m.
2. A residential unit consists of 4 persons.
3. The floor space for one commuter person is 40 sq.m.

7.5 Zone factor of development zones

	Development Zone	Zone Factor
01	Special Residential Zone (Zone factor is not applicable for Parliament Zone I & II	1.65
02	Low Density Residential Zone	1.25
03	Middle Dense Residential Zone	1.65
04	Middle Dense Mixed Development Zone	2.10
05	Middle Dense Commercial Zone	2.00
06	Promoted Commercial Zone	2.40
07	High Dense Commercial Zone	2.60
08	Wetland Conservation Zone	0.00
09	Paddy Cultivation and Wetland Agricultural Zone	0.00
10	Wetland Protection Zone	0.00

7.6 Common Guidelines for Planning area

1. These Regulations and guidelines shall apply to all areas within the administrative limits of the Maharagama Urban Council area which have been declared as an Urban Development Area in the Extraordinary Gazette Notification No. 56/6 of 01st October 1979 under Section 3 of the Urban Development Authority Act No. 41 of 1978.

2. In addition to the zoning regulation of this development plan, the Planning and Development Regulations published in the Gazette Notification No. 2235/54 dated 08th July 2021 by the Urban Development Authority is also applicable for the any development activity within Maharagama Urban Council area.

3. The land lots less than 150sq.m. which have been subdivided before 1986 are considered as existing lots and the maximum permissible number of floors including the ground floor for such lands is two (G + 1).

4. If the tower cranes are being used for any development, an approval with the recommendation of qualified person and insurance cover shall be obtained from institution where relevant development approval was granted.

5. In cases where the development premises face more than one road having right of way with a minimum width of 6 m or more that connected to the main roads independently, the calculation of the permissible development may be considered while taking into account the total width of the access roads on a case-by-case basis

6. The Authority shall have powers to decide final approval of any uses not mentioned in the permissible uses category as per zoning plan.

7. In case of any problem regarding a wetland, the Urban Development Authority shall have power to take a decision subject to the recommendation obtain through a join inspection with Department of Agrarian Services, Central Environmental Authority, Sri Lanka Land Development Corporation and Environment and Landscape Division of the Urban Development Authority. Further, Urban Development Authority shall have power to take a decision regarding the developments of lands located in boundaries of Wetland Zone and obtained the planning approval from Local Authority or Urban Development Authority prior to the gazette notification of development plan 2022-2031

8. In cases where any land belongs to two or more zones, the zone of the land shall determine by the zone that belongs to the main access road of the land. If both roads are in same width, the zone which the access road with greater frontage shall be applied.

9. When a zone is demarcated as the first block facing an access road as the zone boundary, the entire plot shall include in that zone. When the plots in the back

is somehow merged with the first plot and approved as a single plot of land, the last boundary of that total land shall be considered as the zonal boundary.

10. If a piece of land falls between two Local Authority areas, the Authority shall determine the use of that land on the agreement of the relevant Local Authorities for the use of the zone which gets the main access.

11. The boundaries shown in the zoning plan are defined by both the physical boundaries and the geographical coordinates and in case of a boundary difference the geographical boundary should be considered as the boundary of the zone.

12. The legal parking requirement for any development shall be provided within the premises and cannot be considered the payment of fine for parking.

13. By the date on which the regulations of the Plan come into force, if any legally enforced use does not fit into that Zone, permission will only be granted to continue existing practices. No extension of the period of such use, or extension of its building parts or machinery, or addition of parts of adjoining lands, or any activities leading to any project shall be permitted only for essential maintenance. Further, if the continued maintenance of the proposed land or building is deemed unfavorable, such non-conforming use may be ceased by an order.

14. Premises which are facing to water bodies (Lakes, Main canals, lands associated with wetlands and Marshy lands) and exceeding the buildable area of 400sqm should have waste water treatment plan within the premises under approval of Central Environmental Authority.

15. In special development activities related to water sources and wetlands, buildings should be constructed in accordance with the surrounding environment. In this case, the color of the building and the materials used for the building should match the surrounding environment.

16. In an event where a land falls both Wetland Conservation Zone or Paddy Cultivation and Wetland Agricultural Zone combined with a land of any other zone (residential or non-residential zone), and extent of the other zone exceeds 75%, the Urban Development Authority shall have power to take a decision subject to the approval of the Department of Agrarian Services and Sri Lanka Land Development Corporation

17. For the construction of a new religious building recommendations of the Divisional Secretariat and the relevant Ministry of Religious Affairs should be obtained.

18. Construction of various religious statues, symbols and other religious towers are not permitted within the building lines, road widening boundaries and reservations.

19. Clearance should obtain from Urban Development Authority for the allocating of land for newly proposed cemeteries / crematoriums.

20. For the subdivision of more than four lots (not among family members), a conditional letter of land development should obtain and certificate of conformity should be obtained for the same.

21. In case of subdivision of more than 01 Ha of land, 10% of the open space allotted for community recreation and outdoor areas should be developed according to a landscape Plan, prior to obtaining the Certificate of Conformity

22. When giving an approval for tavern and guest houses it should be at least 500m away from schools and religious places and an advertisement regarding the proposed use should be displayed at the relevant place for 14 days and the approval should be recommended after inquiring whether there are any objections.

23. For the roads without street lines or building lines (private roads) should keep 1m from edge of the road as a building line.

24. The maximum plot coverage for schools, educational institutions, children's homes, elders' homes, rehabilitation homes and hospitals should not exceed 50%.

25. Penalty amount for each building used without obtaining a certificate of conformity will be charged from the date of expiry of the development permit.

26. Preliminary Planning Clearance shall be obtained from the Urban Development Authority for the following situations even though it is mentioned in the Gazette Notification No. 2235/54 dated 08th July 2021 issued by the Urban Development Authority
    - The all developments activities in public open space
    - The buildings exceeding 30m in height
    - The all condominium development activities of 5 units and above
    - The Ayurveda or western medical centers and all private hospitals & medical centers
    - The industry, stores & warehouse and related development activity
    - In the construction of monuments on city lanes and access roads.
    - When Requesting approval for development of low lands located within development allowing zones
    - The commercial buildings exceeding 900Sqm
    - Private schools (approval from the Ministry of Education is also required), tuition classes, private hospitals (approval from the Ministry of Health is also required)

- The Advertisement boards (A & B class roads)
- For other activities which are not applicable in the above cases and the Urban Development Authority decides that a Certificate of Preliminary Planning Clearance is required.

27. The Urban Development Authority shall have powers to made final decision when there is an issue regarding legalized plan, development or building regulation or its interpretation or practical application.

Chapter

Zoning Guidelines

Chapter 08
Zoning Guidelines

According to the Zoning Plan of the Maharagama Urban Development Plan, 10 Zones have been identified and the regulations applicable to each Zone are as follows.

8.1 Zoning Guidelines

8.1.1 Special Residential Zone

This Zone is divided into 3 Sub Zones. Areas with a radius of 0 - 500 m from Parliament are referred as Special Residential Zone I (SRZI), 500m to Phyical Boundry reffered as Special Residential Zone II (SRZ II) and Physical boundary - 1500 m as Special Residential Zone III (SRZ III) .

I	Name of the Main Zone	Special Residential Zone		
II	Zonal Boundaries	Metioned in section “A” of annexture IV		
III	Zone No	Special Residential Zone I (SRZ I)	Special Residential Zone II (SRZ II)	Special Residential Zone III (SRZ III)
IV	Zone Factor	-	-	1.65
V	Maximum Permitted Floor Area Ratio / No. of Floors	Two Storeyed Houses (G+1) Maximum height of 9m	Three Storeyed (G+2) Maximum height of 12 m.	Should be in accordance with Form A , B of annexture I
VI	Maximum Permitted Plot Coverage	Should be in accordance with Form E of annexture I		
VII	Open Spaces	Should be in accordance with Form E of annexture I		
VIII	Architectural guidance and form of the building	Special Residential Zone I, II (SRZ I, II)		External appearance of the building should be compatibale with the surrounding context and type of each zone

		1. The roof should be covered with tiles or sheets which are compatible with the built environment within the 1 mile radius from the parliamentary complex and no flat roofs,terrace,openings balconies are permitted towards the direction of parliament Complex. 2. The exterior of the building should be treated with non reflective materials and ground colors 3. 3 m wide buffer zone should be maintained along the direction of the Parliament and it should be properly landscaped.	
IX	Boundary walls	Boundry walls are not permitted towards the direct facing to Parliament Complex.However wrought iron fences or live hedge are acceptable	-
X	Minimum land area that can be subdivided	As per annexture II	
XI	Permissible uses	Main use	Permissible uses (accordance to annexture II)
		1. Residential	1,2,3,4,5,6,7,8*, 9*, 10, 11, 12, 13, 14,15,16,17, 18
		2. Health	2,3,4,5,6,7,8,10
		3. Offices and Institutions	1,2,3,4,5*6,7,8
		4. Commercial	1,2,4,5,6,9,10,11*12*13,14,15,17,18,19
		5. Educational	1,8*,9,11
		6. Customer service centre	1,2,3,4,5
		7. Tourism	1,2,3, 4**,5**,6**
		8. Social service & Religious	1,2,3,4,5*
		9. Industries	2,3,4,7*,8,12
		10. Recreational	1,2,3,4,5,6,7,8,9,10
		11. Other	1,2,4,8,9

XII	General Regulation for the Zone	• Preliminary Planning Clearance should be obtained from the Urban Development Authority • Parliament Clearance should be obtained from the Secretary General of Parliament(if such requirement is mentioned in the Planning Clearance of the Urban Development Authority • The proposed use should be in accordance with the prevailing conditions in the area. The public facilities of the area should not be disturbed or the environment of the surrounding area should be adversely affected or privacy should not be affected in any other way • The proposed use should not interfere with traffic or pose a traffic risk • The size of the land should be sufficient for the proposed use and adequate requirements should be provided for parking, water supply, waste disposal, other infrastructure, protection from fire and other hazards. • * permitted only in Parliament Zone iii . • ** Planning clearance should be obtained from Urban Development Authority. The decision is made by the Planning Committee of the Urban Development Authority after displaying a 14 day notice regarding the use of the surroundings, the access road and public protests. Educational centres should be located at least 500 m. from Religious centres.

8.1.2 Low Dense Residential Zone

I.	Name of the Main Zone	Low Dense Residential Zone	
II.	Zonal Boundaries	Mentioned in Section 'B' of Annexure IV	
III.	Zone No	LDRZ	
IV.	Zone Factor	1.25	
V.	Maximum Permitted Floor Area Ratio / No. of Floors	Should be in accordance with Form A , B of annexture I	
VI.	Maximum Permitted Plot Coverage	Should be in accordance with Form E of annexture I	
VII.	Open Spaces	Should be in accordance with Form E of annexture I	
VIII.	Minimum land area that can be subdivided	Should be in accordance annexture II	
IX.	Permissible uses	Main use	Permissible uses (accordance to annexture II)
		1.Residential	1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16,17,18
		2.Health	1, 2,3,4,5,6,7,8,9,10
		3.Offices and Institutions	1,2,3,4,6,7,8
		4.Commercial	1,2,3,4,5,6,7,8,10,11,12,13,14,15,16,17,18,19
		5.Educational	1,2,3,4,5,6,7,8,9,10,11
		6.Customer service centre	1,2,3,4,5
		7.Tourism	1,2,3,4**,5**,6**
		8.Social service & Religious	1,2,3,4,5
		9.Industries	2,3,4,5,6,7,8,9,10,12,1317,18
		10.Recreational	1,2,3,4,5,6,7,8,9,10
		11.Other	,2,4,6**,9
X.	General Regulation for the Zone	• ** Planning clearance should be obtained from Urban Development Authority. The decision is made by the Planning Committee of the Urban Development Authority after displaying a 14 day notice regarding the use of the surroundings, the access road and public protests. Educational centres should be located at least 500 m. from Religious centres.	

8.1.3 Middle Dense Residential Zone

I.	Name of the Main Zone	Middle Dense Residential Zone	
II.	Zonal Boundaries	Mentioned in Section 'C' of Annexure IV	
III.	Zone No	MDRZ	
IV.	Zone Factor	1.65	
V.	Maximum Permitted Floor Area Ratio / No. of Floors	Should be in accordance with Form A , B of annexture I	
VI.	Maximum Permitted Plot Coverage	Should be in accordance with Form E of annexture I	
VII.	Open Spaces	Should be in accordance with Form E of annexture I	
VIII.	Minimum land area that can be subdivided	Should be in accordance annexture II	
IX.	Permissible uses	Main use	Permissible uses (accordance to annexture II)
		1.Residential	1,2,3,4,5,6,7,8,9,10,11,12,13,14,15, 16, 17 ,18
		2.Health	1, 2,3,4,5,6,7,8,9,10
		3.Offices and Institutions	1,2,3,4,6,7,8
		4.Commercial	1,2,3,4,5,6,7,8,9,10,11,12,13,14,15, 16, 17, 18,1
		5.Educational	1,2,3,4,5,6,7,8,9,10 ,11
		6.Customer service centre	1,2,3,4,5
		7.Tourism	1,2,3,4**,5**,6**
		8.Social service & Religious	1,2,3,4,5
		9.Industries	2,3,4,5,6,7,8,9,10,12,13, 17,18
		10.Recreational	1,2,3,4,5,6,7,8,9,10
		11. Other	1,2,4,9
X	General Regulation for the Zone	• ** Planning clearance should be obtained from Urban Development Authority. The decision is made by the Planning Committee of the Urban Development Authority after displaying a 14 day notice regarding the use of the surroundings, the access road and public protests. Educational centres should be located at least 500 m. from Religious centres.	

8.1.4 Middle Dense Mixed Development Zone

I	Name of the Main Zone	Middle Dense Mixed Development Zone	
II	Zonal Boundaries	Mentioned in Section 'D' of Annexure IV	
III	Zone No	MMZ	
IV	Zone Factor	2.10	
V	Maximum Permitted Floor Area Ratio / No. of Floors	Should be in accordance with Form A , B of annexture I	
VI	Maximum Permitted Plot Coverage	Should be in accordance with Form E of annexture I	
VII	Open Spaces	Should be in accordance with Form E of annexture I	
VIII	Minimum land area that can be subdivided	Should be in accordance annexture II	
IX	Permissible uses	Main use	Permissible uses (accordance to annexture II)
		1.Residential	1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16,17,18
		2.Health	1,2,3,4,5,6,7,8,9,10
		3.Offices and Institutions	1,2,3,4,5,6,7,8
		4.Commercial	1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16, 17,18,19
		5.Educational	1,2,3,4,5,6,7,8,9,10,11
		6.Customer service centre	1,2,3,4,5
		7.Tourism	1,2,3,4,5,6,7,8
		8.Social service & Religious	1,2,3,4,5
		9.Industries	1,2,3,4,5,6,7,8,9,10,12,13,14,15,16,17, 18
		10.Recreational	1,2,3,4,5,6,7,8,9,10
		11. Other	1,2,3,4,8,9

8.1.5 Middle Dense Commercial Zone

I.	Name of the Main Zone	Middle Dense Commercial Zone	
II.	Zonal Boundaries	Mentioned in Section 'E' of Annexure IV	
III.	Zone No	MCZ	
IV.	Zone Factor	2.00	
V.	Maximum Permitted Floor Area Ratio / No. of Floors	Should be in accordance with Form A , B of annexture I	
VI.	Maximum Permitted Plot Coverage	Should be in accordance with Form E of annexture I	
VII.	Open Spaces	Should be in accordance with Form E of annexture I	
III.	Minimum land area that can be subdivided	Should be in accordance annexture II	
IX.	Permissible uses	Main use	Permissible uses (accordance to annexture II)
		1.Residential	1,2,3,4, 11,13,14,15,16,17,18
		2.Health	1,2,3,4,5,6,7,8,10
		3.Offices and Institutions	1,2,3,4,5,6,7,8
		4.Commercial	1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16, 17,18,19
		5.Educational	1,5,6,7,8,9,10,11
		6.Customer service centre	1,2,3,4,5
		7.Tourism	1,2,3,4,5,6,7,8
		8.Social service & Religious	1,4
		9.Industries	2,3,4,5,6,7,8,12 ,17,18
		10.Recreational	1,2,3,4,5,7,8,9,10
		11.Other	1,2,3,4,8,9

8.1.6 Promoted Commercial Zone

I.	Name of the Main Zone	Promoted Commercial Zone	
II.	Zonal Boundaries	Mentioned in Section'F' of Annexure IV	
III.	Zone No	PCZ	
IV.	Zone Factor	2.40	
V.	Maximum Permitted Floor Area Ratio / No. of Floors	Should be in accordance with Form A , B of annexture I	
VI.	Maximum Permitted Plot Coverage	Should be in accordance with Form E of annexture I	
VII.	Open Spaces	Should be in accordance with Form E of annexture I	
VIII.	Minimum land area that can be subdivided	Should be in accordance annexture II	
IX	Permissible uses	Main use	Permissible uses (accordance to annexture II)
		1.Residential	1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16,17,18
		2.Health	1,2,3,4,5,6,7,8,9,10
		3.Offices and Institutions	1,2,3,4,5,6,7,8
		4.Commercial	1,2,3,4,5,6,7,8,9,10,11,12,13,14,15,16, 17,18,19
		5.Educational	1,5,6,7,8,9,10,11
		6.Customer service centre	1,2,3,4,5
		7.Tourism	1,2,3,4,5,6,7,8
		8.Social service & Religious	1,2,4
		9.Industries	1,2,3,4,5,6,7,8,9,10,12,13,14,15,16,17,18
		10.Recreational	1,2,3,4,5,6,7,8,9,10
		11.Other	1,2,3,4,8,9

8.1.7 High Dense Commercial Zone

I.	Name of the Main Zone	High Dense Commercial Zone	
II.	Zonal Boundaries	Mentioned in Section 'G' of Annexure IV	
III.	Zone No	HCZ	
IV.	Zone Factor	2.60	
V.	Maximum Permitted Floor Area Ratio / No. of Floors	Should be in accordance with Form A , B of annexture I	
VI.	Maximum Permitted Plot Coverage	Should be in accordance with Form E of annexture I	
VII.	Open Spaces	Should be in accordance with Form E of annexture I	
VIII.	Minimum land area that can be subdivided	Should be in accordance annexture II	
IX.	Permissible uses	Main use	Permissible uses (accordance to annexture II)
		1.Residential	1,2,3,4,5 ,6,7,10,11,12,13,14,15,16,17,18
		2.Health	1,2,3,4,5,6,7,8,9,10

8.1.8 Wetland Conservation Zone

I	Name of the Main Zone	Wetland Conservation Zone
Ii	Zone No.	WCZ
III	Zone Factor	0.0
IV	Minimum land extent for construction of Buildings	4 Ha. (10 Acres) The approved uses for the smaller plots are same but construction of buildings are not allowed.
V	Ground limits allowed for maximum filling	2% of the land area. Roads, parking, toilets and waste disposal / remediation can be used to control the workplace if necessary
VI	Maximum Plot coverage (Area covered by buildings)	1% of the total project area.
VII	Maximum infrastructure projects permitted Electricity), Water supply, Telecomunication, Highways etc.	4% of the Total project area.
VIII	Maximum ground floor area permitted for seperate buildings	100 sq.m.
IX	Maximum building height permitted	7m. from the existing ground level. (Towers to match with the main concept / Observation centres except for centres where animals can be observed from hiding)
X	Type of Building	All buildings (except toilets) within wetlands should be built on towers. Buildings should be placed individually or in clusters with scenic roofs. Its scenery should be eco-friendly, not covered by public roads and public areas adjecent to open areas
XI	Subdivisions	No approval
XII	Permitted Uses	1. Wetland nature parks 2. Eco friendly restaurants – 1200 sq.ft. (built on towers) 3. Small scale conference centres (built on towers) 150 sq.m., Seating capacity - 75, Stage size – 9 m. x 15 m. 4. Outdoor fitness areas / Places with exercise facilities 5. Wetland museums – 100 sq.m. (built on towers) 6. Cabana (built on towers) 7. Places where play only in dry weather 8.Traditional Fishery industry 9. Flower collection points

		10. Aquatic transportation activities 11. Beautiful wetlands 12. Government approved public infrastructure projects of National importance 13. Construction of new irrigation /Construction of flood protection 14. Educational and Research Centres	
XIII	General Regulations for the Zone	Marking the boundaries	Boundary walls are not permitted. Landscaping boundary fence to match the with the landscaping can be approved along the boundary leading to existing high ground without obstructing the flow of rain water. Marking of other boundaries should be done with landscaping markers (with a minimum spacing of 10 m.)by marking the landscape. In both the above cases, the work should be done on the basis of the specificity subject to the approval of the Urban Development Authority.
		Relaxation of the above conditions in special cases.	The above conditions can be relaxed when it is necessary to implement an important common infrastructure project.
		No other uses are permitted in this zone. All constructions in the Wetland Nature Conservation Zone should be on towers or pillars.	

8.1.9 Paddy Cultivation and Wetland Agricultural Zone

I	Name of the Main Zone	Paddy Cultivation and Wetland Agricultural Zone
II	Zone No.	WAZ
III	Zone factor	0.0
IV	Permitted uses	1. Existing cultivated paddy fields and fallow paddy lands and related areas such as deniya, ovita etc. can be used only for the permitted uses in accordance with the Agrarian Development Act. 2. Wetland related Agriculture 3. Invasive Plants 4. Excavation carried out under the conditions of the Geological Survey and Mining Bureau and the Central Environmental Authority subject to restoration of informal land (clay pits and soil excavations) 5. Eco-friendly aquaculture ponds
V	General Regulations for the Zone	((a) In the rare case where it is necessary to implement an important common infrastructure project, the above conditions can be relaxed (Permitted maximum Infrastructure Projects such as Electricity, Water Supply, Telephone, Highways, Railways etc.) (b) Approval for the proposed development work should be obtained subject to the recommendations of the Institutions mentioned in the Schedule prior to obtaining Preliminary Planning Clearance for the other development activities as the land use pattern of the existing wetlands may change under the new programme of creating a people centered economy in the 'Vision of Prosperity' Policy Statement 2019 (c) Survey Plan should be considered to determine the boundaries before approving the proposed development activities in the vicinity of wetlands or in the presence of highland areas in wetlands. (d) Accordingto the Wetland Zoning, the wetlands which are located within 20 m. outside the boundary of a wetland zone belong to the nearest wetland zoneand must be operated subject to the relevant laws, regulations and approved uses in that Zone. (To avoid

		errors in accurate location determination according to the geographical location system). NB. (a) Whenever necessary, additional work site specific conditions of the Central Environmental Authority, Sri Lanka Land Development Corporation, Urban Development Authority, Department of Agrarian Services Development, Coast Conservation and Coastal Resource Management Department and Irrigation Department etc. can be attributed to "designated projects' under the Environmental Act.

8.1.10 Wetland Protection Zone

I	Name of the Main Zone	Wetland Protection Zone
II	Zone No.	WPZ
III	Flood retention capacity	Relevant development conditions applicable only to the approved uses set out in the Gazette Notifications issued in accordance with the Laws, Regulations and Acts of the relevant Institutions
IV	Minimum land area for construction of building	
V	Ground limits allowed for maximum filling	
VI	Maximum Plot coverage Area covered by buildings))	
VII	Maximum infrastructure projects permitted)Electricity ,Water supply , Telecomunication ,Highways etc(.	
VIII	Maximum ground floor size approved for seperate buildings	
IX	Maximum building height permitted	
X	Type of building	
XI	Subdivisions	
XII	Marking the boundaries	
XIII	Relaxation of the above conditions in special cases	
XIV	Permitted uses	Only the approved uses set forth in the Gazette, in the Domestic Act of that Convention, which have been promulgated in accordance with an International Convention, Domestic Act or Gazette, may be implemented.

UL - Unlimited

Floor area allocated for parking facilities are not calculated for FAR

Above Floor Area Ratio shall not be applicable for the zones where number of floors or FAR indicated under the zoning regulations.

Above Permissible FAR may be restricted under the development plan based on the slope of the land

Clearance shall be taken from National Building Research Organization for the lands having slope more than 110

* FAR more than or equal to 10.0 shall be permitted only for the roads having minimum of 12m (from road center) Building Line, if not maximum FAR shall be limited to 9.0

**Minimum road width of 7m shall be considered for the roads identified as 7m wide road in the particular development Plan

Permissible number of floors published in the gazette notification No. 54/2235 dated 08.07.2021by the Urban Development Authority

Form B - Number of Floors for 3.0m & 4.5m wide Roads				
Minimum Road Width	Minimum Site Frontage	Plot Coverage*	Maximum Number of Floors	
			Zone Factor 1.50 - 3.49	Zone Factor 3.50 - 4.00
3.0m	6m	65%	3 (G+2)	3 (G+2)
4.5m	6m	65%	3 (G+2)	4 (G+3)

Number of floors are indicated including parking areas
No of units allowed for each road shall not be changed
* Where no plot coverage specified under the zoning regulations

Open spaces published in the gazette notification No. 54/2235 dated 08.07.2021by the Urban Development Authority

Form E - Setbacks & Open Spaces									
Building Height (m)	Minimum Site Frontage (m)	Plot Coverage *		Rear Space (m)		Side Space (m)		Light Well for NLV	
		Non Residential	When no NLV is taking this end	When no NLV is taking this end	When NLV is taking this end	When no NLV is taking this end	When NLV is taking this end	Minimum width	Minimum Area
less than 7	6	80%**	65%	2.3m	2.3m	-	2.3m	2.3m	5Sq.m
7 less than 15	6	65%	65%	3.0m	3.0m	-	3.0m	3.0m	9 Sq.m
15 less than 30	12	65%	65%	4.0m	4.0m	1.0m and 3.0m	4.0m	4.0m	16 Sq.m

Middle Dense Residential Zone II - Thalawathugoda		
North	:	The final boundary of the area bordering to the south at a distance of 100 m. from the centre line of the Thalawathugoda - Pitakotte Road.
East	:	The area bordering towards west at a distance of 200 m. from the centre line of the Borella – Kottawa Road.
South	:	From the starting point of the School Lane of Borella – Kottawa Road and move 200 m. towards west, thence move 50 m. towards south where the wetland boundary starts, thence up to the water source at the western boundary.
West	:	From the last mentioned point towards north along the water sourse until it meets the eastern boundary of Kimbulawala Urban Agriculture Project.
