PART – I

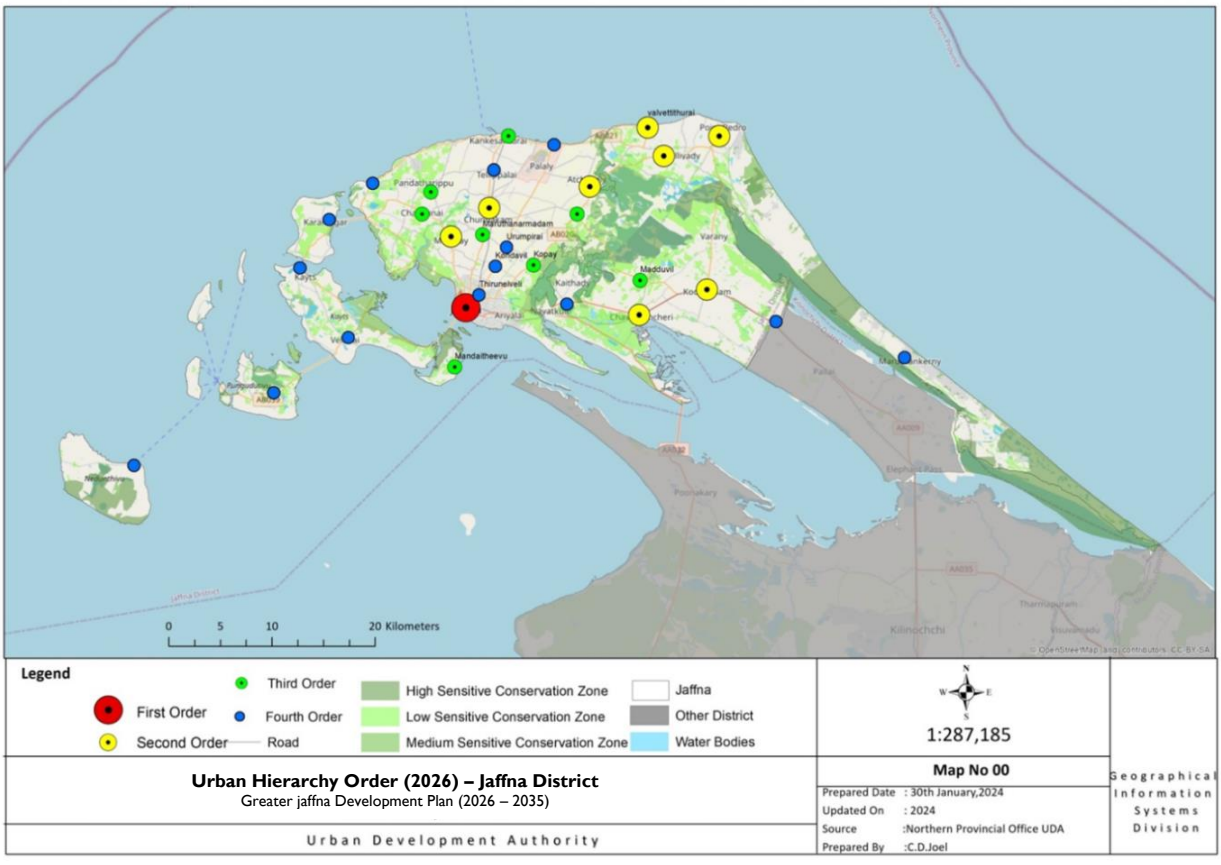

Chapter 01 – Background of the Local Area Plan

1.1 General Introduction (Existing Urban Hierarchy and Proposed Urban Hierarchy)

Greater Jaffna Development Plan, which encompasses the entire Jaffna District, refers as **Volume** I. The district consists of 17 Local Authorities and includes several prominent town centers. In this Volume II focus to prepare the Local Area Development Plan for each Local Authority separately.

The following map illustrates the existing Urban Hierarchy within the Jaffna District.

Map 1:Existing Urban Hierarchy

At present, Jaffna town is recognized as a first-order town, serving as the primary urban hub. In addition, towns such as Chunnakam, Manipay, Chavakachcheri, Kodikamam, Point Pedro, Valvettithurai, Nelliady, and Atchuvely function as second-order towns. Furthermore, several towns are classified under the third and fourth orders, reflecting their varying levels of service provision, population concentration, and economic activity.

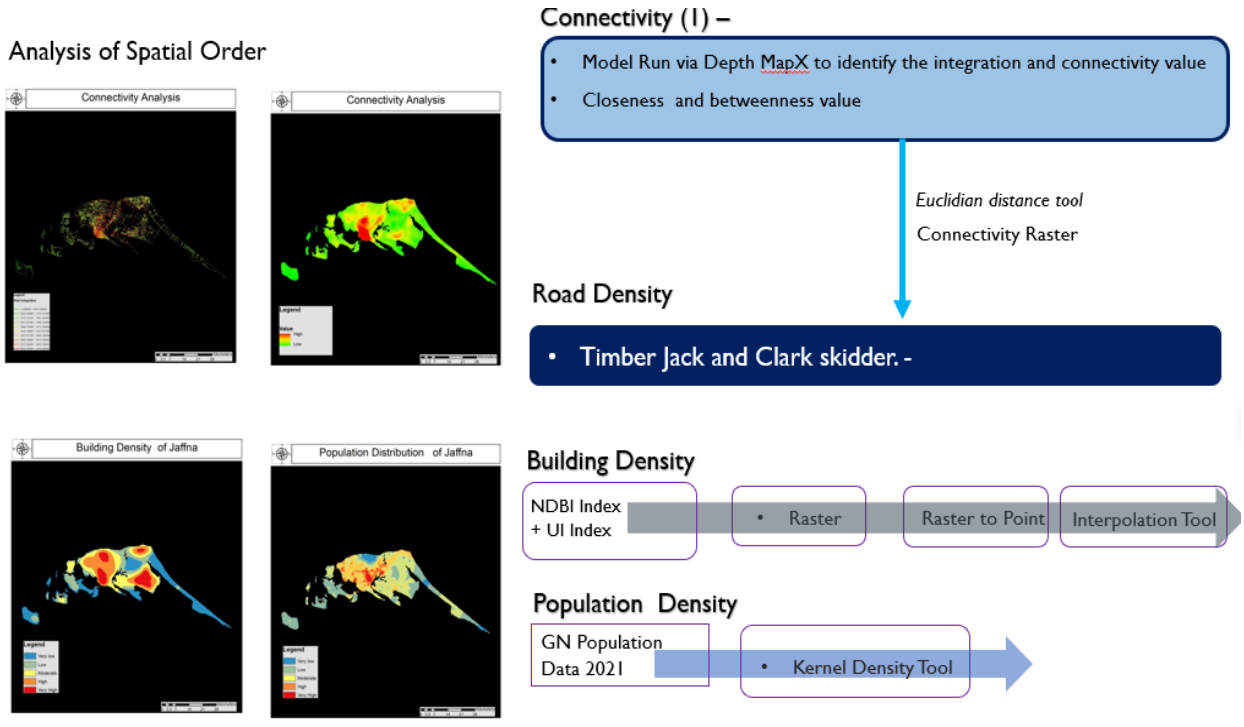

The proposed **Development Plan** has been designed with a forward-looking approach, covering a period of **10 years (2026 to 2035)**. A partial component of this plan is the re-evaluation of the *future urban hierarchy* to support sustainable urban growth and balanced regional development.

To determine the future urban hierarchy, a comprehensive analysis was conducted, which considered the following factors:

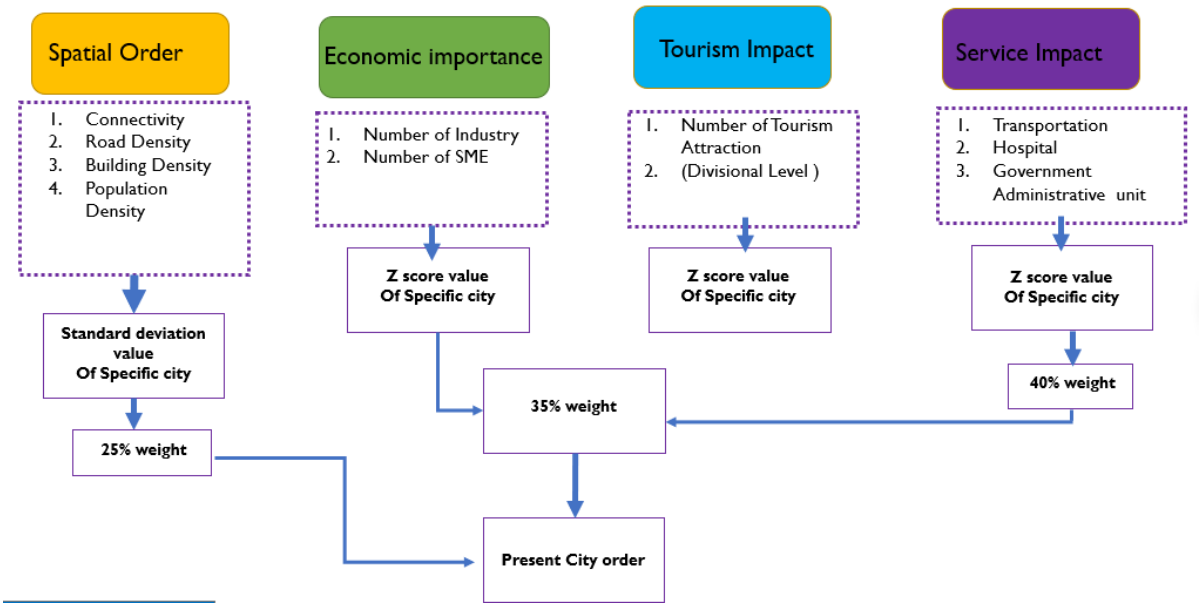

- **Population distribution**
- **Building density**
- **Road density** (analyzed using the Clark Model to establish spatial order)
- **Economic significance of towns**
- **Tourism potential and impact**
- **Service delivery and accessibility**

The combination of these parameters was examined through a **Weighted Index Analysis**, which provided the basis for ranking towns into their respective future orders.

Following chat and table elaborates how it has been conducted.

Weighted index analysis

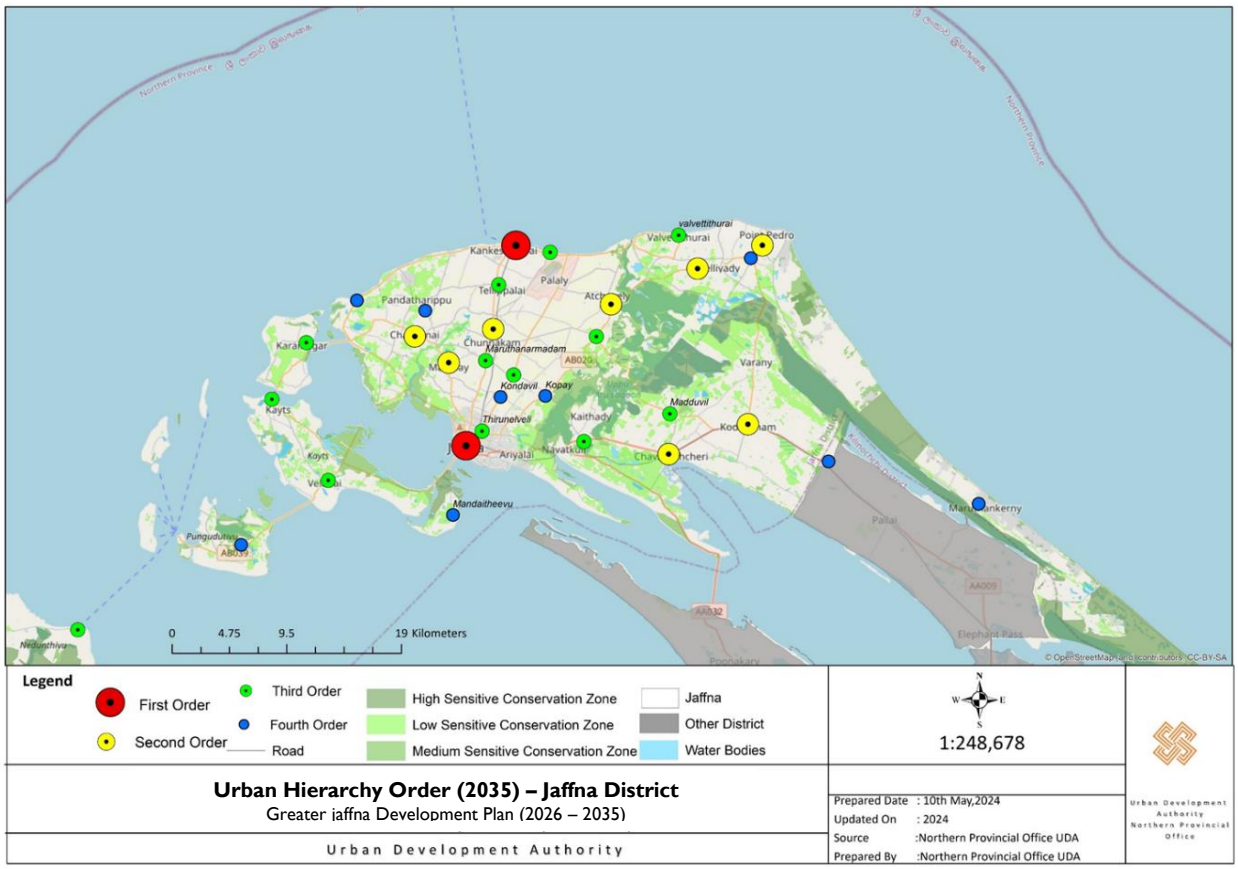

Based on the analysis, the **Proposed Urban Hierarchy of Jaffna District for 2035** is outlined in the following table:

Table 1: Orders of Towns

Order	Towns
First-order	Jaffna, Kankesanthurai
Second-order	Chunnakam, Manipay, Chavakachcheri, Kodikamam, Point Pedro, Chankanai, Nelliady, Atchuvely
Third-order	Valvettithurai, Maruthanarmadam, Puttur, Maduvil, Velanai, Neduntivu, Kayts, Karainagar, Thirunelveli, Urumpirai, Kaithady, Palali
Fourth-order	Pungudutivu, Mandaitivu, Thellipalai, Pandatharippu, Kondavil, Eluthumaduval, Maruthankeni, Kopay

Map 2:Proposed Urban Hierarchy Order for Jaffna District - 2035

The proposed urban hierarchy of the Jaffna District for 2035 provides a structured framework to guide future development. On this background, **Thirunelveli** is designated as a **Third-order town** in the proposed urban hierarchy for 2035. In alignment with this designation, a **Local Area Development Plan** has been specifically prepared for the **Nallur Pradeshiya Sabha**, with the objective of strengthening its role as a regional center and supporting balanced development within the Jaffna District.

Chapter 02 – Study Area

2.1 Introduction to Nallur Pradeshya sabha

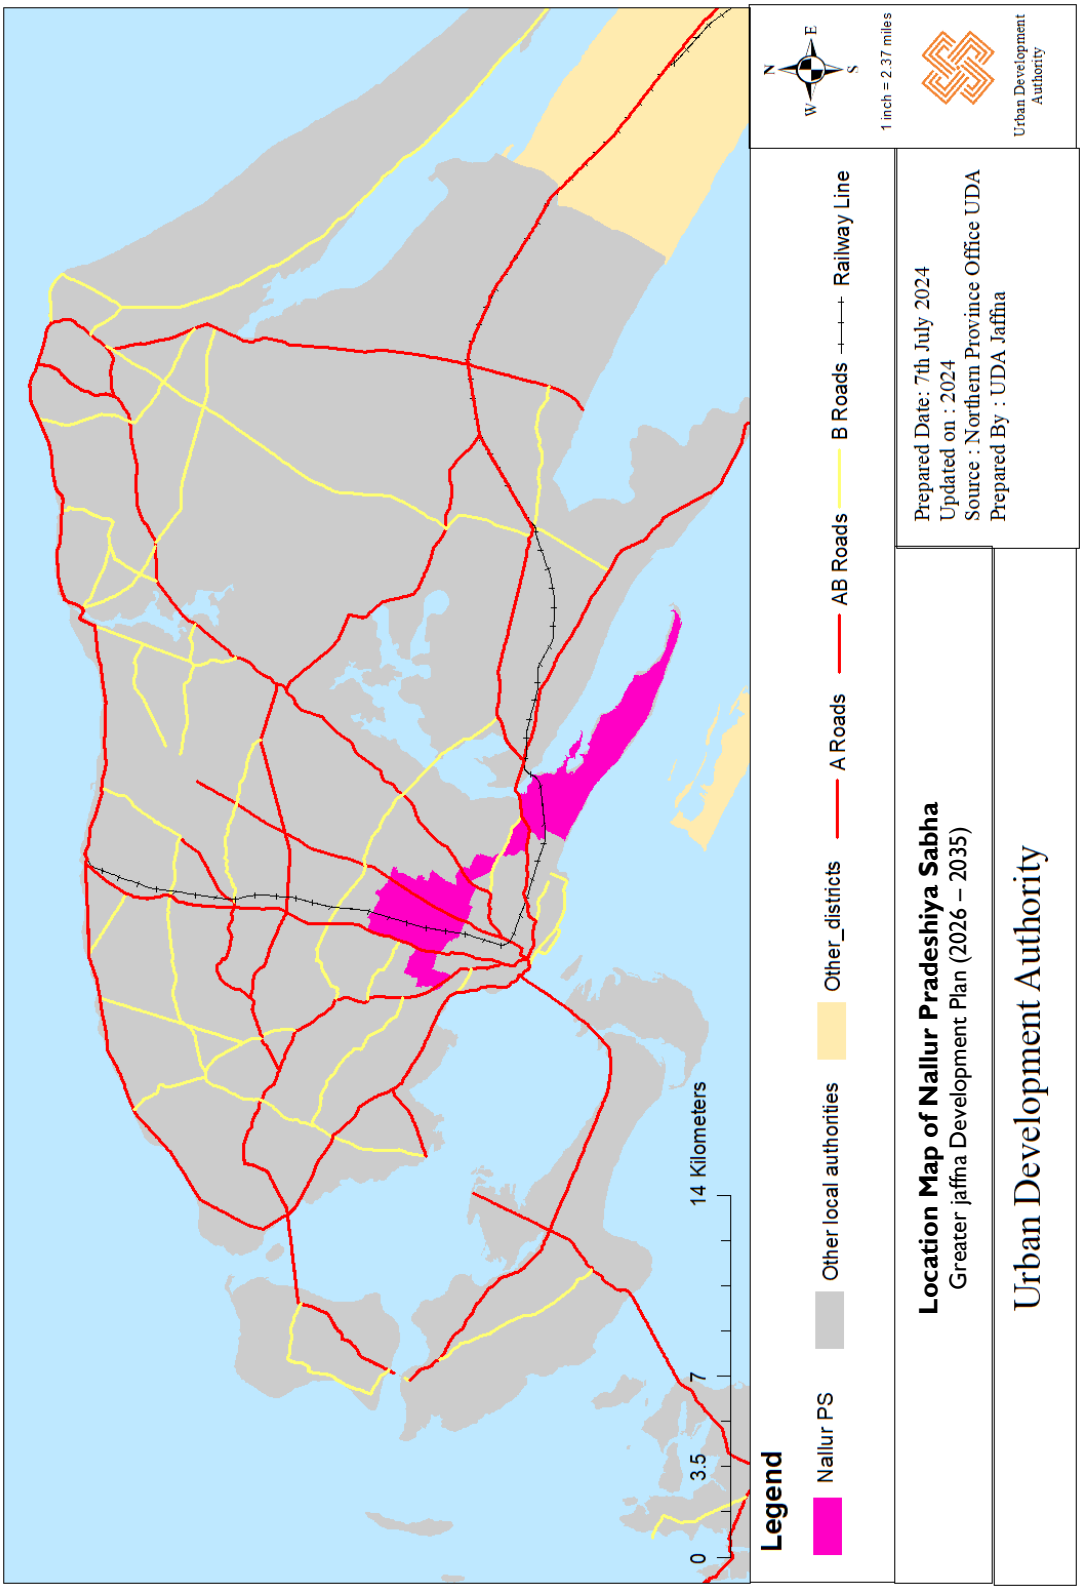

Nallur, 2 km from Jaffna, was the capital city of ancient Jaffna kingdom. Nallur, which means 'good city' in Tamil, was a focal point where writers, artists and poets had come to entertain the king in his court. The Nallur Kandaswamy Kovil, one of Jaffna's main landmarks, is intricately woven with the history of the kingdom of Jaffna. Nallur was a royal city that had been the capital of the Kingdom of Jaffna for centuries.

The Royal city of Nallur was laid out as a large square and the city was fortified on all four sides by high stone walls with defensive towers. The purpose of the walls and defensive towers was for protection of the Nallur Rajdhani. Capital city of Nallur was divided by two principal roadways**,** North-South and East-West that connect the four entrances to the city**.** There were four main entrance gates to the capital city in all four directions: North**,** South**,** East and West**.** All four principal entrances to the capital city were identical**.**

2.2 Location of Nallur Pradeshya sabha

Nallur Pradeshya sabha is situated in the southern part of Jaffna Peninsula, adjacent to the Jaffna town. Northern part is bounded by Valikamam south Pradeshya sabha, East is bounded with Valikamam east Pradeshya sabha and also bounds the part of the chavakachcheri padeshya sabha. Jaffna municipal council and Jaffna Lagoon are situated in the Southern part of the Nallur Pradeshya sabha and Western part is bounded by Valikamam south west Pradeshya sabha. Local Authority consist of 24 numbers of GND and 12 numbers of ward. And the Land extent of the local authority is 20.6 Sq.km (2,060 hec). Which is 2% of the Jaffna District Land extend. The developable extent of the land is 9.32 Sq.km (923 hec).

Map 3: Location of Nallur Pradeshiya Sabha

So urce*: *UDA(NP)

2.3 Demographic profile

2.3.1 Population Distribution

The total population of the Nallur Pradeshya Sabha is 42,825 in 2022. Which is 6.86% of the District Population. Highest number of people are recorded from the GND's name: Kokuvil East, Kondavil North East, Kondavil center East, Thirunelveli Center North, Thirunelveli West, Aiyalai South East. Although the vannarpannai North West shows the relative high population, the part of that area is fallen under JMC area. As per the statistic in 1981, total population of the Nallur Pradeshya Sabha is 86,222 which is 11.06 % of the district population. Commuter population of the Local authority is 25,000 in the year of 2022.

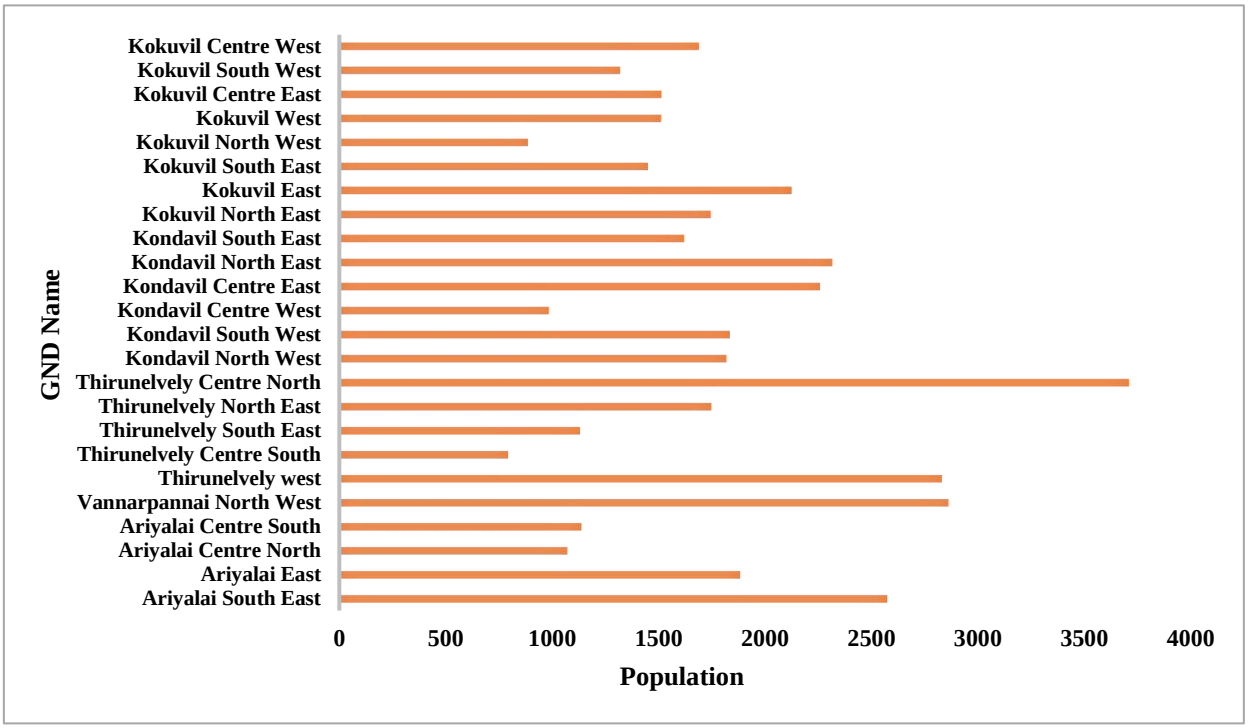

Chart 1: Population Distribution of Nallur Pradeshiya Sabha

Source – Statistical handbook of Divisional Secretariat Nallur, 2022

2.3.2 Population Growth Pattern

The below chart indicates the population growth pattern from 2013 -2022. According to the data available, 46,820 number of populations will be in 2034. The population growth rate of the Local authority is 0.8 %, where the growth rate of the Jaffna district is 0.7 %. In future, the Local

authority may accommodate high population compare to the Jaffna Municipal Council area. Further, part of the commuter population will be accommodated due to the increasing educational facilities and other services provided by the town (Universities, technical college and Open university etc.) in the Nallur Pradeshya Sabha.

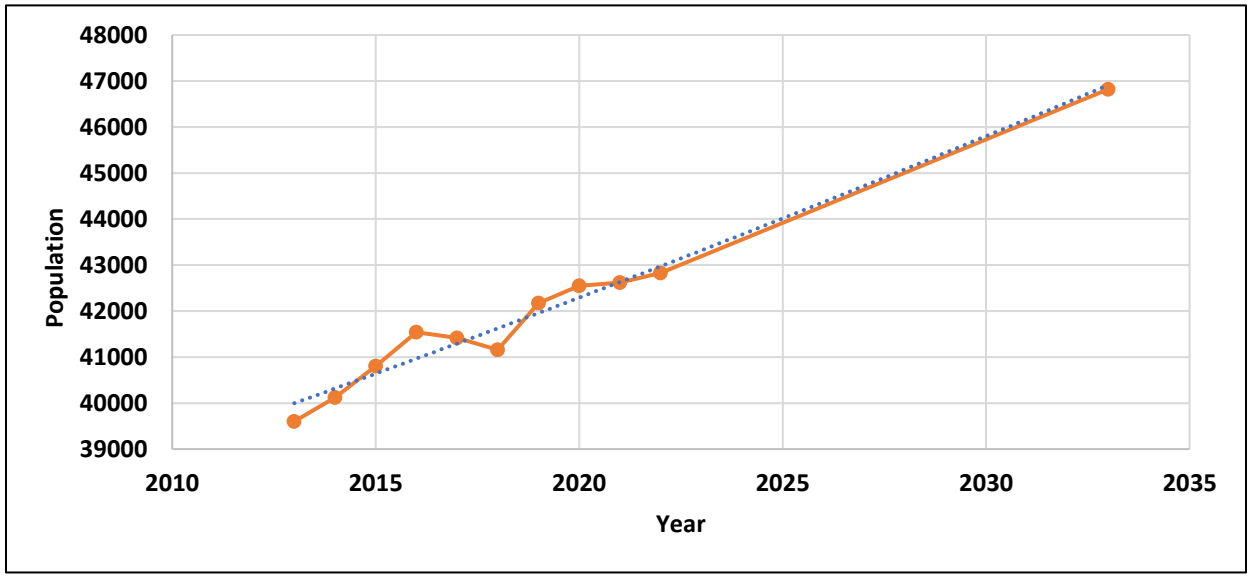

Chart 2:Population Growth Pattern of Nallur Pradeshiya sabha

Source – Statistical handbook of Divisional Secretariat Nallur, 2022

2.3.3 Population Density

The average Net population density of the Nallur Pradeshya Sabha is 46/hec in 2022. Highest population density is recorded in the Ariyalai South East, Vannarpannai North East, Kondavil Center East, and Kokuvil East GND. Although the vannarpannai north west shows the relative high density, the part of that area is fallen under JMC area. JMC area average population density is 47/hec in 2022, which is same to the Nallur population density.

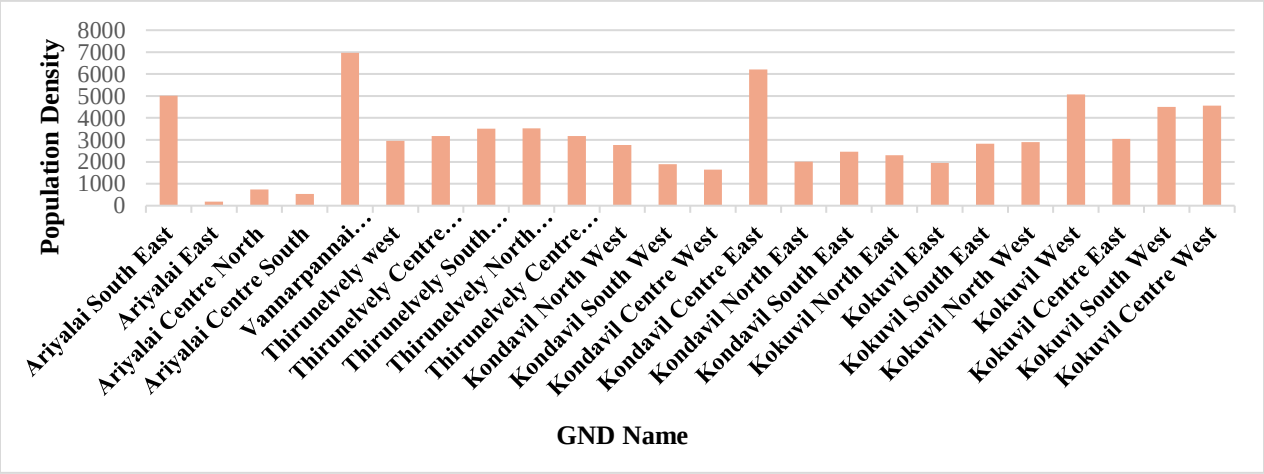

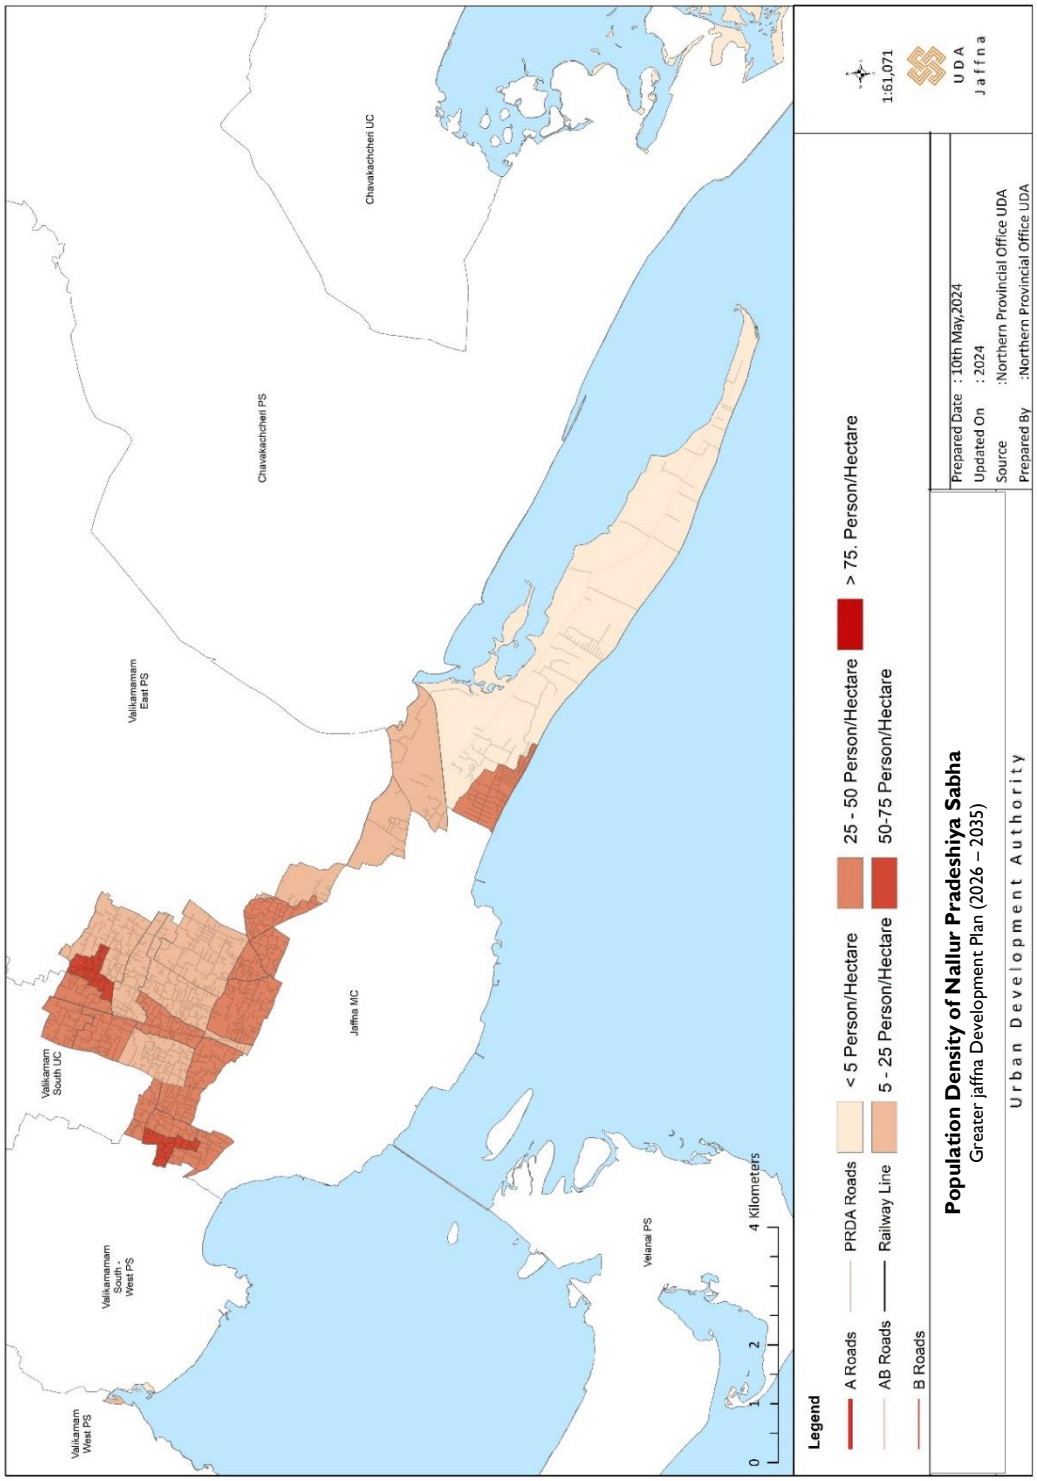

Chart 3:Population Density of Nallur Pradeshiya sabha

Source – Statistical handbook of Divisional Secretariat Nallur, 2022

Map 4:Population Density of Nallur Pradeshiya sabha

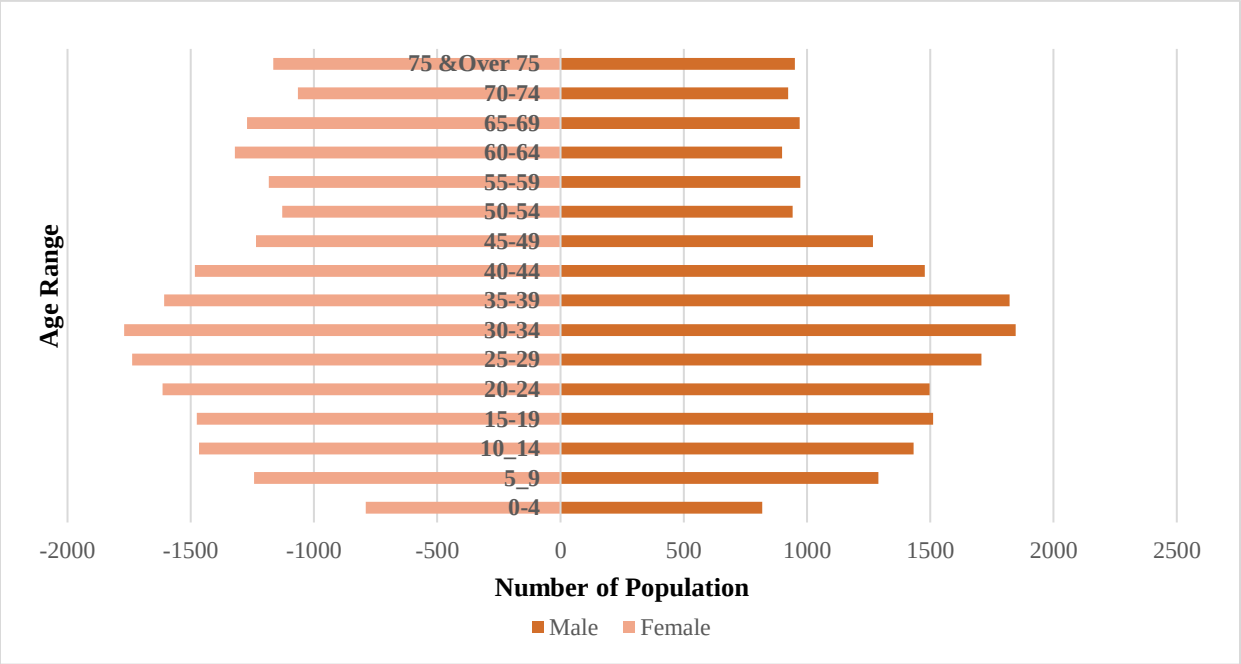

Source*: *Urban Development Authority, 2024

2.3.4 Age Composition

In Males constituting 49% and females 51% of the total population. The birth rate of the local authority is 11.7 (per 1000 population) and the death rate recorded 6.3 (per 1000 population). Also, the infant mortality rate is recorded 6.7 (Per 1,000 live births) in 2021.

According to the data, Local Authority consists 17% youth population (0-14) and 15% elder population (65 & over). Working age population is 68% in the year 2022.

Chart 4:Population Pyramid of Nallur Pradeshiya sabha

Source – Statistical handbook of Divisional Secretariat Nallur, 2022

The data shows the age composition in the year of 2022. The total dependency ratio is 47 people to every 100 people of working-age. Youth dependency ratio is 24 children to every 100 people of working-age population and the older dependency ratio is 22 elder people to every 100 people of working-age population.

2.3.5 Ethnic and religious Composition

According to the available source the ethnic composition of the city is classified. In the total population, Tamil (99.9%), Sinhala (0.03%), Muslim (0.05%) and Burgers (0.0001) are recorded. According to the available source, the religious composition of the city is classified

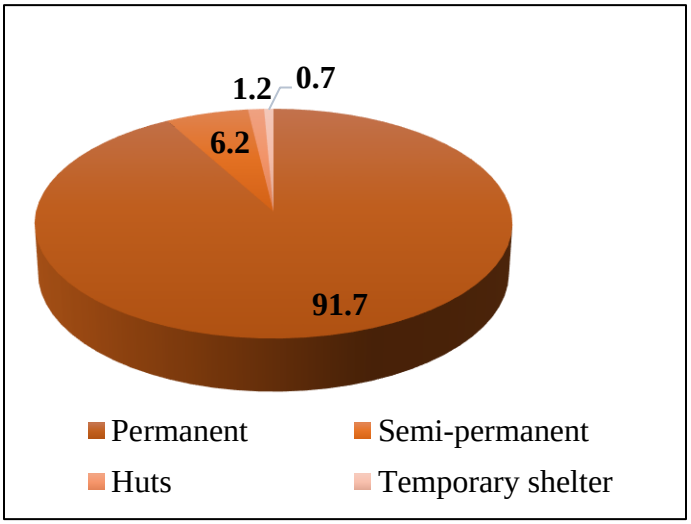

2.3.6 Number of Families

The total families of the Nallur Pradeshya Sabha is 14,178. Highest number of families are recorded from Thirunelveli Center North and Thirunelveli West Although the vannarpannai north west shows the relative high number of families, the part of that area is fallen under JMC area.

2.4 Housing

Total number of the housing unit is 11,402. There are four types of housing: Permanent houses (91.7%), Semi-Permanent (6.2%), Huts (1.2%) and Temporary (0.7%) in the local authority. The Net housing density in the Local authority is 12.3/hec. Which is the high number of huts and temporary settlements are recorded in the ariyalai south east GND.

Chart 5:Housing Type of Nallur Pradeshiya sabha

Source – Statistical handbook of Divisional Secretariat Nallur, 2022

The below figure shows the housing density of the Local authority in GND wise. Accordingly, Net housing density in the Local authority is 12.3/hec. Where the Thirunelveli center south, Thirunelveli south east, kondavil center east, Ariyalai south east, kokuvil west, kokuvil center east, and kokuvil center west show the highest (>1000 per sq.km) housing density. Also, the ariyalai south east and vannarpannai north west that covers the part of the Nallur Local authority indicates the considerable density.

When consider the Jaffna MC area density, that shows nearly 13/ hec. It seems, in the future the Nallur PS will be accommodated and demanded for new housing units to balance the population in the JMC area. Other than these features, currently JMC south part is high dense with housing and there are many temporary settlements occupying in the key area. With the expansion of the town and the arrival of the new development activities, these settlements may shift to the near

locations. Where, the Nallur PS is potential to accommodate these people because of the adjacent area to the JMC.

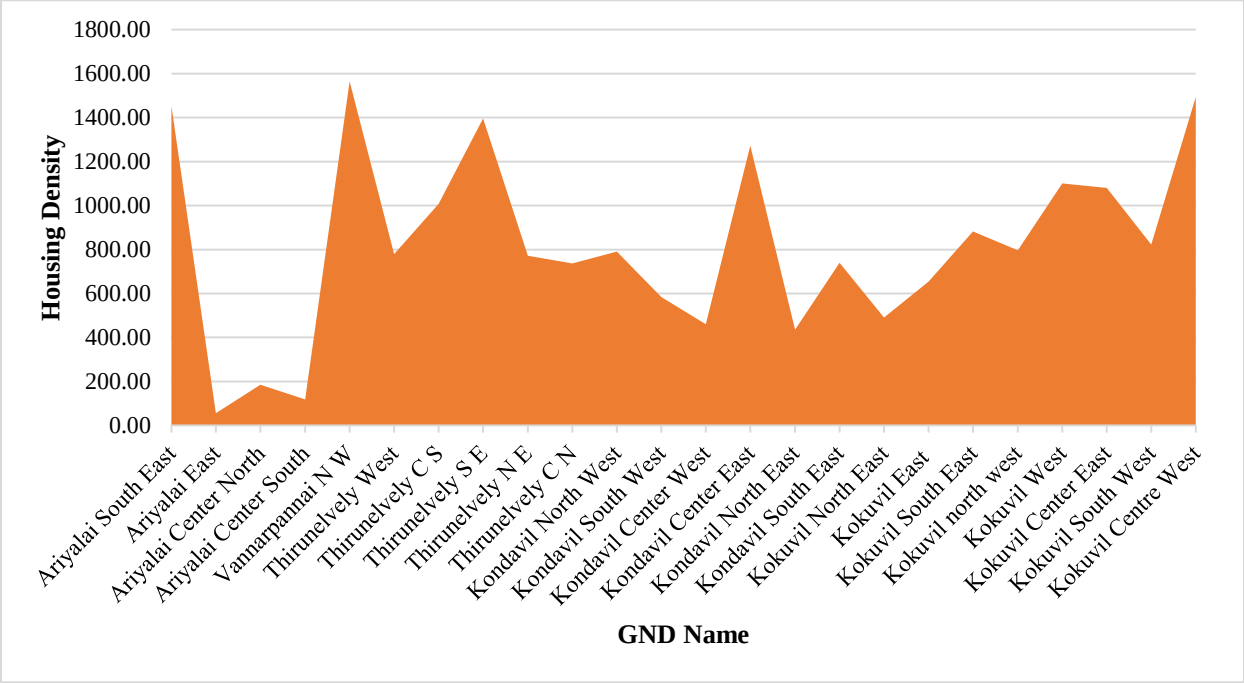

Chart 6:Housing Density of Nallur Pradeshiya sabha

Source – Statistical handbook of Divisional Secretariat Nallur, 2022

According to the data received, Total number of families are 14,178. Where 11,402 permanent and semi-permanent houses are in the LA. Therefore, 3,076 housing units are needed to fill the present gap. In 2034, the total number of housing demand will be 4,511 with the forecasted population in the Nallur Local Authority.

2.5 Land use of the Nallur Pradeshiya sabha

The local authority consists Residential (40%), Home garden (0.7%) and considerable agricultural land (7.5%) in the north part. Other than this predominant use, commercial activities (1%) are concentrated in the from Illupaiyadi junction up to kondavil junction through the palaly road. Where the thirunelvely junction shows the high commercialized area in the land use map. Further, institution such as university, technical colleges and financial institution are located near to Thirunelveli Junction. In the south part of the local authority includes paddy (22.5%), scrub,

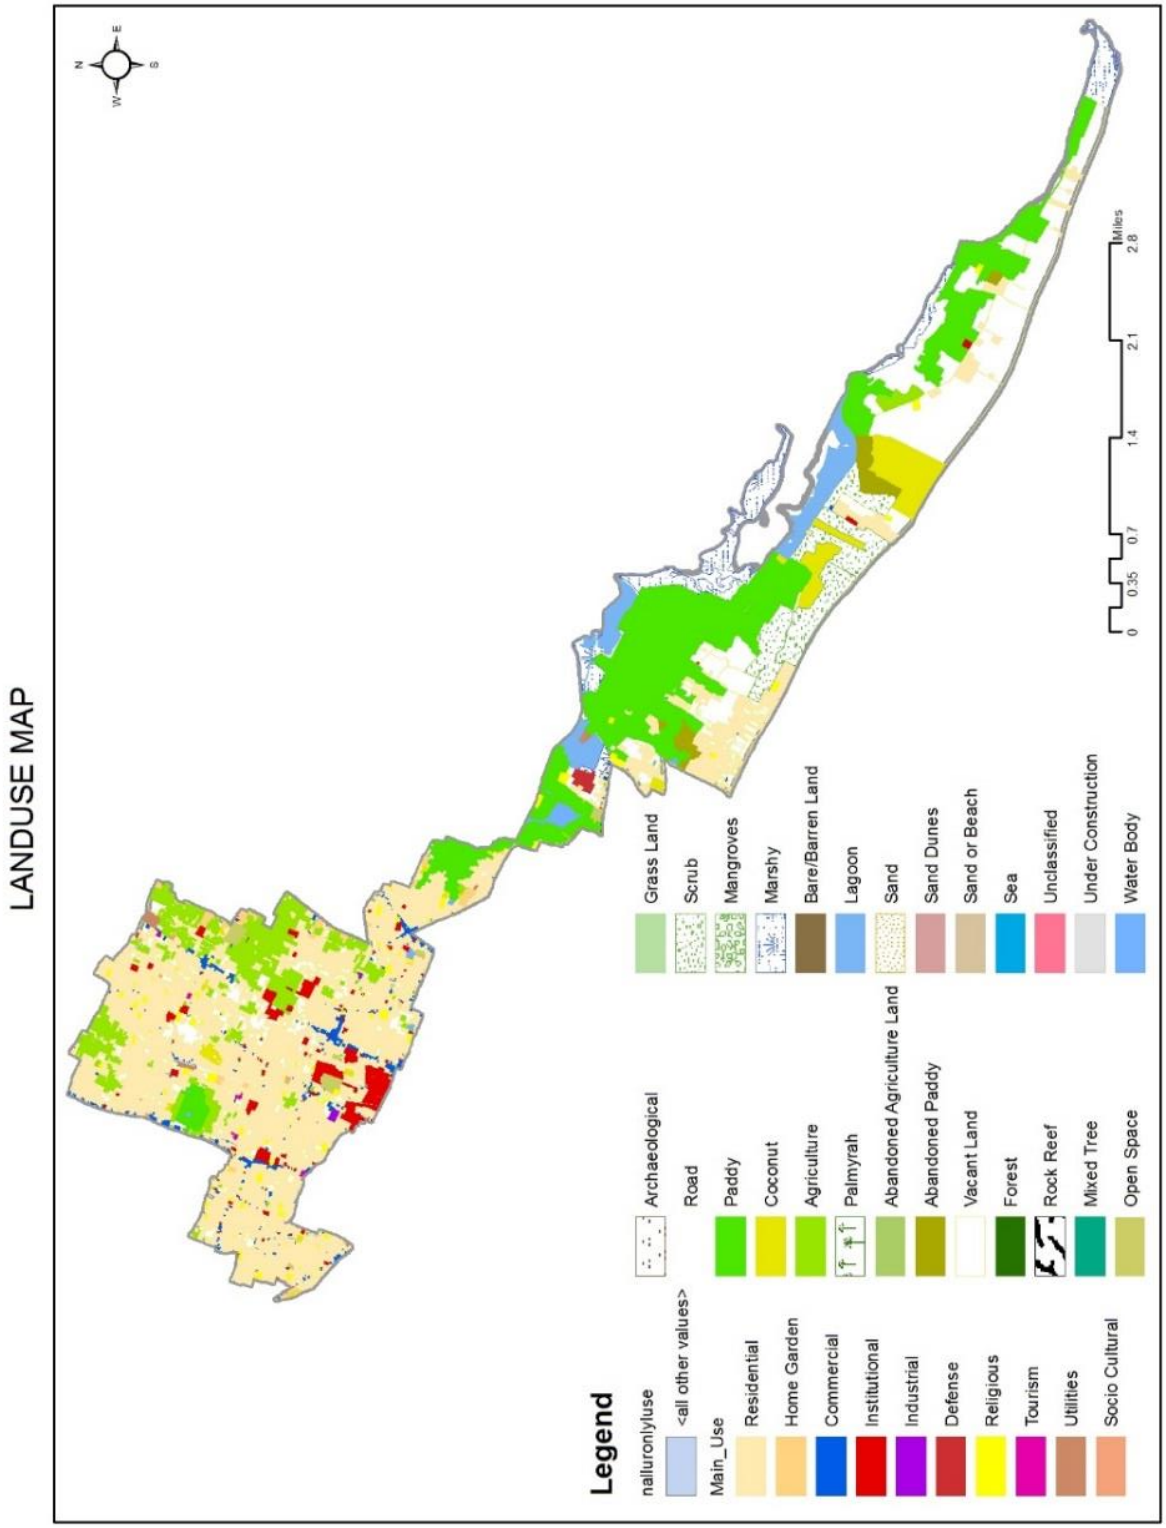

marshy (6.5%) and lagoon areas. Where some portaion of the land are residential uses. South part of the areas is potential for the tourism, fishing and agro based development.

Table 2:Land Use Category of Nallur Pradeshiya sabha

Land Use Category	**Percentage** %
Residential	40.0
Commercial	1.0
Paddy	22.5
Agriculture	7.5
Water Body	0.6
Home Garden	0.7
Religious	0.7
Institutional	2.4
Marshy	6.5
Others	18.1

Map 5:Land use of Nallur Pradeshiya sabha

Source: UDA (NP)

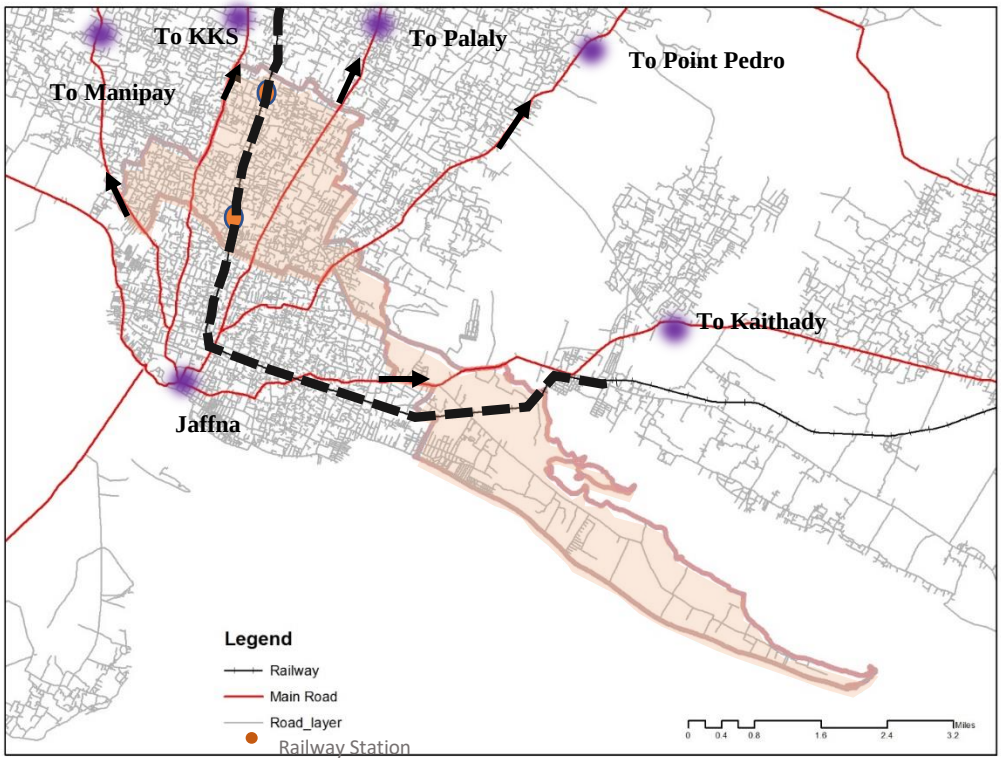

2.6 Physical Infrastructure

2.6.1 Road and Transport

- Jaffna -Manipay-Karainagar Road (AB17)
- Jaffna – Palaly road (AB18)
- Jaffna-Kankesanthurai Road (AB16)
- Jaffna -Pointpedro road (AB20)
- Jaffna-Kandy Road(A9)
- Kokuvil and kondavil Railway station

Nallur Local authority is located adjacent to the Jaffna Municipal Council. It is connected with the major road and rail ways. The road Jaffna – Palaly is directly connect the local authority to the international airport and access through the Jaffna- Kankesanthurai (KKS) Road connects the city with KKS. Which is identified as one of the first order city in 2034 entire Jaffna District. Also, the well road connectivity meets the future demand of agro corridor proposed in the greater Jaffna development plan.

Map 6:Linkages of Nallur PradeshIva sabha

Source: *Urban Development Authority, 2024*

Bus and Railway Route

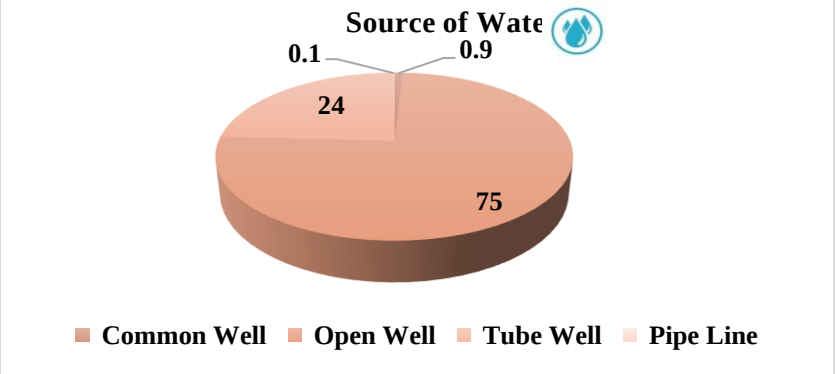

All the main roads of the District are passing through the local Authority coverage. So, which interconnect the important places within the district. Railway stations of Kokuvil and Kondavil stations are within the coverage of the local Authority but which, are situated at the backyard of that area and no public access not connect directly with the station. And also, cater to cover the Higher Education Area the Shuttle Service is must needed.

2.6.2 Electricity

Although the electricity coverage is 99% in the local authority, 80 number of houses require electricity. The number of houses from ariyalai east (30houses) and kokuvil (13houses) east GND are the comparatively high requirement for electricity. In the ariyalai south east and ariyalai center south less than 8 number of houses require the need for the electricity.

2.6.3 Water Supply

Chart 7:Source of water of Nallur Pradeshiya sabha

Source – Statistical handbook of Divisional Secretariat Nallur,

According to the data, there are four types of water sources are available in the Nallur Local area. They are common well, open well, tube well and pipe line water. 95% of the families access these water sources. The highest number of families benefit from open well and less from pipe line water. The below figure shows the percentage of the water sources available in the local authority. Out of 14,178 families, there are 1,262 families require the water access. This is 9% of the total families.

2.6.4 Toilet Facilities

According to the data, there are two types of toilets are available in the Nallur Pradeshya sabha. They are water seal and temporary toilets. 75% of the families are able to access the proper toilet facility in the local authority. Balance, 25% of the families is facing the issues to dispose the seal

pit toilet waste. Due to the non-availability of the facilities of the Pradeshiyasabha to dispose the waste of the seal pit, the residents of the Pradeshiyasabha are facing several health issues. There is no common toilet facility available in the Pradeshya sabha.

2.6.1 Waste Management

The solid waste collection frequency has been carried out based on the quantity of waste generation. Pradeshya sabha cover all areas within their limit at least once a week. There is no transfer station for Nallur Pradeshya sabha but a collection center for the purpose of collection, segregation and compost making is available. This center is of area of 5 Lacham in Karaikal, Inuvil owned by the Nallur. The waste collected by the Nallur Pradeshya sabha is disposed of at the Kallundai disposal site nearby the abandoned salt field in Valikamam-South West Pradeshya sabha. In general, the average solid waste generation in the day is nearly 14.15 m3/day (5 tons/day). Solid waste collection based on the source is 9.34 m3/day (3.3 tons/day).

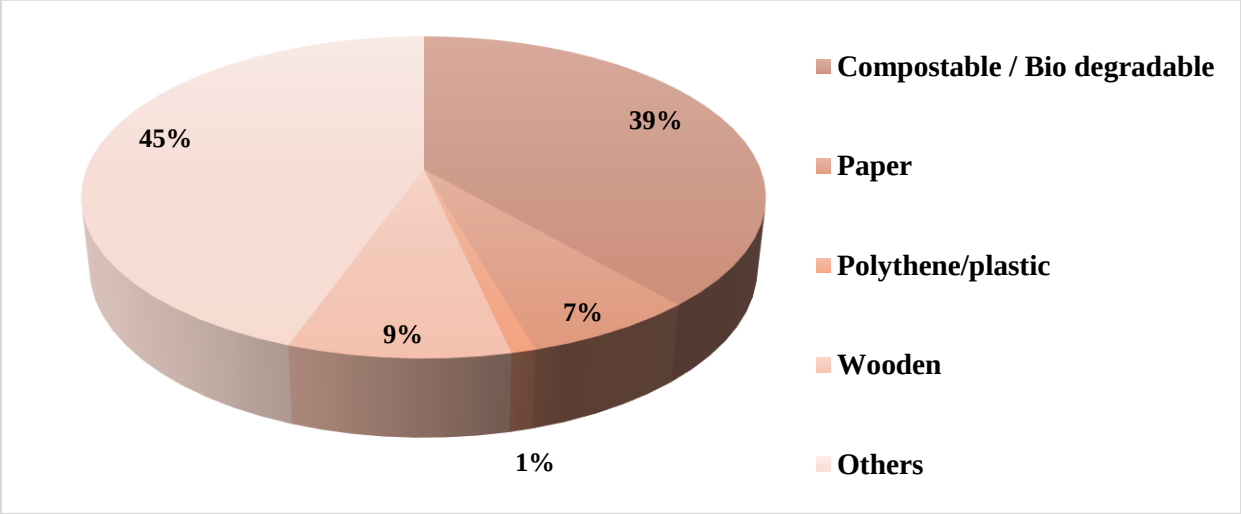

Chart 7:Solid Waste Management of Nallur Pradeshiya sabha

Source – Statistical handbook of Divisional Secretariat Nallur, 2022

Composting plant in Karaikal, Inuvil of land area of 5 Lacham. 50 MT of waste is used for composting per month. The composting process is manual. It was started in 2006 and belongs to the Local Authority. It is reported that there is a lack of machinery, space, Technical support & Staff. Collected from residence, commercial buildings& Markets are the source of waste used for composting. Approximately 2.7 MT compost is produced monthly. 18.56 MT residual waste

after composting per month. The residue is dumped at Kakkaitheevu dumbing site. The composting center has a monthly monitoring of composting center daily by work supervisor and weekly by secretary, technical officer & council Members. Additionally, there are around 300 households who practice home composting. But the home composting systems are not clustered. Present composting plant at Karaikal, Inuvil is addressing an issue, based on that composting plant is reproposed at the Ariyalai.

Map 7:Proposed compost yard at Ariyalai

Source: *Urban Development Authority, 2024*

2.7 Social Infrastructure

2.7.1 Education

There are 22 provincial schools functioning in the Local Authority. They from Grade1-Grade5: nine schools, Grade1-Grade9: two schools, Grade1-Grade11: six schools, Grade1-Grade13: three, and Grade6-Grade13: two schools. No national schools and private schools in the Local Authority. All are Tamil medium and mixed schools. Total number of students is 5710.

According to the divisional secretariat data Students and teacher's ratio is 14:1 have been recorded in 2022.

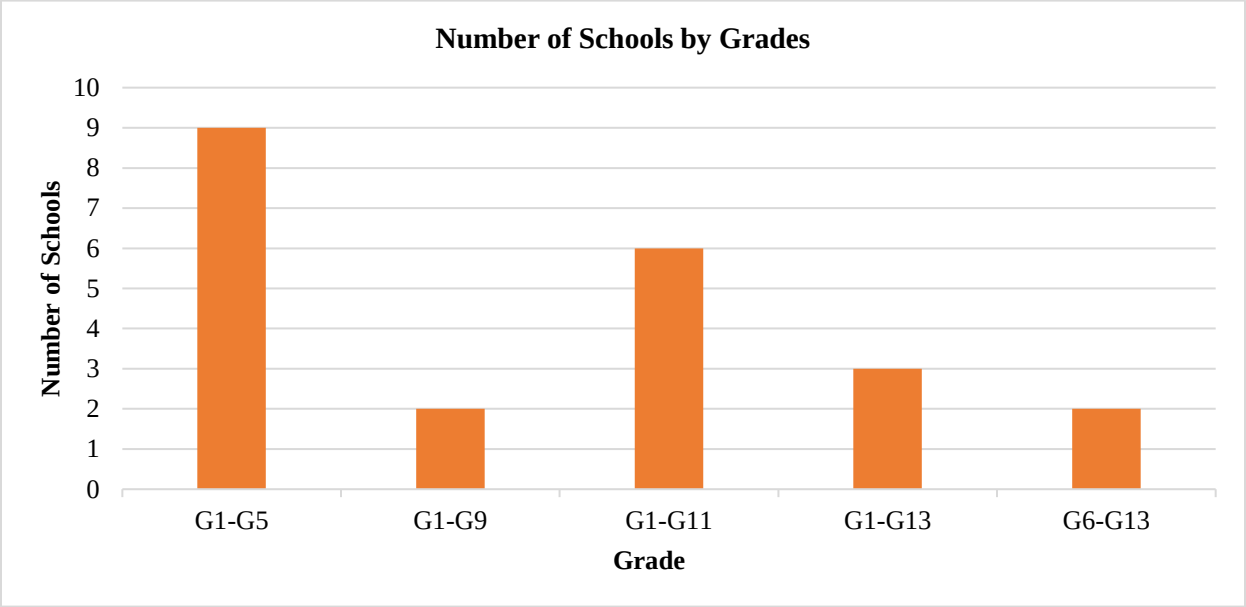

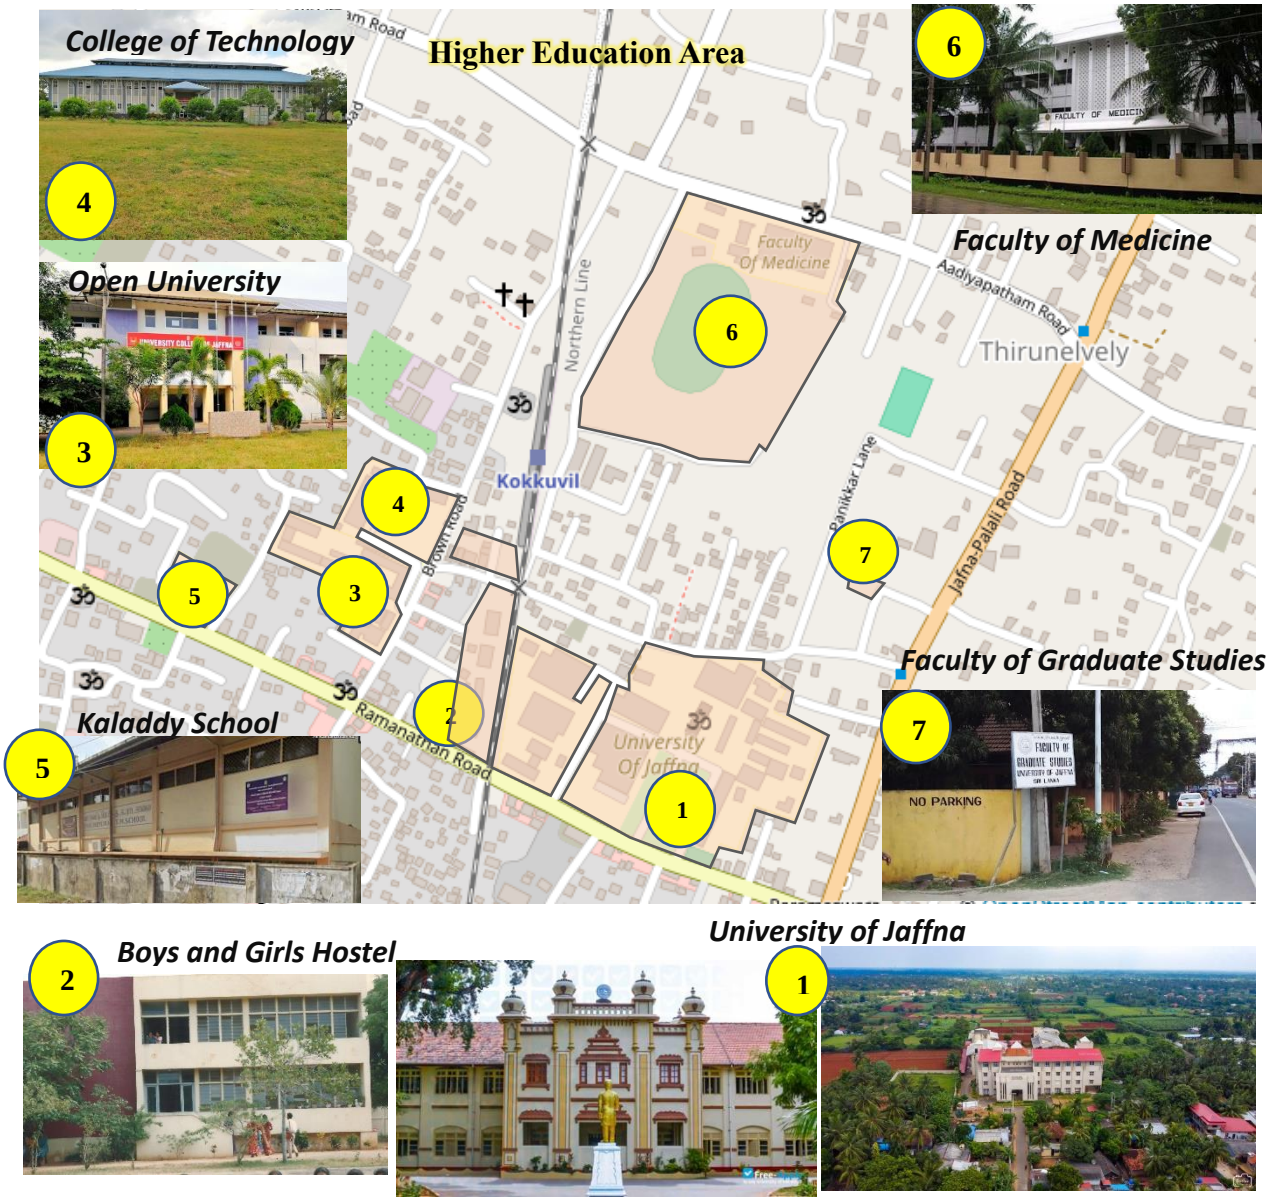

Chart 8:Number of School by Grade within Nallur Pradeshiya sabha

Source – Statistical handbook of Divisional Secretariat Nallur, 2022

The Jaffna university offers undergraduate and postgraduate courses that award various degrees. It is the seventh largest university in Sri Lanka in student numbers. It is significant that about 5,500 students are studying in the university of Jaffna. There are 06 faculties and 02 institutes of Learning Centre such as Ramanathan Institute for Fine Arts and etc. Other than the university, technical colleges and private education centers are located in the Local authority were map out below.

2.8.2 Agriculture

Thirunelvely Vegetable market and the Agriculture Department located within this local authority is high potential for this Pradeshya sabha. And there are 700 families engage the agricultural activities. Which is 5% of the total families. They are mostly from the Ariyalai east and ariyalai center south. Also, there are six number of registered farmers organization in the Local Authority.

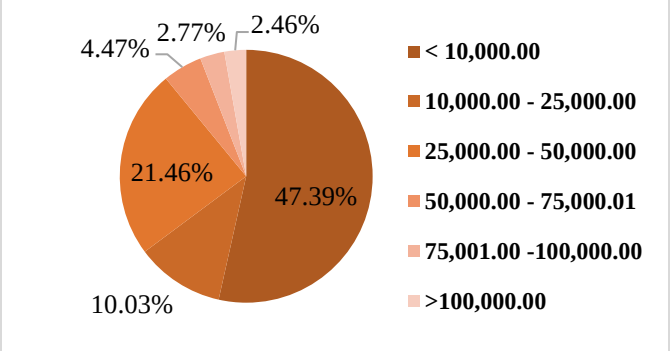

2.8.3 Fishing

There are 364 families engage the fishing activities. Which is 2.5% of the total families. They are mostly from the ariyalai south east (Maniyam thoddam, periyathoddam and uthayapuram), ariyalai east (poompukar)and kokuvil west. Which is main fishing villages in the Nallur Pradeshya sabha. Maniyam thoddam and uthayapuram are the main villeges in terms of their fishing production. There are 1,245 fishing population registered in the Local Authority. Out of that total population, 225 active fishermen have been recorded in the Local Authority. Nallur Pradeshya sabha is contributing 0.7% fish production to the entire Jaffna District.

2.8.4 Income Level of families

According to the income level data, 47.4% of the families income less than Rs.10,000.00 They are mostly from ariyalai south east, Thirunelvely west, Thirunelvely center north.

Chart 11:Income level of families of Nallur Pradeshiya sabha

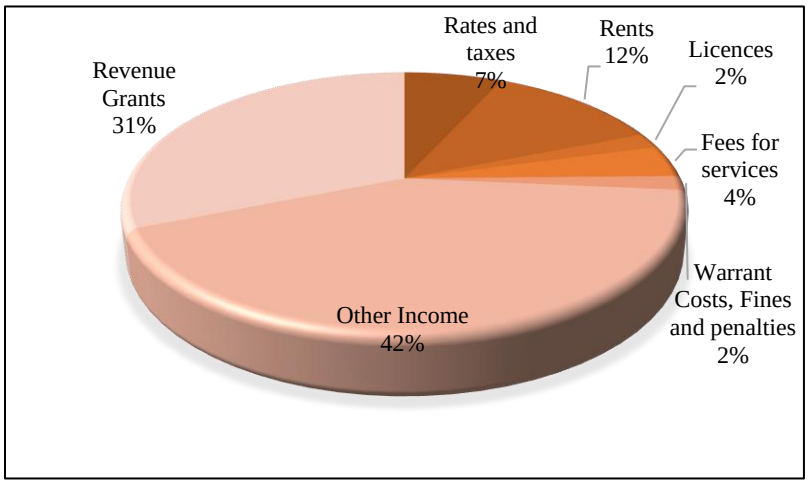

Nearly 21% of the families income between Rs.25000.00- Rs.50000.00.

2.10 Problems and potentials

2.10.1 Potentials

- Availability of the land for promotion of agricultural, fishing and tourism-based activities in the south part of the local authority
- South part, which is identified as one of the future potential area for tourism and renewable energy
- Presence of educational institutions (Jaffna University, Technical colleges open university). This can be promoted as an educational zone in the future. Also, the emerging educational institutions are potential to connect the Nallur as a second service providing city in the Jaffna District
- Active vegetable market in the thirunelvely junction that directly connects the maruthanarmadam and chunnakam vegetable markets (identified as the key markets locate in the proposed agro corridor in the development plan).
- Profitable income earning local authority in the Jaffna District next to Jaffna Municipal Council
- Knowledge Hub of the Jaffna District with High level higher education institutions
- Connection through all major roads of the district.

- Consist with two Railway station of the Jaffna – Colombo major rail route
- Remaining historical and cultural assets.
- Presence of the Active main hotels within this local Authority (Fox and Thinnai Hotel)

2.10.2 Problems

- Absence of non proper functioning of the Drainage and maintenance – Flash flooding as a major issue
- High Risk area for Dengue Spreading
- Fragmentation & Conversion of the Agricultural land to the development
- Absence of internal transport & public transport
- Inadequate facilities for passenger transport service
- Railway stations are not located in the public transportation routes (Underserved settlements near to both railway station)
- Thirunelvely town, which is one of the main town in Nallur Pradeshya sabha. The parking is the main issue in the town center.
- Absence of non proper solid waste management – Dumbing and composting area.
- 6.7% of the poulation of the Pradeshiyasabha is unemployed
- Non proper facilities to the Pradeshiyasabha to collect the toilet waste from Seal pit

Chapter 03 – Frame work of the Local Area Plan

3.1 Sub Vision

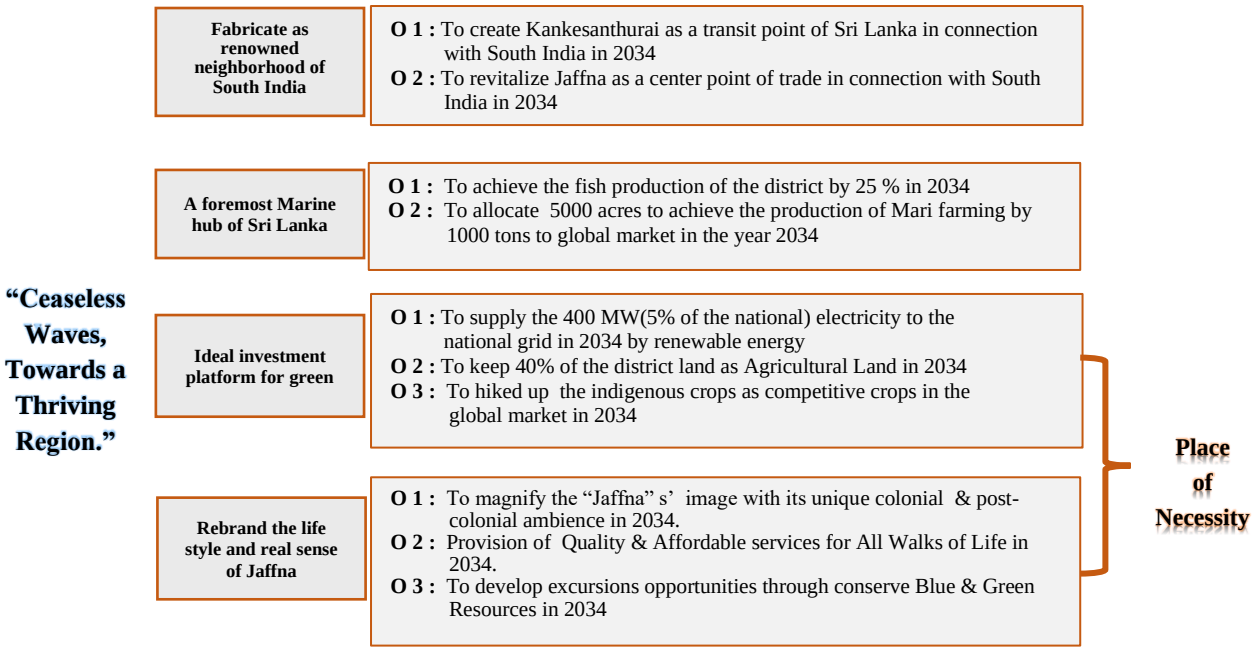

“Place of Necessity”

Town Center is to compete with other commercial centers locally, creating a mixed-use which provides for a mix of uses and opportunities that serve all residents and visitors, enhances the Town Center’s traditional civic and historic character, and reinforces it as a “place of necessity” in the community.

The vision of the thirunelvely town development is aligned with the greater Jaffna Development Plan goal: Rebrand the life style and real sense of Jaffna and highlights the objectives "To magnify the Jaffna's image with its unique colonial & post-colonial ambience in 2033 and Provision of Quality & Affordable services for All Walks of Life in 2033"

Sub vision is correlated with the Greater Jaffna Development plan vision through two main goals of Ideal investment platform for green and Rebrand the life style and real sense of Jaffna through achieving the objectives of the Greater Jaffna Development plan shows clearly in the following chart.

Chart 15:Correlation of Sub vision with the Main Vision

Source: *Urban Development Authority, 2024*

3.2 SWOT Analysis

Strengths:

- Ideally located near to the Jaffna town

- Presence of educational institutions (Jaffna University, Technical colleges open university)
- Connection through major road and rail network
- Presence of agricultural lands and active vegetable market and agricultural Department.
- Remaining historical and cultural assets

Weakness:

- Inadequate parking space in the town center provide unpleasant situation during the peak hours
- Place for Loading and unloading activities is not well organized at the Market Square
- Absence of pedestrian friendly walkways
- Absences of non-proper maintenance of Drainage
- Railway stations are not located in the public transportation routes (Underserved settlements near to both railway station)
- Absence of internal transport Cover the Higher Education Area
- Conversion of the Agricultural land to the development
- There have been new developments rising up in the town center, particularly in the commercial core. It affects the town center's historic appeal
- Non-proper solid waste management

Opportunities:

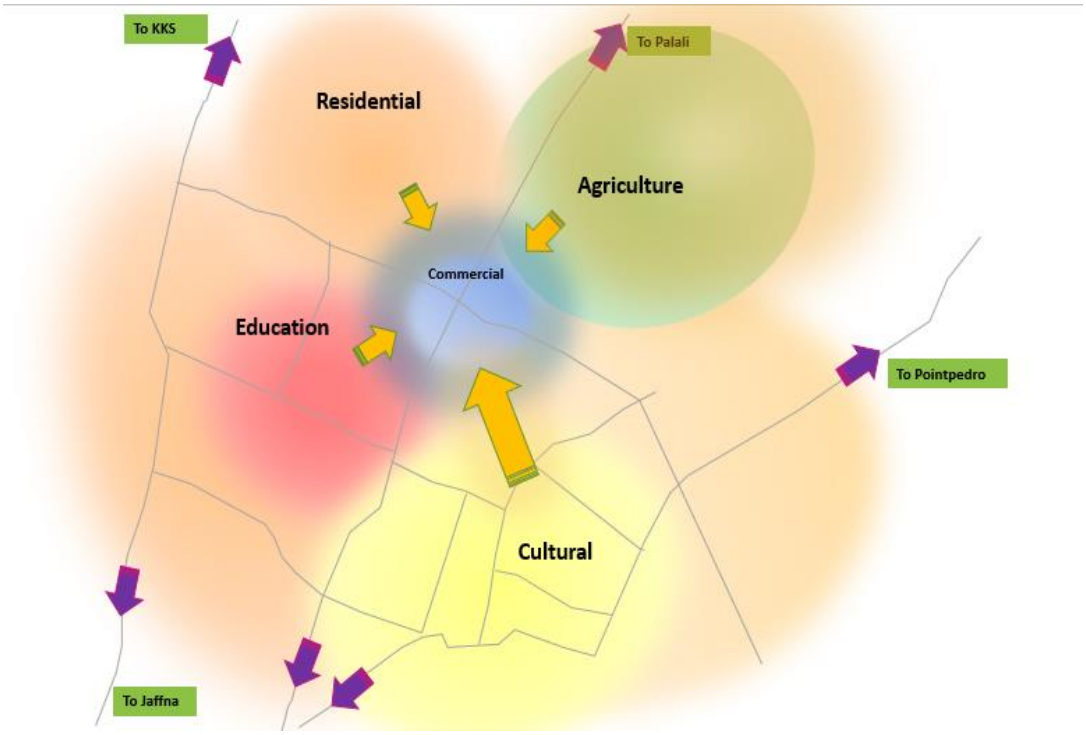

- Active vegetable market in the thirunelvely junction identified as the key markets locate in the proposed Agro corridor in the development plan that directly connects the Maruthanarmadam and Chunnakam vegetable market.
- Availability of the land for promotion of agricultural, fishing and tourism-based activities in the south part of the local authority

Threat:

- Jaffna town is a competitive town for the Local Authority.

3.3 Conceptual plan

The City of Thirunelvey is a vibrant and diverse urban center located in the heart of the region. With a current population of 42,825 residents and a growing economy driven by service sectors and agriculture, fishing is less contributing sector. The north part of the city center is reflecting the residential character, west part education and residential character, south for cultural values and east with the agricultural activity. The center of the city emerging as a commercial core next to the Jaffna town. Other than that, city connects the main future town centers: KKS, Palaly and Point Pedro through the major road network. Which are located in the north part of the town center. Further the thirunelvely is located very closer to Jafna City core. Nallur was a royal city that had been the capital of the Kingdom of Jaffna for centuries. The cultural places are closely located in the town center. There have been new developments rising up in the town center, particularly in the commercial core. It affects the town center's historic appeal. In order to tap the potentials of the area, the conceptual plan is developed for thirunelvely town, expects to grow as a second core city locates near to Jaffna City while remaining the historic and cultural ambience of the city.

Chapter 04 - Project Implementation Strategy

4.1 Identified Projects

The project implementation strategies are aims at achieving the Sub vision through the identified goals and objectives of the Greater Jaffna Development Plan. They are the minor level implementation strategical action through which the major achievement of the Local authority area will be completed. Accordingly, to make the Nallur Pradeshya Sabha as the Place of Necessity, there are list of projects have been identified and those selected projects are analyzed through the sustainable aspects of Environmental compatibility, physically suitable, socially acceptable and high prioritize in achieving the Sub vision. Those identified projects are as follows.

1. Town Center Development Project – Thirunelvely Town
    - Modernize the Thirunelvely Public market
    - Proposed to Modern Commercial complex
    - Recreational Core
    - Art and wellbeing core
2. Public Institutional Precinct Development within Old Divisional Secretariat of Nallur
    - Administrative Complex
    - Day Care Centers
    - Educational Activities Centre
    - Parking Facilities
3. Modernization of Kokuvil Railway Station for the Passenger service.
4. Development of Community Park at Karuveppulam Road, Kokuvil
5. Beach Park Development at Ariyalai East Seashore
6. Development of Turning Circle Landscape in Chemmani Junction
7. Upgrade the existing Waste Management Area at Karaimunangu, Ariyalai –
    - Segregation Area
    - Composting Yard
    - Disposal Site
    - Treatment Plant for Waste Water

8. Redevelopment of Local Roads and Mobility Enhancement:-
    - Kondavil Arasadi road
    - Thirunelvely Kalasalai road
    - Kokuvil Potpathy road
    - Kokuvil Neethirasa road
9. Upgrade the Mobility Enhancement to the Admin Core Area – Connect from the Adiyapatham Road to by pass road along the Railway line and connect with Ramanathan Road and internal access behind the university to connect with the Playground & Medical Faculty

10. Development of Cascade System of the Nallur Pradeshiyasabha Area
11. Improvement of Ponds & Drainage system of the Catchment Area
    - Nanthavil (Upper catchment)
    - Thalaiali
    - Kulankarai
    - Illankai nayagi amman koviladi
12. Recreational Pond Developments at Paravaikulam & Poothavarajarkulam

13. Facilitate the Water Supply System within the Nallur Pradeshiyasabha Area through Thalaiyaddy Reverse Osmosis Project
14. Development of Children's park
    - Milk board ground
    - Eleven star ground
15. Future development of New Market Complex
    - Kondavil Junction
    - Kulappiddy
    - Kokuvil
16. Junction Improvement at Kondavil Junction & Kokuvil Junction
17. Walkway development at Kalasalai Road & Management faculty road & In front of Medical faculty of University of Jaffna.
18. Redevelopment of Kokuvil cemetery parlor at Kokuvil

19. Development of Indoor Sports Complex at Karuveppulam Road, Kokuvil

4.2 Town center development project

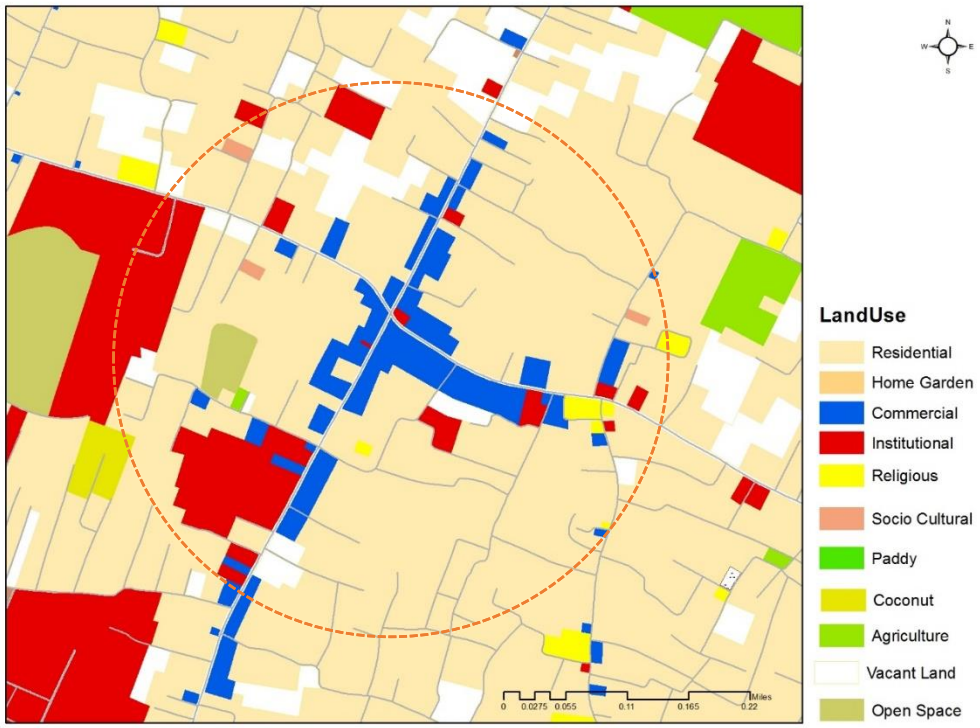

"Civic Core"

The "civic core" theme is based on existing and proposed public facilities and uses in the proposed Town Center. Currently, civic uses include the University, public market, banking, Nallur padeshya sabha building, youth associations and commercial buildings. Potential future civic uses.

"Active Movement"

Facilities should be linked together by streetscape improvements and these enhancements should create acknowledgement of civic values.

Map 10:Land Use Plan of Thirunelvely Town

Map 11:Town Center Development of Tirunelveli Town

G : Ideal investment platform for green

O 1 : To keep 40% of the district land as Agricultural Land in 2034
O 2 : To hiked up the indigenous crops as competitive crops in the global market in 2034

Source: *Urban Development Authority, 2024*

G: Rebrand the life style and real sense of Jaffna

O 1: To magnify the "Jaffna" s' image with its unique colonial & post-colonial ambience in 2034.

O 2: Provision of Quality & Affordable services for All Walks of Life in 2034.

Lot 2: Commercial Square
- Commercial Complex with wholesale facilities
- Food Court
- Parking
- Nallur PS building

Lot 3: Financial Core
- Financial Institutions

Lot 4: Art and wellbeing core
- Cultural hall
- public library
- Art and traditional center
- Wellness center (Yoha)
- Local Product marketing center

Lot 5: Recreational Core
- Paly Ground
- Park

Active Movement

Parking

The lot 1 and lot 2 illustrates well distributed public parking space throughout the Thirunelveli Town. This would serve to commuters as well as the commercial activities, loading and unloading activities. This parking would provide convenient spaces to shoppers as well as users of the buildings nearby.

Side walks

Sidewalks from town center along Palali road and adiyapatham road should be provided for creating barrier-free, pedestrian-friendly access to the Town Center.

Street widening

The mathavadi road behind the existing market will be widened. Specially it facilitates vehicles for loading and unloading.

The road starting from Palali road to end adiyapatham road (road behind the lot 2) will be facilitated for vehicles and Pedestrians.

Pedestrianized Road

Pannikar lane will be used as pedestrian oriented road. Which connects the residents to proposed public park.

Regulation:

The building frontage facing the main road should reflect the cultural ambience of the Nallur area

4.3 Public Open Recreational Space and Landscape Plan

S I : To create the Space is distributed to establish and protect the network which enhances sense of place, ensures a balanced provision of the place, recreation and nature functions, retains significant environmental and cultural features.

Identification of Public Outdoor Recreational Spaces to each Local Authority Level

S II : To create the Space is distributed to establish and protect the overall quality of life for residents, improve environmental sustainability, and contribute to the attractiveness and marketability of the development within the Jaffna District.

Identification of the traffic circle area Landscape

To overcome the identified Strategy in the greater Jaffna Development, plan the above said action were taken with the following listed projects.

1. Recreational Park Development – Relaxing space at kokuvil Station
2. Kokuvil Community Park
3. Beach park development of Ariyalai east seashore
4. Development of turning circle landscape in Chemmani Junction

Part - II

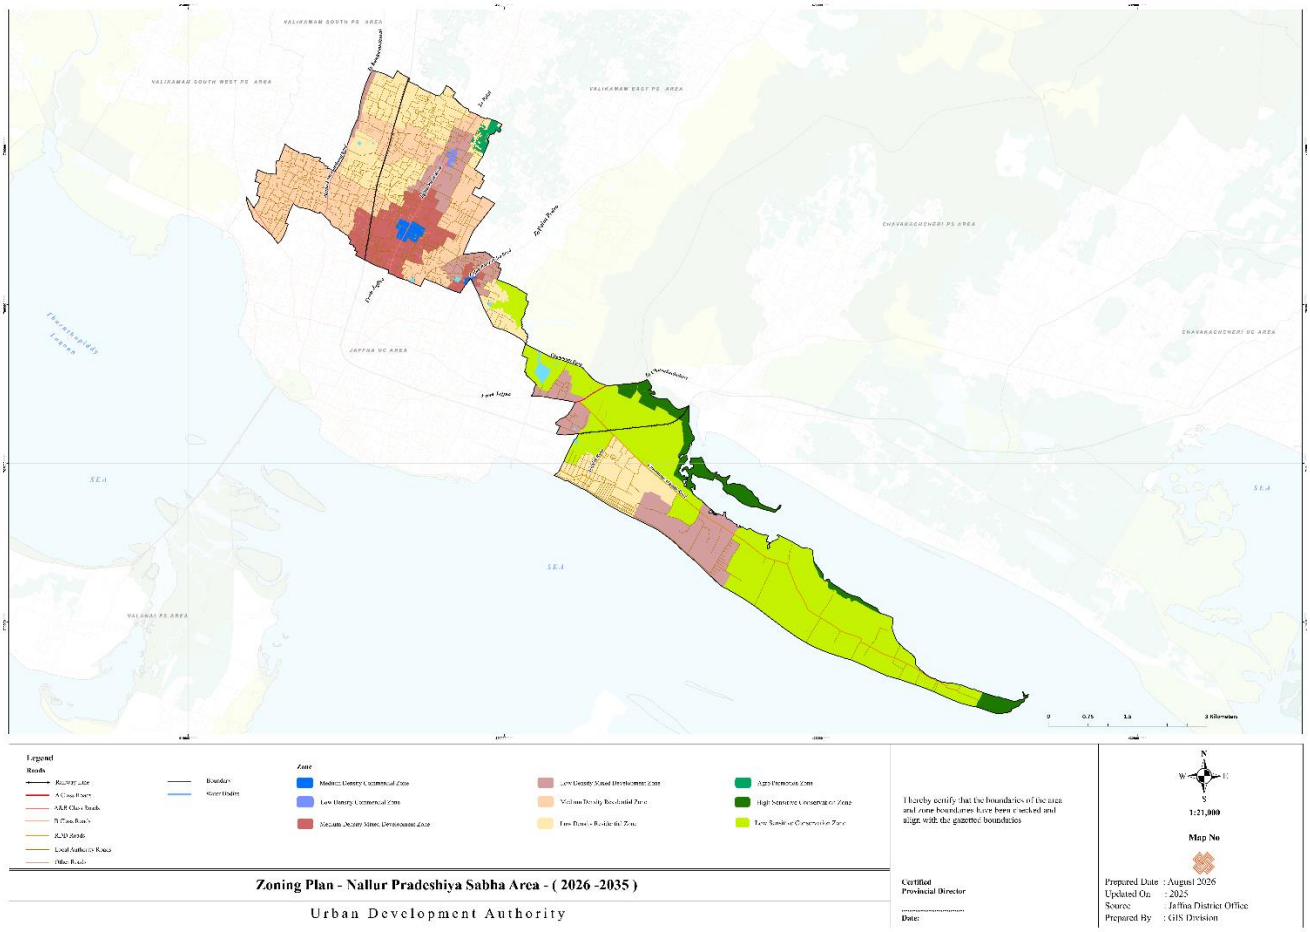

Chapter 05 – Development Zones and Zoning Guidelines

5.1 Introduction

In Greater Jaffna Development Plan (2026 - 2035) the jurisdiction is divided in to 08 main development zones and from that, 06 zones are included in to Nallur PS area. Those zones are further divided in to sub zones based on the expected development density. (Table No. 3)

5.2 Zoning Plan (2026 - 2035)

5.4 Common Guidelines for Planning Area

i. These Regulations and guidelines apply to the entire area within the administrative limits of the Nallur Pradeshiya Sabha area which has been declared as an Urban Development Area in the Extraordinary Gazette Notification No.2185/74 of 24.07.2020 under Section 3(i) of the Urban Development Authority Act No. 41 of 1978.

ii. In addition to the provisions of this zoning plan, the Planning and Development guide lines applicable to any development work is regulated by the Planning and Building Regulations/Orders (General) published in the Gazette Notification No. 2235/54 dated 08th July 2021 by the Urban Development Authority.

iii. For areas declared as urban areas prior to 24.07.2020, the lots sub-divided before 24.07.2020 are considered as existing lots.

iv. If the owner of a certain land gifts the portion of land, falling within the proposed road width measured from the centerline of the road without compensation for the road, the entire plot will be considered for the allowable Floor Area Ratio for the proposed development. But while calculating the plot coverage percentage, the rest of the plot, excluding the portion belonging to the proposed road measured from the centerline of the road should be considered.

v. In cases where the development premises face more than one road having right of way with a minimum width of 6 m or more than that and connected to main roads independently, the sum of the widths of all those roads may be considered as the access road width to calculate the permissible development on a case-by-case basis.

vi. In cases of bank cutting for construction work on a sloped land, the recommendations of the relevant institutions should be obtained and a space of at least 1 meter should be allocated from the upper edge of the cutting plane to the border of the adjacent fence.

vii. In cases where any land belongs to two or more zones, the designated zone of the land is determined as the zone which provides the main access to the respective lot.

viii. When such plot of land, is accessed by two or more roads of the same width the zone in which higher portion of land is fallen shall be considered as the designated zone. (This regulation is not applicable for conservation zones**.)**

ix. If a land portion falls between two Local Authority areas, the Authority shall determine the use of that land on the agreement of the relevant Local Authorities for the use of the zone which gets the main access. If the plot is accessed by two or more roads of the same width, the zone of the larger extent of the plot shall be applied.

x. When a zone is demarcated as the first block facing an access road as the zone boundary, the entire plot shall include in that zone. When the plots in the back is somehow amalgamated with the first plot and approved as a single plot of land, the last boundary of that total land shall be considered as the zonal boundary. (This regulation is not applicable for conservation zones**.)**

xi. If a boundary change occurs between the physical boundary and Geographical Coordinates shown in the zoning plan, the final decision in this regard rests with the Planning Committee of the Urban Development Authority.

xii. The Authority has the power to decide on granting approval for uses similar to the permitted uses in the zone, although not specified in the category of permitted uses in the zoning plan.

xiii. Existing uses which are not permissible within particular zone can be considered only for continuing under prevailing status. Approval for any extension of those existing uses shall be considered within the same lot.

xiv. Construction of boundary walls along the Street Line may be considered for approval subject to the signing of non-compensation agreement with the agency to which the road belongs.

xv. Various religious statues, religious symbols, signs or similar constructions are not allowed in the intersection, both sides of roads, building lines, road widening limits and reservations, and no compensation will be paid for the removal of such constructions.

xvi. If any land is earmarked for a cemetery/crematorium, recommendations should be obtained from the relevant local authority.

xvii. If the tower cranes are being used for any development, an approval with the recommendation of qualified engineer and insurance cover shall be obtained from institution where relevant development approval was granted.

xviii. 50% of the land should be kept open as open space when constructing buildings for schools and children's homes.

xix. If it is not possible to provide parking space within the development site itself, then a site at a maximum distance of 500 meters can be used for the purpose subject to a Preliminary Planning Clearance.

xx. Architectural character and planning regulations may be imposed to preserve the identity of areas identified by the Authority.

xxi. In this planning area, for the lands or reservations belongs to the government institutions, departments or corporations such as Department of Archeology, Department of Forest Conservation, Irrigation Department, Coastal Conservation Department, Agrarian Services Development Department, Land Development Corporation, Geological Survey and Mines Bureau, etc. recommendations and development proposals from the relevant institutions should be obtained approval before carrying out the development work.

xxii. All excavation work should be done according to the recommendations of the relevant institutions including the Geological Survey and Mines Bureau, and after the completion of the work, the excavated places should be restored or appropriate measures should be taken according to the recommendation of the said institution.

xxiii. In case a problem arises in relation to any statutory planning, development or building regulation or its interpretation or practical application, the Main Planning Committee of the Urban Development Authority has the final decision in the matter.

xxiv. If a regulation related to the land is relaxed or removed for any reason during the granting of development approval and the amount of land belonging to that regulation is numerically calculated, the related value is assessed and an amount not exceeding 30% of that value should be charged to the authority.

xxv. If the proposed development area located adjacent to the edge of the zoning boundaries will get the benefits of prominent zone. (This regulation is not applicable for conservation zones**(.**

xxvi. If the proposed development area located facing to main road, will get the benefits of prominent zone. (This regulation is not applicable for conservation zones and applicable for front lot only)

xxvii. If boundary wall construction proposed as center foundation, consent to be obtained from owner of the adjacent land and which should be certified by particular Grama Niladhari.

xxviii. On boundary construction can be allowed only in High density Commercial zone, Medium density Commercial zone, Low density Commercial zone, High density Mixed development zone, Medium density Mixed development zone)

xxix. Location of water source should be located at least 18m away from waste water disposal site, Septic Tanks & Soakage pits.

xxx. If the distance between water source & pit is below 18m, system to be recommended by the MOH & Structural Stability to be recommended by the Structural Engineer.

xxxi. Where solar energy is used for the building, the maximum height for installation of solar panels on a flat roof shall be 1.2m

xxxii. Building Limit to be maintained for the Pond as 3m from the edge of the pond.

xxxiii. Non-Residential Activities on 7 m Wide Roads

Non-residential development may be permitted on roads having a minimum right-of-way width of 7.0 m, subject to the following conditions:

a. The total number of parking spaces provided within the development premises shall not exceed 10 spaces.

b. The development shall not cause obstruction to the movement of vehicles, pedestrians, or emergency services along the access road.

c. Adequate on-site parking and access arrangements shall be provided in accordance with the applicable planning and development requirements.

xxxiv. Building limit to be maintained for the Channel as follow:

Channel Width	Building Limit (from the Edge of the Channel)
0-1m	= 1m
1-2m	=1.5m
2-3m	=2m
>3	= 3m

5.5 Zoning Guidelines

The zoning guidelines in effect of seven main Development Zones in the Local Area Development Plan for Nallur Pradeshya Sabha (2026-2035) area are given below.

Table No 4: Commercial Zone

i. Main Zone	**Commercial Zone**
ii. Characteristics of the Zone	Predominantly nonresidential activities with High Density
iii. Zoning Boundaries	Annexures
iv. Sub Zone	**High Density Commercial Zone**
v. Zone Code	**C1**
vi. Zone Factor	2.61
vii. Permissible Floor Area Ratio	Schedule 6 - Form "A" & Form "B" (As per the Gazette notification No. 2235/54 dated on)
viii. Permissible Maximum Plot Coverage	Commercial - 80 % Others - 65 %
ix. Setbacks & Open Spaces	Schedule 6 - form "E" (As per the Gazette notification No. 2235/54)
x. Minimum land extent for sub division	**150 Sq.m**
xi. Permissible uses & Minimum Land Extent	Schedule 1 - Form "F" Schedule 2 - Form "G"
xii. Common zoning regulations	1. Clearances should be obtained from relevant agencies if needed. **2.** If an area where there is no pipe borne water supply system is installed, the minimum land extent shall be 250 sq.m. 3. Access should be maintained as minimum 9m for the non-residential activities. If the proposed site located 100m from the main road (Dead end), access should be maintained as minimum 6m for the non-residential activities. 4. District planning committee of UDA will have the full rights to decide any special development considerations within the Zone.

Table No 16: Conservation Zone

i.	**Main Zone**	**Conservation Zone**
ii.	**Characteristics of the Zone**	Wetland areas with high biological diversity, areas of water retention and detention which need to be kept for flood control and to reduce risk of floods; such as Marshes and Mangroves.
iii.	**Zoning Boundaries**	Annexures
iv.	**Sub Zone**	**Medium Sensitive Conservation Zone**
v.	**Zone Code**	**CN2**
vi.	**Zone Factor**	-
vii.	**Permissible Floor Area Ratio**	Schedule 6 - Form "A" & Form "B" (As per the Gazette notification No. 2235/54)

viii.	**Permissible Maximum Plot Coverage**	05 %
ix.	**Setbacks & Open Spaces**	Schedule 6 - form "E" (As per the Gazette notification No. 2235/54)
x.	**Minimum land extent for sub division**	-
xi.	**Permissible uses**	Other than the form "F" in Schedule 1 following Activities can be allowed. 1. Nature Friendly Restaurant & Rooms stay 2. Nature Parks conserving the natural eco-system 3. Eco-friendly restaurants 4. Field study/Information centers 5. Mini conference centers 6. Raised boards walks, deck on stilts, shelters/rest huts. 7. Nature trails, hides, observation towers, canopy walkways, carefully located cycle paths, bridleways and the like. 8. Security posts, tickets booths, site offices 9. Camping, picnicking, bird watching and the like 10. Outdoor fitness/exercise facilities 11. Visitor centers 12. Wetland museum 13. Eco-tourism facilities (Small-scale, eco-friendly, tourist development such as cabanas on stilts) 14. Wetland Adventure/ Theme Parks, conserving/restoring the natural eco system. 15. Other nature-based recreation activities 16. Open grassed areas (as public parks/playgrounds) 17. Traditional fishing & Mari Farming 18. Flower Collection with Garden 19. Water transport if carefully integrated and operated 20. Dairies and grazing, but no other form of animal husbandry 21. Wetland forestry 22. Vitally important public infrastructure projects, under exceptional circumstances 23. Irrigation/flood protection structures 24. Wetland agriculture including reed cultivation 25. Mobile Sanitary Facilities

	26. Greenhouse 27. “Lellama” 28. “Madel Paadu” built with constructions 29. Fishing piers 30. Berths & Boat jetty/ ferry accommodation 31. Recreational parks 32. Open grounds 33. Open theatre 34. Research and Development Centers 35. Cabana Hotels
xii. Common zoning regulations	1. Clearances should be obtained from relevant agencies if needed. 2. District planning committee of UDA will have the full rights to decide any special development considerations within the Zone. 3. G+2 or 10m height building only can be allowed in the existing lot. 4. Expansion of existing development within the same lot can be permitted only 10m height. 5. Sustainable Materials: Use environmentally friendly and locally sourced materials for construction. Consider timber from sustainable sources, recycled materials, or materials with low environmental impact. 6. Low-Impact Foundations: Ensure that the foundations or footings of the development have minimal impact on the forest floor to prevent soil compaction and disruption to the ecosystem. 7. Natural Aesthetics: Design development that blend with the natural surroundings. Use earthy and muted color schemes that harmonize with the

	forest environment. 8. Rustic Design: Incorporate rustic architectural elements, such as exposed timber beams, stone accents, or thatched roofs, to create a natural and cozy atmosphere. 9. Sustainability Features: Include green building features like rainwater harvesting, solar panels for lighting, and low-flow water fixtures to minimize environmental impact. 10. Off-Grid Amenities: Provide off-grid amenities such as compos ng toilets, and limit the use of electricity to maintain a sustainable and eco-friendly experience. 11. Natural Ventilation: Design the development with proper ventilation to minimize the need for air conditioning, allowing guests to enjoy the fresh forest air. 12. Privacy and Scenic Views: Ensure that each Development offers privacy and scenic views of the forest. Incorporate large windows or open-air elements to connect guests with nature. 13. Minimal Site Disturbance: Construct each development with minimal disruption to the natural terrain. Avoid cutting down trees or disturbing sensitive areas. 14. Outdoor Spaces: Include private outdoor spaces like decks, patios, or balconies where guests can relax and enjoy the forest. 15. Fire Safety: Implement fire-resistant building practices and provide safety equipment to mitigate the risk of forest fires. 16. Accessibility: Design development to be accessible to people with disabilities, including wheelchair ramps and wider doorways.

	17. Multi-Season Use: Insulate cabanas for year-round use, and include heating options for colder seasons. 18. Waste Management: Establish a responsible waste management system for guests and staff to minimize the environmental impact. 19. Local Workforce: Employ local labor and support local communities for construction and maintenance to benefit the local economy. 20. Educational Signage: Install signage or materials in cabanas that educate guests about the forest ecosystem and encourage eco-friendly behavior. 21. Wildlife-Friendly: Design features that minimize disturbance to wildlife, such as bird-friendly window treatments or designated wildlife viewing areas. 22. Light Pollution Control: Use lighting fixtures that minimize light pollution and allow guests to enjoy stargazing. 23. Signs and billboards should, where possible, incorporate colors and materials that are compatible with the existing character of an environmentally sensitive area. 24. It is preferable that billboards and freestanding signs in sensitive environmental areas are used for interpretive, public safety or educational purposes. 25. Dune Stabilization Planting native dune vegetation to stabilize sand dunes and prevent erosion, as well as providing habitat for wildlife. Promoting ecotourism, nature based coastal development.

5.7 Minimum Land Extent for Permissible Uses

Schedule V - Form "G" – Minimum Land extent for Permissible Uses			
Main Uses	**Number**	**Sub Uses**	**Minimum Land Extent (sqm)**
1. Residential	1	Houses	150
	2	Condominium Housing Complexes	500
	3	Housing Complexes	150
	4	Housing Projects	500
	5	Quatres/Labor Quatres	150
	6	Service Apartments	150
	7	Studio Apartments	150
	8	Dometry	500
	9	Hostels	500
	10	Daycare Centers	350
	11	Patient Care Centers	250
	12	Elders home	500
	13	Children's home	500
	14	Disability rehabilitation home	500
	15	Rehabilitation /Probation home	1000
	16	Community centers	150
	17	Resorts/Tourism bungalow/Home stay	250
	18	Guest House	250
	19	Lodge	250
	20	Rest House	250
	21	Retirement Halls	250
2. Health	1	Hospital	1000
	2	Medical centers(One doctors)	150
	3	Medical centers (Two doctors or more)	250
	4	Sample collecting centers	150
	5	Laboratory	150
	6	Pharmacy	150
	7	Veterinarian/ Animal clinics	150

	8	Veterinarian/ Animal hospitals	500
	9	Quarantine centers	500
	10	Child and maternal Clinic/ Family Clinic centers	250
	11	Other medical institutions not falling under uses from 1 to 10	250
	12	Medical Consultancy Service Centres	250
	13	Animal Protection Centers	500
3. (Office & Institution)	1	Office	250
	2	Professional Office	150
	3	Office complex (Over 10,000Sq.m)	1000
	4	Banks/ Insurance/ finance institutions	150
	5	Other office and institutional uses not included under uses from1 to 4	150
4. Commercial	1	Shopping complex	500
	2	Retail shops	150
	3	Wholesale Shops	250
	4	Department Stores/ Super Markets	500
	5	Open Markets	150
	6	Showrooms	500
	7	Restaurants (Take Away)	150
	8	Restaurants	250
	9	Reception Halls	1000
	10	Star Class Hotels	2000
	11	Hotels	500
	12	City Hotels	250
	13	Club	500
	14	Motel	250
	15	Cabana Hotels	500
	16	Broadcasting Centers	500
	17	Studio (Non Broadcasting)	150
	18	Beauty Parlor / Barber Shops	150
	19	Customer Service Centers	150

	20	SPA	150
	21	Tailor Shops	150
	22	Funeral Parlors	500
	23	Flourist	150
	24	Laundry/ costume cleaning centers	150
	25	Hardware/ building material selling shops	150
	26	Liquor shops	150
	27	Vehicle spare parts shops	150
	28	Vehicle renting centers	500
	29	Vehicle service centers ▪ Bicycle/threewheeler ▪ Light vehicle ▪ Heavy vehicle	 500 500 1000
	30	Garage	500
	31	Vehicle fuel stations	1000
	32	Emission testing centers	500
5. (Educational)	1	Pre School/ Early childhood development center	500
	2	Primary school	2000
	3	Secondary school	4000
	4	Tertiary school	4000
	5	Private school/ International school	3000
	6	High education institutions(Campus)	1000
	7	Government/ Private university	4000
	8	Technical college/ Vocational training center/ Training center	1000
	9	Private Tuition Classes-less than 50sqm	150
	10	Private Tuition Classes- 50sqm to 500sqm	500
	11	Private Tuition classes-more than 500 sqm	1000
	12	Art institutions/ drama institution	1000
	13	Other educational institution	250
	14	Research and Development Centers	250
al & R	1	Religious center	500
	2	Religious education center	500

	3	Museum	250
	4	Social & Cultural center	500
	5	Cemetery/ Crematoriums	1000
	6	Community Development Centers	150
	7	Auditorium	500
	8	Conference Centers	1000
7. (Industrial)	1	Vehicle assembling/ repairing center	500
	2	Stores for distribution activities	500
	3	Stores/ warehouse	1000
	4	Service industries	500
	5	Domestic Industry	250
	6	Packing industry	250
	7	Recycling industry	1000
	8	Value addition industry	250
	9	Defective material collection center	250
	10	Bakery productions- Wood kilns	500
	11	Bakery productions- electric	250
	12	Concrete related production industry	500
	13	Tile and brick industries	1000
	14	Furniture related industry	500
	15	Mills	250
	16	Lathes, welding shops	250
	17	Other non-polluting industries (as defined by Central Environment Authority)	500
	18	Other polluting industries (as defined by Central Environment Authority	1000
8. (Leisure)	1	Indoor stadium	1000
	2	Open theater	1000
	3	Library	250
	4	Gymnasium	250
	5	Children parks	500
	6	Open grounds	1000
	7	Cinema theater/ open cinema theater	500
	8	Swimming pool	250
	9	Parks	150
	10	Recreational parks	500
9. Agri cult ure	1	Boat jetty/ ferry accommodation	-
	2	Berths	-
	3	Fishing piers	-

	4	“Madel Paadu” built with constructions	-
	5	“Lellama”	-
	6	Animal and crop farms	1000
	7	Agricultural products collection centres	250
	8	Animal and Seed Breeding Centres	500
	9	Greenhouse	150
10. (Other)	1	Roof antenna towers	-
	2	Antenna towers	250
	3	Communication Towers	150
	4	Vehicle parkings	250
	5	Electricity sub stations	-
	6	Sand Mining/Mineral Mining/Washing	-
	7	Quarrying	-
	8	Soil Excavation / clay Excavation	-
	9	Sanitary buildings	-
	10	A.T.M	-
	11	Electric charging stations	150
	12	Compost facility/waste recycling centres	1000

Chapter 06 – Proposed Road Width, Street line and Building Limit

6.1 Proposed Road Width, Street line and Building Limit

Proposed Building Limit and Street line Pradeshiya Sabha - Nallur					
Serial number	**Road Number**	**Name of the Road**	**Proposed Road width (M)**	**Proposed Road Width from the Center of the Road (M)**	**Proposed Building Line (M)**
01	NJNPE001	Champion Road	7.0	3.5	4.5
02	NJNPE002	Karuvelady Road	7.0	3.5	4.5
